Your Ref: 9/2/025/0001: Ms. Mariagrazia Galimberti

Dear Madam

DESTRUCTION PERMITS: Nos 80/11/10/008 Van Der Lindeskraal no. 79 (Portion 2 and teh Remainderof Portion 1)

We refer to the above destruction permit issued in respect of the property described as the Portion 2 (Portion of Portion 1) of the Farm Van der Lindeskraal No.79 and remainder of Portion 1 of the Farm Van Der Lindeskraal No.79 ('Lindes') being in the Hanover District, Northern Cape Province. The permit is valid until 1 December 2012. The permit application was brought by Mr. DRNM Morris on behalf of Scatec Solar. The applicant, Scatec Solar respectfully requests that the validity of the permit be extended by 12 months to 1 December 2013.

As you may recall the proposed use of the land is the establishment of photo voltaic solar facilities in response to the request for Proposals issued by the Department of Energy ('DoE') for Independent Power Producers to produce renewable energy. The farm Lindes has been awarded preferred bidder status. No work can commence on these sites until all the conditions precedent have been met and financial close has been declared by the DoE. The announced date for closure for Lindes is 18 March 2013

Accordingly, SAHRA is requested to issue an extension on the permits to accomodate this on the basis that the delay has been outside of the control of the applicant and that there will be no prejudice suffered by any party or the heritage environment due to the grant of the extension. Scatec Solar, the applicant, commonly referred to as the

Scatec Solar
Improving our future™

development company was the company responsible for acquiring the approvals. In terms of the DoE Bid requirements, that company is obliged to transfer all rights and obligations to the project company who will be responsible for the establishment and operation of the facility.

In respect of the Farm Lindes that Project Company has been established and is called Simacel 155 (Pty) Ltd. It will be appreciated if, in order to properly reflect the current status, the extended permit be issued in the name of Simacell 155 (Pty) Limited. If this presents a problem kindly maintain the extended permit in name of Scatec Solar.

Your urgent attention is appreciated. Kindly contact the writer should you require anything further.

Yours sincerely
