RE: Permit renewal: Taung 80/09/10/028/51

Attention Mrs. Lavin,

Please find attached further documentation requested in your letter of 24 May 2013. In addition also find a copy of the latest publication to come from the new research endeavors at Taung. I hope the attached report satisfies the requirements for renewal of the permit, as it has now expired and I have overseas collaborators coming out in August. Obviously if the permit is still not renewed by then I will have to turn my colleagues away and hope they will be able to fund a trip next year.

As with my previous documentation, please treat all material as confidential as publications are still pending.

Kindest regards,

A handwritten signature in black ink, appearing to read 'Brian F Kuhn', is written on a light-colored background.
