LANDOWNER NOTIFICATION LETTER

19 September 2012

Dear Landowner:

**ENVIRONMENTAL AUTHORISATIONS FOR THE PROPOSED EXTENSION OF THE
EXISTING SPITZKOP / RHODIUM REEFS PLATINUM MINE FOCUSED ON THE
EXTRACTION OF THE UG2 PLATINUM REEF**

NOTIFICATION OF A MINING RIGHT APPLICATION

(in terms of the Mineral and Petroleum Resources Development Act (MPRDA), Act No. 28 of 2002);

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) AND ENVIRONMENTAL MANAGEMENT PROGRAMME (EMPr)

(in terms of the National Environmental Management Act (NEMA), Act 107 of 1998);

WASTE MANAGEMENT LICENCE APPLICATION

(in terms of the National Environmental Management Waste Act (NEM:WA), Act 59 of 2008)

Rhodium Reefs Limited, a subsidiary of Eastern Platinum Limited is applying for a Mining Right over portions of the farms Kennedy's Vale 361 KT, De Goedeverwachting 332 KT, Boschkloof 331 KT, Tweefontein 360 KT and Belvedere 362 KT. The Mining Right Application (MRA) is conducted in accordance with Section 22 of the Mineral and Petroleum Resources Development Act (MPRDA), Act No. 28 of 2002. .

In support of the Mining Right Application, the following additional authorisations will be applied for:

- Environmental Authorisation from the Limpopo Department of Economic Development, Environment and Tourism (LEDET) in terms of the National Environmental Management Act (NEMA), Act No 107 of 1998 and associated Environmental Impact Assessment (EIA) Regulations (GNR. 543 of 18 June 2010).
- Waste Management Licence from the LEDET in terms of the National Environmental Management: Waste Act (NEM:WA), Act No. 59 of 2008.

Digby Wells Environmental (Digby Wells) is the independent Environmental Assessment Practitioner (EAP) appointed by Rhodium Reefs Limited to undertake the necessary environmental authorisation and associated public participation processes in support of the above applications.

This notification is being given in compliance with the terms of Section 15 of GN R.543, which requires that landowners and people in control of land to be notified of Rhodium Reefs Limited's intention to submit an application for the mentioned environmental authorisations to LEDET and other relevant authorities. The notice and the submission of the application form is the first step in the EIA process.

Project Background

An Eastplats Group company (Spitzkop Platinum) holds an approved mining right over the farm Spitzkop 333KT, and in terms of that right it plans to develop a shallow underground mine. The construction of the underground mine has commenced but has not been completed. A platinum concentrator is being built by Rhodium Reefs Limited (RRL), another Eastplats Group company, on the farm Kennedy's Vale 361KT which is adjacent to farm the Spitzkop. Both projects – the underground mine and the construction of the

Digby Wells & Associates (Pty) Ltd. Co. Reg. No. 1999/05985/07. Fern Isle, Section 10, 359 Pretoria Ave Randburg Private Bag X10046, Randburg, 2125, South Africa
Tel: +27 11 789 9495, Fax: +27 11 789 9498, info@digbywells.com, www.digbywells.com

Directors: AR Wilke, LF Koeslag, PD Tanner (British)*, AJ Reynolds (Chairman) (British)*, J Leaver*, GE Trusler (C.E.O)
*Non-Executive

platinum concentrator have the necessary environmental approval already in place. Ore mined on the farm Spitskop will be toll treated by RRL on behalf of Spitzkop.

Spitskop farm is adjacent to both De Goedeverwachting and Kennedy's Vale and the same ore body underlies the entire area. A consolidated mining plan has been developed whereby it is proposed that mining from the farm Spitskop will extend through farm boundaries onto the farms De Goedeverwachting and Kennedy's Vale and later onto some of the adjacent portions of the farms Boschkloof 331 KT, Tweefontein 360 KT and Belvedere 362 KT. The extended area will enable the scale of mining operations to be increased (partly through the use of the existing vertical shaft infrastructure on Kennedy's Vale), the life of mine to be materially extended and increase the financial viability of the entire project.

Exploration of the entire property has been undertaken between the late 1980's and 2008. Approval was granted by the Department of Mineral Resources as per Prospecting Permits: MP30/5/1/1/2/1024PR (LP5/2/2/2906PR), MP30/5/1/1/2/1104PR (LP5/2/2/3294PR) and MP30/5/1/1/2/92PR. In the prospecting process a mineral resource was defined for platinum group metals (platinum, palladium, rhodium, iridium, osmium and ruthenium), as well as nickel, copper, gold and chrome ore.

Proposed project

The underground mining operations planned on the farm Spitskop and the platinum concentrator to be constructed on the farm Kennedy's Vale 361KT have been authorised. The proposed project which requires environmental authorisation involves the extension of the existing Spitzkop/Rhodium Reefs platinum operation. That entails exploiting of the UG2 platinum reef to a final depth of approximately 1 700 metres below surface. Metals and minerals found will be mined and processed at the Kennedy Vale platinum concentrator which is currently being constructed.

Work on re-opening the existing vertical shafts on Kennedy's Vale is planned to commence in year 4 of operation and a sub-vertical shaft is planned to be sunk later.

A Background Information Document (BID) will be sent to you in due course. The BID will provide you with a description of the proposed project, the EIA and related authorisation processes, the public participation process and how you as potentially affected stakeholder can participate in the study. A full public participation process will be conducted as an integral part of the EIA application. As a potential Interested or Affected Party (I&AP) you are requested to participate in the environmental impact assessment process.

For your participation, you are encouraged to register as an I&AP, and submit any comments, questions or issues that you may have about the proposed project, in writing, to Digby Wells Environmental on fax number: (011) 789-9498; email: kabelo.mphake@digbywells.com or Anelle.lotter@digbywells.com or postal address: Private Bag X10046, Randburg, 2125. You are also welcome to contact us telephonically on (011) 789-9495.

Yours sincerely

Kabelo Mphake and Anelle Lotter
Public Participation Officer

Included is:

- A map showing the proposed project area.
- A list of the farms (names and portions) which are included in the proposed project area.
- Registration and comment sheet.

BACKGROUND INFORMATION DOCUMENT

ENVIRONMENTAL AUTHORISATIONS FOR THE PROPOSED EXTENSION OF THE EXISTING SPITZKOP / RHODIUM REEFS PLATINUM MINE FOCUSED ON THE EXTRACTION OF THE UG2 PLATINUM REEF

September 2012

PURPOSE OF THIS DOCUMENT

This document informs you, as an Interested and Affected Party (I&AP), about the application by Rhodium Reefs Limited a subsidiary of Spitzkop Platinum Limited for a Mining Right over portions of the farms Kennedy's Vale 361 KT, De Goedeverwachting 332 KT, Boschkloof 331 KT, Tweefontein 360 KT and Belvedere 362 KT. The Mining Right Application (MRA) is conducted in accordance with Section 22 of the Mineral and Petroleum Resources Development Act (MPRDA), Act No. 28 of 2002.

In support of the Mining Right Application, the following authorisations will be applied for:

- Environmental Authorisation from the Limpopo Department of Economic Development, Environment and Tourism (LEDET) in terms of the National Environmental Management Act (NEMA), Act No 107 of 1998 and associated Environmental Impact Assessment (EIA) Regulations (GNR. 543 of 18 June 2010).
- Waste Management Licence from the LEDET in terms of the National Environmental Management: Waste Act (NEM:WA), Act No. 59 of 2008.

Digby Wells Environmental (Digby Wells) is the independent Environmental Assessment Practitioner (EAP) appointed by Rhodium Reefs Limited to undertake the necessary environmental authorisation and associated public participation processes in support of the above applications.

To ensure that you are given an opportunity to comment on the documents, and to ensure that you receive updated project information, please complete the attached I&AP registration and comment form as soon as possible but no later than **19 October 2012**.

Physical Address: Fern Isle, Section 10, 359 Pretoria Avenue, Randburg

PROJECT BACKGROUND

An Eastplats Group company (Spitzkop Platinum Limited) holds an approved mining right over the farm Spitzkop 333KT, and in terms of that right it plans to develop a shallow underground mine. The construction of the underground mine commenced early 2008 and was subsequently suspended in November 2008 due to economic climate. A platinum concentrator is being built by Rhodium Reefs Limited (RRL), another Eastplats Group company, on the farm Kennedy's Vale 361KT which is adjacent to the farm Spitzkop. Both projects – the underground mine and the construction of the platinum concentrator have the necessary environmental approval already in place. Ore mined on the farm Spitzkop will be toll treated by RRL on behalf of Spitzkop.

Spitzkop farm is adjacent to both De Goedeverwaching and Kennedy's Vale and the same ore body underlies the entire area. A consolidated mining plan has been developed whereby it is proposed that mining from the farm Spitzkop will extend through farm boundaries onto the farms De Goedeverwaching and Kennedy's Vale and later onto some of the adjacent portions of the farms Boschkloof 331 KT, Tweefontein 360 KT and Belvedere 362 KT. The extended area will enable the scale of mining operations to be increased (partly through the use of the existing vertical shaft infrastructure on Kennedy's Vale), the life of mine to be materially extended and it will increase the financial viability of the entire project.

Exploration of the property has been undertaken between the late 1980's and 2008. Approval was granted by the Department of Mineral Resources as per Prospecting Permits:

MP30/5/1/1/2/1024PR (LP5/2/2/2906PR),
MP30/5/1/1/2/1104PR (LP5/2/2/3294PR) and
MP30/5/1/1/2/92PR. In the prospecting process a mineral resource was defined for platinum group metals (platinum, palladium, rhodium, iridium,

osmium and ruthenium), nickel, copper, gold and chrome ore.

Land ownership

RRL is the owner of parts of the farms Kennedy's Vale, Belvedere and Tweefontein. De Goedeverwaching and Boschkloof, which formed a part of the former Lebowa Trust Lands, are owned by government and significant housing developments are located on parts of this land.

The underground mining operations planned on the farm Spitzkop and the platinum concentrator being constructed on the farm Kennedy's Vale 361KT have been authorised. The proposed project which requires environmental authorisation involves the extension of the existing Spitzkop/Rhodium Reefs platinum operation. That entails exploiting of the UG2 platinum reef to a final depth of approximately 1 700 metres below surface. Metals and minerals found will be mined and processed at the Kennedy Vale platinum concentrator which is currently being constructed.

Work on re-opening the existing vertical shafts on Kennedy's Vale is planned to commence in year 4 of operation and a sub-vertical shaft is planned to be sunk much later.

PROJECT LOCATION

The project will be located on various portions of the properties Kennedy's Vale 361 KT, De Goedeverwaching 332 KT, Boschkloof 331 KT, Tweefontein 360 KT and Belvedere 362 KT. The closest towns are Steelpoort and Burgersfort (respectively 10 km and 30 km northeast), and Lydenburg (70 km east). The project is proposed to be an extension of Eastplats' Spitzkop operation near Steelpoort in the Greater Tubatse Local Municipality in Limpopo Province. The project area covers approximately 7108,1919 hectares across sections of the following farms: remaining extent and portion 1 of De Goedeverwaching 332KT, portion of the remaining extent, portion of portion 1 and portion of portion 2 of Boschkloof 331KT, Portions 8, 9, 12, 15, 19, 22, 25, 27, 28, and 29 of Kennedy's Vale 361KT, remaining extent and portion 6 and 8

of Tweefontein 360KT, and remaining extent and portions 1, 2, 3, 6, 7, 9, 10, 11, 12, 13, 14, 14, 15, 16, 17, 18, 19, 20, 22, 24, 25, 26, 27 and 29 of Belvedere 362KT, in the Greater Tubatse Local Municipality, Limpopo Province. Please see the map appended for more information.

PROJECT DESCRIPTION AND ASSOCIATED INFRASTRUCTURE

Processing

The platinum concentrator plant that is currently being constructed on the farm Kennedy's Vale 361KT will process reef, mined at the Spitzkop and Kennedy's Vale operations. The plant is designed to eventually treat 180 kilo tonnes per month (ktpm) of UG2 ore. Initially the plant will be constructed to treat 90 ktpm of UG2 ore per month; and can be expanded further if required. The details below are specifications related to the 90 ktpm of UG2 ore flow as originally designed for.

Once mined, the material will be delivered into a tipping bin for primary crushing, after which it will be stored in a coarse material silo with a capacity of 5 000 tonnes. From here it will be fed to the secondary crusher and then to the fine material silo, also with a capacity of 5 000 tonnes. At this state the material is ready for primary milling and the various processing phases until the concentrated product is ready to be sent to the Impala Refining Services (IRS) Smelter in Rustenburg.

Final tailings will be pumped to a 25 m diameter tailings thickener. The tails thickener overflow will gravitate to the process water tank, and thickener underflows will be pumped to the final tails disposal sump. Final tails will be pumped from the final tails disposal sump to the tailings dam using 2 pump sets, each with a 150 mm dedicated line. A common standby pump set will be provided.

The tailings dam located on Kennedy's Vale will be an earth fill starter dam which during operations will be built up by cycloning. The dam has the capacity for all the planned production for

an initial 35 year period; a second site has been identified on land owned by RRL if required. Process water will be reclaimed from the dam and returned to the concentrator.

Infrastructure

For the proposed project, the following infrastructure will be required:

- Temporary construction facilities and infrastructure;
- Waste management: temporary handling and storage of general and hazardous waste, on-site change houses and ablution facilities with sewage treatment plant;
- Surface water management: water supply dams, mine residue facility return water dams, pollution control dams, clean and dirty storm water controls (already obtained Record of decision (RoD));
- Storage and handling of hazardous substances: fuel, lubricants, various process input chemicals, raw material stockpiles/bunkers, gas, burning oils, explosives;
- Services: power lines, pipelines, conveyors, roads, telephone lines, communication and lighting masts;
- Roads on the mine property;
- Drainage structures;
- Communication network;
- Waste Rock dump.

Waste Disposal

Tailings waste produced at the platinum concentrator will be stored in a tailings facility with enough capacity for at least the first 35 years of the mines life. Waste water in the tailings will be drained off and reused in the concentrator.

Waste rock from underground excavations will be stored on surface adjacent to the shaft and within the catchment area of the water control dams which have already been built. Modern sewage treatment facilities will be installed to treat waste generated on site and discharge water will be returned into the operating system.

Underground mining

Trackless mining equipment will be used for the development of haulages and strike drives for accessing the ore reserves. Raises, ore passes and step-overs will be developed with conventionally hand-held rock drills. Stopping will be done utilising a breast mining layout with hand-held rock drills.

A total of 9 levels will be accessed from the Spitzkop decline system which was covered in a separate mining right application which was approved. The vertical shaft will provide direct access to a total of 7 levels below the Spitzkop shafts and a sub-vertical declines will provide access to deeper ground.

Cleaning of the panels will be done by means of electrical gully and face winches positioned on strike. The ore will be scraped from the gullies into the centre gully, from where it will be pulled down the centre gully by a centre gully winch into the ore passes.

Road Infrastructure

From a regional perspective there is one main access road, the R555 between Middelburg and Steelpoort. The existing roads will be sufficient to access the main site, but access will need to be provided to the vertical shaft site which will service mining on De Goedeverwachting.

Electricity Requirements and Supply

RRL has already secured 3 MVA of power for the construction phase of the platinum concentrator at the Kennedy's Vale site. RRL applied for 40 MVA of installed capacity, of which 20 MVA would be required for the eventual 90,000 tonnes per month plant. RRL has paid the necessary fees to initiate the acquisition of power and Eskom has commenced the engineering work.

Water Supply

RRL has an existing water allocation from the Groot Dwarsrivier Irrigation Board for which environmental authorisation has been obtained. This allocation once converted to industrial usage will be sufficient to service mining up to the rate of 180 ktpm and if additional water is required RRL will apply for an allocation from the De Hoop Dam. RRL/Eastplats has been an active participant of the Joint Water Forum which represents the interests of the mining industry in discussions with the Department of Water Affairs regarding water usage from the De Hoop Dam. At a mining rate of 90ktpm it is expected that raw water usage will be in the order of 3MI per day.

REGULATORY REQUIREMENTS

Mineral and Petroleum Resources Development Act (MPRDA), Act. No. 28 of 2002

A Mining Right Application (MRA) has been submitted to the Department of Mineral Resources (DMR), Limpopo Province in terms of the MPRDA. The Scoping report needs to be submitted to the DMR within 30 days of receipt of the acceptance letter.

Once the Scoping report has been approved by the DMR, the MPRDA requires that an Environmental Impact Assessment (EIA) and Environmental Management Programme (EMPr) be compiled. The EIA/EMPr report will be made available to the public for review before submission to the relevant authorities for environmental authorisation.

National Environmental Management Act (NEMA), Act 107 of 1998 and associated EIA Regulations (GN R.544 and R.545 of 18 June 2010)

Authorisation is required for the listed activities to be assessed in the EIA as listed in terms of Sections 24 of NEMA and associated EIA Regulations.

Environmental Impact Assessment Regulation Listing Notices 1 (GN R544):

Activity 9: The construction of facilities or infrastructure exceeding 1 000 metres in length for the bulk transportation of water, sewage or storm water.

Activity 11: (i) canals; (ii) channels; (iii) bridges; (iv) dams; (v) weirs; (vi) bulk storm water outlet structures; (vii) marinas; (viii) jetties exceeding 50 square metres in size; (ix) slipways exceeding 50 square metres in size; (x) buildings exceeding 50 square metres in size; or (xi) infrastructure or structures covering 50 square metres or more where such construction occurs within a watercourse or within 32 metres of a watercourse, measured from the edge of a watercourse, excluding where such construction will occur behind the development setback line.

Activity 12: The construction of facilities or infrastructure for the off-stream storage of water, including dams and reservoirs, with a combined capacity of 50000 cubic metres or more, unless such storage falls within the ambit of activity 19 of Notice 545 of 2010.

Activity 13: The construction of facilities or infrastructure for the storage and handling of a dangerous good, where such storage occurs in containers with a combined capacity of 80 but not exceeding 500 cubic metres

Activity 22: The construction of a road outside urban areas (i) with a reserve wider than 13.5 metres and (ii) where no reserve exists where the road is wider than 8 metres.

Activity 26: Any process or activity identified in terms of section 53(1) of the National Environmental Management: Biodiversity Act, 2004 (Act No. 10 of 2004).

Environmental Impact Assessment Regulation Listing Notices 2 (GN R545):

Activity 3: The construction of facilities or infrastructure for the storage or storage and handling of a dangerous good, where such storage occurs in containers with a combined capacity of more than 500 cubic metres

Activity 5: The construction of facilities or infrastructure for any process or activity which requires a permit or license in terms of the national or provincial legislation governing the generation or release of emissions, pollution or effluent and which is not identified in Notice No 544 or included in the list of waste management activities in terms of section 19 of the NEMWA

Activity 19: The construction of a dam, where the highest part of the dam wall, as measured from the outside toe of the wall to the highest part of the wall, is 5 metres or higher or where the high-water mark of the dam covers an area of 10 hectares or more.

Activity 20: Any activity which requires a mining right or renewal thereof as contemplated in sections 22 and 24 respectively of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002).

Environmental authorisation under NEMA will be decided by the competent authority – the Limpopo Department of Economic Development, Environment and Tourism (LEDET).

National Water Act (NWA), Act 36 of 1998

Eastplats has submitted an Integrated Water Use Licence Application (IWULA) for their existing operations and anticipate approval in the near future. This Integrated Water Use Licence will then be updated to include the proposed new extension of their operations at RRL.

National Environmental Management Waste Act, 2009 (Act 59 of 2008)

The National Environmental Management Waste Act (Act 59 of 2008) (NEM:WA) includes a list of waste management activities that have, or are likely to have a detrimental effect on the environment (Government Gazette, 30 April 2009, General Notice 409). These activities require that a waste management licence in terms of NEM:WA be obtained.

A sewage treatment plant will be constructed and will require licensing. The application for a waste management license will be submitted to LEDET for their decision on the approval thereof.

SPECIALIST STUDIES

A number of specialist studies will be undertaken to establish the status of the existing environment and assess potential impacts of the project. Studies that will be undertaken will include (but not be limited to) the following assessments:

- Heritage;
- Soil;
- Hydrology;
- Geohydrology Assessment;
- Aquatic;
- Air Quality;
- Noise;
- Social Impact;
- Visual and Topography;
- Traffic;
- Fauna and Flora; and
- Wetland study.

The public and authorities will have input into these studies and will be able to review the findings of the specialist studies during the EIA phase.

PUBLIC PARTICIPATION

Consultation with the public forms an integral part of the environmental authorisations for this project. Digby Wells will facilitate a public participation process (PPP) as required in terms of the MPRDA and Regulation 54, 55 and 56 of the NEMA. The PPP aims to provide Interested and Affected Parties (I&APs) with an opportunity to participate in a meaningful and constructive manner providing a platform for raising issues, comments and concerns in respect of the proposed project. Public meetings will be held to inform I&APs of the project and to allow them to comment. The date is still to be confirmed.

All registered I&APs will be notified of the availability of the environmental reports for their review and comment. A PPP Report will be compiled which will outline identified issues and concerns and proposed mitigation measures.

REGISTRATION AS AN I&AP

To ensure that you are registered as an I&AP, and are provided with an opportunity to comment on the project and that you receive updated project information, please complete the enclosed registration and comments sheet as soon as possible, but before **19 October 2012 to**.

office.

Your comments and registration as an interested and affected party are important

The purpose of an EIA is to provide the decision-making authorities with sufficient information on which to base their decision to grant or refuse an environmental authorisation and if, granted to define conditions for the development. The contributions made by stakeholders from all sectors of society will ensure informed decision-making.

You are invited to participate freely and to submit any comments or information you feel may be useful to the EIA process. Registered interested and affected parties (I&APs) are entitled to comment, in writing, on all written submissions to the competent authority (LEDET) and to bring to the attention of the competent authority, any issues which the party believes may be of significance to the consideration of the application.

You have to register as an I&AP to receive further notices about public meetings and details of public review of reports produced as part of the EIA and water use license application processes.

REGISTRATION AND COMMENT FORM

EXTENSION OF THE EXISTING SPITZKOP / RHODIUM REEFS PLATINUM MINE

Please complete this form and return it to the contact person provided, to ensure that you are registered as an Interested and Affected Party by no later than **19 October 2012**.

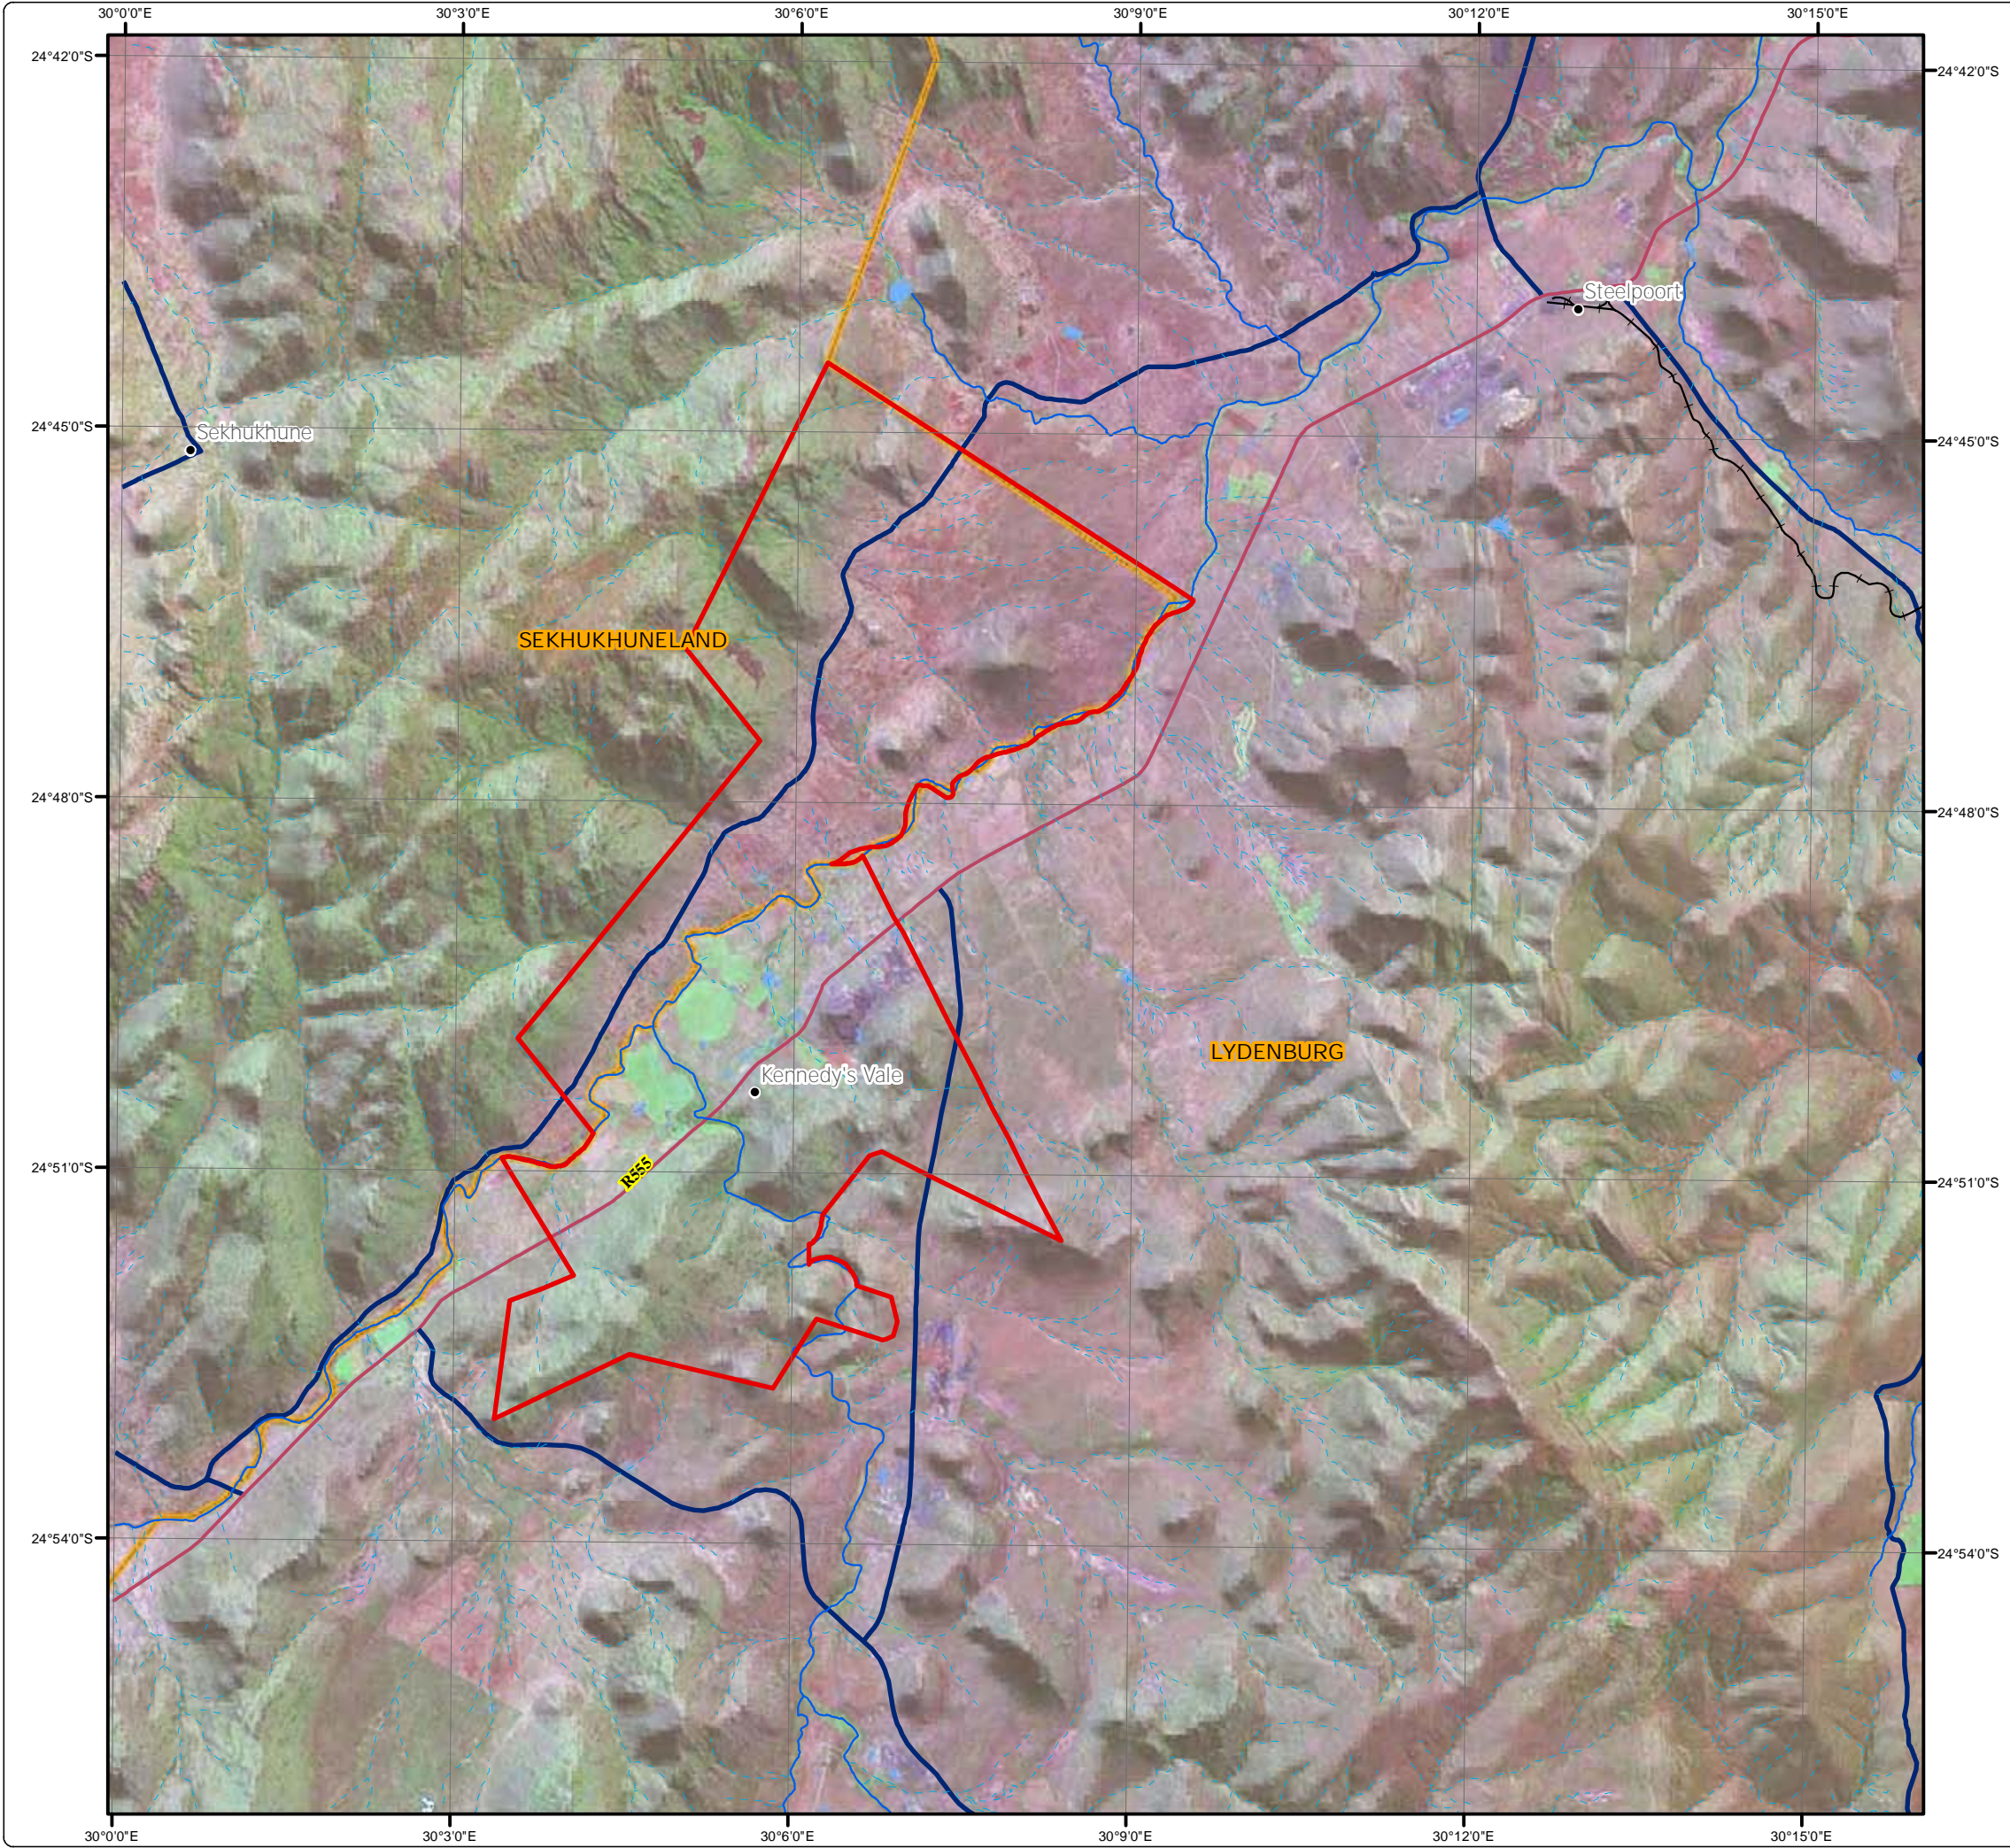

By answering the questions below you will help us to develop a better understanding of your information requirements. The form also gives you the opportunity to make comments regarding the project. Additional pages may be attached, should this be required.

MORERO WA SENGWALWA SE

Sengwalwa se se tsebiša wena, bjalo ka Mokgatlo o Kgahlegago le o Amegago (I&AP), ka kgopelo ya Rhodium Reefs Limited e lego karolwana ya Spitzkop Platinum Limited ya Tekolo ya Moepo dikarolong tša dipolasa tša Kennedy's Vale 361 KT, De Goedeverwaching 332 KT, Boschkloof 331 KT, Tweefontein 360 KT le Belvedere 362 KT. Kgopelo ya Tekolo ya Moepo (MRA) e dirwa ka go dumelelana le Karolo 22 ya Molao wa Tlhabollo ya Ditlabakelo tša Diminerale le Makhura (MPRDA), Molao No. 28 wa 2002.

Ka thekgo ya Kgopelo ya Tekolo ya Moepo, go tla kgopelwa ditumelelo tše di latelago tša:

- Tumelelo ya Tikologo go tšwa Lefapheng la Tlhabollo ya Ikonomi le go Bogwa ga Naga la Limpopo (LEDET) ka go dumelelana le Molao wa Taolo ya Tikologo ya Naga (NEMA), Molao No 107 wa 1998 le Melawana ya Tekolo ya Kamego ya Tikologo (EIA) (GNR. 543 ya 18 June 2010).
- Laesense ya Taolo ya Molao wa go Lahlwa ga Ditšhila go tšwa go LEDET ka go dumelelana le Taolo ya Tikologo ya Naga: Molao wa go Lahlwa ga Ditšhila (NEM:WA), Molao No. 59 wa 2008.

Digby Wells Environmental (Digby Wells) ke Setsebi sa Tekolo ya Tikologo (EAP) seo se kgethilwego ke Rhodium Reefs Limited gore se phethe ditumelelo tše di nyakegago tša tikologo le megatong ye e tswalanago le yona ya go kgatha tema e le go thekga dikgopelo tše di bontšhitšwego ka mo godimo.

Go netefatša gore o nwa sebaka sa go ntšha sa mafahleng ka dingwalwa tše le gore o hwetša tsebišo e mpshafadišwego ya modiro wo, hle tlatša fomo e tsentšhitšwego mo ya I&AP le ya ditlhaloso kapejana eupša pele ga **19 October 2012**.

KAKARETŠO YA MOŠOMO

Khamphani ya Eastplats Group (Spitzkop Platinum Limited) e na le tokelo ya go epa polaseng ya Spitskop 333KT, gomme ka go dumelelana le tokelo yeo e rulaganya go hlama moepšana wa ka fase. Go agwa ga moepo wa ka tlase go thomile mathomong a 2008 gomme wa emišwa ka nakwana ka November 2008 ka baka la maemo a ikonimi. Tsepamo ya polatinamo e agwa ke Rhodium Reefs Limited (RRL), khamphani e nngwe ya Sehlopha sa Eastplats, polaseng ya Kennedy's Vale 361KT yeo e bapelanego le polasa ya Spitskop. Mediro ka bobedi – moepo wa ka tlase le go agwa ga tsepamo ya polatinamo di šetše di na le tumelelo ya tikologo ye e nyakegago yeo e beilwego. Tšhipi yeo e epšago polaseng ya Spitskop ke morwalo wo o rwalwago ke RRL legatong la Spitzkop.

Polasa ya Spitskop e lebane le De Goedeverywaching le Kennedy's Vale gomme sehlopha sa tšhipi yona yeo se okamela tikologo ka moka. Leano la mohlakanelwa la moepo le hlamilwe moo go šišinywago gore moepo wo o tlogago polaseng ya Spitskop o katologe mellwaneng ya polasa tša De Goedeverywaching le Kennedy's Vale gomme ka morago e išwe dikarolwaneng tše dingwe tše di lebanego tša dipolasa tša Boschkloof 331 KT, Tweefontein 360 KT le Belvedere 362 KT. Karolo yeo e katološitšwego e tla thuša sekala sa tshepedišo ya moepo gore se oketšwe (lebaka le lengwe e le gore go dirišwe mokero wo o lego gona wo o emego thwii go Kennedy's Vale), bophelo bja moepo wo o swanetšego go katološwa dilong tša nama gomme wa oketša go tia ga modiro wohle.

Go lekolwa ga lefelo go thomile go tloga mafelelong a bo-1980 le 2008. Tumelelo e neilwe ke Lefapha la Tšweletšo ya Diminerale go ya ka Ditumelelo tše di Lebeletšwego:

MP30/5/1/1/2/1024PR (LP5/2/2/2906PR),
MP30/5/1/1/2/1104PR (LP5/2/2/3294PR) le
MP30/5/1/1/2/92PR. Mogatong wo o tlogo go ba gona go ile gwa hlaoswa tšweletšo ya diminerale

ya polatinamo ya sehlopha sa tšhipi (polatinamo, palatiamo, rotiamo, iritiamo, osimiamo le ritheniamo,) nikele, koporo, gauta le tšhipi ya morodi.

Beng ba lefelo

RRL ke mong wa dikarolo tša dipolase tša Kennedy's Vale, Belvedere le Tweefontein. De Goedeverywaching le Boschkloof, yeo e bopilego karolo ya Mafelo a kgale a Lebowa Trust, di laolwa ke mmušo gomme dintlo tše dintši tše di hlabolwago di dikarolong tša lefelo le.

Ditšhepedišo tša ka tlase ga mmu tša moepo tšeo di rulagantšwego polaseng ya Spitskop le tsepamo ya polatinamo tše di agwago polaseng ya Kennedy's Vale 361KT di dumeletšwe. Mošomo wo o šišintšwego wo o nyakago tumelelo ya tikologo o akaretša go katološwa ga Spitzkop ya gona bjale/tshepedišo ya polatinamo ya Rhodium Reefs. Seo se akaretša go dirišwa ga karolwana ya polatinamo ya UG2 go išeng ga mo e ka bago dimithara tše 1 700 ka ntlenyana ga lona. Ditšhipi le diminerale tše di hwetšwego di tla epša le go hlwekišwa tsepamong ya polatinamo ya Kennedy Vale yeo e agwago gona bjale.

Mošomo wa go bula leswa mekero yeo e emego thwii ya gona bjale ya Kennedy's Vale o rulagantšwe go thoma ka ngwaga wa bo-4 wa tirišo gomme mokero wa go ema thwii o reretšwe go epša ka morago.

LEFELO LA MOŠOMO

Mošomo o tla dirwa dikarolong tše di fapafapanego tša mafelo a Kennedy's Vale 361 KT, De Goedeverywaching 332 KT, Boschkloof 331 KT, Tweefontein 360 KT le Belvedere 362 KT. Ditorotswana tša kgauswi ke Steelpoort le Burgersfort (ka tatelano ya dikhilomithara tše 10 le tše 30 ka leboabohlabela), le Lydenburg (dikhilomithara tše 70 ka bohlabela). Go šišinywa gore mošomo wo o katološe tshepedišo ya Eastplats' Spitzkop kgauswi le Steelpoort Mmasepaleng wa Lefelo la Greater Tubatse kua Profenseng ya Limpopo. Lefelo la mošomo le akaretša mo e ka bago dihekethara tše 7108 1919

go kgabaganya dikarolo tše di latelago tša dipolasa tše: bogolo bjo bo šetšego le karolo 1 ya De Goedeverwachting 332KT, karolo ya bogolo bjo bo šetšego, karolo ya karolo 1 le karolo ya karolo 2 ya Boschloof 331KT, Dikarolo 8, 9, 12, 15, 19, 22, 25, 27, 28, le 29 ya Kennedy's Vale 361KT, karolo e šetšego le karolo 6 le 8 ya Tweefontein 360KT, le karolo e šetšego le dikarolo 1, 2, 3, 6, 7, 9, 10, 11, 12, 13, 14, 14, 15, 16, 17, 18, 19, 20, 22, 24, 25, 26, 27 le 29 tša Belvedere 362KT, Mmasepaleng wa Lefelo la Greater Tubatse, Profenseng ya Limpopo. Hle bona mmapa wo o tsentšhitšwego mo gore o hwetše tshedimošo e oketšegilego.

TLHALOSO YA MOŠOMO LE KAGEGO E AMANAGO NAYO

Swaragano

Go hlongwa ga tsepamo ya polatinamo mo go dirwago gona bjale polaseng ya Kennedy's Vale 361KT go tla sepediša mokero, wo o bego o epilwe tshepedišong ya Spitzkop le Kennedy's Vale. Go hlongwa mo go reretšwe gore go feleletše go swaraganwa le ditone tša dikhilo tše 180 ka kgwedi (ktpm) tša tšhipi ya UG2. Mathomong se se hlongwago se tla agwa gore se dire 90 ktpm ya tšhipi ya UG2 ka kgwedi; gomme e ka katološwa ge go nyakega. Ditaba tše di lego ka mo tlase ke ditšhupetšo tše di tswalanago le 90 ktpm ya tšhipi ya UG2 go etša ge e be e rerilwe mathomong.

Ge selo se fetša go epša, se tla išwa motomong wa kgokološo gore se pšhatlwe la mathomo, ka morago ga moo se tla bolokwa bobolokelong bja dilo tša makgwakgwa bja bogolo bja ditone tše 5 000. Boemong bjo, selo se loketše go ka šilwa le go ya megatong ya go fapafapana go fihlela setšweletšwa se se nyakegago se loketše go romelwa Tirelong ya Mpshafatšo ya Impala (IRS) kua Rustenburg.

Dinyakišišo tša mafelelo di tla pompša ka bogolo bja dimithara tše 25 dinyakišišong. Go oketšega ga bogolo go fihlela bo phophoma thankeng ya meetse gomme bogolo bo le tlasana go tla pompša go fihlela megatong ya mafelelo ya go

lahlwa ga dilo. Dikarolwana tša mafelelo di tla pompša go tloga moo go fihla letamong la dilo tše di lahlwago go dirišwa dihlopha tše 2 tša pompo, e nngwe le e nngwe e na le mothaladi wo o kgokagantšwego wa dimilimithara tše 150. Go tla newa sehlopha sa nakwana sa pompo.

Letamo la nyakišišo leo le lego go Kennedy's Vale le tla ba mathomong a go tlatša lefase ao nakong ya tshepedišo le tlogo go agwa ka go diriša saeklone. Letamo le na le bogolo bja tšweletšo ka moka yeo e bego e rerilwe nakong ya nywaga e 35 ya mathomo; lefelo la bobedi le hweditšwe lefelong leo beng ba lona e lego RRL ge go nyakega. Meetse ao a gatelwago mogato a tla tšewa letamong gomme a bušetšwa tsepamong.

Kagego

Mošomong wo go bolelwago ka ona, kagego e latelago e tla nyakega:

- Go agwa ga mafelo a nakwana le kagego;
- Taolo ya go lahlwa ga ditšhila: go swaraganwa ga nakwana le go bolokwa ga ditšhila ka kakaretšo le tše kotsi, dintlo tša phetošo ya lefelo le mafelo a go hlapela ao a nago le kelelatšhila ya maleba;
- Taolo ya meetse: matamo a tšweletšo ya meetse, mašaledi a dilo tša moepong a bušetša matamo a meetse, matamo a go laola tšhilafalo, taolo ya meetse a hlwekilego le a tšhilafetšego a sefako (phetho yeo e šetšego e hweditšwe ya Pego (RoD));
- Go bolokwa le go swaragana le dilo tše kotsi: makhura, ditšweletšwa tša makhura, dikhemikhale tša megato e fapafapanego, dikgoboketšo/mekoti ya ditšweletšwa tše di sa apewago, kgase, dioli tše di swago, dilo tše di ka thuthupago;
- Ditirelo: metato ya mohlagase, diphaephe, dinamelwa, ditsela, megala, poledišano le dikota tša mabone;
- Ditsela lefelong la moepo;
- Sebopego sa kelelatšhila;
- Tshepedišo ya poledišano;
- Go lahlwa ga Maswika ao a se Nago Mohola.

Go Lahlwa ga Ditšhila

Mašaledi a ditšhila tša go tšweletšwa tsepamong ya polatinamo a tla bolokwa lefelong la mašaledi a bogolo bja go lekanela mo e ka bago mengwageng ya mathomo e 35 ya moepo. Meetse a ditšhila mašaleding a tla ntšhwa gomme a dirišwa gape mošomong wo.

Maswika ao a swanetšego go lahlwa ao a ntšhitšwego ka tlase a tla bolokwa lefelong go bapa le mokero le ka gare ga tshwaro ya taolo ya matamo a meetse ao a šetšego a agilwe. Mafelo a taolo ya mehleng yeno ya kelelatšhila a tla hlongwa gore go swaraganwe le ditšhila tše di tšweleditšwego lefelong gomme meetse ao a ntšhitšwego a tla bušetšwa tshepedišong ya taolo.

Moepo wa ka tlase

Sedirišwa se se se nago mokero se tla dirišetšwa go tswalela mekoti le go epa mafelo gore go fihlelelwe bobolokelo bja tšhipi. Dikoketšo, mafelo ao go fetago tšhipi le megato ya pejana di tla dirwa ka didirišwa tša go swarwa ka matsogo tša go phunya matlapa. Go tla kgaotšwa go dirišwa motheo wa moepo wa metšhene ya go bora matlapa yeo e swarwago ka matsogo.

Palomoka ya megatong e 9 e tla fihlelelwa go tloga tshepedišong e phuhlamago ya Spitzkop yeo e ilego ya akaretšwa tekolong ya kgopelo ya moepo yeo e ilego ya dumelwa. Mokero wo o emego thwii o tla nea phihlelelo-thwii tekanyong ya megatong e 7 ka tlase ga mekero ya Spitzkop le go ganwa ga nakwana di tla nea phihlelelo mmung o tseneletšego.

Go hlwekišwa ga dikarolo go tla dirwa go dirišwa mokero wa mohlagase le ditšweletšwa tše di bilego gona mathomong. Tšhipi e tla gohlwa go tloga leopšaneng go fihla ka garagare ga mokoti, go tloga moo e tla gogwago bogareng ke mokoti mafelwaneng ao tšhipi e fetago go ona.

Kagego ya Tsela

Go ya ka pono ya tikologo, go na le tsela e kgolo e tee feela ya go sepela, ya R555 magareng ga Middelburg le Steelpoort. Ditsela tše di lego gona di tla lekana go fihlelela lefelo le legolo, eupša go tla nyakega gore phihlelelo e fihle mokerong wo o emego thwii wo o tla abago ditirelo go De Goedeverwachting.

Dinyakwa le Ditšweletšo tša Mohlagase

RRL e šetše e na le 3 MVA ya mohlagase gore go agwe karolo ya mošomo wa polatinamo lefelong la Kennedy's Vale. RRL e šomile bogolong bja 40 MVA bjo bo hlomilwego, moo 20 MVA e tla nyakegago gore mafelelong go hlongwe ditone tše 90 000. RRL e lefile ditefišo tše di nyakegago gore e thome diphihlelelo tša mohlagase gomme Eskom e šetše e thomile ka boentšeneare.

Tšweletšo ya Meetse

Ga bjale RRL e na le karolo ya meetse go tšwa Lekgotleng la go Nošetša la Groot Dwarsrivier moo go hweditšwego tumelelo ya tikologo. Ge karolo ye e se na go fetišetšwa tirišong ya intaseteri e tla lekana go nea ditirelo moepong go fihla bokgoleng bja 180 ktpm gomme ge e ba go nyakega meetse a oketšegilego, RRL e tla kgopela gore go arolwe Letamo la De Hoop. RRL/Eastplats e bile mokgathatema yo mafolofolo wa Lekgotla la Mohlakanelwa la Meetse yo a emelago dikgahlego tša intaseteri ya moepo dipoledišanong tša Lefapha la Merero ya Meetse mabapi le tirišo ya meetse a go tloga Letamong la De Hoop.

Tekanyong ya moepo ya 90ktpm go lebeletšwe gore meetse ao a sa kago a dirišwa a be ka tekanyo ya 3MI ka letšatši.

DINYAKWA TŠA TAOLO

Molao wa Tlhabollo ya Tšweletšo ya Diminerale le Makhura (MPRDA), Molao No. 28 wa 2002

Kgopelo ya Tekolo ya Moepo (MRA) e rometšwe Lefapheng la Tšweletšo ya Diminerale (DMR),

Profenseng ya Limpopo go ya ka MPRDA. Pego ya sebopego e swanetše go romelwa go DMR pele go fela matšatši a 30 ka morago ga go amogelwa ga lengwalo.

Ge pego ya sebopego e se na go dumelelwa ke DMR, MPRDA e nyaka gore Tekolo ya Kamego ya Tikologo (EIA) le Lenaneo la Taolo ya Tikologo (EMPr) di kopanywe. Pego ya EIA/EMPr e tla newa setšhaba gore e hlahlobje pele e išwa go balaodi ba maleba gore e dumelelwe tikologong.

Molao wa Taolo ya Tikologo ya Naga (NEMA), Molao 107 wa 1998 le Melawana ya EIA yeo e amanago le yona (GN R.544 le R.545 ya 18 June 2010)

Tumelelo e a nyakega medirong ye e šupilwego gore e lekolwe go EIA e le ya go lokeletšwa ka go dumelelana le Dikarolo 24 tša NEMA le Melawana ye e amanago nayo ya EIA.

Molao wa go Lokeletšwa ga Ditsebišo tša Tekolo ya Kamego 1 (GN R544):

Modiro 9: Go agwa ga mafelo goba kagego ye e fetago dimithara tše 1 000 ka botelele gore go rwalwe meetse, kelelatšhila goba meetse a sefako.

Modiro 11: (i) mekeru; (ii) mafelo; (iii) maporogo; (iv) matamo; (v) matsha; (vi) sebopego se se ntšhago meetse a mantši a sefako; (vii) mabopo; (viii) boemafofane bjo bo fetago disekweremithara tše 50 ka bogolo; (ix) bothelelelo bjo bo fetago disekweremithara tše 50 ka bogolo; (x) meago yeo e fetago disekweremithara tše 50 ka bogolo; goba (xi) kagego goba sebopego se se akaretšago disekweremithara tše 50 goba go feta moo mo go agwa mo go bjalo go diregago ka gare ga mokeru wa meetse goba ka gare ga dimithara tše 32 tša mokeru wa meetse, ka ntle le ge go agwa mo go bjalo go tla direga ka ntle ga mothaladi wa tlhabollo.

Modiro 12: Go agwa ga mafelo goba kagego ya bobolokelo bja meetse ao a tšwago, go akaretša matamo le bolotameetse, ka bogolo bjo bo kopantšwego bja dikhubikimithara tše 50000 goba go feta moo, ka ntle le ge bobolokelo bjo

bjalo bo wela ka gare ga sebopego sa modiro 19 wa Tsebišo 545 ya 2010.

Modiro 13: Go agwa ga mafelo goba kagego ya bobolokelo le go swarwa ga dilo tše kotsi, moo bobolokelo bjo bjalo bo diregago diswarong tše di nago le bogolo bjo bo kopantšwego bja dikhubiti tša dimithara tše 80 eupša di sa fete 500

Modiro 22: Go agwa ga tsela ka ntle ga metse ya ditoropong (i) ka poelomorago ya bophara bja dimithara tše 13.5 le (ii) moo go se nago bobolokelo moo tsela e pharaletšego ka dimithara tše 8.

Modiro 26: Mogato ofe le ofe goba modiro wo o dirwago ka go dumelelana le karolo 53(1) ya Taolo ya Tikologo ya Naga: Molao wa Diphapano, 2004 (Molao No. 10 wa 2004).

Molao wa go Lokeletšwa ga Ditsebišo tša Tekolo ya Kamego 2 (GN R545):

Modiro 3: Go agwa ga mafelo goba kagego ya polokelo goba polokelo le tshwaragano ya dithoto tše kotsi, moo polokelo e bjalo ya ka gare ga diphuthelwana tša bogolo bjo bo kopantšwego bja dimithara tša dikhubiki tše 500

Modiro 5: Go agwa ga mafelo goba kagego ya mogato ofe goba ofe wo o nyakago tumelelo goba laesense go ya ka molao wa naga le profense wo o laolago moloko goba tokollo ya ditšweletšo, tšhilafalo goba ditšhila le yeo e sa tsebjego go Tsebišo No 544 goba e akaretšwago lelokelelong la mediro ya taolo ya ditšhila ka go dumelelana le karolo 19 ya NEMWA

Modiro 19: Go agwa ga letamo, moo karolo e kgolo kudu ya leboto la letamo, go ya ka mo go lekanywago go tloga ka ntle kua tlase ga leboto la letamo go fihla karolong ya godimo kudu ya leboto, ke dimithara tše 5 goba go ya godimo goba moo leswao la go tlala ga meetse le khupetšago karolo ya dihekethara tše 10 goba go feta moo.

Modiro 20: Modiro wo o nyakago tekolo ya moepo goba mpshafatšo go ya kamoo go nyakwago go dikarolo 22 le 24 ka tatelano ya Molao wa Tšweletšo ya Diminerale le Makhura, 2002 (Molao No. 28 wa 2002).

Tumelelo ya tikologo ka tlase ga NEMA e tla direlwa phetho ke taolo ya maitemogelo – Lefapha la Limpopo la Tlhabollo ya Ikonomi, Tikologo le go Bogwa ga Naga (LEDET).

Molao wa Meetse a Naga (NWA), Molao 36 wa 1998

Eastplats e rometše Kgopelo ya Mohlakanelwa ya Laesense ya Tirišo ya Meetse (IWULA) ditirišong tša bona tša gona bjale gomme e emetše gore e dumelwe go se kgale. Laesenese ye ya Mohlakanelwa ya Tirišo ya Meetse e tla mpshafatšwa gore e akaretše katološo e mpsha yeo e šišintšwego ya tshepedišo ya bona go RRL.

Molao wa Naga wa Taolo ya Ditšhila Tikologong, 2009 (Molao 59 wa 2008)

Molao wa Taolo ya Ditšhila Tikologong ya Naga (Molao 59 wa 2008) (NEM:WA) o akaretša lelokelelo la mediro ya taolo ya ditšhila yeo e, goba yeo e ka bago le mafelelo a kotsi tikologong (Kuranta ya Mmušo, 30 Aporele 2009, Tsebišo ka Kakaretšo 409). Mediro ye e nyaka gore go hwetšwe laesense ya taolo ya ditšhila ka go dumelwana le NEM:WA.

Go tla hlongwa taolo ya kelelatšhila gomme e nyaka laesense. Kgopelo ya laesense ya taolo ya ditšhila e tla romelwa go LEDET phethong ya bona ya tumelelo ya kgopelo yeo.

DINYAKIŠIŠO TŠA DITSEBI

Palo ya dinyakišišo tša setsebi e tla dirwa go thekga boemo bja tikologo yeo e lego gona le go lekola dilo tše di ka bago gona modirong. Dinyakišišo tše di tla dirwago di tla akaretša (eupša tša se felele go) ditekolo tše di latelago:

- Bohwa;
- Mobu;
- Haeterolotši;
- Tekolo ya Tšiolotši;
- Bodiba;
- Boleng bja Moya;
- Lešata;
- Kamego ya Leago;
- Ponagalo le Sebopego sa Lefelo;
- Sephetephe;

- Dimela le Matšoba; le
- Nyakišišo ya Tlhakase.

Setšhaba le balaodi ba tla kgatha tema nyakišišong ye gomme ba tla kgona go hlahloba dipelo tša dinyakišišo tša setsebi nakong ya karolo ya EIA.

GO KGATHA TEMA GA SETŠHABA

Go botšiša setšhaba go bopa karolo ya ka gare ya ditumelelo tša tikologo tša modiro wo. Digby Wells e tla thea mogato wa go kgatha tema ga setšhaba (PPP) go ya ka mo go nyakegago ka go dumelwana le MPRDA le Molao 54, 55 le 56 wa NEMA. PPP e ikemišeditše go nea Bao ba Kgahlegago le go Amega (I&APs) sebaka sa go kgatha tema ka tsela e holago le e botse gomme ya ala motheo wa go tšweletša ditletlebo, ditlhaloso le dipelaelo ka go dumelwana le modiro wo o šišinywago. Go tla swarwa diboka tša setšhaba go tsebiša I&APs ka modiro wo le go ba dumelwa go nea tlhaloso. Letšatši le sa tlo netefatšwa.

Di-I&AP ka moka tše di ngwadišitšwego di tla tsebišwa ka go ba gona ga dipego tša tikologo gore di di hlahlobe le go ntšha sa mafahleng. Pego ya PPP e tla kgoboketšwa gomme ya bea ditaba tše di hlalositšwego le dipelaelo le megato yeo e šišintšwego ya tekolo.

GO INGWADIŠA BJALO KA I&AP

Go netefatša gore o ngwadišwa o le I&AP, gomme o newa sebaka sa go hlalosa ka modiro le gore o dula o newa tshedimošo yeo e mpshafaditšwego ka mošomo, hle tlatša boingwadišo bjo bo tsentšhitšwego le pampiri ya ditlhaloso ka pela ka mo go ka kgonegago, eupša pele ga **19 October 2012 go**.

ENVIRONMENTAL AUTHORISATIONS

PROPOSED EXTENSION OF THE EXISTING SPITZKOP / RHODIUM REEFS PLATINUM MINE TOWARDS THE EXPLOITATION OF THE UG2 PLATINUM REEF

Rhodium Reef Limited, a subsidiary of Eastern Platinum Limited, is applying for a Mining Right for the proposed extension of their Spitzkop operation. The Mining Right Application (MRA) is conducted in accordance with Section 22 of the Mineral and Petroleum Resources Development Act (MPRDA), Act No. 28 of 2002.

In support of the Mining Right Application, the following authorisations will be applied for:

- Environmental Authorisation from the Limpopo Department of Economic Development, Environment and Tourism (LEDET) in terms of the National Environmental Management Act (NEMA), Act No 107 of 1996 and associated Environmental Impact Assessment (EIA) Regulations (GNR 543 of 18 June 2010)
- Waste Management License from the LEDET in terms of the National Environmental Management Waste Act (NEM:WA), Act No. 59 of 2008

Project Location: The project will be located on various portions of the properties Kennedy's Vale 361 KI, De Goedeverwachting 332 KI, Boschloof 331 KI, Twelvetoren 360 KI and Belvedere 362 KI. The closest towns are Steelpoort and Burgerfort (respectively 15 km and 30 km northeast), and Lydenburg (70 km east).

The proposed project area covers approximately 7126,1717 hectares across sections of the following farms:

- Farming extent and portion 1 of De Goedeverwachting 332KI
- Portion of the remaining extent, portion of portion 1 and portion of portion 2 of Boschloof 331KI
- Portions 6, 9, 12, 15, 18, 20, 23, 25, 27, 28, and 29 of Kennedy's Vale 361KI
- Farming extent and portion 6 and 8 of Twelvetoren 360KI and
- Remaining extent and portions 1, 2, 3, 4, 7, 8, 9, 11, 12, 13, 14, 14, 15, 16, 17, 18, 19, 20, 22, 24, 25, 26, 27 and 29 of Belvedere 362KI in the Agricultural District of Greater Tzaneen

FOUR COMMENTS ARE WANTED

Digby Wells Environmental has been appointed as the independent environmental consultant to undertake environmental authorisations for the EIA required in terms of the NEMA, MPRDA and NEM:WA. Should you wish to be registered as an interested and/or affected party and to receive further information or comment on the proposed project, please contact us as soon as possible but by no later than 19 October 2012.

Digby Wells Environmental
Kubeka Mphahlele or Annelie Lottus

See the world differently

Lion Ferrochrome, part of Xstrata Alloys, the world's largest producer of ferrochrome, is situated in the beautiful Steelpoort valley in the heart of the scenic Limpopo Province. This state-of-the-art operation invites individuals to apply for the following opportunities:

Assistant Refractory Coordinator

Lion Ferrochrome, Ref. No. Fce-AL

This role will see you take part in proactive modification and maintenance services, root cause analysis of equipment breakdown, maintenance and modifications. Interested? You'll need a recognised trade test, N4 qualifications and 3 years' post-trade test experience in heavy industry. Knowledge of SAP would be an added advantage.

Fitter

Lion Ferrochrome, Ref. No. Fce-AL

Are you ready to maintain and repair plant equipment and install new ones (while adhering to safety, environment, quality and housekeeping standards and complying with all regulations and procedures)? Show your mettle in faultfinding and planned maintenance.

You will need an N2 with a trade test (Grade 12 would be advantageous) and 1 year's post-trade test experience in heavy industry. Own transport would also be an added advantage.

Boilermaker

Lion Ferrochrome, Ref. No. Fce-AL

As a Boilermaker, you will maintain and repair plant equipment and install new ones, and be involved in root cause analysis of equipment breakdown and statutory inspections.

Apply with your N2 (with a trade test) and 1 year's post-trade test experience in heavy industry. A Grade 12 and own transport would be advantageous.

Interested? Send a comprehensive Curriculum Vitae, quoting the relevant reference number, to the Human Resources Business Partner at PO Box 218, Steelpoort 1133 or e-mail to aletoalo@xstrata.co.za or fax to 086 682 4709.

Closing date: 28 September 2012

To view our vacancies, you can also go to www.xstratacareers.com (click on "Careers" and then on "Alloys"). You are able to register on the web page to receive a notification if vacancies in your field of expertise are posted.

Because the resources we value most are the people we employ.

Logistics Superintendent
(Ref. ACD/PLANT/LSU)

Requirements (including but not limited to): • National Diploma in Logistics Management • 2-3 years' Logistical Management experience • Understanding of cost dynamics affecting global chrome operations • Understanding of freight in respect of international seaborne chrome sales • Knowledge of chrome demand and customer representatives • Knowledge of the following aspects: Chrome mining and beneficiating operations, chrome characteristics, and users • Knowledge of global chrome markets, trading and logistics, regional supply capacities, strengths, weaknesses and characteristics • Knowledge of computer modelling sensitivities

Duties (including but not limited to): • Report to the Metallurgical Manager • Assist with the compilation of the annual budget, taking into account previous and current expenditure and mine requirements to forecast future needs • Monitor spending and allocate expenses to appropriate cost account • Review invoices received and submit correct invoices for processing • Reconcile production and stock trends • Manage Spoornet guarantee and sales plan • Plan and coordinate port stock • Manage the sampling and preparing process • Forecast reporting • Liaise with Spoornet and Portnet • Manage weighing, shunting and loading of rail and road transport • Manage customer complaints • Conduct customer supply trend analysis • Manage and conduct risk assessments • Participate in internal and external audits • Manage housekeeping standards

Selection will take place according to the Dwaarsrivier Mine Recruitment policy, operating procedure and processes. *(A strong consideration will be the individual's fit with the Dwaarsrivier Values: Unconditional Care, Teamwork, Positive Attitude and Honesty and Integrity. The successful candidate will be appointed on the Dwaarsrivier Mine's Conditions of Employment, which includes being certified medically fit as per the Mine Health and Safety Act, 29/1996 and with due consideration of the company's employment equity plan.*

CVs may be submitted to Dwaarsrivier Recruitment via e-mail: recplant@dwaarsrivier.co.za or fax: 086 231 9250.

Please quote the relevant reference number in the subject line of your e-mail or fax. Kindly quote only the reference number in the subject field of your e-mail, as we work with an automatic file filtering system. Only applications with the correct reference number will be considered. Candidates may be required to undergo psychometric and other relevant assessments.

Closing date: 5 October 2012 at 12:00

If you have not been contacted by the Company within 21 days of the closing date, please consider your application unsuccessful.

Learners given tips on saving

Story and photos: Mmaselena Junior Makhatola

SESHEGO - Letlotlo Primary School's vegetable garden recently received a boost with a donation of garden tools and a gardening tunnel from Nedbank and the Banking Association South Africa (Basa).

The donation was part of an ongoing commitment from Nedbank and Basa to uplift communities and aimed to empower young people in the area to be self-sufficient.

Basa conducted lessons with the learners, teaching them about the

importance of saving money, which was in line with the Teach Children to Save South Africa (TCTS-SA) initiative.

Steven Mudzunga, the Nedbank area manager said they wanted to ensure bank services were accessible to communities.

"We receive a lot of support from the people, so we feel we are giving back to the community with the vegetable garden," Mudzunga said.

The general manager of Basa, Fikile Kuhlase said the association targeted mostly young children as they believed if children had the knowledge of saving at an early age, they were most likely to grow up

with it in mind. She said TCTS-SA had been in operation for five years.

"We have this programme as South Africa has a very poor savings rate and poor savings mentality and many people are in debt. We want to empower people so they are able to manage their finances better," Kuhlase said.

Pontsho Mathole, a gr. 5 learner said she was happy Nedbank taught them about saving their pocket money.

Mokgadi Nakana, a foundation phase teacher said: "The donation means a lot to us and it is one of the best things that has happened to our school".

Pontsho Mathole (Letlotlo Primary School, gr. 5 learner) says she is grateful to Nedbank for giving learners tips on how to save their pocket money. Nedbank and Basa recently donated garden tools to the school.

Fikile Kuhlase (Basa, general manager) informs Letlotlo Primary School learners and teachers about the importance of saving money.

Organisation seeks volunteers to aid struggling learners with lessons

Story and photo: Morongwa Letsoalo

POLOKWANE - Johannes Serota from Gama Mashashane, the founder of Thuto ke Lesedi, an organisation that provides extra lessons to learners, is seeking volunteers.

Johannes says the organisation provides primary and high school learners with extra lessons in the subjects they struggle with.

"This organisation is a dream come true as I believe in helping where I can. As most learners struggle with English, I am

helping them to read and write," Johannes says.

"We don't focus only on academic work, we also offer support in sports development to help learners discover their talents," he says. Johannes started the project in June and has so far received positive feedback from Utshani Primary School that there are improvements since he started assisting learners at the school. The organisation already has three volunteers from Luthuli Park.

For more information, contact Johannes at 072 901 5914.

Johannes Serota, the founder of Thuto ke Lesedi is looking for volunteers to assist struggling learners.
