ukuyiba," kutsho uQhoboshiyane. Uham-

# Introduce a trendy, natural look with wood-look tiles

gaining momentum for several years, and now there are more styles and sizes to choose from

"In Europe natural wood-looking tiles now come in strong tones, but for the South African market warmer and lighter colours are still dominant. says Richard Nuss, marketing manag-er at Johnson Tiles.

Wood-look tiles are also taking the shape of large format planks and are moving away from traditional designs. They have more features and some include a bit of colour.

Here are more reasons why you should consider using wood-look tiles

#### They look like wood

Whether you are looking for a dark finish, a white-wash coloured tile. square tiles or large planks, these tiles now come in a variety of shades and sizes and actually look like wood.

"The availability of wood-look tiles has opened up an array of design options, especially in the case of wet areas like bathrooms.

Previously, owning a wood design shower was almost impossible, sim-ply because it would be very difficult to untain the wood but with woodlook tiles, you get the best of both worlds; the natural touch of wood and easy maintenance."

Wood-look tiles are cost-effective

"They work well with most design concepts as they provide a natural base colour from which to work with ' in check.

Wood-look tiles are practical and

says Nuss.

He added that with digital inkjet limitless possibilities.

These tiles complement open-plan living areas beautifully and work just as well in the kitchen, bathroom, Wood-look tiles are popular

inside and outside or you can use a lighter hue inside and a darker shade with a textured finish outside," he

says.

Before deciding on the right type technology, the always popular look of wood is now being recreated with What will the area be used for and

who will use the space — this will help you determine if you should get tex-tured tiles and which colour to go with. Darker colours will be more forgiving

 What colour grout to use — choosing the right grout is going to make a huge difference in how realistic your

Johnson Tiles recently introduced Knysna Balsa to its range of wood-look

# How to remove common carpet stains

WHEN you take extra care not to get any stains on your carpet, it always seems like nature works against you. Somehow, despite all your ef-

forts, you'll find yourself spilling grape juice, or having to deal with pet or finger-painting accidents. Fortunately you can get rid of all

household products

Special water-soluble stains
To get rid of blood, chocolate, coffee, mustard, tea, vomit or wine, try one tablespoon of ammonia mixed with one cup of water (on wool or wool-blend carpets, use a

mild detergent and water).
If that doesn't work, you can try one part household bleach to five parts water, but only on solutiondyed carpets like polypropylene. Bleach will harm other types of carpets, so check with the r

facturer if you're unsure what type Fats and way

Place a paper towel over the carpet and iron over the stain using a warm setting. The wax, fat or oil should come up and stick to the pa Glue

Moisten a cotton ball or soft cloth with rubbing alcohol (available at pharmacies) and press it on the affected area.

Once the glue residue is soaked thoroughly, wipe it off gently and repeat until the carpet is clean. Wax and gum

Use ice to freeze the wax or gum, then shatter it with a blunt object like a spoon. Vacuum before the pieces s often, and blot the carpet with a towel

A new Ford Ranger leaves the testing ground at Silverton in Pretoria every two minutes, 24/7, and these bakkies are then exported to 145 countries - but nowhere else do they sell as well as in South Africa. 'SA is the biggest market for the Ranger,' confirmed Dale Reid, boss of light commercial vehicles at Ford South Africa. The plant now builds 33 models of the Ranger, but Reid said he will only announce prices 'in a few weeks' (Pundits predict a four to six percent increase.) Meanwhile, it is a buyers' market on the current Ranger models, with fantastic offerings at all dealers, and motoring can recommend esnecially the 2,2 engined 4x2 range, which will remain good value for a long time, as well as the Wildtrack, In the new 4x4 models, Reid's team has added a raft of driver assist systems that not only add value to the new Ranger, but also put it on par with a Land Rover

## **NOTICE OF PUBLIC MEETING**

Application for Environmental Authorisation in support of Exploration Right for Petroleum on various farms in the magisterial districts of Matatiele and Mount Fletcher, Eastern Cape (Ref: 12/3/295 ER.)

Rhino Oil and Gas Exploration South Africa (Ptv) Ltd has lodged an application for an exploration right to the Petroleum Agency South Africa (PASA) in terms of section 79 of the Minerals and Petroleum Resources Development Act, 2002. Rhino Oil and Gas has made an application to PASA for environmental authorisation of exploration (activity 18 in listing Notice 2 (GNR 984) made in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA).

The initial exploration area includes ~240 farms over an area of ~ 120 000 ha. In broad terms the exploration area lies in the northern region of the Eastern Cape. It is bound by the Lesotho boundary to the west, from near Qachas Nek to approxi-mately 20 km north of Mt. Fletcher in the south. The area lies to the west of the R56 road between Matatiele and Mt. Fletcher with the Maria-Linden Mission being just inside the boundary. Residential properties within the block are not included. A map and list of included farms are available on request.

Rhino Oil and Gas only proposes to undertake early-phase exploration for oil and gas which may be located underground within suitable geological strata. The purpose is to determine the presence of a petroleum resource which could be investigated further. The initial 3-year exploration work programme will be restricted to non-invasive techniques, seismic surveys and the drilling of less than 10 core boreholes. Rhino will require access to only a few farms for exploration activities and will agree terms with those land owners. No hydraulic fracturing or fracking is proposed.

SLR Consulting (Africa) (Pty) Ltd has been appointed as the independent environmental assessment practitioner responsible for undertaking the required environmental assessment and conducting the public participation process. The applica-tion will be subject to a scoping and environmental impact assessment process as stipulated in the EIA Regulations (GNR 982, 8 December 2014) made under Section 24(6) of the NEMA.

A draft Scoping Report is now available for 30 days for public review from 21 October 2015 until 20 November 2015. An executive summary of the report is also available in Xhosa and Sotho. The report is available at the public libraries and municipal offices in both Matatiele and Maclear. In addition, The Scoping Report is also available to download from the SLR ftp site. To do so, please visit: ftp.slrconsulting.co.za.

You are also notified of and invited to a public scoping meeting which will be held as follows: Date: Monday 9 November 2015 Time: 12:30 pm

All stakeholders are invited to register as Interested & Affected Parties (IAP). You must register as an IAP if you would like more information or wish to participate in the environmental assessment of the project. To do so, or to raise any environmental issues or concerns regarding the project, please contact:

# 4 east griqualand Contractor builds house for poor family

>> Woman lived in hut with three children

#### FEVER REPORTER

RAYERS of a family that has lived in a dilapidated house for years in KwaMzongwana vil-lage, Matatiele were answered when ey received a new house from Bitline SA 1060, a Matatiele Local Mu-

nicipality contractor last Friday.

The handover of the house to the Sithole family which was done by

Mayor Momelezi Mbedla, councillors and representative of the contractor. forms part of the Mayoral Outreach programme to strengthen munici palities through the Back to Basics local government programme. Nokonwaba Sithole (30), the house recipient, lived with her three children aged between one and 10 in a very old house that could fall apart anytime.

"Sleeping in my hut I could see the

The new house, with furniture outside, built for the Sithole family

moon from inside and during heavy rains we would have to ask for shelter in my mother's house

"I am unemployed and we survive on the child grants, so I couldn't af-

ford to fix the house.

"I cannot express fully the happiness I feel about what the municipali-ty has done for me and my children. They have restored my dignity, we will now live like normal people. I am ery thankful." she said.
The Office of the Mayor chipped in

by buying the family furniture. Dur-ing the handover Mbedla praised the contractor who donated the house calling him "activists for develop-

ment".
"All contractors and the business community doing business with gov-ernment should learn to do something for the community. Bitline SA 1060 has set a good example for contractors by being empathetic to peo-ple's plight," Mbedla said.

The contractor which is currently installing water in Ward 5 built the house for the family after seeing the condition they lived in. The house amounted to more than R60 000. The delegation, led by Mbedla, also visit-

R1.5 million Mnqayi Bridge under construction in Ward 5. "This is part of our monitoring service to ensure we deliver quality services and we will continue assessing all projects to avoid wasteful expenditure," Mbedla

# Works programme brings hope

EPWP workers in their new uniforms.
