PROSPECTING ACTIVITIES

Consultation with landowners/Lawful occupier and interested and affected parties

LANDOWNER: KABLE PLASE PTY LTD

4/24/2023

Dear Sir/ Madam

Ulibo Resources (Pty) Ltd lodged a prospecting right application with the Department of Mineral Resources and Energy (DMRE) in terms of section 16 of the Mineral and Petroleum Resources Development Act 2002(Act 28 Of 2002), **Ref No: NC30/5/1/1/2/13381PR** in respect farm **Derby No. 195**, situated in the administrative district of **Hay (Kgatelopele and Z F Mgcau Municipality)**–Northern Cape Province.

The proposed area is situated approximately 40 kilometers north of Danielskuil when travelling on R31

The proposed prospecting will constitutes the desktop study, surveying, core drilling and rehabilitation over the above mentioned properties. This will be done over the period of three to five years.

Ndlehle Mining and Consulting CC was appointed by Ulibo Resources Pty Ltd to conduct public participation, Basic Assessment Report & Environmental Management Plan and follow up with the Department including addressing and responding to any directive from Department

This applications was accepted by the Department of Mineral Resources and Energy and requested Ulibo Resources Pty Ltd to conduct consultation with landowner, lawful occupier and interested and affected parties and all relevant stakeholders including Department of Agriculture, Rural development and Land Reform and Water and Sanitation.

The prospecting right application involves mainly drilling of boreholes for period of 5 years to check the quality, quantity and depth of the mineral which will assist in classification of reserve and establish the exact location of the future mining activities

Please note that NO prospecting or drilling activities will be conducted 100 meter from any sensitive area such as wetland and rivers this include houses or residential area, power lines, Game Reserves and regional and national roads

Prospecting activities is a small scale and impacts will be localized within prospecting projects footprint

Upon completion of the drilling process, the drill rig and drums are removed from site

The borehole will be capped and part of rehabilitation process

It is envisaged that the exploration/prospecting programme will include desktop Studies, literature surveys, geophysical or geotechnical work and research and target identification (non-invasive), Drilling, Logging, Sampling, Analyses (invasive) over a phased, 5 year period.

Phase 1 (Month 0 to 12)

A desk study which involves the collection of existing data or information interpretation and a report will be done. The mining activities on nearby and adjacent properties will also be researched.

- Geophysical and geological survey
- Planning of logistics of the physical drilling program

Phase 2 (Month 13 to 24)

- The 10 boreholes planned for this phase will amount to 100-200 meters of core drilling. The drilling time is estimated at one month with one drill rig.
- Establishment of data base, recording of borehole logs, evaluation and geological modelling will be carried out after all the results have been recorded.
- Pre-feasibility study and planning of phases for exploration drilling will finalise this phase.

Phase 3 (Month 25 to 48)

- This phase will be based on the results of the wide grid drilling and will be concentrated in areas where ore minerals development is indicated. An additional 5 boreholes will be drilled in a 2 month period. One drill rig will be employed for this phase. A minimum of 1 sample per seam intersection will be taken. More samples will be required when large variations in ore quality occur. Therefore an estimated one samples per borehole is budgeted for.
- On receipt of the analytical results, the following will be finalized:
 - Updating of database, recording of borehole logs, evaluation and geological model;
 - Conceptual mine planning
 - Marketing study
 - Costing
 - Feasibility Study Report

If the conclusions of the feasibility study are positive, the next phase will be launched.
Phase 4 (Month 60)

This phase will include the following:

- Geohydrological studies
- Advance mine planning
- Environmental impact assessment
- Advance economic analyses
- Socio-economic impact assessment
- Permitting and authorizations.

The following are the activities which will be conducted for prospecting application:

NAME OF ACTIVITY (E.g. For prospecting - drill site, site camp, ablution facility, accommodation, equipment storage, sample storage, site office, access route etc...etc...etc E.g. for mining,- excavations, blasting, stockpiles, discard dumps or dams, Loading, hauling and transport, Water supply dams and boreholes, accommodation, offices, ablution, stores, workshops, processing plant, storm water control, berms, roads, pipelines, power lines, conveyors, etc...etc...etc.)	Aerial extent of the Activity Ha or m ²	LISTED ACTIVITY (Mark with an X where applicable or affected).	APPLICABLE LISTING NOTICE (GNR 544, GNR 545 or GNR 546)	WASTE MANAGEMENT AUTHORISATION (Indicate whether an authorisation is required in terms of the Waste Management Act). (Mark with an X)
Prospecting right application (property)	3120.4296ha	Listing 1 Activity 20	No R 983	
Desktop studies, further feasibility study investigation and mineral resource estimation	3120.4296ha	Listing 1 Activity 20	No R 983	
Drilling	75mm	Listing 1 Activity 20	No R 983	
Drill rig	3*3m ²	Listing 1 Activity 20	No R 983	
SUMP (circulate water from hole)	3.5m ³	Listing 1 Activity 20	No R 983	
Generator	2m*2m ²	Listing 1 Activity 20	No R 983	
Waste Drum	1m*1m ²	Listing 1 Activity 20	No R 983	
Drill Site	100m ²	Listing 1 Activity 20	No R 983	
Ablution Facility	1m *1m ²	Listing 1 Activity 20	No R 983	
Sample Storage	1m*5m	Listing 1 Activity 20	No R 983	
Access route	100m	Listing 1 Activity 20	No R 983	
Tractor	3m*3m ²	Listing 1 Activity 20	No R 983	
Scrapping the surface	0.0002Ha	Listing 1 Activity 20	No R 983	
Re-vegetating	0.0005 Ha	Listing 1 Activity 20	No R 983	

In light of the above, herewith find the consultation letter regarding the proposed prospecting right application. The company will appreciate your contribution in terms of filling the said letter after identifying any issues pertaining to the application.

Kind regards

PLEASE FILL THE ATTACHED FORM AND RETURN IT TO THE ADDRESS MENTIONED ON THE SAID FORM.

I acknowledge receipt of the letter

Issues relating to proposed prospecting operation
1. How do you feel about the proposed prospecting activities?
2. What are your concerns regarding the proposed prospecting activities?
3. What impacts do you think could occur because of the proposed prospecting activities?

4. Do you have any historically significant sites, such as graves, on your property? If so please specify.

5. Do you have any additional suggestions or comments that you would like to share with us?

Dear: Sir/Madam

APPLICATION FOR PROSPECTING RIGHT IN TERMS OF SECTION 16 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT 28 OF 2002 AS AMENDED BY SECTION 12 OF ACT 49 OF 2008: DERBY NO.195: WITHIN THE ADMINISTRATIVE DISTRICT OF HAY.

1. This is to inform you that your application for a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) ("Act") as amended to prospect for **Limestone, Iron ore, Diamonds, Manganese, Calcite and Dolomite** has been accepted.
2. In terms of section 12 (d) of the Act, you are directed to comply with the following instructions.

- a. Notify and consult with the landowner, lawful occupier and any interested and affected party and include the result of the consultation in the environmental reports in line with Regulation 41(2) read with Section 24J of National Environment Management Act, 1998.
 - b. Lodge an application in terms of National Water Act No.36 of 1998 with the Department of Water Affairs with immediate effect.
3. Your attention is drawn to the provisions of Section 17(1)(e) of the MPRDA, which provide that the Minister may grant an application for a prospecting right if the applicant is not in contravention of any relevant provision of the Act. Section 19(2)(f) places an obligation on the holder of a prospecting right to pay prescribed prospecting fees, as per regulation 76 of the MPRDA.
4. You are therefore reminded to ensure that payment of all prospecting fees for all the prospecting rights you hold, are up to date, failing which may have a negative impact on the outcome of your current application.
5. Further note that the acceptance of your application does not grant you the right to commence with prospecting activities. It only signify that your application will be processed, evaluated and the Minister or his delegate will make a decision within 197 days from the date of lodgement

Yours faithfully

**REGIONAL MANAGER
