Dear Sir

**PROPOSED DEVELOPMENT ON PORTION 1 OF THE FARM RUSTFONTEIN NO 126-HS**

We are promoting an application as per the Development Facilitation Act, 1995 (Act 67 of 1995) in respect of the abovementioned land. This is a development to accommodate say 35 subdivisions in favour of rural estate settlement opportunities with certain support uses to inter alia include a guest house.

We have made arrangements for a heritage impact assessment. We attach hereto a report prepared by the National Cultural History Museum, together with the proposed subdivision plan (DrawingK2045/1).

The application has not formally been submitted. We do in the interim wish to entertain as much possible comment input, and trust that your office can study the information available, and possibly revert back on comment input to include support for the development subject to certain conditions.

We regard this to be an investment in the area. We do accept that there are certain archaeological aspects to take cognizance of. Any recommendations for protection of archaeological features will be taken cognizance of in the application to follow, and the understanding that we do receive your comment feedback timelously.

If your office does require any further information and/or documentation, please do not hesitate to contact the writer. We appreciate the opportunity to have the application input considered.

Yours faithfully
