Dear Dr L. Mbeki

Permission to access the Archaeological Bone Repository to obtain samples for analysis from M1_{dentine}, rib fragment, M1_{enamel}, M2_{enamel}, M3_{enamel}.

You are granted permission to obtain samples from our archaeological remains, which is housed in the Department of Anatomy, the University of Pretoria for your research entitled “*Building life histories of labourers from the South African mineral revolution, 1837-1920.*”.

This permission is dependent upon obtaining a SAHRA(South African Heritage Resources Agency) permit to conduct the destructive study on archaeological remains in accordance with the National Heritage Resources Act of 1999.

With kindest regards,

Gabriele C. Krüger, MSc

First Technical Assistant: Department of Anatomy

Curator: Pretoria Bone Collection
