Attention: Mr. Peter Mokwena

**NOTICE OF APPLICATION FOR AN AMENDMENT OF THE WASTE MANAGEMENT LICENSE  
(WML) FOR ANGLO AMERICAN PLATINUM LIMITED – MOGALAKWENA MINE**

You are hereby notified that an Application for an Amendment of a Waste Management License in terms of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), as amended, and the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended (NEMA), has been lodged with the Limpopo Department of Economic Development, Environment and Tourism (LEDET).

**Applicant:** Anglo American Platinum Limited – Mogalakwena Mine.

**Project Name:** Amendment of Waste Management License: Anglo American Platinum Mogalakwena Mine Waste Tyre Storage and Processing Facility

**Project Location:** Farm Sandsloot 236 KR within the Mogalakwena Local Municipality of the Waterberg District.

**Waste Management Licence Reference Number:** 12/4/10-A/4/W2.

**Waste Management Licence Amendment Application Reference Number:** 12/4/10/8-A/2/W2-A2.

**SMS Reference Number:** ANG-MOG-14-11-17.

**Project Description:**

Anglo American Platinum Limited – Mogalakwena Mine has applied for amendment of their Waste Management Licence, dated 9 May 2012, and with reference number 12/4/10-A/4/W2.

There are currently a total of 1 489 waste tyres present on waste rock dump W07 at the mine. A new initiative has been proposed, in partnership with REDISA (Recycling and Economic

Development Initiative of South Africa), for the waste tyres that have accumulated on the mine. The proposed initiative is called the OTR Downsizing Project and entails downsizing waste tyres on the mine before they are removed to REDISA depots where the rubber pieces can be re-used and/or recycled as part of other initiatives, such as in waste tyre pyrolysis plants.

As the Waste Tyre Storage Area has an existing Waste Management Licence (12/4/10-A/4/W2), the applicant has applied for an amendment of the existing licence to include the proposed Downsizing Project initiative, as described above. The downsizing project will result in the removal of waste tyres (in the form of shredded pieces) from the mine, thereby eliminating the current stockpiling of large amounts of waste tyres on the mine.

The Application for an Amendment of the Waste Management Licence was submitted to the Limpopo Department of Economic Development, Environment and Tourism (LEDET) on the 10<sup>th</sup> of December 2014. The application was accepted by LEDET on the 5<sup>th</sup> of January 2015 and subsequently the reference number 12/4/10/8-A/2/W2-A2 was assigned to the project.

A Background Information Document (BID) and Interested and Affected Party Registration Form is attached to this letter in order to provide more detail with regards to the application and so that persons may register as Interested and Affected Parties (I&APs) for the proposed project, should they so wish.

**Invitation to participate:** Should you wish to be registered as an I&AP and/or comment on the above-mentioned application process, please submit a completed Registration Form (attached to this letter) or your name, contact information, and interest in the matter, in writing, to the contact person below, by no later than the **9<sup>th</sup> of March 2015**.

**Where to obtain more information:** To obtain additional information please contact the Environmental Assessment Practitioner at the details provided below.
