Dear Me. Redelstorff

Please refer to your previous comment regarding the Jagersfontein Prospecting Right application and more specifically the comment that SAHRA cannot accept the Letter of Exemption by Dr. Lloyd Rossouw in 2013 which was done for a pipeline in Jagersfontein as it speaks to a different, less invasive activity that the planned prospecting.

The paleontologist was requested to do a desktop study relating to the prospecting for diamonds as per your request and he confirmed that he is currently in process with this. However, I would like to inform you that the deadline for the submission of the Final Amended EIA Report to the DMR is 29 March 2019. The specialist indicated that he might not finish his report before this date. There may therefore be a chance that we will submit the Final Amended EIA Report to you for review before his report is completed. However, I will specifically include your comment into my report and will send you the updated study by the paleontologist for review. I will also propose a condition that no invasive prospecting may occur on the areas as per the Letter of Exemption by Dr. Rossouw before your final comment has not been received.

I trust you will find the above in order.

Kind regards

LOUIS DE VILLIERS

Good day Me. Redelstorff

Thank you for your comment. Please note that I have just uploaded the PIA Exemption letter by Dr. Lloyd Rossouw as referred to in Mr. Gaghers report on SAHRIS. I have also attached it to this e-mail.

I trust you will find this in order.

Kind regards

LOUIS DE VILLIERS
