

APPENDIX C6
STAKEHOLDER CORRESPONDENCE

NOTIFICATION OF COMMENCEMENT OF
BASIC ASSESSMENT AND PUBLIC PARTICIPATION
PROCESS

17 November 2020

Dear Interested and Affected Party,

**DEVELOPMENT OF A CLUSTER OF RENEWABLE ENERGY FACILITIES BETWEEN SOMERSET EAST AND
MAKHANDA, EASTERN CAPE PROVINCE**

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES

A cluster of renewable energy facilities is proposed to be developed on various project sites located between Somerset East and Makhanda within the Cookhouse Renewable Energy Development Zone (REDZ), as well as the Eastern Strategic Transmission Corridor. The cluster consists of nine (9) projects which includes six (6) wind farms, two (2) solar energy facilities and one (1) Main Transmission Substation (MTS). A suitable project site for each development has been identified by the project development companies and the entire extent of the projects is located within the Sarah Baartman District Municipality. The western section is located within the Blue Crane Route Local Municipality and the eastern section within the Makana Local Municipality.

The cluster of projects is divided into two areas, known as the western section and the eastern section, with the western section located near Somerset East and the Eastern Section near Makhanda. The western section contains seven (7) of the nine projects and the eastern section the remaining two (2) projects.

A table which provides the project specific details for each of the six wind farm, the two solar and grid connection projects contained within the cluster is included in the Background Information Document (BID) distributed with this notification in which the commencement of the Basic Assessment (BA) and public participation processes are announced.

Associated infrastructure required for each wind farm includes:

- » A 132kV switching station, a 132/33kV on-site collector substation and a 132kV overhead single-or double circuit loop-in loop -out power line
- » Concrete turbine foundations and turbine hardstands;
- » Temporary laydown areas which will accommodate storage and assembly areas;
- » Cabling between the turbines, to be laid underground where practical;
- » A temporary concrete batching plant;

- » Staff accommodation; and
- » Operation and Maintenance buildings including a gate house, security building, control centre, offices, warehouses, a workshop and visitors centre.

Associated infrastructure required for each solar energy facility includes:

- » A 132/33kV on-site collector substation and a 132kV overhead single-or double circuit loop-in loop -out power line;
- » Centralised inverter stations or string inverters;
- » Cabling between the panels, to be laid underground where practical;
- » A temporary laydown area;
- » Staff accommodation; and
- » Operation and Maintenance buildings including a gate house and security building, control centre, offices, warehouses, a workshop and visitors centre.

BASIC ASSESSMENT PROCESS

As per the EIA Regulations published in terms of Section 24(5) of the National Environmental Management Act (NEMA, Act No 107 of 1998), the applicants will require authorisation from the National Department of Environment, Forestry and Fisheries (DEFF) (in consultation with Eastern Cape Department of Economic Development, Environmental Affairs and Tourism (DEDEAT)) for the undertaking of the projects. Due to the location of the project sites within a REDZ and a Strategic Transmission Corridor, Basic Assessment (BA) processes are required to be undertaken for all the proposed projects in accordance with GN113 and GN114, as formally gazetted on 16 February 2018. Separate applications for Environmental Authorisation will be submitted to the DEFF for each project (i.e. nine applications in total). Each application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014, as amended.

A Basic Assessment is an effective planning and decision-making tool. It allows the environmental consequences resulting from a technical facility during its construction and operation to be identified and appropriately managed. It provides the opportunity for the developer to be fore-warned of potential environmental issues, and allows for the resolution of the issue(s) reported on in the BA report as well as dialogue with affected parties.

Savannah Environmental has been appointed as the independent environmental consultant, to undertake separate Basic Assessments for the projects to identify and assess all potential environmental impacts associated with the various projects and recommend appropriate mitigation measures in the Environmental Management Programmes (EMPRs). As part of these environmental studies, I&APs will be actively involved through the public involvement process being undertaken by Savannah Environmental.

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs

- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on how public consultation can be conducted as part of a BA process. The consultation process for these projects has been designed considering these limitations, and the implementation is in line with our public participation plan (PP Plan), as approved by the DEFF. Our PP Plan is in compliance with the Department of Environment, Forestry and Fisheries (DEFF) Directions issued on the 5th of June 2020. One of our approved consultation methods is for you to visit our online stakeholder engagement platform, register your interest in the project/s, and view project documentation: visit our website: <https://www.savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>.

Alternative means of undertaking consultation have been designed to ensure that I&APs are afforded sufficient opportunity to raise comments on the projects, predominately through an interactive web-based platform readily available and accessible to any person with interest in the project, enabling the public participation process to be undertaken in line with Regulations 41 to 44 of the EIA Regulations, 2014, as amended.

Where I&APs do not have the applicable facilities or access to internet, provision has been made to include these I&APs in the consultation process by consulting with the Ward Councillor, the ward committee members, community representatives and local community forum members.

Should you have an interest in the project, please register yourself as an I&AP on our online stakeholder engagement platform (<https://www.savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>) or by completing and returning the attached stakeholder registration/comment form. By registering on the project database, you will be kept informed of the BA processes being undertaken for the projects and will be provided with an opportunity to provide comment and input.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards,

Nicolene Venter

Public Participation and Social Consultant

Eastern Cape Cluster of Renewable Energy Facilities

Development of a Cluster of Renewable Energies Between Somerset East and Makhanda, Eastern Cape

Proposed Activity: Development of a cluster of renewable energy facilities consisting of nine (9) projects, including six (6) wind farms, two (2) solar energy facilities and one (1) Main Transmission Substation (MTS).

Location: Between Somerset East and Grahamstown within the Cookhouse Renewable Energy Development Zone (REDZ) and the Eastern Strategic Transmission Corridor. The entire extent of the projects is located within the Sarah Baartman District Municipality and within the Blue Crane Route and the Makana Local Municipalities.

Project Name	Hamlett Wind Farm	Ripponn Wind Farm	Redding Wind Farm	Aeolus Wind Farm	Wind Garden Wind Farm	Fronteer Wind Farm	REDZ 3 Power Corridor 400MTS	Solaris Fields Solar Energy Facility	Sun Garden Solar Energy Facility
Applicant	Hamlett (Pty) Ltd	Ripponn (Pty) Ltd	Redding Wind (Pty) Ltd	Aeolus (Pty) Ltd	Wind Garden (Pty) Ltd	Fronteer (Pty) Ltd	Wind Relic (Pty) Ltd	Solaris Fields (Pty) Ltd	Sun Garden (Pty) Ltd
Capacity	Up to 333MW	Up to 324MW	Up to 576MW	Up to 297MW	Up to 264MW	Up to 213MW	400kV	Up to 300MW	Up to 300MW
Technology	Up to 37 wind turbines	Up to 36 wind turbines	Up to 64 wind turbines	Up to 33 wind turbines	Up to 47 wind turbines	Up to 38 wind turbines	Main Transmission Substation	Photovoltaic (PV) Panels	Photovoltaic (PV) Panels
Associated infrastructure	On-site switching station, collector substation, 132kV power line, access roads (gravel in nature), concrete foundations and hardstands, laydown areas, cabling to be laid underground where practical, temporary concrete batching plant, staff accommodation, and operation and maintenance buildings.						Access roads (gravel in nature)	Collector substation, 132kV power line, access roads (gravel in nature), inverters, temporary laydown areas, staff accommodation, Operation and Maintenance Buildings	

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for each project. As the project sites are located within a REDZ and a Strategic Transmission Corridor, Basic Assessment (BA) processes are required to be undertaken in accordance with GN113 and GN114 (February 2018). Savannah Environmental is undertaking the required environmental assessment and public participation process. A Background Information Document (BID) is available for review and comment on the Savannah Environmental website at <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>

DEVELOPMENT OF A CLUSTER OF RENEWABLE ENERGY FACILITIES BETWEEN SOMERSET EAST AND MAKHANDA, EASTERN CAPE PROVINCE

Dear Interested and Affected Parties,

A cluster of renewable energy facilities is proposed to be developed on various project sites located between Somerset East and Makhanda within the Cookhouse Renewable Energy Development Zone (REDZ), as well as the Eastern

Strategic Transmission Corridor. The cluster consists of nine (9) projects which includes six (6) wind farms, two (2) solar energy facilities and one (1) Main Transmission Substation (MTS). A suitable project site for each development has been identified by the project development companies and the entire extent of the projects is located within the Sarah Baartman District Municipality. The western section is located within the Blue Crane Route Local Municipality and the eastern section within the Makana Local Municipality.

Please find attached the Background Information Document which provides additional information regarding the application for the six (6) wind energy facilities, the two (2) solar energy facilities and the 400MW Main Transmission Substation.

We kindly request you to complete the attached stakeholder registration and comment form to formally register on the project databases and indicate in which of the nine (9) projects (or all) your interest lies.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the projects. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards,

The cluster consists of nine (9) projects which includes six (6) wind farms, two (2) solar energy facilities and one (1) Main Transmission Substation (MTS). A suitable project site for each development has been identified by the project development companies and the entire extent of the projects is located within the Sarah Baartman District Municipality. The western section is located within the Blue Crane Route Local Municipality and the eastern section within the Makana Local Municipality.

Please find attached the Background Information Document which provides additional information regarding the application for the six (6) wind energy facilities, the two (2) solar energy facilities and the 400MW Main Transmission Substation.

We kindly request you to complete the attached stakeholder registration and comment form to formally register on the project databases and indicate in which of the nine (9) projects (or all) your interest lies.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the projects. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards,

Dear Magnus,

Please receive herewith confirmation of receipt of your e-mail below and proof of your registration as an interested and affected party on the Wind Garden project's database.

Please find attached the following documents for your information:

- Notification letter announcing the commencement of the Basic Assessment process for the nine (9) projects;
- Background Information Document; and
- Registration and comment form (it will be appreciated if you can complete the attached registration form by indicating on which of the 6 wind farms, two solar energies or the main transmission substation you want to register)

Magnus, kindly confirm what the land use is / operations on your property. Also, can you please send us a pin via Whatsapp of the location of your property to 083 377 9112.

Kind regards,

Dear Samantha,

All well here in Gauteng!

Yes, I can confirm that BirdLife SA is an I&AP on the cluster of project's database.

However, I notice that our BID and notification of commencement of the Basic Assessment processes was not sent as part of the 'campaign' sent on the 17th of November 2020.

Attached for BirdLife's attention and information is the BID, including the registration and comment form although we always register BirdLife as a key stakeholder on renewable energy projects.

Samantha, thank you for checking on BirdLife's inclusion on the projects' databases.

The enquiry regarding the Cape Vulture Guidelines Guidelines is forwarded to the EAP for confirmation.

Kind regards,

Subject: DEVELOPMENT OF A CLUSTER OF RENEWABLE ENERGY FACILITIES: Notification of commencement of Basic Assessment and Public Participation Processes

DEVELOPMENT OF A CLUSTER OF RENEWABLE ENERGY FACILITIES BETWEEN SOMERSET EAST AND MAKHANDA, EASTERN CAPE PROVINCE

Dear Shaun,

A cluster of renewable energy facilities is proposed to be developed on various project sites located between Somerset East and Makhanda within the Cookhouse Renewable Energy Development Zone (REDZ), as well as the Eastern Strategic Transmission Corridor. The cluster consists of nine (9) projects which includes six (6) wind farms, two (2) solar energy facilities and one (1) Main Transmission Substation (MTS). A suitable project site for each development has been identified by the project development companies and the entire extent of the projects is located within the Sarah Baartman District Municipality. The western section is located within the Blue Crane Route Local Municipality and the eastern section within the Makana Local Municipality.

As per your telephone request to our colleague, Gideon Raath, yesterday afternoon to be registered on the above-mentioned projects, please find attached the Background Information Document which provides additional information regarding the application for the six (6) wind energy facilities, the two (2) solar energy facilities and the 400MW Main Transmission Substation.

We kindly request you to complete the attached stakeholder registration and comment form to formally register on the project databases and indicate in which of the nine (9) projects (or all) your interest lies.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the projects. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards,

Hi Andrew,

Thank you for your request to register on the projects listed below, including the *Development of a Cluster of Renewable Energies Between Somerset East and Makhanda, Eastern Cape* project.

Will you please, on behalf of Mulilo Renewable Project Developments, complete the attached registration forms to register formally on the projects' databases as required by the EIA Regulations, 2014, as amended, Regulation 43.(1):

- *A registered interested and affected party is entitled to comment, in writing, on all reports or plans submitted to such party during the public participation process contemplated in these Regulations and to bring to the attention of the proponent or applicant any issues which that party believes may be of significance to the consideration of the application, provided that the interested and affected party discloses any direct business, financial, personal or other interest which that party may have in the approval or refusal of the application*

As soon as we receive Mulilo Renewable Project Developments registration forms, the release code will be provided.

The following projects are Part 2 Amendments – you are welcome to just drop us an e-mail with the disclosures and interest in the projects:

- Aggeneys 1 and 2 PV Facilities, Northern Cape
- Geelstert 1 and Geelstert 2 Solar PV Facilities, and Geelstert Grid Connection
- LICHTENBURG 1, LICHTENBURG 2 & LICHTENBURG 3 PV FACILITIES, NORTH WEST PROVINCE

Kind regards,

Hi Mike,

Please receive herewith confirmation that, as requested below, are registered on the project database.

Please find attached for your perusal the notification letter announcing the commencement of the Basic Assessment process, the Background Information Document and the registration and comment form.

It will be appreciated if you can complete the attached registration and comment form and return it to us.

Kind Regards,

Hi Nicolene

Hope you are well.

Please register me on the database and send me the BID for the Development of a Cluster of Renewable Energies Between Somerset East and Makhanda, Eastern Cape.

Thanks
Mike

Nicolene Venter

Dear Nick,

Herewith the release code: [REDACTED]

Please be informed that currently only the Background Information Documents (English & Afrikaans) and the registration and comment form are on the project's website.

It is envisaged that the Basic Assessment Reports will be available for review and comment in the first quarter of 2021, and as a registered I&AP you will receive notification thereof.

Kind regards,

From: Nick Orphanides [REDACTED]

Subject: DEVELOPMENT OF A CLUSTER OF RENEWABLE ENERGY FACILITIES: Notification of commencement of Basic Assessment and Public Participation Processes

DEVELOPMENT OF A CLUSTER OF RENEWABLE ENERGY FACILITIES BETWEEN SOMERSET EAST AND MAKHANDA, EASTERN CAPE PROVINCE

Dear Interested and Affected Parties,

A cluster of renewable energy facilities is proposed to be developed on various project sites located between Somerset East and Makhandla within the Cookhouse Renewable Energy Development Zone (REDZ), as well as the Eastern Strategic Transmission Corridor. The cluster consists of nine (9) projects which includes six (6) wind farms, two (2) solar energy facilities and one (1) Main Transmission Substation (MTS). A suitable project site for each development has been identified by the project development companies and the entire extent of the projects is located within the Sarah Baartman District Municipality. The western section is located within the Blue Crane Route Local Municipality and the eastern section within the Makana Local Municipality.

Please find attached the Background Information Document which provides additional information regarding the application for the six (6) wind energy facilities, the two (2) solar energy facilities and the 400MW Main Transmission Substation.

We kindly request you to complete the attached stakeholder registration and comment form to formally register on the project databases and indicate in which of the nine (9) projects (or all) your interest lies.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the projects. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

NOTIFICATION OF BASIC ASSESSMENT REPORT FOR
REVIEW AND COMMENT

03 March 2021

Dear Stakeholder and Interested & Affected Party,

WIND GARDEN WIND FARM AND FRONTEER WIND FARM, EASTERN CAPE PROVINCE

NOTICE OF AVAILABILITY OF BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

The development of the Wind Garden Wind Farm with a contracted capacity of up to 264MW which will include up to 47 wind turbines and the Fronteer Wind Farm with a contracted capacity of up to 213MW which will include up to 38 wind turbines are proposed to be developed near Makhanda within the Cookhouse Renewable Energy Development Zone (REDZ), Sarah Baartman District Municipality, Eastern Cape Province.

The properties affected by these two proposed wind farm developments are tabled below:

Wind Garden Wind Farm	Fronteer Wind Farm
Remaining Extent of Farm Brackkloof No 183	Remainder of Farm Table Hill Farm No 187
Portion 5 of Farm Hilton No 182	Portion 2 of Table Hill Farm No 187
Portion 8 of Farm Hilton No 182	Portion 3 of the Farm Table Hill Farm No 187
Portion 4 of Farm Vandermerweskraal No 132	Remainder of the Farm Hounshow No 131
Portion 1 of Farm Thursford No 183	Portion 1 of Farm Draai Farm No 184
	Portion 1 of Farm No 132
	Portion 1 of Farm Burnt Kraal No 189
	Portion 1 of Farm Table Hill No 187

Notification of the commencement of the Basic Assessment (BA) processes was distributed in November 2020. The notification letter was accompanied by the Background Information Document (BID) which provided information regarding the cluster development, which the Wind Garden Wind Farm and Fronteer Wind Farm form part of, and the BA and public participation processes to be followed. Visit our online stakeholder engagement platform at <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/> where the public documents for these two (2) projects are available.

AVAILABILITY OF BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

As a registered Stakeholder and Interested & Affected Party (I&AP), you are hereby notified that the Basic Assessment (BA) Reports for the Wind Garden Wind Farm and Fronteer Wind Farm are available for your review and comment from **Thursday, 04 March 2021** until **Wednesday, 07 April 2021**.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on making hard copies of the BA Reports available at public places such as libraries and municipal offices. All the reports are available on the Savannah Environmental online stakeholder engagement platform at <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. As per our approved public participation plan submitted to the Department of Environment, Forestry and Fisheries (DEFF), you can also request that an electronic copy of the BA Reports be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the BA Reports by **Wednesday, 07 April 2021** via our online stakeholder engagement platform (link provided above) or:

- » Telephone: 011 656 3237
- » Mobile: 060 978 8396 (including please call me)
- » Fax: 086 684 0547
- » Post: PO Box 148, Sunninghill, 2157
- » E-mail: publicprocess@savannahsa.com

All comments can be addressed to Nicolene Venter at Savannah Environmental.

All comments received during the 30-day review and comment period will be recorded and included in the Final Basic Assessment Reports for submission to the DEFF in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

INVITATION TO AND NOTIFICATION OF PUBLIC MEETINGS

You are invited to attend any one of the two (or both) online public meetings which will take place on **Monday, 15 March 2021** at **18h00** and **Tuesday, 16 March 2021** at **10h00**. Please contact Nicolene Venter (details above) to receive the virtual link for attendance.

We are looking forward to your attendance at the public meetings and your participation in the public participation processes as your valuable contribution to the proposed projects will ensure an inclusive approach and allow the DEFF to make an informed decision.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the projects. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards,

Nicolene Venter
