Interim Comment

In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Mr David Marsden
 Rhodium Reefs Limited
 PostNet Suite 177
 Private Bag X51
 Bryanston
 2021

NOTIFICATION OF INTENT TO DEVELOP FOR RHODIUM REEF LIMITED PLATINUM OPERATION, 2430CA & CC, DE GOEDEVERWATCHING 332 KT; BOSCHKLOOF 331 KT; BELVEDERE 362 KT; KENNEDY'S VALE 361 KT; AND TWEEFONTEIN 360 KT, LIMPOPO PROVINCE

Higgitt, N., Karodia, S., du Piesanie, J., & Nel, J. October 2012. Heritage Statement For Rhodium Reef Limited Platinumoperation, 2430ca & Cc, De Goedeverwachting 332 Kt; Boschkloof 331 Kt; Belvedere 362 Kt; Kennedy's Vale 361 Kt; and Tweefontein 360 Kt, Limpopo Province

Eastplats proposes the extension and consolidation of underground mining operations on the farms Spitskop, De Goedeverwachting and Kennedy's Vale. Later expansion will also include portions of the farms Boschkloof 331 KT, Tweefontein 360 KT and Belvedere 362 KT, in the Greater Tubatse Local Municipality, Limpopo Province. A desktop heritage assessment was conducted for this project; the assessment did not include a field assessment.

A number of heritage resources were identified within the project area during the desktop assessment; the heritage resources includes Stone Age, Iron Age, Historic Structures/Ruins and a Burial ground. The specialist recommended a Phase 1 Heritage Impact Assessment for the footprint of the proposed project and not the entire project area since impacts will only be limited to the underground mine. The specialist report included also a Letter of Exemption from further Palaeontological Assessment. It is noted that the project area is underlain by the Dsjate Sub-suite and the Dwars River Sub-suite of the Rustenburg Layered Suite which do not contain fossil potential.

Decision:

- SAHRA supports the recommendation of the specialist report for a Phase 1 Heritage Impact Assessment on the development footprint. However, the possible impact that support infrastructure may have on heritage resources in the larger project area must be considered.
- The recommendation that the project be exempted from further palaeontological assessment is supported.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

A handwritten signature in black ink, appearing to read 'Phillip Hine', written over a horizontal line.

Phillip Hine
Heritage Officer

A handwritten signature in black ink, appearing to read 'Colette Scheermeyer', written over a horizontal line.

Colette Scheermeyer
SAHRA Head Archaeologist
South African Heritage Resources Agency

ADMIN:

Terms & Conditions:

1. This approval does not exonerate the applicant from obtaining local authority approval or any other necessary approval for proposed work.
2. If any heritage resources, including graves or human remains, are encountered they must be reported to SAHRA immediately.
3. SAHRA reserves the right to request additional information as required.

MINUTES FROM THE PUBLIC MEETINGS

12 February 2013

MINUTES FROM THE EERSTEGELUK PUBLIC MEETING: MINING RIGHT APPLICATION AND ENVIRONMENTAL AUTHORISATION FOR THE PROPOSED EXTENSION OF THE EXISTING SPITZKOP / RHODIUM REEFS PLATINUM MINE FOCUSED ON THE EXTRACTION OF THE UG2 PLATINUM REEF

A public meeting was held at Kgahlong High School in Steeploort, Limpopo Province on 16 January 2013.

The objectives of the meeting were to:

- Facilitate public consultation and present the Environmental Impact Assessment and Mining Right Application Process for the Rhodium Reefs project; Provide an overview of the project and what it will entail; and
- Obtain comments and inputs from Interested and Affected Parties' (I&APs) on the Draft Scoping Report for the project.

Please find attached a copy of the draft minutes for your perusal and comment. Kindly review these minutes and submit comments to the Public Participation Office.

Comments can be forwarded to:

**DRAFT MINUTES FROM THE PUBLIC MEETING HELD ON
16 JANUARY 2013 AT THE KG AHLONG HIGH SCHOOL,
EERSTEGELUK VILLAGE, STEELPOORT- LIMPOPO
PROVINCE**

**ENVIRONMENTAL AUTHORISATIONS FOR THE PROPOSED
EXTENSION OF THE EXISTING SPITZKOP / RHODIUM
REEFS PLATINUM MINE FOCUSSED ON THE EXTRACTION
OF THE UG2 PLATINUM REEF**

Date: 16 January 2013

Time: 09H30

Venue: Kgahlong High School, Eerstegeluk Village- Limpopo Province

1 PURPOSE OF MEETING

The purpose of the meeting is to:

- Undertake Public Consultation and present the Environmental Impact Assessment and Mining Right Application Process for the Rhodium Reefs project;
- Provide an overview of the project and what it will entail; and
- Obtain comments and inputs from Interested and Affected Parties' (I&APs) on the Draft Scoping Report for the project.

2 ATTENDEES

A copy of an attendance register is attached as Appendix A. Please refer to table 1 for a list of the attendees.

Table 1: Project Team

NAME	ORGANISATION AND POSITION
Mr Dave Marsden	Rhodium Reefs Limited: General Manager Eastern Limb Projects
Mr Lucas Berrange	Rhodium Reefs Limited – SHERQ Manager
Mr Elphus Shai	Rhodium Reefs Limited – Community Liaison
Mr Dawie Barnard	Rhodium Reefs Limited – Administrative Manager
Mr Vuyi Mdleleni	Representative of the Black Economic Empowerment (BEE) partner
Mr Kabelo Mphake	Digby Wells Environmental - Public Participation Practitioner
Mr Marcelle Radyn	Digby Wells Environmental- Project Administrator
Ms Sibongile Bambisa	Digby Wells Environmental - Public Participation Practitioner

3 PRESENTATION

A presentation on the Mining Right Application and Environmental Impact Assessment Process for the Rhodium Reefs Project was presented by Mr Kabelo Mphake from Digby Wells Environmental. Mr Dave Marsden presented the company and project background. Refer to Appendix B for a copy of the presentation. The public meeting was conducted in Sepedi and English.

4 OPEN DISCUSSION FORUM

Questions, issues of concern and comments discussed during the meeting are presented in the table below.

Table 2: Issues and comments raised

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
1. ENVIRONMENTAL IMPACT ASSESSMENT			
Public meeting attendee from Ga-Malekane village	Which waste activities will be applied for in the Waste Management Licence Application?	Mr Marcelle Radyn (Digby Wells)	Rhodium Reefs Limited (RRL) is applying for the temporary handling and storage of general and hazardous waste as well as a packaged sewage treatment plant.
	Will a Water Use Licence Application (WULA) be submitted for the proposed Rhodium Reefs project?	Mr Dave Marsden: RRL	RRL has submitted a Water Use Licence application for the Spitskop and Maresburg projects. As soon as it is approved, the licence will be amended to include the proposed Rhodium Reefs project.
2. BLACK ECONOMIC EMPOWERMENT (BEE)			
Mr Daniel Marweshi from Ga-Malekane village	How does one qualify to obtain the BEE shares within the Rhodium Reefs company?	Mr Vuyi Mdleleni: Representative of the Black Economic Empowerment (BEE) partner and Mr Dave Marsden: RRL	Each listed entity has shares listed in the Stock Exchange. If there is a desire to purchase the BEE shares, one has to consult with the shareholders regarding purchasing of shares.
	Will RRL make the BEE shares available to the affected communities	Mr Vuyi Mdleleni: Representative of the Black Economic Empowerment (BEE) partner and Mr Dave Marsden: RRL	The late Mr Zwelakhe Sisulu was in discussion with the Department of Mineral Resources (DMR) regarding the restructuring of the 26% BEE shares to ensure greater participation of the surrounding communities. Those discussions will continue with the Department of Mineral Resources (DMR). The Basadi Babedi Women consortium owns a certain percentage of the BEE shares on the Spitskop operation.

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
3.PROJECT SPECIFIC ISSUES			
	When does RRL anticipate starting construction for the proposed Rhodium Reefs project?	Mr Dave Marsden: RRL	At this stage it is not known when the projects will commence. It is dependent on the timing of the award of all mining rights and authorisations as well as the state of the metal prices that are ruling at the time.
4.SOCIO- ECONOMIC			
Mr Daniel Marweshi Ga-Malekane village	Local businesses were not appointed as service providers during the construction of the Kennedys' Vale concentrator	Mr Dave Marsden: RRL	<p>The main civil contractor appointed for the Kennedys Vale concentrator was Concor on the basis of an open tender. There are no local companies who have the expertise required to take on such large construction work.</p> <p>However, Rhodium Reefs Limited appointed a small civil construction company from the surrounding communities to do some of the smaller tasks. The earth works contract was awarded to Grinaker LTA and RRL insisted that they employed local people wherever possible and not employ any person from outside the communities, if the skills were available locally.</p>
	He was never informed about the business opportunities that were available during the construction of the concentrator. A company from North West Province was appointed by RRL to undertake the construction of the	Mr Dave Marsden: RRL	Wherever possible, if the skills required could be sourced locally, they were. When the skills were not available from within the communities, unfortunately they had to be sourced from outside. If any local businessman wants to work for Rhodium Reefs, they should provide their contact

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
	concentrator.		details and the nature of their business to Mr Elphus Shai to be added to the vendor list. This list was provided to all contractors at the time to enable them to source local sub-contractors.
	Is there a guarantee that local businesses will be utilised during the construction of the proposed Rhodium Reefs project?	Mr Dave Marsden: RRL	Wherever possible, if the skills required can be sourced locally, they will be. When the skills were not available from within the communities, unfortunately RRL will have to look elsewhere.
Mr David representative of the Tubatse Transport Association	He is involved in the transport industry and therefore requested to be informed should Eastplats require transport services.	Mr Dave Marsden: RRL	RRL holds a quarterly stakeholder meeting with the Kgoshi's and Ward Councillors to discuss opportunities available to the local community. The Chiefs and the Ward Councillors pass on the information to the local residents and businesses.
Mr Daniel Marweshi from Ga-Malekane village	The local businesses were not invited to the waste management workshop although they provided their business profiles to Mr Elphus Shai.		Requested local businesses to register their company information with Mr Elphus Shai the Community Liaison Officer.
5.PUBLIC PARTICIPATION PROCESS			
Mr David from Ga-Malekane village	The Draft Scoping Report has not been made available at the Ga-Masha village He attempted to view the report at the Ga-Malekane village however was refused access to view the report.	Kabelo Mphake Digby Wells	An electronic copy (CD) of the draft Scoping report was handed out at the meeting. A copy of the final Scoping Report will be made available at the Ga-Masha Traditional Authority.
Ms Julia Makofani from Ga-Malekane village	Recommended that the EIA reports to be made available at the public libraries.		Comment noted. Contact details of those interested in

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
Mr Thabo Mapodile from Ga- Malekane village	The EIA reports must be made available at the SANCO offices instead of the Municipal Offices. The municipality officials deprive the local community of important information.		receiving an electronic copy of the report were recorded after the public meeting. Five copies will be posted on 30 January 2013.
6. GENERAL			
Mr Thabo Mapodile Ga- Malekane village	Why is RRL only engaging with Kgoshi's and Ward Councillors? The broader community as a whole must also be engaged in the quarterly meetings held between RRL, the local Chiefs and the Ward Councillors.	Mr Dave Marsden: RRL	RRL has in the past held community meetings however there was poor attendance. A decision was then made that only the representatives of the community will be invited to the quarterly meetings. This decision will be revisited to include the broader community.
Mr Daniel Marweshi Ga- Malekane village	The local Chiefs and Ward Councillors do not provide feedback to the community regarding the quarterly meetings held with RRL. An appropriate means to disseminate information to the community at large must be formulated.		RRL will investigate other means to ensure effective communication with the communities. All were encouraged to submit recommendations to RRL on how the community wish to be engaged or consulted.
Public meeting attendee Ga- Malekane village	The Kgoshi informed the community that the public meetings were to be held on 19 & 20 January 2013		Comment noted.

ACTION ITEMS

During the meeting various action items were discussed, please refer to Table 3 for the action items.

Table 3: Action Items discussed during the meeting

Action Item	Responsible Party
Post 5 CD copies of the Draft Scoping Report	Digby Wells
Place the EIA reports at the library and the SANCO offices	Digby Wells
Investigate options to effectively engage with stakeholders	RRL
Send business profiles to East plats' community Liaison Officer	Local businessmen/ women

5 CLOSURE

The meeting was adjourned at 11H00 and Kabelo Mphake thanked everyone for attending the meeting.

12 February 2013

3 PRESENTATION

A presentation on the Mining Right Application and Environmental Impact Assessment Process for the proposed Rhodium Reefs Project was presented by Mr Kabelo Mphake from Digby Wells Environmental. Mr Dave Marsden presented the company and project background. Refer to Appendix B for a copy of the presentation. The public meeting was conducted in Sepedi and English.

4 OPEN DISCUSSION FORUM

Questions, issues of concern and comments discussed during the meeting are presented in the table below.

Table 2: Issues and comments raised.

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
1. BLACK ECONOMIC EMPOWERMENT (BEE)			
Mr Sola Ga-Phasha village	<p>Will Rhodium Reefs Limited (RRL) make provision for the local community and land claimants to participate in the BEE shareholding of the company?</p> <p>RRL must meet with the affected communities to discuss the BEE shareholding that will be offered to the affected communities.</p>	Mr Dave Marsden: RRL	<p>RRL is in the process of engaging with the Department of Mineral Resources (DMR) on a suitable BEE structure to ensure greater participation of the surrounding local communities.</p> <p>The late Mr Zwelakhe Sisulu was in discussions with the DMR regarding the restructuring of the 26% BEE shares to ensure greater participation of the surrounding communities. These discussions will still continue with the DMR.</p> <p>The Basadi bababedi Women consortium owns a certain percentage of the BEE shares on the Spitzkop operation.</p>
2. PROJECT LOCATION			
Councillor Hlatshwayo Ga-Phasha village	Will the farms De Goedeverwachting 332KT and Boschkloof 331 KT be affected by the proposed Rhodium Reefs project?	Mr Dave Marsden: RRL	The Mining Right Application for Rhodium Reefs includes the following farms: De Goedeverwachting 332KT and Kennedy's Vale 361 KT Boschkloof 331 KT, Tweefontein 360 KT; and Belvedere 362 KT. The only impact on the surface land is planned on De Goedeverwachting
3. SOCIO-ECONOMIC			
Public meeting attendee Ga-Phasha village	RRL must provide the exact number of people that will be employed for the	Mr Dave Marsden: RRL	At this stage it is not known exactly how many people will be employed at the proposed project. The company's philosophy is to recruit local people

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
	<p>proposed Rhodium Reefs project.</p> <p>Prior to the construction of the Madikwe Mine, about 200 local people were selected to take part in the skills training programme. RRL must also consider selecting people from the community to be part of their skills training programme prior to the construction of the proposed Rhodium Reefs mine.</p>		<p>wherever possible and this was demonstrated during construction of the Kennedy's Vale concentrator.</p> <p>During the construction of the Kennedy's Vale concentrator, RRL met with the five local Chiefs and the Ward Councillors on a quarterly basis. In these quarterly meetings, RRL has made it clear that it is committed to provide preferential employment and skills training programmes to the surrounding communities to work at its operations.</p> <p>The skills training programme was offered to candidates from the local community. A total 50 people were recruited from the local communities to be trained by Goldfields at the training colleges in Welkom and Steelploort, 48 of those learners qualified as artisans (boiler makers, electricians, riggers and fitters e.t.c). Of the 48 learners, 12 candidates were from the Ga-Phasha community. RRL also employed local people for all of the semi-skilled and unskilled positions where suitable candidates could be found.</p> <p>After cessation of the Spitzkop and Kennedy's Vale projects most of the artisans trained by RRL have found alternative employment but on re-commencement of the project the company will once again train local people.</p>

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
Public meeting attendee Ga-Phasha village	How will RRL assist the community to ensure that there are no jobs lost post closure of the mine?	Dave Marsden: RRL Dawie Barnard: RRL	There will undoubtedly be jobs lost on closure of the mine operations and the company's Social and Labour Plan outlines a plan to minimise the impact on closure. SLP requires a future forum to be established which will ensure re-employment after closure.
Public meeting attendee Ga-Phasha village	The community will provide RRL with a social licence to start mining. However, RRL needs to make a commitment to the community regarding their willingness to ensure that the local communities will participate in the skills training programme. In addition the company needs to indicate the type of training which will be offered and how many people will be recruited for the skills training programme. Prior to the construction of the proposed mine, RRL must provide appropriate skills training programmes to the affected communities.	Dave Marsden: RRL	At this stage it is not known when the proposed project will commence. RRL is committed to providing employment opportunities and skills training to the surrounding communities.
Public meeting attendee Ga-Phasha village	How many people will be recruited to work at the proposed Rhodium Reefs mine?	Dave Marsden: RRL	The number of people who will be employed at the proposed Rhodium Reefs mine is still unknown. RRL is still uncertain in terms of when the proposed

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
			<p>mine will start being operational. The question on when the mine will be operational is dependent on the timing of the award of all mining rights and authorisations as well as the state of the metal prices that are ruling at the time.</p> <p>The platinum industry is currently in a crisis but RRL has to complete the required permitting process with the DMR. When the process was commenced in November 2011 world economies and the platinum market were buoyant but they are not right now.</p>
Kgoshigadi Ga-Phasha village	Requested RRL to refrain from engaging only with the local Chiefs. This causes further division amongst the Chief and the community. If the community is side-lined, the progress of the proposed project will be stunted. RRL must engage with the broader community.	Mr Vuyi Mdleleni RRL	<p>Comment noted. RRL currently engages with the community through local Chiefs and ward Councillors but they are aware of the concerns and will investigate further communication forums.</p> <p>Proposed for the community to a sign petition to be submitted to the office of the Premier.</p>
Mr Shola Ga-Phasha village	Raised a concern that RRL's Community Liaison Officer (CLO) liaises with only one affected community and neglects the other communities.	Dave Marsden: RRL	The CLO is appointed to represent the interests of the company with the communities; they are not appointed to represent the communities (currently the Kgoshi's represent the communities). The CLO speaks to all Chiefs and Ward Councillors on behalf of the Company and cannot appoint a CLO for every community right now.
Public meeting attendee Ga-Phasha village	The community has no trust in the current CLO. It was proposed that a new CLO from the Ga-Phasha community should be appointed.		

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
	<p>The community from Ga-Phasha will grant a social licence to RRL to mine in the area, provided the company commits to constructing a water purification tank for the surrounding communities.</p>	Dave Marsden :RRL	The operation will have a water treatment facility for the staff on site.
	<p>There is no need to request RRL to build a water purification tank for the community. RRL is fully aware of the needs of the community. Indicated that the community will protest if RRL fails to agree to the communities' request.</p> <p>The roads are in a bad condition, and all the mining companies in the area are not doing anything about the damaged roads.</p>	Dave Marsden: RRL	RRL has to develop projects according to the Integrated Development Plan (IDP) of the local municipality. If the community wishes to have their needs addressed by a mine they must petition to have them added to the IDP. Once they are added a mine can address these needs. RRL has made undertakings to the DMR in terms of the Social and Labour Plan to undertake certain LED projects on the current list, subject to the approval of the DMR.

Mr Dave Marsden: RRL	The Company has made commitments in the SLP and when the mine is in operation, the company will work closely with the communities to identify the most pressing needs for investment.
Public meeting attendee Ga-Phasha village	How will the affected communities benefit from the proposed Rhodium Reefs project?		The company will be making an investment in the area and provide a certain amount of employment. In addition it will honour commitments for LED projects as stipulated in the SLP.
Mr Jimmy Ga- Phasha village	There are people within the community who have experience in Human Resources and Office Administration. The	Dave Marsden: RRL	When the company starts recruiting it will again work closely with communities to identify local

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
	community can provide names of people who can fill positions in the proposed Rhodium Reefs mine.		people for employment.
Public Meeting attendee Ga-Phasha village	<p>The skills training programme that will be provided to the local people must be compliant with the Mining Qualifications Authority (MQA) to ensure that the skills provided are industry wide. The 50 candidates from the local community were enrolled in a semi-skilled training programme, which was not recognised by other mining companies.</p> <p>The candidates who will be recruited for training must be equipped with appropriate skills which enable them to work at other mining companies.</p>	Mr Dave Marsden: RRL	The skills training programme that was provided to the 50 candidates was an industry recognised training programme aimed specifically at increasing the number of technical artisans from the local communities. These skills are portable and the candidates that were selected to participate in the skills training programme have found alternative work after completion of their training.

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
Public Meeting attendee Ga-Phasha village	<p>It seems that students who studied commercial subjects, like economics, are being side lined. Majority of people in the community have studied commercial subjects.</p> <p>The selection criteria for the skills training programme must be extensive. RRL must recruit candidates who have a background in Science and Commercial subjects.</p>	Mr Dave Marsden: RRL	<p>Mining requires technically oriented people to run the operations and to get such technical background we need people who have skills in Maths and Science. Maths and Science are the key requirements in the mining industry. People who studied commercial subjects will be considered for a skills training programme once the proposed Rhodium Reefs mine is established and fully operational.</p> <p>In a case where there is an extreme shortage of skills, the priority will be to train people who will be able to work at the mine.</p>
4. SURFACE AND GROUNDWATER			
Public meeting attendee Ga-Phasha village	How will the community know if their underground water is contaminated by RRL's mining activities? The community solely relies on underground water for drinking	<p>Mr Marcelle Radyn Digby Wells Environmental</p> <p>Mr Kabelo Mphake Digby Wells Environmental</p>	<p>The water specialist will take water samples to establish baseline information and check water quality prior to the construction of the proposed mine. During the operational phase of the proposed mine the water specialist will regularly monitor the quality of the water.</p> <p>Water samples will be taken to measure the quality of water. During the operation phase, monitoring will be conducted regularly and the results will be submitted to the Department of Water Affairs</p>

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
		Mr Lucas Berrange: RRL	(DWA). RRL monitors water quality regularly to check the levels of, for example, nitrate. RRL has been transparent about the results of water quality. Feedback on the results is provided at the stakeholder quarterly meetings.
Public meeting attendee Ga-Phasha village	The community will keep the attendance registers until such time RRL is ready to make commitments on developing the community.	Mr Kabelo Mphake Digby Wells	Comment noted.

ACTION ITEMS

During the meeting various action items were discussed, please refer to Table 3 for the action items.

COMMUNITY HALL: MINING RIGHT APPLICATION AND ENVIRONMENTAL
AUTHORISATIONS FOR THE PROPOSED EXTENSION OF THE EXISTING SPITZKOP /
RHODIUM REEFS PLATINUM MINE FOCUSED ON THE EXTRACTION OF THE UG2
PLATINUM REEF**

A public meeting was held on 16 January 2013, 12h00 at the Ga-Phasha community hall in Steelploort, Limpopo Province:

The objectives of the meetings were to:

- Engage in Public Consultation and present the Environmental Impact Assessment and Mining Right Application Process for the Rhodium Reefs project;
- Provide an overview of the project and what it will entail; and
- Obtain comments and inputs from Interested and Affected Parties' (I&APs) on the Draft Scoping Report for the Rhodium Reefs project.

Please find attached a copy of the draft minutes for your perusal and comment. Kindly review these minutes and submit comments to the Public Participation Office.

Comments can be forwarded to:

3 PRESENTATION

A presentation on the Mining Right Application and Environmental Impact Assessment Process for the proposed Rhodium Reefs Project was presented by Mr Kabelo Mphake from Digby Wells Environmental. Mr Dave Marsden presented the company and project background. Refer to Appendix B for a copy of the presentation. The public meeting was conducted in Sepedi and English.

4 OPEN DISCUSSION FORUM

Questions, issues of concern and comments discussed during the meeting are presented in the table below.

Table 2: Issues and comments raised.

NAME AND ORGANISATION	COMMENT RAISED	RESPONDENT	RESPONSE
1. BLACK ECONOMIC EMPOWERMENT (BEE)			
Mr Sola Ga-Phasha village	<p>Will Rhodium Reefs Limited (RRL) make provision for the local community and land claimants to participate in the BEE shareholding of the company?</p> <p>RRL must meet with the affected communities to discuss the BEE shareholding that will be offered to the affected communities.</p>	Mr Dave Marsden: RRL	<p>RRL is in the process of engaging with the Department of Mineral Resources (DMR) on a suitable BEE structure to ensure greater participation of the surrounding local communities.</p> <p>The late Mr Zwelakhe Sisulu was in discussions with the DMR regarding the restructuring of the 26% BEE shares to ensure greater participation of the surrounding communities. These discussions will still continue with the DMR.</p> <p>The Basadi bababedi Women consortium owns a certain percentage of the BEE shares on the Spitzkop operation.</p>
2. PROJECT LOCATION			
CouncillorHlatshwayo Ga-Phasha village	Will the farms De Goedeverwaching 332KT and Boschkloof 331 KT be affected by the proposed Rhodium Reefs project?	Mr Dave Marsden: RRL	The Mining Right Application for Rhodium Reefs includes the following farms: De Goedeverwaching 332KT and Kennedy's Vale 361 KT Boschkloof 331 KT, Tweefontein 360 KT; and Belvedere 362 KT. The only impact on the surface land is planned on De Goedeverwaching
3. SOCIO-ECONOMIC			
Public meeting attendee Ga-Phasha village	RRL must provide the exact number of people that will be employed for the	Mr Dave Marsden: RRL	At this stage it is not known exactly how many people will be employed at the proposed project. The company's philosophy is to recruit local people

5 CLOSURE

The meeting was adjourned at 13H00 and Mr Kabelo Mphake thanked everyone for attending the meeting.

ENVIRONMENTAL AUTHORISATIONS FOR THE PROPOSED RHODIUM REEFS PLATINUM MINE FOCUSED ON THE EXTRACTION OF THE UG2 PLATINUM REEF

**PUBLIC MEETING – SCOPING PHASE
16 AND 17 JANUARY 2013**

Meeting Agenda

- Welcome and Opening Prayer
- Meeting Objectives and Administrative Issues
- Introductions
- Presentation on the Rhodium Reefs project
- Discussion and Questions
- Closure and Way Forward

Objectives of the Meeting

The objectives of the public meeting are to:

- present the content of the Draft Scoping Report and the EIA Process
- provide an overview of the project and what it will entail
- obtain comments and inputs from I&APs on the Draft Scoping Report

Meeting Approach

- Meeting to be conducted in English and Sepedi
- All are welcome to ask questions in the language of their choice
- Sign the attendance register to ensure that we can contact you in the future
- Kindly switch off cell phones
- Please hold all questions and comments until the end of the presentation (will revisit presentation where necessary)
- Minutes of the meeting will be made available to I&APs

Project Team

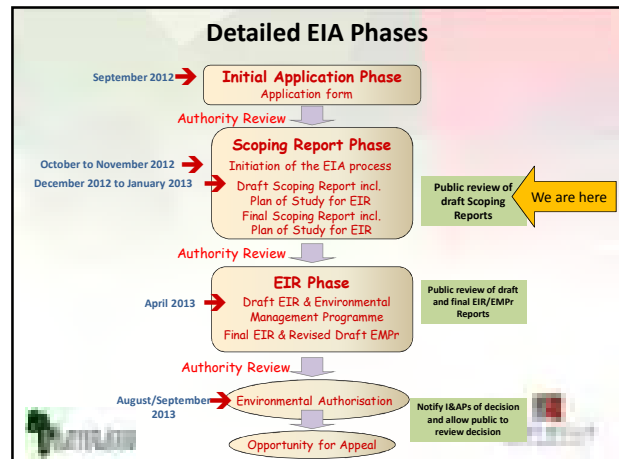

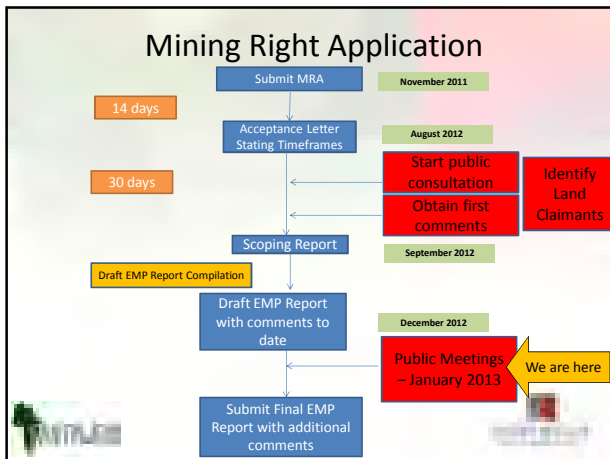

Digby Wells Environmental	Eastern Platinum Limited
<input type="checkbox"/> Johan Hayes – Project Manager	<input type="checkbox"/> Dave Marsden – General Manager Eastern Limb Projects
<input type="checkbox"/> Marcelle Radyn – Project Administrator	<input type="checkbox"/> Lukas Berrange – SHERQ Manager
<input type="checkbox"/> Kabelo Mphake – Public Participation Practitioner	<input type="checkbox"/> Mr Vuyi Mdeleleni – Representative BEE partner
<input type="checkbox"/> Sibongile Bambisa – Public Participation Practitioner	<input type="checkbox"/> Dawie Barnard – Administrative Manager
	<input type="checkbox"/> Elphus Shai – Community Liaison

Rhodium Reefs Process

Marcelle Radyn – EAP, Digby Wells Environmental

Legislative Context

- Rhodium Reef Limited an Eastplats Group Ltd (Eastplats) company has applied for a Mining Right in accordance with Section 22 of the Mineral and Petroleum Resources Development Act (MPRDA), Act No. 28 of 2002.
 - A Mining Right Application was lodged with the Limpopo Department of Mineral Resources in **November 2011**
 - The application was accepted in **August 2012**

In addition, the following authorisations are being applied for:

- Environmental Authorisation from the Limpopo Department of Economic Development, Environment and Tourism (LEDET) in terms of the National Environmental Management Act (NEMA), Act No 107 of 1998 and associated Environmental Impact Assessment (EIA) Regulations (GNR. 543 of 18 June 2010).
- Waste Management Licence from the LEDET in terms of the National Environmental Management: Waste Act (NEM:WA), Act No. 59 of 2008.
 - An EIA registration was submitted to LEDET in **September 2012**
 - The public participation process started on **September 2012**
 - The EIA registration was accepted in **October 2012**
 - We anticipate submitting the initial EIA Report in **April 2013**

Process to date

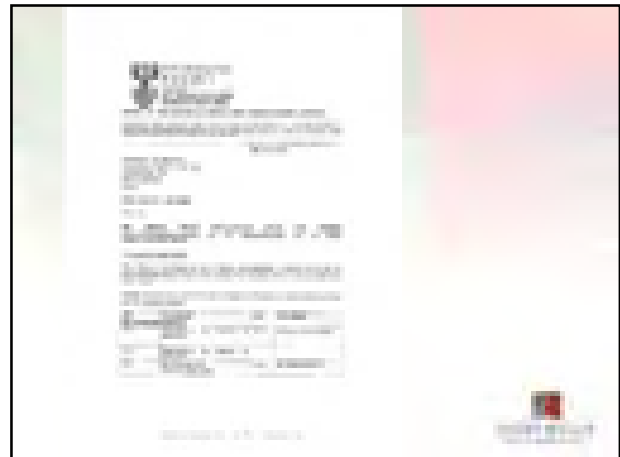

- Comments were received from I&APs, and those were recorded in the comment and response report which will be submitted to the authorities for consideration
- Further comments have been received from individuals and from the land claimants, and will be submitted to the authorities along with the comments received today, together with company responses
- The authorities will decide if the responses are sufficient or require further investigation
- Once a record of decision has been awarded, any I&AP has the right to appeal against that decision

Process to date continued

- The various key government departments that were invited to the public meetings include:
 - Department of Mineral Resources,
 - Limpopo Department of Economic Development, Environment and Tourism,
 - Department of Rural Development and Land Reform, office of the Land Claims Commissioner,
 - Department of Water Affairs and
 - Greater Tubatse Local Municipality.

Correspondence with the Land Claims Commissioner

- The company has communicated with the land claims commissioners office regarding all land claims over the affected areas and engaged them regarding the appropriate process to be followed with such claimants

Company and Project Background

*Dave Marsden - General Manager
Eastern Limb Projects*

Who is Eastern Platinum Limited

- Eastern Platinum Limited (Eastplats) is a mining company listed on TSX, AIM (London) and JSE :
- It has the following operations in South Africa:

Western Limb Bushveld :

- Crocodile River Mine (CRM) in Brits, North-West Province

Eastern Limb Bushveld Projects:

- Spitzkop project in the Steelpoort valley , Limpopo Province; and
- Mareesburg project, Limpopo Province

Company Structure

Projects Summary

- Spitzkop project
- Mareesburg project
- The DGV / Kennedy's Vale project extension to the Spitzkop project

Eastern Limb Bushveld Complex Projects

- The Eastplats Group company, Spitzkop Platinum (Spitzkop), holds a Mining Right over the farm Spitzkop 333KT and an approved environmental authorisation which includes the approval to build a concentrator on Kennedy's Vale 361KT
- Work on developing a **shallow underground mine** on the farm Spitzkop 333KT commenced in 2007 and was stopped in 2008
- Work on developing the concentrator on Kennedy's Vale was stopped in Oct 2012
- Another Eastplats Group company holds a mining right over the farm Mareesburg 8JT and an approved environmental authorisation to develop an open cast mine on the property

Eastern Limb Bushveld Complex Projects

- The ore mined at Mareesburg will also be directed to the concentrator on Kennedy's Vale
- Rhodium Reefs is applying for this mining right and environmental authorisation to form an extension of the Spitzkop project
- Rhodium Reefs has been the holder of prospecting rights on the same farms from the mid 1980's
- Eastplats owns approximately 74% of Spitzkop, Mareesburg and Rhodium Reefs, however the 26% Black Economic Empowerment (BEE) component is different for each entity

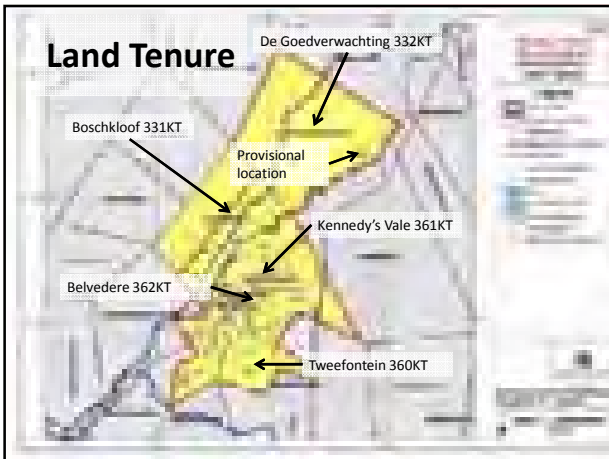

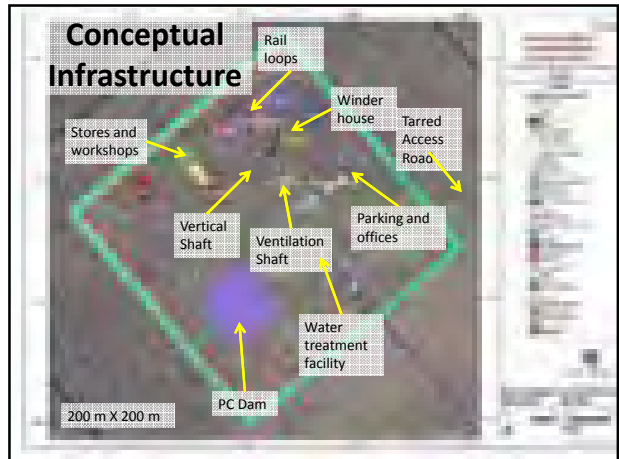

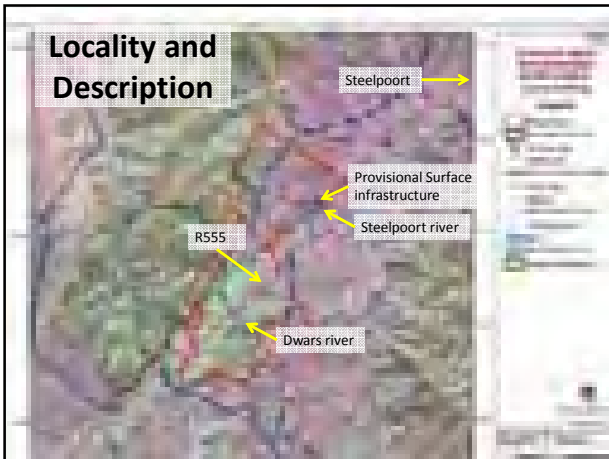

*

Rhodium Reefs Project Description

*Marcelle Radyn – EAP, Digby Wells
Environmental*

Rhodium Reefs Project Description

- The planned underground mine on the farm Spitzkop will extend onto the following farms:
 - De Goederwachting 332KT and Kennedy's Vale 361 KT
 - Later onto some of the adjacent portions of the farms:
 - Boschkloof 331 KT, Tweefontein 360 KT; and Belvedere 362 KT
- The proposed project will exploit the UG2 platinum reef with depths between 250 m and 1700 m below surface
- Extended area will enable the scale of mining operations to be increased (partly through the use of the existing vertical shaft infrastructure on Kennedy's Vale)
- Final size and exact location of new infrastructure still needs to be confirmed with land owners
- Separate negotiations to lease the property will be undertaken with the Department of Rural Development and Land Reform in conjunction with the land occupiers and claimants as per the directive from Rural Development

Specialist Studies

DMR Reference: LP30/5/1/2/2/10009MR

LEDET Reference:12/1/9/2-GS24

Specialist Studies to be conducted on the new areas

- Aquatic Assessment
- Topography and Visual Assessment
- Soils, Land Capability and Land Use
- Hydrology and Geohydrology
- Air Quality and Dust
- Noise
- Ecology (fauna, flora, sensitive landscapes)
- Heritage / Archaeological and Social Impact Assessment

Potential Impacts

- **Groundwater**
 - Drawdown of aquifers (lowering of water table) impacting surrounding water users
- **Surface water**
 - Increase in sedimentation
 - Changes in water quality/quantity affecting aquatic environment
- **Noise and Visual**

Potential Impacts

- **Socio-Economic**
 - ☐ **Positive Impacts:**
 - Employment, Training, Business opportunities, Rhodium Reefs involvement in community development, Municipal supply of services
 - ☐ **Negative Impacts:**
 - Influx of job seekers, Job losses after mine closure, Municipal supply of services,

Public participation process

- Public Participation forms an integral part of the process to obtain environmental authorisations.
- **Objectives:**
 - ☐ Identify, confirm and register all Interested and Affected Parties (I&APs)
 - ☐ Ensure that I&APs receive sufficient, accurate, and accessible project information
 - ☐ Provide I&APs with the opportunity to raise issues of concern with the relevant government authorities
 - ☐ Record and provide feedback on issues of concern and comments from I&APs

Public Participation – Scoping phase

Announcement to I&APs	Background Information document, Newspaper advertisement, Site notices – 19 September 2012
Public Review of Draft Scoping Report (DSR)	Letters and SMS's were sent to I&APs to announce the availability of the DSR - 3 December 2012
Comments and Response Report	Update to include comments received from the meetings to date
Submit Final Scoping Report (Authority & public)	Letters and SMS's will be sent to I&APs to announce the availability of the FSR.

Public Participation – Scoping phase

continued

Site Notices were put up in September 2012

Draft Scoping Report (DSR) available for public review

The Draft Scoping Report has been made available for comment from 4 December 2012 to 30 January 2013 at:

- ☐ Greater Tubatse Municipality - Mapodile Satellite office
- ☐ Greater Tubatse Municipality – Burgersfort Public library
- ☐ Ga-Malekane Traditional Council
- ☐ Ga-Mampuru Traditional Council
- ☐ Roka Phasha Traditional Council
- ☐ Bengwenya Traditional Council
- ☐ CDs on request
- ☐ Digby Wells web site

> www.digbywells.com

How can you participate ?

- Register as a stakeholder by contacting Digby Wells
- Contact Rhodium Reefs to request a private meeting
- Provide us with your comments, suggestions and concerns
- Copies of all documents will be available for public review at public places on the Digby Wells website and CD's upon request

Closure and Way Forward

- Public review period of the draft Scoping reports ends on **30 January 2013**
- Distribute the minutes of the public meeting to all registered I&APs
- Final Scoping Report will be submitted to LEDET and also be made available for public review in **February 2013**
- Compile draft EIR and place on public review in **April 2013**

COMMENTS AND RESPONSE REPORT

COMMENTS AND RESPONSE REPORT

ENVIRONMENTAL AUTHORISATIONS FOR THE PROPOSED EXTENSION OF THE EXISTING SPITZKOP / RHODIUM REEFS PLATINUM MINE FOCUSED ON THE EXTRACTION OF THE UG2 PLATINUM REEF PROJECT

Final Scoping Report

January 2013

This Comments and Response Report (CRR) provides a summary of the comments, questions and issues raised by stakeholders since September 2012. Processes to obtain several Environmental Authorisations are being undertaken for the proposed development of the Rhodium Reefs Platinum Mine. These processes include:

- A Mining Right from the Department of Mineral Resources (DMR) in accordance with Section 22 of the Mineral and Petroleum Resources Development Act (MPRDA), Act No. 28 of 2002.
- Environmental Authorisation from the Limpopo Department of Economic Development, Environment and Tourism (LDEDET) in terms of the National Environmental Management Act (NEMA) (Act No 107 of 1998) and Associated Environmental Impact Assessment (EIA) Regulations (GNR. 543 of 18 June 2010).
- An Integrated Water Use License (IWUL) from the Department of Water Affairs (DWA), Mpumalanga Province in terms of the National Water Act (NWA) (Act No. 36 of 1998).

This report includes stakeholder comments being recorded throughout the authorisation processes. The CRR will be updated throughout the EIA process:

- CRR was appended to the Draft Scoping Report which will be available for public review from 4 December 2012 to 30 January 2013;
- CRR has been updated and appended to the Final Scoping Report which is available for public review;
- Updated CRR will be appended to the Draft EIA Report and will include all comments from stakeholders on the Final Scoping Report which will be made available for public review.
- Final CRR will be appended to the Final EIA Report and will include comments from stakeholders on the Draft EIA Report.

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
1. LAND RIGHTS			
Fax: 28 September 2012	Mr Kgoputso Segokodi: Trustee of the Babina Noko Ba Ga Mampuru Community Trust	The prospecting rights granted to Eastplats for the Spitzkop project have been awarded on the land owned and occupied by the Babina - Noko Ba Ga Mampuru community.	Comment noted. Please be advised that you have been registered as an interested and affected party and will be kept informed of the project progress.
E-mail: 7 January 2013	Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust.	<p>It is a known fact that the mineral bearing reefs on this property outcrop to the surface. It follows therefore that the reefs also lie close below the surface over a large part of some of the Properties with the shallowest reefs occurring below the Steelport River and the valley on the north-eastern side of those Properties.</p> <p>Prospecting involves the intentional search for minerals by using techniques such as drilling and trenching which disturb the surface. Shallow reefs are generally mined by opencast methods. Once the reefs are exposed, the overburden waste rock is cast into huge rock piles. Mining of shallow reefs is known to cause sink holes and subsidence.</p> <p>It is unfortunate that the shallowest reefs occur where the most fertile ground occurs.</p> <p>It appears that the reefs under those Properties are economically mineable and it is fair to say that once</p>	<p>The comment is correct that there is ore which is outcropping on the farm De Goedeverwachting but it is highly disturbed and has the nature of a Split Reef facies. At this stage no opencast mining is envisaged and the mining plan put forward in the Mining Works Programme envisages mining taking place between 250 and 1 700 metres below the surface. The only surface disturbance will be the shaft and infrastructure area, which is only 200 by 200 metres.</p> <p>In the DSR not all the answers were readily available, hence the responses were only noted. However all of the comments and concerns will have formal</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>prospecting has been completed, the holder will apply for a mining right like now.</p> <p>Should mining commence, this will inevitably lead to large parts of the Properties being used, undermined and ruined by mining related activities with the concomitant reduction of valuable land available to the Community (ploughing, grazing etc.). This undermines our land claim without any benefit being derived for the Community.</p> <p>The rights of mineral right holder and the rights of the land owner become blurred where the minerals are close to the surface.</p> <p>The relationship between prospecting and mining on the one hand and the rights to the use of the surface on the other hand is complicated especially where there is competition between holders of mineral rights and land usage rights. Indeed, on any land where the minerals occur naturally close to the surface, it is imperative that all interested and affected parties are notified and consulted prior and not post any decision which can affect the others rights.</p> <p>It is incumbent upon the applicant of a prospecting/mining permit and right to explain in great detail the consequences of prospecting and mining on the land in order for some agreement to be reached. Not the bulldozing we see by Digby Wells/Rhodium Reefs to try and rush the approval</p>	<p>responses by the time the final EIA is submitted.</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>of this mining right application. You can see that in the DSR document where they just say “NOTED”, to every question from the public and directly affected communities, and not saying or giving facts on how are they going to resolve all the concerns raised by the participating communities or directly affected parties. We are really concerned by these consulting method or system. Issues need to be addressed or an intention needs to be shown that Digby Wells/Rhodium Reefs are willing to address them, and not what we are witnessing in the current DSR document.</p>	
2. ARCHEOLOGY			
<p>Post: 8 October 2012</p>	<p>Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust.</p>	<p>The Babina Phuthi ba Makola Mashego community have their ancestral graves scattered on the various portions of the farms Kennedy’s Vale 361 KT, De Goedeverwachting 332 KT, Boschkloof 331 KT, Tweefontein 360 KT and Belvedere 362 KT.</p> <p>Rhodium Reefs Pty (Ltd) (Rhodium Reefs) needs to involve the community and the Department of Mineral Resources before any extension of the mining operation can be undertaken on the affected farm portions because on these farms are protected heritage sites which should not be disturbed for the Makola community.</p>	<p>A heritage impact study will be conducted as part of the EIA process and findings thereof will be included in the Environmental Impact Report (EIR) which will be made available for public review.</p> <p>Rhodium Reefs have open communication channels with the authorities and the communities. The Department of Mineral Resources, Department of Land Affairs, Department of Environmental Affairs and the local Chiefs have already been informed of the project. A Notice of Intent to Develop and Heritage Statement has been submitted to the South African Heritage Resources Agency (SAHRA) and</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			also the Limpopo Provincial Heritage Agency.
E-mail 7 January 2013		<p>There are ancestral graves which are many (+-50) and scattered all over the Properties. It is fair to say that it is only our Community elders who know precisely where our ancestral graves are to be found. The failure by Rhodium Reefs to consult with us is in violation of our Constitutional rights in this regard. Digby Wells' comments of just stating "comments noted and Archeologists will be attending to that" in their DSR document is worrying, because nothing has happened to date and our graves are being disturbed badly by Rhodium Reefs. In our culture, you cannot drive big machines or bulldozers 50m around graves, especially the older ones, because that causes a huge amount of disturbances and the worse that can create huge amount of sufferings to the still alive descendants or relatives of those ancestors, as ancestors will be complaining from that noise and frightening disturbances. It is currently happening at Kennedysvale. But Digby Wells keeps misleading the public in their document of which is very dangerous.</p>	<p>Rhodium Reefs has not yet entered the construction phase hence there have not been any heavy vehicles or machinery in the vicinity, belonging to Rhodium Reefs.</p> <p>The Digby Wells archaeology team are going to the shaft and infrastructure site during February 2013 to identify any sites with archaeological or heritage value. If any are found, they will be brought to the attention of Rhodium Reefs and appropriate measures taken to protect them.</p>
		<p>We will not permit Rhodium Reefs to mine on our ancestral land after they have mistreated us in this fashion, unless they engage and meaningfully include all the disadvantaged, directly affected communities as per the South African Mining Charter.</p>	<p>Rhodium Reefs have taken all the necessary measures, as required by law, to include all interested and affected parties in their application for the mining right and the environmental</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			authorisation. There has also been regular quarterly communication with the five traditional Chiefs of the area and the Ward Councillors.
Ga-Mampuru Public Meeting : 17 January 2013	Public meeting attendee	Expressed a concern that the graves were disturbed at the Spitzkop project. The issue was raised with the representative from RRL. It is alleged that the company paid a bribe to some individuals in the community to allow it to continue mining.	The company has relocated some graves on Kennedy's Vale and has followed the full and correct process in doing so. Descendants of all graves have given their full approval and were happy with the process. No bribes were paid but the company did pay Wake Fees to enable Traditional procedures to be followed.
3. SOCIO-ECONOMIC			
Registration forms: 22 October 2012	Mrs Patricia Matuma Mdebele: resident Magaseng section	The proposed project must bring about socio-economic development to the local communities.	Comment noted. The proposed Rhodium Reefs project will provide direct economic benefits to local communities through employment opportunities. There is the potential for direct employment to be created through the various project phases (during both the construction and operation). Rhodium Reefs has prepared a Social Labour Plan which outlines
Registration forms: 22 October 2012	Mr Klass Choma (residents) Mahlkwena village), Ms Rachel Morura: Ga-Malekana Traditional Authority), Mr De-suy Makola: Ga Rantho village, Mr Peter Makola, Ms Moipone Kgole: Ga-Masha village, Andronicca Malekane Kutullo section	The proposed project must bring about opportunities for local businesses and youth in the area.	

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
E-mailed:18 October 2012	Miss Sarah Mkhombothi, Mr Mandla Kenny Sibanyone: Ga-Malekane Traditional Authority	Requested, that Reconstruction and Development Programme housing must be constructed for the community.	the proposed local economic development projects which will benefit the surrounding communities.
Registration forms:22 October 2012	Ms Thabaha Sebola: Resident Ga-Malekane Traditional Council	The proposed project will reduce poverty levels in the Tsakane village.	
	Ms Lomathinda Caroline Nkosi: Resident from the Stocking/Magasendg section	He is eagerly awaiting the positive benefits which will be brought about by the proposed project.	
	Mr Judas Seekane Morura: resident Ga-Malekane Traditional Authority	Security must be provided to the livestock in the villages.	
Ga-Malekane Public Meeting 16 January 2013	Mr Daniel Marweshi Ga-Malekane village	Local businesses were not appointed as service providers during the construction of the Kennedys' Vale concentrator	<p>The main civil contractor appointed for the Kennedys Vale concentrator was Concor on the basis of an open tender. There are no local companies who have the expertise required to take on such large construction work.</p> <p>However, Rhodium Reefs Limited appointed a small civil construction company from the surrounding communities to do some of the smaller tasks. The earth works contract was awarded to Grinaker LTA and RRL insisted that they employed local people wherever possible and not employ any person from outside the communities, if the</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			skills were available locally.
Ga-Malekane Public Meeting: 16 January 2013	Mr Daniel Marweshi Ga-Malekane village	He was never informed about the business opportunities that were available during the construction of the concentrator. A company from North West Province was appointed by RRL to undertake the construction of concentrator	Wherever possible, if the skills required could be sourced locally, they were. When the skills were not available from within the communities, unfortunately they had to be sourced from outside. If any local businessman wants to work for Rhodium Reefs, they should provide their contact details and the nature of their business to Mr Elphus Shai to be added to the vendor list. This list was provided to all contractors at the time to enable them to source local sub-contractors
Ga-Malekane Public Meeting: 16 January 2013	Mr Daniel Marweshi Ga-Malekane village	Is there a guarantee that local businesses will be utilised during the construction of the proposed Rhodium Reefs project?	Wherever possible, if the skills required can be sourced locally, they will be. When the skills were not available from within the communities, unfortunately RRL will have to look elsewhere.
Ga-Malekane Public Meeting: 16 January 2013	Mr David representative of the Tubatse Transport Association	He is involved in the transport industry and therefore requested to be informed should Eastplats require transport services.	RRL holds a quarterly stakeholder meeting with the Kgoshi's and Ward Councillors to discuss opportunities available to the local community. The Chiefs and the

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			Ward Councillors pass on the information to the local residents and businesses.
Ga-Malekane Public Meeting: 16 January 2013	Mr Daniel Marweshi representative of the Tubatse Transport Association	The local businesses were not invited to the waste management workshop although they provided their business profiles to Mr Elphus Shai.	Requested local businesses to register their company information with Mr Elphus Shai the Community Liaison Officer.
Ga-Phasha Public meeting: 17 January 2013	Public meeting attendee Ga-Phasha village	RRL must provide the exact number of people that will be employed for the proposed Rhodium Reefs project.	<p>At this stage it is not known exactly how many people will be employed at the proposed project. The company's philosophy is to recruit local people wherever possible and this was demonstrated during construction of the Kennedy's Vale concentrator.</p> <p>During the construction of the Kennedy's Vale concentrator, RRL met with the five local Chiefs and the Ward Councillors on a quarterly basis. In these quarterly meetings, RRL has made it clear that it is committed to provide preferential employment and skills training programmes to the surrounding communities to work at its operations.</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
<p>Ga-Phasha Public meeting: 17 January 2013</p>	<p>Public meeting attendee Ga-Phasha village</p>	<p>Prior to the construction of the Madikwe Mine, about 200 local people were selected to take part in the skills training programme. RRL must also consider selecting people from the community to be part of their skills training programme prior to the construction of the proposed Rhodium Reefs mine.</p>	<p>The skills training programme was offered to candidates from the local community. A total 50 people were recruited from the local communities to be trained by Goldfields at the training colleges in Welkom and Steelploort, 48 of those learners qualified as artisans (boiler makers, electricians, riggers and fitters e.t.c). Of the 48 learners, 12 candidates were from the Ga-Phasha community. RRL also employed local people for all of the semi-skilled and unskilled positions where suitable candidates could be found.</p> <p>After cessation of the Spitzkop and Kennedy's Vale projects most of the artisans trained by RRL have found alternative employment but on re-commencement of the project the company will once again train local people.</p>
<p>Ga-Phasha Public meeting: 17 January 2013</p>	<p>Public meeting attendee Ga-Phasha village</p>	<p>How will RRL assist the community to ensure that there are no jobs lost post closure of the mine?</p>	<p>There will undoubtedly be jobs lost on closure of the mine operations and the company's Social and Labour Plan outlines a plan to minimise the impact on closure.</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			SLP requires a future forum to be established which will ensure re-employment after closure
Ga-Phasha Public meeting: 17 January 2013	Public meeting attendee Ga-Phasha village	<p>The community will provide RRL with a social licence to start mining. However, RRL needs to make a commitment to the community regarding their willingness to ensure that the local communities will participate in the skills training programme. In addition the company needs to indicate the type of training which will be offered and how many people will be recruited for the skills training programme.</p> <p>Prior to the construction of the proposed mine, RRL must provide appropriate skills training programmes to the affected communities.</p>	At this stage it is not known when the proposed project will commence. RRL is committed to providing employment opportunities and skills training to the surrounding communities.
Ga-Phasha Public meeting: 17 January 2013	Public meeting attendee Ga-Phasha village	How many people will be recruited to work at the proposed Rhodium Reefs mine?	<p>The number of people who will be employed at the proposed Rhodium Reefs mine is still unknown. RRL is still uncertain in terms of when the proposed mine will start being operational. The question on when the mine will be operational is dependent on the timing of the award of all mining rights and authorisations as well as the state of the metal prices that are ruling at the time.</p> <p>The platinum industry is currently in a crisis but RRL has to complete the required permitting</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			process with the DMR. When the process was commenced in November 2011 world economies and the platinum market were buoyant but they are not right now.
Ga-Phasha Public meeting 17 January 2013	Public meeting attendee Ga-Phasha village	The community has no trust in the current CLO. It was proposed that a new CLO from the Ga-Phasha community should be appointed	The CLO is appointed to represent the interests of the company with the communities; they are not appointed to represent the communities (currently the Kgoshi's represent the communities). The CLO speaks to all Chiefs and Ward Councillors on behalf of the Company. The company cannot appoint a CLO for every community right now.
Ga-Phasha Public meeting 17 January 2013	Public meeting attendee Ga-Phasha village	The community from Ga-Phasha will grant a social licence to RRL to mine in the area, provided the company commits to constructing a water purification tank for the surrounding communities.	The operation will have a water treatment facility for the staff on site.
Ga-Phasha Public meeting: 17 January 2013	Public meeting attendee Ga-Phasha village	There is no need to request RRL to build a water purification tank for the community. RRL is fully aware of the needs of the community. Indicated that the community will protest if RRL fails to agree to the communities' request. The roads are in a bad condition, and all the mining companies in the area are not doing anything about the damaged roads.	RRL has to develop projects according to the Integrated Development Plan (IDP) of the local municipality. If the community wishes to have their needs addressed by a mine they must petition to have them added to the IDP. Once they are added a mine can address these needs. RRL has made undertakings to the DMR in terms of the Social and Labour Plan to undertake

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			certain LED projects on the current list, subject to the approval of the DMR.
Ga-Phasha Public meeting: 17 January 2013	Public Meeting Attendee Ga-Phasha village	RRL should not be granted a Mining Right Licence as they are not willing to make commitments to develop the affected communities.	The Company has made commitments in the SLP and when the mine is in operation, the company will work closely with the communities to identify the most pressing needs for investment
Ga-Phasha Public meeting: 17 January 2013	Public meeting attendee Ga-Phasha village	How will the affected communities benefit from the proposed Rhodium Reefs project?	The company will be making an investment in the area and provide a certain amount of employment. In addition it will honour commitments for LED projects as stipulated in the SLP.
Ga-Phasha Public meeting: 17 January 2013	Mr Jimmy Ga-Phasha village	There are people within the community who have experience in Human Resources and Office Administration. The community can provide names of people who can fill positions in the proposed Rhodium Reefs mine.	When the company starts recruiting it will again work closely with communities to identify local people for employment.

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
Ga-Phasha Public meeting 17 January 2013	Public Meeting attendee Ga-Phasha village	<p>The skills training programme that will be provided to the local people must be compliant with the Mining Qualifications Authority (MQA) to ensure that the skills provided are industry wide. The 50 candidates from the local community were enrolled in a semi-skilled training programme, which was not recognised by other mining companies.</p> <p>The candidates who will be recruited for training must be equipped with appropriate skills which enable them to work at other mining companies.</p>	<p>The skills training programme that was provided to the 50 candidates was an industry recognised training programme aimed specifically at increasing the number of technical artisans from the local communities. These skills are portable and the candidates that were selected to participate in the skills training programme have found alternative work after completion of their training.</p>
Ga-Phasha Public meeting: 17 January 2013	Public Meeting attendee Ga-Phasha village	<p>It seems that students who studied commercial subjects, like economics, are being side lined. Majority of people in the community have studied commercial subjects.</p>	<p>Mining requires technically oriented people to run the operations and to get such technical background we need people who have skills in Maths and Science. Maths and Science are the key requirements in the mining industry. People who studied commercial subjects will be considered for a skills training programme once the proposed Rhodium Reefs mine is established and fully operational.</p>
Ga-Phasha Public meeting: 17 January 2013	Public Meeting attendee Ga-Phasha village	<p>The selection criteria for the skills training programme must be extensive. RRL must recruit candidates who have a background in Science and Commercial subjects.</p>	<p>In a case where there is an extreme shortage of skills, the priority will be to train people who will be able to work at the mine.</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
4. EMPLOYMENT			
E-mail: 18 October 2012	Mr Weekend Sebulela: Dithamaga Trust Ms Rebone Ragosebo Mgoatle: Ga-Malekane traditional authority	Raised a concern regarding a lack of employment opportunities in the Steelport area and South Africa as a whole.	There is the potential for direct employment to be created through the various project phases (during both the construction and operation) particularly for low and semi-skilled positions.
Registration form:18 October 2012	Kgoshi Poulos Mgiba: Interested and affected party, Elsie Maleka, Mr Godfery Fenyane: (residents) Ga-Malekane Traditional Authority,	The proposed project must create employment opportunities for the local people in particular the youth from the affected communities.	
Registration forms:22 October 2012	Mr Klass Choma: resident Mahlkwena village, Mr Faneng Given Mashilo: Secretary of the Mahloakoena village, Mr Elias Nkosi: Headman Winterveld farm Ms Betty Morura: Residnt Ga-Malekana trditional authority, Miss Tshehla Selepe Miss Mapogo Reineth Masha (Ga-Masha village, Mr Judas Seekane Morura: resident Ga-Malekane; Mr Makopole Kgole Mr Johannes Maduano Ga-Masha resident		
5. ENVIROMENTAL MANAGEMENT PROCESS			
Registration form:18 October 2012	Kgoshi Thomas Phetla:Ga-Malekane	The EIA process must provide detail on future developments.	Comment noted. The EIA is focusing on the proposed Rhodium Reefs mining project and will include all information that is relevant thereto. Should new developments arise the

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			communities will be informed of them as they have been in the past.
Registration form: 22 October 2012	Mr Frans Tolo Andronicca Malekane : residents Ga-Malekane Tadiional Council, Ms Mahlako Kgole Mr Mohube Moretsele Ga-Masha village	The proposed project should not pollute the surrounding environment.	Specialist studies will be undertaken to determine the potential impact of the proposed development. Recommendations will be made to avoid and minimise potential pollution risks from the mining activities. The recommendations will be included as management measures in the Environmental Management Programme (EMPR) once the specialist studies have been completed.
Ga- Malekane Public meeting: 17 January 2013	Public meeting attendee from Ga-Malekane village	Which waste activities will be applied for in the Waste Management Licence Application?	Rhodium Reefs Limited (RRL) is applying for the temporary handling and storage of general and hazardous waste as well as a packaged sewage treatment plant.
Ga- Malekane Public meeting 17 January 2013	Will a Water Use Licence Application (WULA) be submitted for the proposed Rhodium Reefs project?	Will a Water Use Licence Application (WULA) be submitted for the proposed Rhodium Reefs project?	RRL has submitted a Water Use Licence application for the Spitskop and Maresburg projects. As soon as it is approved, the licence will be amended to include the proposed Rhodium Reefs project.

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
6. PROJECT DESCRIPTION			
Ga Mampuru public meeting 17 January 2013	Mr Kgopotso Segokodi: Trustee of the Babina Noko Ba Ga Mampuru Community Trust	Where the proposed is mine going to be located? What is the mining method going to be?	The planned underground mine on the farm Spitzkop will extend underground onto the following farms: De Goedeoverwaching 332KT, Kennedy's Vale 361 KT Boschkloof 331 KT, Tweefontein 360 KT; and Belvedere 362 KT. Final size and exact location of new infrastructure still needs to be confirmed with land owners and occupiers. The entire mine will be an underground mine.
7. PROJECT TIME FRAMES			
Ga- Phasha Public Meeting: 17 January 2013	Councillor Hlatshwayo Ga- Phasha village	Will the farms De Goedeoverwaching 332KT and Boschkloof 331 KT be affected by the proposed Rhodium Reefs project?	The Mining Right Application for Rhodium Reefs includes the following farms: De Goedeoverwaching 332KT and Kennedy's Vale 361 KT Boschkloof 331 KT, Tweefontein 360 KT; and Belvedere 362 KT. The only impact on the surface land is planned on De Goedeoverwaching
Ga Mampuru public meeting 17 January 2013	Mr Kgopotso Segokodi: Trustee of the Babina Noko Ba Ga Mampuru Community Trust	When is RRL planning to commence with the Spitzkop project and the DGV / Kennedy's Vale project extension to the Spitzkop project? RRL must indicate if it plans to commence with the	At this stage it is not known when the projects will commence. The international investors in Canada have held back on the

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>mining operations within the next 6 months.</p> <p>He indicated that RRL plans to commence with the mining on Spitzkop project and the DGV / Kennedy's Vale in the year 2060.</p>	<p>funding of the projects at the moment due to subdued platinum prices but development of this mine is dependent on gaining the necessary approvals from Government.</p>
Ga Mampuru public meeting 17 January 2013	Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust	<p>Why has Eastern Platinum not commenced with mining at Spitzkop platinum in 2008 following receipt of the mining right?</p> <p>Why has Eastern Platinum not put mining at the Crocodile River mine in Brits, North-West province, on hold as well?</p>	<p>Construction of the mine at Spitzkop did start in 2008, however due to the low platinum prices this work was suspended.</p> <p>The operation will resume once platinum prices are favourable again.</p>
Ga-Malekane public meeting 16 January 2013	Mr Daniel Marweshi from Ga-Malekane village	When does RRL anticipate starting construction for the proposed Rhodium Reefs project?	At this stage it is not known when the projects will commence. It is dependent on the timing of the award of all mining rights and authorisations as well as the state of the metal prices that are ruling at the time.
8. TRAINING			
Registration form: 22 October 2012	Miss Tshehla Selepe, Miss Mapogo Reineth Masha resident Ga-Masha village, Ms Rachel Morura, Mr Judas Seekane Morura, Mr Frans Tolo: residents Ga-Malekane Tadiional Authority, Mr Jacob Mapona:resident from Kutullo village, Mr Jodus	Rhodium Reefs must provide training/skills development to the local people from the affected communities.	The SLP will provide details on the training of local people to address skill shortages on the mine will be undertaken.

			<p>was put on hold RRL was ready to recruit in the order of 200 local people to work with the 48 qualified artisans as part of the skill transfer initiative to work at the concentrator.</p> <p>RRL will continue to train and use the local people when the operations commence.</p>
9. RESSETLEMENT			
Registration form: 22 October 2012	Mr Jacob Tebele Mr Jim Moretesele: residents Ga-Rantsho village,	Rhodium Reefs must provide basic services such as electricity, water supply and sanitation to the affected communities if they are relocated.	At this stage it is envisaged that no resettlement will be required. Rhodium Reefs will negotiate with the affected parties as part of the resettlement action process should resettlement be required. Appropriate housing with access to services will be provided should it be necessary.
10. PROSPECTING PERMIT			
E-mail:7 January 2013	Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust.	In 2003, Rhodium Reefs were instructed by the DME to establish whether there were any land claims on the Properties. We understand that this was a condition of their prospecting permit. But still, the Makola community was never consulted. Secret meetings were held without the Makola community, where 2.5 hectares of claimed land to be leased at De Goedeverwachting was being discussed,	Rhodium Reefs Limited has never held Mining Rights over the five farms, subject to this application. Rhodium Reefs held three separate prospecting permits covering the five farms which were acquired in the mid-1980s

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>shockingly with the Land Reform officials who are supposed to protect the land claimants. "But do that at your own peril, we are monitoring all these developments daily.</p> <p>In 2005, Rhodium Reefs applied for the conversion of its prospecting permit and this was granted in 2006. But you are still trying to mislead the communities by saying you have used the old minerals Act of 1980s as an excuse for not including them through all these processes.</p> <p>In 2011, Rhodium Reefs has applied for the renewal of the prospecting right. This renewal is currently under consideration as far as the Makola community is concerned since they applied for objection with the DMR and no final outcome has been received from their office by the community. But you have just mentioned in your RHO1867 DSR that the DMR has awarded or renewed the prospecting permit to Rhodium Reefs without attaching a copy (issued under minerals act of 1980s) as requested by one of the Chiefs in a meeting held on the 07-09-2012. Please stop misleading the community. Put facts down if it is true.</p>	<p>under the old order rights. Those were converted into new order prospecting permits in 2006, according to the MPRDA.</p> <p>The discussion with the Department of Rural Development and Land Reform, surrounding the property De Goedeverwaching, was held to enquire about the correct process that must be followed with regards to leasing property from the state which is occupied by a community. The minutes of this meeting were submitted to the DMR.</p>
E-mail: 7 January 2013	Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust.	<p>The audi alteram partem rule was applicable at the time that Rhodium Reefs applied for a prospecting or mining permit, a renewal of that permit and a conversion of that permit.</p> <p>The Supreme Court of Appeal dealt with this issue very clearly and succinctly in 1999 in the matter between The Director: Mineral Development,</p>	Rhodium Reefs applied for the renewal of the prospecting right according to the requirements of the MPRDA. Should the Makola Community and Makola Community Trust have any issues with regards to this renewal it has to be taken up with the DMR as

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>Gauteng Region and others v Save the Vaal Environment and others.</p> <p>In essence, the court stated that the rule comes into operation whenever a statute empowers a public official to do an act or give a decision prejudicially affecting a person in his or her liberty or property or existing rights or interests, or whenever such a person has a legitimate expectation of a hearing unless the statute expressly or by necessary implication indicates to the contrary.</p>	<p>they are the organ of state that renewed the prospecting right.</p> <p>In the discharge of Rhodium Reefs' statutory obligations, consultation with the Mokola community is being undertaken.</p>
		<p>Section 19(2)(e) and 18(3)(c) of the MPRDA requires that the holder of a right must prospect in accordance with an approved EMP. This proves exactly how Rhodium Reefs and Digby Wells can exploit and not think about other people when they are chasing money. It can be according to the old Act of 1980 as you incorrectly stated, but still with the EMP, you still need to consider engaging directly affected communities for the sake of their health at least. But none of that has happened.</p> <p>In other words, you can't drill more holes than what has been approved by the DMR and for which your PWP and EMP has catered for. If you want to vary the nature of prospecting to be done such as, drill more holes, you must obtain an amendment first before proceeding with the amended plan.</p> <p>Rhodium Reefs' existing EMPR did not allow them to conduct any drilling yet they drilled a total of 24</p>	<p>The bulk of the prospecting work took place in the 1980's and 90's when it was not a requirement to have an EMPR but the onus was on the company to negotiate with the land owners for access. This was done. In addition, no Prospecting Work Programme (PWP) was required and the company could undertake any form of prospecting that was suitable and agreed with the landowners.</p> <p>A second Prospecting programme was undertaken in 2007/8 and for this work a PWP was submitted together with an EMPR which was approved by the authorities. This process included Public</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>unauthorized exploration holes before their right was executed on 23 November 2006.</p> <p>It is further believed that sometime in 2007, Rhodium Reefs may have applied for an EMP amendment. It is also believed that this EMP may also have been breached – in other words, they drilled prior to EMP approval.</p> <p>Their renewal application therefore cannot be granted as they clearly have breached the provisions of the Act. This actually proves how Rhodium Reefs can be manipulative or take short cuts in everything in mining so easily. It is so amazing because they do all these things and the DMR approves without any question. We are not surprised when they try to exploit and manipulate communities. But we are not going to allow this very easily.</p>	<p>Participation meetings. The company undertook the work in accordance with the PWP although we did not drill as many holes as were indicated. All drill sites were discussed and approved by community residents and were properly rehabilitated. The authorities have been to inspect the rehabilitation of these sites and were happy with the work done.</p> <p>Reports on all these activities have been submitted to the DMR to confirm compliance with the rules of the permit.</p>
11. MINING RIGHTS HOLDER			
E-mail:7 January 2013	Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust.	<p>As of 1995, both Rhodium Reefs and the Makola Community had a claim on the mineral rights. Rhodium Reef's claim was a common law entitlement; ours was an indigenous law entitlement.</p> <p>The Minerals Act did not state that only the holder of a registered right could apply for a prospecting or mining permit. The Act stated that the holder could apply. In the context of our country's history, it would not be incorrect to state that anyone wishing</p>	When the MPRDA came into effect in 2002, it revoked all mineral rights from land owners and placed it in the trust of the state. The MPRDA states that the applicant must consult with the land owner (not obtain consent from the land owner), which in this case is the State. Rhodium Reefs does not require the consent from the land owner or a

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>to apply for a prospecting or mining permit required the consent of both the common law and indigenous law mineral right holders. Thus, when Rhodium Reefs were seeking to apply for a prospecting or mining permit in 2001, they should have gained the consent of the unregistered indigenous law mineral right holder and upon agreement with the Babina Phuthi Ba Makola Mashego community, could then have made an application for a prospecting or mining permit on our ancestral land.</p> <p>At no stage were the Babina Phuthi Ba Makola Mashego community ever consulted or meaningfully included or gave consent to Rhodium Reefs in order for them to have applied for a prospecting or mining permit and indeed if we had been consulted, we certainly would not have agreed to waive of our rights and allow Rhodium Reefs to apply for a permit in their own name.</p>	<p>land claimant when applying for a mining right but has discussed the issues with officials from the Department of Rural Development and the Land Claims Office.</p>
<p>Public Meeting- Ga Mapuru: 17 January 2013</p>	<p>Mr Kgopotso Segokodi: Trustee of the Babina Noko Ba Ga Mampuru Community Trust</p>	<p>The Ga-Mampuru Community Trust intends to submit an application for mining right over the farms De Goedeverwachting 332KT, Boschkloof 331 KT, Tweefontein 360 KT and Belvedere 362 KT.</p> <p>Why is RRL applying for a Mining Right for an extension to the Spitzkop project while the Spitzkop and Kennedy's vale projects are on hold?</p>	<p>Comment noted. No response required.</p> <p>The Mining Right Application (MRA) for the extension to the Spitzkop project was submitted to the Department of Mineral Resources (DMR) in 2011 while the price of platinum was at high</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			<p>levels. However, the MRA was only accepted by the department in August 2012, at a time when the price of platinum is at low levels and the industry is in trouble. We are required to continue with the MRA process.</p> <p>It is anticipated that the approval of the environmental impact assessment and public participation process for the mining right may take at least a year before the granting or refusal of the mining right takes place depending on the DMR. If, by the time a decision is made by the department, the platinum price has improved and investors have confidence to provide funds, discussions to restart the mine will commence.</p>
<p>Public Meeting- Ga Mapuru 17 January 2013</p>	<p>Mr Kgopotso Segokodi: Trustee of the Babina Noko Ba Ga Mampuru Community Trust</p>	<p>RRL must indicate what portion of the mining rights will be issued to the affected communities namely Makola, Ga-Phasha and Ga-Mmampuru.</p>	<p>No rights will be given to the communities but RRL is looking to restructure its BEE shareholding to incorporate local communities.</p>
<p>Public Meeting- Ga Mapuru 17 January 2013</p>	<p>Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust</p>	<p>RRL was granted a mining right over the farms of De Goedeverwachting 332KT and Kennedy's Vale 361 KT, Boschkloof 331 KT, Tweefontein 360 KT; and Belvedere 362 KT in 2006. This mining licence is about to expire and now RRL is applying for a</p>	<p>RRL has never held Mining Rights over these five farms hence the need for this application.</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		renewal of a mining right over the above-mentioned farms	RRL holds three separate prospecting permits covering the five farms which were acquired in the mid-1980s as what are now known as old order rights. Those were converted into new order prospecting permits and renewed in 2006, according to the MPRDA.
Public Meeting- Ga Mapuru 17 January 2013	Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust	RSG has prepared a detailed technical report over the five farms that clearly indicated that Eastern Platinum was applying for a mining licence over these farms in 2006. Mr Segokodi trustee of the Babina Noko Ba Ga Mampuru Community Trust is in possession of the report from PSG.	The report compiled by RSG in 2006 stated that RRL will progressively start to convert the prospecting permits into Mining Rights. The company applied for and was granted mining Rights over the farm Spitzkop, followed by the farm Mareesburg. The MRA over these five farms was lodged with the DMR in November 2011.
12. INFRASTRUCTURE			
E-mail: 18 October 2012	Mr Weekend Sebulela: Dithamaga Trust, Miss Seipali Komane: interested and affected party, Mrs Rosah Magatsela and Mrs Elsie Maleka, Mrs Caroline Tshehla: resident Ga-Malekane Traditional Authority Mr Elias Nkosi: Headman Winterveld farm, Ms Rachel Morura Ga-Malekana Traditional Authority esident, Mrs	Requested Rhodium Reefs to undertake infrastructural projects e.g. water, electricity and road projects in the affected communities. 	Mr Sambey Maleka: Member of the Makatsile	The EIA process must consider the most directly affected communities as their lives and land will be impacted negatively after mining.	Comment noted. Both the potentially directly affected parties and potentially interested I&AP's were identified and notified of the proposed project as required NEMA and MPDRA. Comments and suggestions received to date from the I&APs were included in this comments and response report.
	Mr Given Choma: Mooimeisiefontein Development Forum	The EIA process must consider the directly affected parties equally.	
E-mail:7 January 2013	Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust.	No consultation has ever taken place with the Makola Community on Prospecting right application by Rhodium Reefs. One of the people you consulted did raise this question at the meeting of the 7 September 2012 (Draft Scoping Report document) and Rhodium Reefs lied to him by saying the prospecting right application was issued under the old Act during 1980, which did not require any consultation. This was not true because the DMR will not issue a certificate like that under the old Act in 2012, after 9 years of the promulgated Act 28 of 2002, Minerals and Petroleum Resources and Development Act (MPRDA). Even on the 1 st January 2006, RSG Global (Pty)Ltd, a company hired by Barplats (owners of Rhodium Reefs), to prepare an EMP and Technical report for the same Kennedysvale properties, they stated in the same document that, Rhodium Reefs is in the process of converting all its mineral rights acquired and used under the Minerals Act, Act No.50 of 1991 (and not even the 1980s act, mentioned as an excuse at the meeting)	Rhodium Reefs holds a prospecting permit under the old order rights issued in the 1980's. The conversion of the old orders right and renewal of the prospecting permit did not require public participation to be undertaken under the MPRDA. An application for the renewal of the prospecting permit was submitted to the DMR in 2006 and granted in 2007. The application of the Mining Right for Rhodium Reefs is now undertaken in accordance to the MPDRA of 2002. An extensive public participation was undertaken for the Mining Right application for the Spitzkop project. The meeting today will

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>into the mineral rights recognized under the recently promulgated Minerals and Petroleum Resources and Development Act (MPRDA), Act No.28 of 2002. This shows how you are trying so hard to mislead and exploit the communities.</p>	<p>focus on the Rhodium Reefs Project and not Spitzkop.</p>
<p>E-mail: 7 January 2013</p>	<p>Mr Freddy Makola on behalf of the Makola Community and Makola Community Trust.</p>	<p>As the most directly affected communities, we are not going to allow Rhodium Reefs to send Digby Wells in the name of "consulting communities" whereas the message is clear to us from Rhodium Reefs, "Digby Wells", go there (in Steelpoort), invite all interested affected parties so that we can exploit and manipulate them and give the DSR document to the DMR for approval so that we can be able to extract all the minerals and fly to Europe and enjoy ourselves. They (communities) can stay there (Steelpoort) with the unusable rubble we have extracted from the earth, with the minerals and starve. I still repeat that this is shown by the answers provided by Digby Wells from the public, where they are just saying "NOTED" without providing facts in the document. There is no commitment at all. It is just a matter of let us go through all these public meetings and participations, and close the case. Example (in your DSR document, page 9), one person commented that mining companies consult with communities only before they operate and once they are in full production, nothing will happen to communities. There was no answer showing commitment from Rhodium Reefs/Digby Wells. We are not going to allow this to happen, we need commitments from Rhodium Reefs and Digby Wells.</p>	<p>The public participation is under taken in terms of sections 16(4) (b) and 27(5) (b) of the Mineral and Petroleum Resources Development Act (29 of 2002) (MPRDA).</p> <p>A detail response will be provided during the EIA phase following the undertaking of specialists' investigation.</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
E-mail, 27 January 2013	Ms Mariette Liefferink: Federation for Sustainable Environment (FSE)	<p>In accordance with the Mineral and Petroleum Resources Development Act (29 of 2002) (MPRDA) Regulation 62 appears to have been overlooked: In accordance with applicable legislative requirements for mine closure, the holder of a mining right must ensure that-</p> <ul style="list-style-type: none"> • The closure of a mining operation incorporates a process which must start at the commencement of the operation and continue throughout the life of the operation; • The land is rehabilitated, as far as is practicable, to its natural state, or to a predetermined and agreed standard or land use which conforms with the concept of sustainable development..." 	<p>Mine closure will be addressed in the EIR.</p>
		<p>The requirement of the MPRDA Regulation 62 entails that interested and affected parties must be involved in the agreements regarding future land use of affected areas and thus in the decisions regarding the establishment of objectives for such future land use, as well as in discussing the alternatives for engineering interventions, where decisions regarding such options will affected the future land use.</p>	<p>The only surface impacts that Rhodium Reefs will have in terms of this application relate to the infrastructure area (200 X 200 metres). Post closure, the infrastructure will be removed, the shaft sealed and the area returned to a natural state.</p>
		<p>Communities within the Limpopo Platinum Mining areas are often poor, under-educated, disempowered, and in need of employment. They lack experience with large development projects and the knowledge of potential impacts and benefits. They have high, often unrealistic expectations of job creations, recruitment and procurement by the Applicant, and inadequate awareness of their own rights or the capacity to exercise these rights. The public participation</p>	<p>Comment noted. The communities were informed of the potential social and environmental impacts during the public meetings. These were presented to them in their first language to assist comprehension.</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>process should therefore include capacity building and understanding of social and environmental impacts.</p> <p>In terms of the national environmental management principles of the NEMA “ <i>the participation of all interested and affected parties in environmental governance must be promoted, and all people must have the opportunity to develop the understanding, skills and capacity necessary for achieving equitable and effective participation, and participation by vulnerable and disadvantaged persons must be ensured.</i>”</p>	
23 January 2013	Thapelo fenyane from Ga Malekana village	He was unable to attend the public meetings held on 16 and 17 January 2013 at Eerstegeluk and Mampuru community hall due to work commitments. Therefore he would like to find out if there will be other meeting held in the near future?	<p>At this stage there are no more planned meetings but the individual is welcome to contact staff at the mine site to be given a talk on what was stated at the meetings. We will inform you of the project progress.</p> <p>The I&AP details were registered on the I&AP database for future communication.</p>
Ga Mampuru Public Meeting 17 January 2013	Mr Kgopotso Segokodi: Trustee of the Babina Noko Ba Ga Mampuru Community Trust	<p>He indicated that he has registered as an Interested and Affected Party in his individual capacity as well as a trustee of the Babina Noko Ba Ga Mampuru Community Trust however he did not receive an invitation to the public meeting from Digby Wells.</p> <p>Consultation must be undertaken with the relevant stakeholder namely the house owners, owners of planting fields and livestock. Furthermore</p>	<p>Noted. It will be investigated and his details re-added to the I&AP database.</p> <p>RRL will investigate alternative and better ways of communicating the information to</p>

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		consultation must not be limited to the Kgoshi's. It must be inclusive of the broader communities.	the communities.
		No consultation has taken place in 2006 for the Spitskop 333KT and Kennedy's Vale 361KT projects. According to the public participation report compiled it was reported that on 28 June 2006 , eight people were consulted from the Ga-Mmapuru village. He indicated that three of those individuals are not residents of the Ga-Mmapuru village and are not affected by the project.	An extensive public participation was undertaken for the Mining right application for the Spitzkop project. The meeting today will focus on the Rhodium Reefs Project and not Spitzkop.
		A public meeting was held in 2006 and a lady by the name of Ms R.N Mojoane, chairperson of the Basadi ba babedi claimed to be representing the Kgoshi's for the Sekhukhune District Municipality. The woman is a resident of Ga-Mphahlele village and is not known to the chief and the community.	Noted. In the current meetings all affected people are invited to the meetings which will eliminate such problems from recurring.
		He indicated that the public meeting attendees will not complete the attendance registers provided by Digby Wells. The Ga-Mampuru community will prepare and submit attendance registers directly to the Limpopo Department of Mineral Resources (DMR). In addition to this submission to the DMR, the community will also indicate no agreement was reached with RRL until such time that the 26% of the BEE is awarded to the local communities.	Noted.
Ga Mampuru Public Meeting: 17 January 2013	Public meeting attendee	Why were the communities not consulted when the Spitzkop and Kennedy's Vale projects were put on hold?	The decision to put the operation on hold was made by the company's' board of directors. This decision was then communicated to the DMR. The DMR provided RRL with an outline of the procedure to be

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			followed. RRL undertook extensive consultation with Staff and the stakeholder forum which is represented by the Tubatse local municipality, Kgoshi's and ward councillors to inform them of the closure.
Ga Mampuru Public Meeting: 17 January 2013	Mr Dragon Maroga: Former spokesperson of the Tubatse Steelpoort Forum	Digby Wells used SMS's as a method to invite I&APs to the public meeting. He never received an invitation and it seems that the public meeting was targeted for specific individuals.	All registered I&AP were informed via post, email and SMS of the details of the public meetings on 30 November 2012. In addition newspaper advertisements were published in the Capricorn Voice and Steelburger on 7 January 2013.
Ga Mampuru Public Meeting 17 January 2013	Mr Freddy Makola on behalf of the Makola Community and Mr Kgopotso Segokodi: Trustee of the Babina Noko Ba Ga Mampuru Community Trust	<p>At the stakeholder quarterly meeting held on 7 September 2012 chief Malekane expressed a concern that " the directly affected parties were never consulted during the prospecting right application for Rhodium Reefs" The response provided to Kgoshi Malekane at the meeting was that that "prospecting was done under the old minerals act during the 1980's, when public consultation was not necessary".</p> <p>Why was the above-mentioned response provided to Kgoshi Malekane at the stakeholder meeting?</p>	<p>Rhodium Reefs held a prospecting permit issued in the 1980's under the old order. The conversion of the old order right to a new order right and the subsequent renewal thereof did not require public participation to be undertaken under the MPRDA.</p> <p>An application for the renewal of the prospecting permit was submitted to the DMR in 2005</p>

			and granted in 2006. The application of the Mining Right for Rhodium Reefs is now undertaken in accordance with the MPDRA of 2002.
Ga Mampuru Public Meeting 17 January 2013	Public meeting attendee	Requested that consultation with the surrounding communities must be transparent.	Noted. Feedback to the community has been mainly made through the stakeholder forum which is represented by the Tubatse local municipality, Kgoshi's and ward councillors. RRL will investigate other means to ensure effective communication with the communities. All were encourage submit recommendations to Eastern Platinum on how the Ga-Mmampuru community wish to be engaged or consulted.
Ga Mampuru Public Meeting 17 January 2013	Mr Kgopotso Segokodi: Trustee of the Babina Noko Ba Ga Mampuru Community Trust	There are three important stakeholders from the Ga-Mmampuru community which must be consulted namely the Ga-Mmampuru tribal council, youth forum and Babina Noko community trust.	Comment noted. These I&APs will be added to the stakeholder database and consulted.
Ga- Malekae public meeting 16 January 2013	Mr David from Ga-Malekane village	The Draft Scoping Report has not been made available at the Ga-Masha village He attempted to view the report at the Ga-Malekane village however was refused access to view the report.	An electronic copy (CD) of the draft Scoping report was handed out at the meeting.
Ga- Malekae public meeting 16 January 2013	Mr David from Ga-Malekane village	Recommended that the EIA reports to be made available at the public libraries.	A copy of the final Scoping Report will be made available at the Ga-Masha Traditional Authority.

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
Ga- Malekae public meeting 16 January 2013	Ms Julia Makofani from Ga-Malekane village	Recommended that the EIA reports to be made available at the public libraries.	Comment noted. This will be considered.
Ga- Malekae public meeting 16 January 2013	Mr Thabo Mapodile Ga-Malekane village	Why is RRL only engaging with Kgoshi's and Ward Councillors? The broader community as a whole must also be engaged in the quarterly meetings held between RRL, the local Chiefs and the Ward Councillors.	RRL has in the past held community meetings however there was poor attendance. A decision was then made that only the representatives of the community will be invited to the quarterly meetings. This decision will be revisited to include the broader community.
Ga- Malekae public meeting 16 January 2013	Mr Daniel Marweshi Ga-Malekane village	The local Chiefs and Ward Councillors do not provide feedback to the community regarding the quarterly meetings held with RRL. An appropriate means to disseminate information to the community at large must be formulated.	RRL will investigate other means to ensure effective communication with the communities. All were encouraged to submit recommendations to RRL on how the community wish to be engaged or consulted.
Ga- Malekae public meeting 16 January 2013	Public meeting attendee Ga- Malekane village	The Kgoshi informed the community that the public meetings were to be held on 19 & 20 January 2013	Comment noted. I&APs were encouraged to leave their details so that they can be notified of the meetings directly.
16. LAND USE			
E-mail, 27 January 2013	Ms Mariette Liefferink: Federation for Sustainable Environment (FSE)	The applicant has to ensure that the interests of both current and future generations are not compromised. Land-use is particularly important in this respect. While the community may benefit during the life-time of the project, future	The land to be affected by surface activity is extremely small and will be returned to a natural state once mining ceases. The area of concern is currently not being

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>generations may well have their livelihood opportunities, and their quality of life, reduced by the post-closure land use</p> <p>The affected communities are reliant on land for their livelihoods, and often have been so for a very long time. (In terms of the Scoping Report, unemployment is as high as 50% of the economically active population with a large proportion of the population being dependent on subsistence farming and natural resources to sustain their livelihoods.) Land provides opportunities for food security, albeit it often subsistence farming, for seasonal grazing for livestock, for tourist activities and for access to forest foods and water.</p>	<p>utilised for any farming (due to poor soil conditions), and is in a natural state.</p>
17. BLACK ECONOMIC EMPOWERMENT (BEE)			
Ga Malekane Public meeting :16 January 2013	Mr Daniel Marweshi from Ga-Malekane village	How does one qualify to obtain the BEE shares within the Rhodium Reefs company?	Each listed entity has shares listed in the Stock Exchange. If there is a desire to purchase the BEE shares, one has to consult with the shareholders regarding purchasing of shares.
Ga Malekane Public meeting: 16 January 2013	Mr Daniel Marweshi from Ga-Malekane village	Will RRL make the BEE shares available to the affected communities	The late Mr Zwelakhe Sisulu was in discussion with the Department of Mineral Resources (DMR) regarding the restructuring of the 26% BEE shares to ensure greater participation of the surrounding communities. Those discussions will continue with the Department of Mineral Resources

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
			(DMR). The Basadi Babedi Women consortium owns a certain percentage of the BEE shares on the Spitskop operation.
Ga-Phasha public meeting 16 January 2013	Mr Sola Ga-Phasha village	Will Rhodium Reefs Limited (RRL) make provision for the local community and land claimants to participate in the BEE shareholding of the company?	RRL is in the process of engaging with the Department of Mineral Resources (DMR) on a suitable BEE structure to ensure greater participation of the surrounding local communities.
		RRL must meet with the affected communities to discuss the BEE shareholding that will be offered to the affected communities.	The late Mr Zwelakhe Sisulu was in discussions with the DMR regarding the restructuring of the 26% BEE shares to ensure greater participation of the surrounding communities. These discussions will still continue with the DMR. The Basadi bababedi Women consortium owns a certain percentage of the BEE shares on the Spitzkop operation.

			have been submitted to the DMR to confirm compliance with the rules of the permit.
Ga-Phasha Public meeting: 17 January 2013	Mr Shola Ga-Phasha village	Raised a concern that RRL's Community Liaison Officer (CLO) liaises with only one affected community and neglects the other communities.	The CLO is appointed to represent the interests of the company with the communities; they are not appointed to represent the communities (currently the Kgoshi's represent the communities). The CLO speaks to all Chiefs and Ward Councillors on behalf of the Company and cannot appoint a CLO for every community right now.
Ga-Phasha Public meeting: 17 January 2013	Public meeting attendee Ga-Phasha village	The community will keep the attendance registers until such time RRL is ready to make commitments on developing the community.	Comment noted.
Ga Mampuru public meeting 17 January 2013	Mr Kgopotso Segokodi: Trustee of the Babina Noko Ba Ga Mampuru Community Trust	He indicated that employment must not be used as prime factor for the project. Not all residents will be employed at the proposed mine. Employment is intrinsic to any existing company.	Comments noted. These comments and suggestions will be investigated, and as indicated previously, the 26% BEE share is being renegotiated with the DMR to ensure greater community participation.

REFERENCE	NAME AND ORGANISATION	COMMENT RAISED	RESPONSE
		<p>The Ga-Mmampuru community supports the establishment of a mine because it will provide opportunities for the broader community; however the correct channels must be followed when engaging with the affected communities.</p> <p>The Ga-Mmapuru Community Trust is prepared to negotiate with RRL for the community to have a share in the mining rights and 26% provided to the local communities. If RRL does not provide the 26% BEE to the local community it will not obtain a mining right licence.</p> <p>RRL is paying a bribe to the Kgoshi's in the surrounding communities.</p>	<p>RRL has never paid a bribe to anyone. On one occasion our BEE partner gave each Chief a bottle of whisky as a Christmas present.</p>
<p>Ga Mampuru public meeting 17 Januray 2013</p>	<p>Mr Dragon Maroga: Former spokesperson of the Tubatse Steelpoort Forum</p>	<p>He reported that the Tubatse Steelpoort Forum had previously engaged with RRL including the Kgoshi, ward councillors official from the Tubatse local municipality regarding employment procedures on the Spitzkop project. A forum for mining companies within the Tubatse local municipality was established which was representative of the various stakeholders. A date was set to have a forum meeting at the RRL site camp.</p> <p>RRL then met with the Kgoshi's and ward councillors the night before the meeting at the</p>	<p>RRL has always communicated to stakeholders through the Chiefs and Ward Councillors in a structure that was discussed with and approved by the DMR. The attempt by the Forum to be recognised was not accepted. The Chiefs were not prepared to be part of the same communication structure as a Forum that had not been democratically elected</p>
