To Whom It May Concern,

Re: Licensing Offices – 284 Percy Osborne Road, Durban

Please note below as per site visitation for the exposed offices and areas only.
There were visible siting of active termites and woodborer in certain areas of the building.

Main building ground floor, woodborer in the below areas:

Entrance area wooden beams, room 14 – 1x window frame, room 11A – termites found in wooden skirtings – termites in 2x window frames and woodborer as well, room 19 – 1x window, room 30 – 3x windows, room 32 – woodborer, room 33A – 2x windows,

Main building 1st floor – woodborer:

Stairway wooden rail, room 101 – 2x windows, room 102 – 2x windows, room 103 – 1x window, room 108 – 1 x window, room 109 – wooden shelves, room 111 – kitchen cupboards, room 114 – 3x windows, room 116 – 1x window, passageway 1x window, room 123 – 7x window frames

Advisable to remove all wooden frames throughout building and replace.

Thank you.
Jodash
