1. INTRODUCTION

The Public Participation Process (PPP) for this Impact Assessment Report was undertaken in accordance with Regulation 41 of the EIA regulations, 2014 (as amended in 2017), and the public and relevant authorities and stakeholders were notified on the proposed project.

2. PHASE 1: THIRTY (30) DAY PUBLIC PARTICIPATION PROCESS ON DRAFT SCOPING REPORT

2.1 SITE NOTICES

The site notices were placed in areas easily noticeable to the public on **22 May 2019**. A total of two (2) site notices were placed on the boundaries of the site. Please find attached appendix E1 proof of placement with coordinates of the locations. The on-site notices included a 30 day interested and affected party (I&AP) registration and commenting period.

See Proof of Placement of the notices in **Appendix E1**.

2.2 NEWSPAPER ADVERTISEMENTS

Advertisements were placed in one local newspaper, the Noordkaap Koerant, on **22 May 2019** to notify the public of the Impact Assessment Process of the Mr Piet Louw application and to provide an opportunity to register on the I&AP database and raise their comments on the proposed project.

See **Appendix E1** for proof of advertisement placed in the Noordkaap Koerant.

2.3 NOTIFICATION OF STAKEHOLDERS AND I&APs

Stakeholders and I&APs were directly informed on the proposed project via e-mail and they were requested to submit their comments to the Environmental Assessment Practitioner.

Interested & Affected Party Comment Forms were disseminated to all properties adjacent to the proposed development.

See **Appendix E2** for proof of notification.

2.4 NOTIFICATION OF GOVERNMENTAL AND OTHER AUTHORITIES

A number of Authorities and Organs of State were directly informed on the proposed project via e-mail and they were requested to submit their comments to the Environmental Assessment Practitioner.

All the correspondence with Governmental and other Authorities is added in **Appendix E4**.

2.5 COMMENTS AND RESPONSE DURING THE PUBLIC ANNOUNCEMENT OF THE PROJECT

The EIA Regulations, 2014 specify that I&APs must have an opportunity to verify that their issues have been captured, through the inclusion of a Comments and Response Report (CRR) in the Final Impact Assessment Report.

The comments and response report can be found in **Appendix E3**.

2.6 PLACEMENT OF INTERNET / WEBSITE COPY

The Impact Assessment Report was made available on the Eco-Con Environmental website: www.eco-con.co.za. Key Stakeholders and I&APs were informed of the placement of the Impact Assessment Report.

3. PHASE 2: INCORPORATION OF COMMENTS AND FEEDBACK TO ALL STAKEHOLDER, I&AP'S AND ORGANS OF STATE

After the thirty (30) day public participation period, all comments, feedback and / or questions and concerns were captured in the comments and response report which is attached to **Appendix E3**. The EAP provided feedback to all the comments, feedback and / or questions and concerns received and addressed all issues in the Final Impact Assessment report before submitting to DENC.

4. CONCLUSION

It is concluded that the level of advertising, notification, and the mechanism incorporated in the public participation process, to inform the surrounding land users, I&APs and identified government authorities, were adequate.

5. APPENDICES

Appendix E1: Proof of placement: Advertisements and Site Notices

Appendix E2: Proof of notification to stakeholders

Appendix E3: Comments and Response Report

Appendix E4: Proof of written notification to Governmental and other Authorities.

Appendix E5: List of Registered Interested and Affected Parties

Appendix E1 Proof of Placement: Adverts and Site Notices

BETREKKINGS

ASSMANG Pty Ltd - Manganese Division has opportunities for Learnerships (Apprenticeships) in the undermentioned discipline (Trade) at their Black Rock Mine Operations situated 80km north-west of Nuruman in the Northern Cape.

LEARNERSHIP 18.2 (2 VACANCIES)
(AA Paterson Grading)
10.2 Auto Electrician

Minimum requirements: • Grade 12 with Maths and Science • Must pass the Technical Test Battery Assessment • English literacy • Valid Code B/E/S driver's licence • Good interpersonal and communication skills (written and verbal) • Must be medically fit as per Mine Health and Safety Act, 29/1996.

Learnership (Apprenticeship)	Minimum Requirements
Auto Electrician	<p>N5 with the following subjects:</p> <ul style="list-style-type: none"> Mathematics (not Mathematics Literacy) Engineering Science Engineering Drawing/Electrical Trade Theory Motor Electrical Theory

Conditions:
The learner will be appointed on the basis of the duration of the training agreement. Should a vacancy exist within the Company at the time of the Learner's successful completion of his/her training programme, in which the Learner has trained, the Learner will be obliged to take up full-time employment with Assmang Limited. Should it not be required that the Learner take up full-time employment with Assmang Limited, the Learner will be free to apply for full-time employment in the open market.
On completion of theoretical and practical training, the candidates may be appointed where formal vacancies arise in compliance with the company's recruitment procedures.
It must be clearly noted that Assmang Limited will be under no obligation whatsoever to employ the Learner on a full-time basis on completion of his/her training with the Company.
The candidate will be appointed on the condition of being certified medically fit as per the Mine Health and Safety Act, 29/1996. Preference will be given to applicants from previously disadvantaged groups to support the company's employment equity plan.
Successful candidates will also be responsible for their own accommodation and transportation to and from their place of work.
Remuneration: Remuneration will be based on a competitive all-inclusive flexible package. The successful candidate that conforms to all said requirements and experience will be appointed on this grading. A candidate that does not conform to all set requirements and experience will be considered only if a suitable candidate that does comply cannot be selected and only if the requirements of the position support a developmental appointment according to policy.
**Applicants must clearly indicate for which position/s they are applying for and forward CV to the relevant e-mail address. Preference would be given to people from the surrounding area (local) in an 80km radius from Black Rock Mine Operations. Interested applicants are requested to submit their CVs with certified copies of qualifications to Recruitment@brmo.co.za OR at the Main Guardhouse.
Please be advised that short-listed candidates will be required to authenticate information provided in CVs.
Applications close on: 30 May 2019
Late applications will not be entertained.
If you have not been contacted within 21 days after the closing date, please consider your application to be unsuccessful. Correspondence will only be limited to short-listed candidates.
Assmang Limited reserves the right not to appoint.
Fraud alert: Black Rock Mining Operations subscribes to ethical recruitment processes and therefore, • Will not ask for money in exchange of an application, medical assessment, and interview or to be appointed • Will not put any personal contact details of individual recruiters on the advert as a form of communication or job application • Please use the allocated fax numbers, e-mail address or designated hand delivery boxes at the mine to apply.**

ASSMANG Pty Ltd - Manganese Division requires the services of the following individuals at their Black Rock Mine Operations, situated 80km northwest of Nuruman in the Northern Cape.

SPECIALISTS: TECHNOLOGY & INNOVATION PROJECTS (3 VACANCIES)
(D1 Paterson Grading)

Preference will be given to applicants from previously disadvantaged groups to support the company's Employment Equity plan.

Main tasks and responsibilities: • Manage several technology and/or innovation projects within the area of control through identification, evaluation, development, prototyping, implementation and wiring change management, to ensure the value-based objectives are achieved • Project management to deliver all technology and innovation projects within time, cost and quality parameters • Coordinate and facilitate the implementation of priority technologies, ensuring that technology implementation processes are followed - from identification through to sustainability • Technology systems and data integration • Technology innovation function execution • Coordinate technology activities across the area of responsibility working with the group • Effectively complete core functions of the Technology Innovation Office, including reporting • Drive the core processes within the Technology Innovation Office • Organizational business planning, which includes ensuring the operational plan is implemented by incorporating the benefits to be realized from technology and innovation initiatives • Provide technology innovation leadership by sustainably implementing Black Rock's technology roadmap, through the identification, evaluation, development, prototyping and implementation and wiring in of priority technologies • Ensure that the enablers required to support the technologies are considered, managed and implemented effectively and integrated across the business • Change projects, which includes conducting continuous analyses to evaluate the organization's strengths and weaknesses • Assist in implementing various change initiatives throughout BRMO as required • Ensure change initiatives are driven and delivered within agreed timelines and required impact that realize the change goals • Provide project management support of change initiatives to sponsors as required • Provide change management training and coaching to the IT team in particular, but to larger BRMO-identified change agents • Ensure all technology and innovation change projects incorporate BRMO's change management principles and process • Identify the requirements for enablers to support technologies • Devise a technology strategy, which includes identifying new technology opportunities and solving BRMO's on potential technology opportunities • Support the Manager, Technology and Innovation in updating the Technology Roadmap on an annual basis by incorporating advances in technology that offer renewing opportunities • Provide guidance into the establishment and delivery of change projects that support the strategic objectives of the organization • Ensure a high Return on Investment (ROI) in implementation of technology projects • Implement an effective benefit tracking system.

Minimum requirements (essential unless otherwise indicated): • A Grade 12 • A Bachelor's degree in Engineering or Bachelor's degree in Computer Science or Information Technology • 3 years' engineering/continuous improvement/implementation/technology consulting experience in a mining environment • 1 year's management experience (advantageous) • System skills, which include Microsoft Office, OMS and ERP systems.

Candidates will be appointed on the condition of being certified medically fit as per Mine Health and Safety Act, 29/1996. Preference will be given to applicants from previously disadvantaged groups to support the company's employment equity plan.

Remuneration: Remuneration will be based on a competitive, all-inclusive, flexible package. The successful candidate that conforms to all said requirements and experience will be appointed on the mentioned grading. A candidate that does not conform to all set requirements and experience will be considered only if a suitable candidate that does comply cannot be selected, and only if the requirements of the position support a developmental appointment according to policy.
Interested applicants are requested to submit their CVs, with certified copies of qualifications, to Barbara Kigel at e-mail: barbarak@brmo.co.za
Please be advised that short-listed candidates will be required to authenticate information provided in CVs.
Applications close on 31 May 2019.
Late applications will not be entertained.
If you have not been contacted within 21 days of the closing date, please consider your application unsuccessful. Correspondence will be limited to short-listed candidates.
Assmang Pty Limited reserves the right not to appoint.
Fraud alert: Black Rock Mining Operations subscribes to ethical recruitment processes and therefore: • Will not ask for money in exchange of an application, medical assessment and interview, or to be appointed • Will not put any personal contact details of individual recruiters on the advert as a form of communication or job application. Please use the allocated fax numbers, e-mail address or designated hand-delivery boxes at the Mine to apply.

Site Notice 3: (29°40'0.87"S; 22°45'0.64"E) Local Municipal Office in Prieska

NOTICE OF SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESS
PROPOSED CULTIVATION OF 217 HA VIRGIN SOIL FOR THE ESTABLISHMENT OF GRAZING
PASTURES AND ASSOCIATED WATER PIPELINE ON THE FARM BULTFONTEIN NO. 327 AND THE
FARM FOLMINK NO. 331 NEAR PRIESKA, NORTHERN CAPE PROVINCE

Proposal: Great Force Investments (Pty) Ltd. is proposing the establishment of grazing pastures and associated water pipelines on the Farm Bultfontein No. 327 and the farm Folmink No. 331 near the town of Prieska in the Northern Cape Province.

Location: The proposed development will take place on the Farm Bultfontein No. 327 and the farm Folmink No. 331, Northern Cape Province.

This development requires Environmental Authorisation and is therefore subjected to a Scoping and Environmental Impact Assessment Applications in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA). The following Listed Activities in terms of the Environmental Impact Assessment Regulations of 2014 are triggered by the proposed developments.

Government Notice No. R327 of 4 December 2014 as amended in April 2017 (Listing Notice 1 – relates to Basic Assessment):

- Activity 12; and Activity 19.

Government Notice No. R325 of 4 December 2014 as amended in April 2017 (Listing Notice 2 – relates to Scoping and EIA):

- Activity 13; and Activity 15.

Government Notice No. R324 of 4 December 2014 as amended in April 2017 (Listing Notice 3 – relates to Basic Assessment):

- Activity 12; and Activity 14.

Opportunity to Participate: Interested and Affected Parties (I&APs) are hereby invited to register and/or comment on the scoping phase of the project. A 30-calendar day public participation period, from **22 May 2019 to 21 June 2019** is now open to I&APs. Please submit your comments or registration in writing to Eco-Con Environmental at the details provided below. Also provide your name and contact details (postal address as well as preferred method of communication, e.g. email, fax, registered post, normal post, etc.), as well as an indication of any direct business, financial, personal or other interest you may have in the application.

The Scoping Report will be available for public comment, from **22 May 2019 to 21 June 2019** on the website: <http://www.eco-con.co.za/projects>

Environmental Assessment Practitioner: Eco-Con Environmental, P.O. Box 37452, Langenhovenpark, 9330, Bloemfontein or contact Mr. Johan Botes at Tel: 051 436 1251, Fax: 086 592 2282 or email: johan@eco-con.co.za

Dear Stakeholder / Interested and Affected Parties / Organs of State

Proposed cultivation of 217 ha virgin soil for the establishment of Grazing Pastures and associated water pipeline on the Farms Bultfontein No. 327 and Folmink No. 331 near Prieska, Northern Cape Province

Eco-Con Environmental has been appointed by Great Force Investments (Pty.) Ltd. to undertake the Legislative required Scoping and Environmental Impact Assessment Application process for above mentioned project.

In accordance with Listing Notice 326 of the National Environmental Management Act (Act 107 of 1998) (NEMA) EIA Regulations of April 2017, Eco-Con Environmental is conducting a Public Participation Process to engage with stakeholders / interested and affected parties / organs of state on the matter.

As part of the Public Participation Process, Eco-Con Environmental identified yourself / your organisation as a participant in the process and would like to invite you to act hereto.

Hereby you are given the opportunity to provide us with your comments / concerns and / or questions regarding the proposed project.

Attached in the mail is the Draft Scoping Report. We kindly request you to download the appendices from our website (www.eco-con.co.za/projects) or alternatively, please click on the link: <http://eco-con.co.za/projects/>

The 30 day public participation period is open from **22 May 2019 to 21 June 2019**. Please ensure your feedback is provided prior to the closure of the participation period.

Once the 30 day Public Participation period is conclude, all comments and feedback will be compiled in a comments and responses report which will be submitted to the Department for review in their decision making process.

If you know of any other individuals or organs of state that should be notified on this process, please provide their contact information as soon as possible so we can contact them.

We look forward to engaging with you further on this matter.

Kind regards

Johan Botes

RE: COMMENTS ON THE DRAFT SCOPING REPORT FOR PROPOSED CULTIVATION OF 217 HA VIRGIN SOIL FOR THE ESTABLISHMENT OF GRAZING PASTURES AND ASSOCIATED WATER PIPELINE ON THE FARMS BULFONTEIN NO.327 AND FOLMINK NO.331 NEAR PRIESKA, NORTHERN CAPE PROVINCE.

Reference is hereby made to Draft Scoping Report for the proposed development of agriculture on The Farms Bulfontein No.327 and Folmink No.331 by Great Force Investments (Pty) Ltd as submitted to the Department of Water and Sanitation, received on 21 May 2019.

1. RECOMMENDATIONS AND DECISION

As mentioned in the report, the Department takes note that the proposed activity at the above mentioned location will include cultivation of 217 ha virgin soil for the establishment of grazing pastures and associated water pipeline located 40 km north-west of the town of Prieska in Siyathemba Local Municipality. The Department has evaluated the said Draft Scoping Report and has no objection to the approval of the Scoping Report. However, the following should be addressed and presented to Department by the applicant before approval of the Final Scoping Report:

- a) Please note that the Department rates all perennial and non-perennial rivers together with all dry river beds and natural drainage and associated riparian areas extremely sensitive to development. An option of developing/ constructions furthest away from the all water course would be the preferred option;

RE: COMMENTS ON THE DRAFT SCOPING REPORT FOR PROPOSED CULTIVATION OF 217 HA VIRGIN SOIL FOR THE ESTABLISHMENT OF GRAZING PASTURES AND ASSOCIATED WATER PIPELINE ON THE FARMS BULFONTEIN NO.327 AND FOLMINK NO.331 NEAR PRIESKA, NORTHERN CAPE PROVINCE.

- b) No development or construction should be done or may occur within 100 metres; 1:100 year flood line of a river/drainage lines (whichever is furthest) and 500 m of a pan/wetland without authorisation from this Department. The water courses should be delineated in order to provide an appropriate buffer to maintain such water courses;
- c) All the relevant water uses must be clearly identified and elaborated according to the National Water Act (Act 36 of 1998);
- d) Vehicles and other machinery must be serviced well above the 1:100 year flood line or within a horizontal distance of 100 meters from any watercourse or 500 m of a wetland/pan. Oils and other potential pollutants must be disposed at an appropriate licensed site, with the necessary agreement from the owner of such a site;
- e) Storm water must be diverted from the construction works and roads must be managed in such a manner as to disperse runoff and to prevent the concentration of storm water. Storm water control works must be constructed, operated and maintained in a sustainable manner throughout the project;
- f) Increased runoff due to vegetation clearance and/or soil compaction must be managed, and storm water leaving the construction site must in no way be contaminated by any substance, whether such substance is a solid, liquid, vapour or gas or a combination thereof which is produced, used, stored, dumped or spilled on the premises;
- g) A detailed layout plan needs to be submitted to the Department showing all the facilities in the proposed development including distance from the any watercourses. Details of the final design must also be included as soon as a decision has been made, as the details of this factor may influence the environmental impact both during the construction and operational phases of the project;
- h) Material with pollution generating potential must be limited in construction activities and. Any hazardous substances must be handled according to the relevant legislation relating to transport, storage and use of the substance.
- i) Any spillage of any hazardous materials including diesel that may occur during construction and operation must be reported immediately to our Department;
- j) The final Scoping Report must clearly show all water courses as defined in the National Water Act, 1998 (Act 36 of 1998) as well as the delineated 1:100 year flood lines or 100 meters of a river/drainage line (whichever is furthest) and 500 metres.
- k) Clear color topographical map showing the property, facilities in the property, land use, water courses and location of water abstraction point.
- l) The disposal of general waste and that of hazardous waste must be carried out in an environmentally safe way as to prevent and/or minimise the potential for pollution of water resources and collection of which should be done by an accredited waste collector. All

applicable Sections of the National Environmental Management: Waste Act 59 of 2008 should be strictly adhered to;

- m) A rehabilitation and monitoring plan must be included in the report;
- n) Your client is therefore advised to apply and obtain the water use authorisation prior to commencement of the proposed activities. The applicant should send the intent to apply for a water use authorisation to the Department;
- o) Should the project continue; pre-consultation meeting must be arranged and a site visit and must be conducted by DWS officials with the applicant, and then followed by a Water Use Licence Application (proof of consultation and submission of an application). This must be submitted to DWS in terms of the National Water Act, 1998 (Act 36 of 1998) before any activities take place;
- p) All applicable Sections of the National Environmental Management: Waste Act 59 of 2008 should be strictly adhered to;
- q) Section 19 & 20 of the National Water Act, 1998 (Act No.36 of 1998) should be adhered to;

Dear Stakeholder / Interested and Affected Parties / Organs of State

Proposed cultivation of 217 ha virgin soil for the establishment of Grazing Pastures and associated water pipeline on the Farms Bultfontein No. 327 and Folmink No. 331 near Prieska, Northern Cape Province

Eco-Con Environmental has been appointed by Great Force Investments (Pty.) Ltd. to undertake the Legislative required Scoping and Environmental Impact Assessment Application process for above mentioned project.

In accordance with Listing Notice 326 of the National Environmental Management Act (Act 107 of 1998) (NEMA) EIA Regulations of April 2017, Eco-Con Environmental is conducting a Public Participation Process to engage with stakeholders / interested and affected parties / organs of state on the matter.

As part of the Public Participation Process, Eco-Con Environmental identified yourself / your organisation as a participant in the process and would like to invite you to act hereto.

Hereby you are given the opportunity to provide us with your comments / concerns and / or questions regarding the proposed project.

Attached in the mail is the Draft Scoping Report. We kindly request you to download the appendices from our website (www.eco-con.co.za/projects) or alternatively, please click on the link: <http://eco-con.co.za/projects/>

The 30 day public participation period is open from **22 May 2019 to 21 June 2019**. Please ensure your feedback is provided prior to the closure of the participation period.

Once the 30 day Public Participation period is conclude, all comments and feedback will be compiled in a comments and responses report which will be submitted to the Department for review in their decision making process.

If you know of any other individuals or organs of state that should be notified on this process, please provide their contact information as soon as possible so we can contact them.

We look forward to engaging with you further on this matter.

Kind regards

Johan Botes

RE: COMMENTS ON THE DRAFT SCOPING REPORT FOR PROPOSED CULTIVATION OF 217 HA VIRGIN SOIL FOR THE ESTABLISHMENT OF GRAZING PASTURES AND ASSOCIATED WATER PIPELINE ON THE FARMS BULFONTEIN NO.327 AND FOLMINK NO.331 NEAR PRIESKA, NORTHERN CAPE PROVINCE.

Reference is hereby made to Draft Scoping Report for the proposed development of agriculture on The Farms Bulfontein No.327 and Folmink No.331 by Great Force Investments (Pty) Ltd as submitted to the Department of Water and Sanitation, received on 21 May 2019.

1. RECOMMENDATIONS AND DECISION

As mentioned in the report, the Department takes note that the proposed activity at the above mentioned location will include cultivation of 217 ha virgin soil for the establishment of grazing pastures and associated water pipeline located 40 km north-west of the town of Prieska in Siyathemba Local Municipality. The Department has evaluated the said Draft Scoping Report and has no objection to the approval of the Scoping Report. However, the following should be addressed and presented to Department by the applicant before approval of the Final Scoping Report:

- a) Please note that the Department rates all perennial and non-perennial rivers together with all dry river beds and natural drainage and associated riparian areas extremely sensitive to development. An option of developing/ constructions furthest away from the all water course would be the preferred option;

RE: COMMENTS ON THE DRAFT SCOPING REPORT FOR PROPOSED CULTIVATION OF 217 HA VIRGIN SOIL FOR THE ESTABLISHMENT OF GRAZING PASTURES AND ASSOCIATED WATER PIPELINE ON THE FARMS BULFONTEIN NO.327 AND FOLMINK NO.331 NEAR PRIESKA, NORTHERN CAPE PROVINCE.

- b) No development or construction should be done or may occur within 100 metres; 1:100 year flood line of a river/drainage lines (whichever is furthest) and 500 m of a pan/wetland without authorisation from this Department. The water courses should be delineated in order to provide an appropriate buffer to maintain such water courses;
- c) All the relevant water uses must be clearly identified and elaborated according to the National Water Act (Act 36 of 1998);
- d) Vehicles and other machinery must be serviced well above the 1:100 year flood line or within a horizontal distance of 100 meters from any watercourse or 500 m of a wetland/pan. Oils and other potential pollutants must be disposed at an appropriate licensed site, with the necessary agreement from the owner of such a site;
- e) Storm water must be diverted from the construction works and roads must be managed in such a manner as to disperse runoff and to prevent the concentration of storm water. Storm water control works must be constructed, operated and maintained in a sustainable manner throughout the project;
- f) Increased runoff due to vegetation clearance and/or soil compaction must be managed, and storm water leaving the construction site must in no way be contaminated by any substance, whether such substance is a solid, liquid, vapour or gas or a combination thereof which is produced, used, stored, dumped or spilled on the premises;
- g) A detailed layout plan needs to be submitted to the Department showing all the facilities in the proposed development including distance from the any watercourses. Details of the final design must also be included as soon as a decision has been made, as the details of this factor may influence the environmental impact both during the construction and operational phases of the project;
- h) Material with pollution generating potential must be limited in construction activities and. Any hazardous substances must be handled according to the relevant legislation relating to transport, storage and use of the substance.
- i) Any spillage of any hazardous materials including diesel that may occur during construction and operation must be reported immediately to our Department;
- j) The final Scoping Report must clearly show all water courses as defined in the National Water Act, 1998 (Act 36 of 1998) as well as the delineated 1:100 year flood lines or 100 meters of a river/drainage line (whichever is furthest) and 500 metres.
- k) Clear color topographical map showing the property, facilities in the property, land use, water courses and location of water abstraction point.
- l) The disposal of general waste and that of hazardous waste must be carried out in an environmentally safe way as to prevent and/or minimise the potential for pollution of water resources and collection of which should be done by an accredited waste collector. All

082 459 8206 / johan@eco-con.co.za

The image shows two business cards. The left card is for Eco-Con Environmental, featuring a logo with a globe and the text 'ECO-CON ENVIRONMENTAL' and 'BECAUSE A GOOD PLANET IS HARD TO FIND'. It also lists registration numbers: Reg no.: 2017/232414/07 and VAT no.: 4760279309. The right card is for Johan Botes, Managing Director (MD), with a photo of him holding a globe. It lists his qualifications: B.A. Honours In Geography (UFS) and B.A. Geography and Environmental Management (UFS), and registration numbers: IAIA'sa Reg.: 4043 / A15 Reg.: 1032. It also provides contact information: phone numbers +27 (0)82 459 8206 and +27 (0)51 436 1251, and website www.eco-con.co.za.
