Head Office  
111 Harrington Street  
CAPE TOWN  
8001

**Dear: Sir/Madam**

***REQUEST TO POSTPONE HIA PHASE 1 STUDIES***

**Mukope Group (Pty) Ltd** has applied for prospecting right within the Northern Cape Department of Minerals Resources (DMR) and a reference no NC30/5/1/1/2/11003PR. A letter was received by our organization from the Northern Cape DMR to conduct phase one HIA as well as furnish other things. All other issues were furnished but our organization to the DMR and as such our organization request the DMR to defer the conducting and submitting of HIA to a later stage once the right has been granted.

**Mukope Group (Pty) Ltd** is aware and does acknowledge that there shall be NO prospecting activity taking place when the right is granted until such time that the HIA phase 1 is conducted or the right will be granted on condition that the shall be prospecting done until the phase 1 studies is done. The DMR has indicated that it has no objection towards this suggestion and as such requests that communicate it to SAHRA.

Should you wish to get clarity pertaining this letter, please feel free to contact Edgar Netshiozwi.

Hoping for a positive response

Kind Regards

Edgar Netshiozwi
