Dear Ms. Lavin

**BASIC ASSESSMENT OF THREE ALTERNATIVE POWER LINE ROUTES
FOR THE CONSTRUCTION OF A NEW 132 KV KINGBIRD LINE TO THE
BOSLOOP SUBSTATION**

Your document Case 1343.pdf refers (18 April 2013)

I have asked the developer to appoint a palaeontologist as requested in your case discussion.

As far as your comment on the report by Mr. P. Birkholtz from Professional Grave Solutions is concerned he is still working on the final report which should be available in two months time only. Attached please find a progress report that has been received from Mr. B. Birkholtz.

Once Eskom has decided on one of the three investigated routes a full cultural heritage resources impact assessment should be done on the preferred route.

Kind regards

Udo Küsel
