NOTICE OF BASIC ASSESSMENT PROCESS PUBLIC PARTICIPATION PROCESS

WIND GARDEN WIND FARM, EASTERN CAPE PROVINCE

Project Name: Wind Garden Wind Farm, Eastern Cape Province

Applicant: Wind Garden (Pty) Ltd

Proposed Activity: The development of a wind farm with a contracted capacity of up to 264MW which will include up to 47 wind turbines and associated infrastructure including and on-site switching station, collector substation, 132kV power line, access roads (gravel in nature), concrete foundations and hardstands, laydown areas, cabling to be laid underground where practical, temporary concrete batching plant, staff accommodation, and operation and maintenance buildings.

Location: The project site is between Somerset East and Makhanda located, approximately 18km north-west of Makhanda, within the Makana Local Municipality and the Sarah Baartman District Municipality in the Eastern Cape Province. The site falls within Focus Area 3 of the Renewable Energy Development Zones (REDZ), which is known as the Cookhouse REDZ.

Five (5) properties comprise the wind farm project site: Remaining Extent of Farm Brackkloof No 183, Portion 5 of Farm Hilton No 182, Portion 8 of Farm Hilton No 182, Portion 4 of Farm Vandermerweskraal No 132, Portion 1 of Farm Thursford No183.

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the project. As the project site is located within a REDZ, a Basic Assessment (BA) process is required to be undertaken in accordance with GNR114 (February 2018). Savannah Environmental is undertaking the required environmental assessment and public participation process.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:

November 2020

KENNISGEWING VAN 'N BASIESE EVALUERINGSPROSES OPENBARE DEELNAMEPROSES

WIND GARDEN WINDPLAAS, OOS-KAAPPROVINSIE

Projeknaam: Wind Garden Windplaas, Oos-Kaapprovinsie

Applikant: Wind Garden (Edms.) Bpk.

Beoogde aktiwiteit: Die ontwikkeling van 'n windplaas met 'n gekontrakteerde vermoë van hoogstens 264 MW, wat tot 47 windturbines en verwante infrastruktuur sal insluit, met insluiting van 'n interne skakelstasie, kollektorsubstasie, 132 kV kraglyn, toegangspaaie (gruis van aard), betonfondasies en vasteblaaie, stapelwerfgebiede, kables wat ondergronds gelê moet word waar prakties moontlik, tydelike betonlotaanleg, personeelverblyf en bedryfs- en instandhoudingsgeboue.

Ligging: Die projekterrein is geleë tussen Somerset-Oos en Makhanda, sowat 18 km noordwes van Makhanda in die Makana Plaaslike Munisipaliteit en die Sarah Baartman Distriksmunisipaliteit in die Oos-Kaapprovinsie. Die terrein is in Fokusgebied 3 van die Hernubare Kragontwikkelingsones (REDZ), wat bekendstaan as die Cookhouse REDZ.

Die windplaasprojek beslaan vyf (5) eiendomme: Restant van die plaas Brackkloof No. 183, Gedeelte 5 van die plaas Hilton No. 182, Gedeelte 8 van die plaas Hilton No. 182, Gedeelte 4 van die plaas Vandermerweskraal No. 132 en Gedeelte 1 van die plaas Thursford No. 183.

Basiese Evalueringsproses: Ingevolge Artikel 24 en 24D van die Nasionale Wet op Omgewingsbestuur (Wet 107 van 1998), saamgelees met Staatskennisgewing R324 tot R327, soos gewysig, moet 'n Omgewingsmagtiging vir die projek onderneem word. Aangesien die projekterrein in 'n REDZ geleë is, moet 'n Basiese Evalueringsproses (BE) ingevolge Staatskennisgewing R114 (Februarie 2018) onderneem word. Savannah Environmental onderneem die vereiste omgewingsevaluering en openbare deelnameproses.

Board lacks civil society presence to ensure sustainable development, civic and eco-rights groups argue

Nuclear watchdogs rip into regulator

Guy Rogers
rogers@theherald.co.za

Environmental and civil rights watchdogs have raised concerns about the absence of civil society representation on the board of the National Nuclear Regulator, an element required by law.

Koeborg Alert Alliance representative Peter Becker said according to the National Nuclear Regulator (NNR) Act, one member of the board had to be a civil society representative.

"However, when the cabinet announced a new board for the regulator on August 5, no such representative was included.

"This lack of representation is contributing to the ongoing weak governance at the regulator, the role of which is to monitor regulations compliance to ensure safety and the prevention of nuclear accidents."

Wildlife and Environment Society Algoa Bay chair Gary Koekemoer said the legal requirement for civil society representation on the board of the nuclear regulator was an example of how to ensure SA's democracy balanced environmental and citizen interests with those of the state and industry.

"Sustainable development and collective stewardship requires citizen participation and this becomes key in the nuclear industry where the mismanagement of toxic

waste, for instance, has severe consequences for future generations."

Koekemoer said he had been actively involved, as part of NoPEnuke, in protesting against Eskom's bid to build a nuclear reactor at Thyspunt, between Cape St Francis and Oyster Bay, and supporting groups like the Thyspunt Alliance in their opposition to environmental and heritage grounds.

That decade-long battle resulted in the national environment department's record of decision in 2017 that the project should rather proceed at Duynfontein in the Western Cape, adjacent to the existing Koeborg reactor.

He said when democracy came into effect in 1994 it had included excellent environmental legislation with checks and balances.

"But lately some of the regulations coming out of the department have been used as a rubber-stamp exercise where government and industry attempt to short-cut the process."

"We would hope that we have learnt from the state capture debacle that short cuts serve vested interests only and not the interests of citizens."

Thyspunt Alliance spokesperson Trudi Malan said the organisation had, in fact, raised the lack of civil society representation on the board of the regulator while they were opposing the Thyspunt bid.

"That was about three years

ago and all these years later we have still not heard back from them."

Southern African Faith Communities' Environment Institute (Safcei) executive director Francesca de Gasparis said the situation was unacceptable.

"Affected communities such as people living near Vaalputs, a radioactive waste dump in the Northern Cape, have the right to have a representative on the board who will represent their community and their interests for a safe and healthy environment."

"It is not right that mineral resources and energy minister Gwede Mantashe has not appointed a representative as stipulated in the Act."

Organisation Undoing Tax Abuse representative Liz McDaid said the organisation had also been trying without success to get answers from the authorities.

Makoma Lekalaka from Earthlife Africa Johannesburg said the organisation was concerned that the lack of a civil society representative on the regulator's board would mean no progress on cleaning up uranium-heavy toxic mine tailings around Johannesburg.

Becker noted that after Japan's 2011 Fukushima disaster, the International Atomic Energy Agency had recommended that nuclear regulators should be strengthened.

"Yet, according to the regulator's annual financial statements for 2018/2019, the gov-

The picture also shows the stone traps early Khoisan residents used to lay in the shallows to catch fish. Picture: THYSPUNT ALLIANCE

ernment grant was R16.5m, nearly 20% less than the R20m grant in 2010/2011, just before the Fukushima disaster."

The regulator's annual report also showed that more than one in 10 posts at the agency were vacant, he said.

"If it is both underfunded and understaffed, is the regulator still able to adequately monitor safety at Koeborg?"

"We would stand a better chance of knowing if we had a representative on the board, as required by law."

"The minister should immediately start the process of selecting a true representative of

civil society to serve on the National Nuclear Regulator board," he said.

Becker said that in addition to the non-compliance with the NNR Act, the prescribed process was also questionable.

"It is deeply problematic that we, as civil society, cannot elect our own representative, and that the Act allows this so-called representative to be appointed by the same minister who openly promotes nuclear power."

Mineral resources and energy department spokesperson Johannes Mokobane said the process to bring civil society

representation on the board of the regulator was under way.

"The minister has initiated a comprehensive consultative process with the National Economic Development and Labour Council and the South African National Civic Organisation aimed at identifying suitable candidates to be considered for appointment," Mokobane said.

"Upon conclusion of this process, the identified individuals will be considered by cabinet prior to their appointment being made effective and their identities being made public."

Still no word on lifting traditional circumcision ban

Lulamile Feni

Contralesa, the provincial health department and NGOs have stepped up efforts to ensure a safe summer initiation season by making traditional surgeons and nurses aware of the regulations governing SA's Covid-19 response.

Co-operative governance and traditional affairs minister Nkosazana Dlamini-Zuma has not yet lifted the ban on traditional circumcisions, though the pressure to do so is mounting.

There have already been a series of illegal circumcisions in Buffalo City, OR Tambo and Amathole.

Contralesa provincial secretary Nkosi Mkhayiseli Dudumayo said the surgeons and nurses were being taught how to apply Covid-19 regulations to the traditional practice.

Both Contralesa and the SA National Civic Organisation (Sanco), which met this week, are angry that an announcement lifting the circumcision ban has not been made.

Sanco provincial secretary Tony Duba said communities had been patient since June, but "that patience is fading".

"We do not want anarchy caused by illegal initiations," Duba said.

"We do not want an uncontrollable situation.

"We want things to be done in accordance with the law, all Covid-19 regulations being observed."

Dudumayo said that at the meeting Contralesa deputy provincial chair Nkosi Langa

Mavuso had presented a proposal submitted to premier Oscar Mabuyane to open the summer season.

Dudumayo said Contralesa and Sanco were disappointed that traditional leadership had not yet received a response.

"While we are treated with contemptuous attitudes, there has been no supervision of the traditional initiation rite.

"There has been one fatality and initiates hospitalised.

"To avert such a situation, we call for the summer season to be opened."

"Sanco leadership and NGOs in the health sector will take responsibility, and a programme will see to it that a refresher course is undertaken by traditional surgeons to minimise any blunders that may occur," Dudumayo said.

Contralesa and Sanco agreed that both structures would engage Mabusyane and Cogta MEC Xolile Nqatha.

"The traditional initiation rite is not a recreational activity but a tradition of passage from boyhood to manhood."

"It is important that this institution which is protected in the main by the traditional leadership must be given the green light to continue."

"When the opening of [academic] schools was touted, it was said that schools were a controlled environment."

"We advance the same argument because there are responsible adults who are involved in the administration of the traditional rite of initiation," Dudumayo said. — Daily Dispatch

KALEIDOSKOOP VAN LEWE

Soeke na 'n lewe van sin en betekenis ...

Ds Paul Odendaal

Seëls was klein gegraveerde voorwerpe, meestal in die vorm van 'n ring om af te drukke in klei of was te maak. Seëlafdrukke wys dat die dokument eg is, of dat die dokument nog nie ooggemaak is nie.

Op die seël was gewoonlik die eienaar se naam of kop, amp of familiewapen gegraveer. 'n Seël kon aan 'n persoon gegee word, om aan hom die mag te gee om die eienaar van die seël te verteenwoordig. So lees ons in Gen 41:42 dat koning Farao aan Josef, wat 'n slaaf was in Egipte, sy seëlring gee as teken dat hy nou die tweede hoogste is in die Egiptiese Ryk en dat hy met die Farao se seëlring namens die Farao kon regeer.

Die Bybel noem twee gevalle waar seëls gebruik is om ingange te verseël. Toe die profeet Daniël in die leeu kuil gegooi is, staan daar in Dan 6:18: "Daar is 'n klip gebring en op die opening van die leeu kuil gesit. Die koning het die opening verseël met sy seëlring en met dié van sy hoofamptenare sodat daar niks aan Daniël se lot verander sou kon word nie." Toe Jesus Christus se liggaam in 'n graf gesit is, het die Romeine ook sy graf verseël, sodat die Jode nie kon sê dat Jesus se liggaam gesteel is nie.

Daarom het 'n seëlring deur die geskiedenis van duisende jare altyd die rol vervul om iets te bevestig as outentiek, eg en oorspronklik. Wanneer 'n dokument 'n koninklike seël opgehad het, was dit altyd die finale opdrag van die koning en kan niks daaraan verander word nie. Daarom het die opstellers van die Heidelbergse Kategismus ook die doop beskryf as 'n seël, dat die Drie Enige God die dopeling aanneem om sy kind te wees.

Jou verlossing word as't ware verseël. Jesus Christus het werklik vir jou ook gesterf. Daar word verseël dat jy deel het aan al God se beloftes.

Prof Willie Jonker skryf dat dit in die kinderdoop gaan oor God se voorkomende genade wat die dopeling red. Jesus Christus het gesterf vir my erfsonde en ook alle sonde wat ek nog in my lewe sal doen. Dit is nie die dopeling se geloof en bekering wat die oorsaak of grond van die verlossing is nie. Dit is God wat uit vrye inisiatief sy verlossingsplan met die doop aan die dopeling kom beseël het.

Deur die doop word ons ook verseël as kinders van Abraham. Ons kry deel aan die gemeente. Ons as gemeente ontvang die dopelinge as medebroers en -susters in die Here. Ons as gemeente het net soos hulle ouers en grootouers, die verantwoordelikheid om vir die twee jongelinge die regte pad te wys.

Die dopelinge gaan groot word. Hulle gaan leer om te dans. Dan gaan hulle met hulle metgeselle en lewensmaat dans. Om te dans moet jy leer. Verbondopvoeding is om te leer om in ritme saam met die Drie Enige God te dans. In ritme met die Drie Enige God, beteken om volgens die wil van God te dans. In die doop wat plaasvind "in die naam van die Vader en die Seun en die Heilige Gees", dans die Drie Enige God met die doopplegtigheid. Die Griekse woord om saam met God te dans is "perichoresis".

Die jongeling moet net leer, om soos hulle ouer word, ook saam met die Drie Enige God te dans. Daarom word 'n lewe saam met Christus, so goed opgesom in die lied van: "The Lord of the dance." Die Drie Enige God gee die melodie en die ritme aan. Die dopeling moet net inval by God se dans. Johannes Calvyn het gesê dat die twee vernaamste elemente van geloofopvoeding moet liefde en strengheid wees. Liefde kweek geborgenheid en strengheid kweek sekuriteit. Met geborgenheid en sekuriteit het 'n kind alles om 'n suksesvolle grootmenslewe eendag te betree. 'n Jong boompie moet ook konstant gesnoei word om vorm aan te neem. As 'n Kareeboom gelos word, word dit 'n bos. Wanneer 'n Kareeboom gedurig gesnoei word, word dit 'n pragtige boom waaronder jy kan sit en waaronder

Fraudsters Target Legal Practitioners In Latest Fund Scam

The Legal Practitioners Fidelity Fund (LPFF) wishes to alert the public about a current scam attempting to defraud legal professionals by pretending to represent our organisation. This is of great concern to the LPFF, especially given our desire to enhance justice and contribute to the growth of the legal fraternity.

The modus operandi of the fraudsters is to contact legal practitioners about an

erroneous overpayment made into their bank accounts, purportedly by the LPFF. They then request the practitioner to refund a certain amount to them urgently to correct this error. Fraudsters have long used this technique to scam companies and individuals and as such, the LPFF feels this warning is equally relevant to those outside the legal profession.

We encourage legal practitioners to remain vigilant and to contact the LPFF to verify any communications bearing our name that raises suspicion.

Bonfils Barendereka, (Public Relations and Communications) at the LPFF, is available for media interviews to discuss this scam and the red flags that legal practitioners, and other individuals, can look out for to protect themselves from similar fraud attempts.

erroneous overpayment made into their bank accounts, purportedly by the LPFF. They then request the practitioner to refund a certain amount to them urgently to correct this error. Fraudsters have long used this technique to scam companies and individuals and as such, the LPFF feels this warning is equally relevant to those outside the legal profession.

Amen.

(Ds. Paul Odendaal is leraar van die NG Kerk Adelaide.)

KENNISGEWING VAN BASIESE EVALUERINGSPROSESSE OPENBARE DEELNAMEPROSESSE

ONTWIKKELING VAN 'N GROEP HERNUBARE KRAGANLEGTE TUSSEN SOMERSET-OOS EN GRAHAMSTAD, OOS-KAAP

Beoogde aktiwiteit: Die ontwikkeling van 'n groep hernubare kragaanlegte bestaande uit nege (9) projekte, insluitend ses (6) windplase, twee (2) sonkragaanlegte en een (1) hooftransmissiesubstasie (HTS).

Ligging: Tussen Somerset-Oos en Grahamstad in die Cookhouse Hernubare Kragontwikkelingsone (REDZ) en die Oostelike Strategiese Transmissiekorridor. Die totale omvang van die projekte is in die Sarah Baartman Distrikmunisipaliteit en in die Blou Kraanvoëlroete- en die Makana Plaaslike Munisipaliteit.

Basic Assessment Report Advertisements

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES

WIND GARDEN WIND FARM AND FRONTEER WIND FARM, EASTERN CAPE PROVINCE

Project Names: Wind Garden Wind Farm and Fronteer Wind Farm, Eastern Cape Province

Applicant: Wind Garden (Pty) Ltd and Fronteer (Pty) Ltd

Proposed Activities: The development of the Wind Garden Wind Farm with a contracted capacity of up to 264MW which will include up to 47 wind turbine and the Fronteer Wind Farm with a contracted capacity of up to 213MW which will include up to 38 wind turbines. Associated infrastructure for each wind farm includes on-site switching station, collector substation, a 132kV power line (twin turn dual circuit), access roads (gravel in nature), concrete foundations and hardstands, laydown area, cabling to be laid underground where practical, temporary concrete batching plant, temporary staff accommodation, and operation and maintenance buildings.

Location: Located between Somerset East and Makhanda, ~18km north-west of Makhanda, within the Makana Local Municipality, Sarah Baartman District Municipality of the Eastern Cape Province, and within the Cookhouse Renewable Energy Development Zones (REDZ). The affected properties include:

Wind Garden Wind Farm	Fronteer Wind Farm
Remaining Extent of Farm Brackloof No 183	Remainder of Farm Table Hill Farm No 187
Portion 5 of Farm Hilton No 182	Portion 2 of Table Hill Farm No 187
Portion 8 of Farm Hilton No 182	Portion 3 of the Farm Table Hill Farm No 187
Portion 4 of Farm Vandermerweskraal No 132	Remainder of the Farm Hounshow No 131
Portion 1 of Farm Thursford No 183	Portion 1 of Farm Draai Farm No 184
	Portion 1 of Farm No 132
	Portion 1 of Farm Burnt Kraal No 189
	Portion 1 of Farm Table Hill No 187

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the projects. As the project sites are located within a REDZ, Basic Assessment (BA) processes are required to be undertaken in accordance with GNR114 (February 2018). Savannah Environmental is undertaking the required environmental assessments and a combined public participation process.

Basic Assessment Reports available for review: The Basic Assessment (BA) Reports for both these applications are available for review and comment from **Thursday, 04 March 2021** until **Wednesday, 07 April 2021** and can be viewed at / downloaded from: <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. The due date for written comments is Wednesday, 07 April 2021. Please see contact details below for submission of written comments.

Public Meetings: Interested and affected parties (I&APs) are invited to attend any one of the two online public meetings which will take place on **Monday, 15 March 2021** at **18h00** and **Tuesday, 16 March 2021** at **10h00**. Please contact Nicolene Venter (details below) to receive the virtual link for attendance.

● Musician enjoys monkeys, birds and kayaking during Plett adventure

Majozi takes walk on wild side

Zamandulo Malonde
malondez@theherald.co.za

Monkeyland, Birds of Eden and other iconic spots in Plettenberg Bay provided the perfect backdrop for SA musician Nhlanihla Majozi and social media content creators while filming a winter campaign for an international brand.

Majozi experienced the town's majestic coastline with photographer and videographer Dean Cothill and social media content creators Daniela Ing and Shawn Ogulu over four days last week.

The photo campaign was for an international camera brand which could not be disclosed yet, Majozi said.

Spoilt for choice, the crew visited the Knysna Elephant

Park, sailed on Ocean Sailing Charters, kayaked at Untouched Adventures and viewed Plettenberg Bay's coastline from a luxury catamaran, among other activities.

Though an experienced traveller and musician, Durban-born Majozi said kayaking at Untouched Adventures in Tsitsikamma was an unforgettable experience.

"I don't know why but whenever I do anything that's water-related I fall in love with it."

"Kayaking in Tsitsikamma is like kayaking in Jurassic Park. It's awe-inspiring," Majozi said.

He said while he was not much of a hiker, they enjoyed their scenic sunset hike at the Robberg Nature Reserve.

"On our last day, we visited Luka Vineyards and I had some delicious cake while the rest had a little wine tasting because I don't drink, but my girlfriend said the wine was amazing."

"We actually bought a few bottles to bring back [home]," he said.

The former bank-teller's music career requires frequent travel across cities, countries and sometimes continents, but not many topped the beauty of SA, he said.

"We have so much beauty here, right on our doorstep, and most of it is world-class, which you can't get anywhere else."

"Our domestic tourism is really amazing and they need our help now without their

normal overseas clients.

"I really encourage anyone who has the means to travel to consider somewhere local," he said.

And what is a visit to a town's valued gems without a taste of its township culture? Kasi Kasi Lyfstyle Tshisananyama in KwaNokuthula township welcomed the group with a nostalgic Tshisananyama experience while they bonded with the locals, wrapping up the tour.

"That afternoon we were welcomed into KwaNokuthula township for some delicious tshisananyama at Kasi Lyfstyle, and got to speak to the locals and hear about their experiences and how the Garden Route as a whole has been affected by lockdowns," Majozi

said. Plett Tourism — which welcomed the group to the town on Wednesday last week — said they were excited when given the opportunity to facilitate an itinerary focused on some of Plett's most exciting natural assets for the group of dynamic creatives.

Plett Tourism chief executive Patty Butterworth said of the visit: "Working with influencers and the media builds important relationships in tourism which, in turn, opens many doors."

"At Plett Tourism, we understand the value of these relationships, and the opportunity will be leveraged to showcase our beautiful town to both an international market and our local Afrocentric market."

East Cape doctor passionate about family planning for rural women

Herald Reporter

EMPOWERING WOMEN: Dr Dylan Gibson has received a Rural Individual Award from the Discovery Foundation to complete his study on contraception. He hopes his research will empower women in the rural Eastern Cape and give them better access to effective family planning

With an inherent determination to help those less fortunate, an Eastern Cape doctor has opted to apply his set of skills to empower women in the far-flung regions of the province.

Dr Dylan Gibson, who is in his final year of the family medicine postgraduate programme at Walter Sisulu University in Mthatha, decided to focus his research on giving women in the rural Eastern Cape better education and access to effective family planning.

The decision led to the 34-year-old receiving a Rural Individual Award from the Discovery Foundation to complete his study on contraception.

Gibson, who grew up in East London, said providing primary health care to the needy was among his motivations as it was the home of family medicine, but his parents were his greatest source of inspiration.

His mother is an anaesthetist and his father an orthopaedic surgeon at Frere Hospital in East London.

Together with his wife and four children, Gibson lives at Madwaleni Provincial Hospital — about 80km from Mthatha — where he has worked as a community service doctor since 2013.

For his qualitative study on contraception, Gibson will be looking at women's percep-

tions and experiences of an intrauterine device, also known as the loop, inserted immediately after they have given birth.

He said SA had a high number of unplanned pregnancies and in some cases it was simply because of a lack of information.

"These pregnancies can be the result of contraceptive failure or a lack of knowledge of, or access to, different types of contraceptive methods."

"Many women are only really familiar with the injectables, which are administered every three months," Gibson said.

"In the rural areas, women cannot always make it to follow-up appointments for a variety of reasons."

He said women were often not told about the full range of contraceptive options during their pregnancies and therefore relied on things they heard from their family,

friends and other community members.

"By the time women arrive at the hospital to deliver their babies, there isn't enough time to introduce them to a new contraceptive option such as the loop, and many women often end up choosing the method with which they are most comfortable."

Gibson said antenatal classes provided an opportunity to counsel women about the contraceptive options available to them.

"The right visual aids can be very effective in getting the information about the various options out there."

The research thus had the potential to provide healthcare workers in similar contexts with valuable information to support women in accessing effective family planning.

"This, in turn, could benefit the community as a whole," he said.

Cape Recife celebrates 65th year

Herald Reporter

Cape Recife School intends releasing 65 environment-friendly balloons tomorrow to celebrate its 65th birthday.

The school, which caters for pupils with special education needs, reached the milestone on Monday and had planned to release the balloons yesterday but the Gqeberha wind did not play along.

Principal Jacques Hugo said the school normally celebrated its anniversary on the first Fri-

day of March. "We usually have a carnival and sports day but we have toned it all down due to Covid-19," he said.

Hugo, who took over the reins at the school in 2011, said cupcakes would be handed out to pupils who would also be educated about the Covid-19 pandemic.

The school's founding story is one of courage and determination.

A desperate quest by the late Hannah Lurie to find help for her severely handicapped

daughter, Sandra, culminated in the creation of Cape Recife School in the 1950s.

Though the school has since broadened its scope, its original objective was to create a school for cerebral palsy children.

It was established on March 1 1956 in the Congregational Church Hall in Pearson Street.

At the time, only seven pupils were enrolled.

On April 20 1963, the school moved to Admiralty Way after the then-Port Elizabeth Munic-

ipality donated the land in Summerstrand.

It is renowned for its high educational standards and excellent matric results and is regarded as one of the leading schools of its kind in SA.

Hugo said the school had enrolled 464 pupils this year. "That is a big jump from the original seven in 1956," he said.

"I often envy those who came before me as they saw the development of the school throughout its history."

BIG DAY: Cape Recife High School head boy Reuben Stander, 17, left, deputy principal Suzy Dreyer, principal Jacques Hugo, deputy principal Erica Maritz and head girl Jessica van Vuuren, 18, celebrate the Summerstrand-based school's 65th anniversary. Picture: WERNER HILLS

Advertorial

Solving a doctor's dilemma: Hidden germs on cellphones

The thought that she, as a mother and a doctor, could be carrying harmful bacteria into the paediatric ICU where she worked with vulnerable children, made Dr Libinu Thomas wonder about the most effective ways of disinfecting doctors' cellphones

Doctors seldom go anywhere without their cellphones, especially when there are no working pager systems. It can be a lifesaving tool of communication in many difficult situations or in rural settings, but Dr Libinu Thomas, a paediatric registrar, wondered if it could also be a source of infection.

Her curiosity made her decide to research the use of ultraviolet light to disinfect cellphones, instead of the usual alcohol swabs. In an ICU setting, hospital-associated infections can easily spread via doctors' cellphones when they move from one patient to another.

A family of scientists

Dr Thomas's journey to being a paediatric registrar at Frere Hospital in East London stretched over three continents.

Her family had lived in India and Kenya, before settling in Port Edward in South Africa in 1995. Her mother was a science teacher and her father taught biology. She matriculated at Port Shepstone High School. Her love of science, a desire to help people, and a fascination with the complexity of the human body, contributed to her deciding to study medicine. She graduated as a doctor from the University of the Free State in 2006.

"It was during my community service year that I realised that I loved paediatrics. Being part of a team helping each unique child and their family is a humbling blessing, for which I am grateful every day," the 36-year-old says.

Dr Thomas married an orthopaedic specialist, Dr Koshy Daniel. They live in East London, where she is working in paediatrics as a medical officer.

"My husband came across a device that uses ultraviolet light to disinfect cell phones, rather than using the 70% alcohol swabs. Many doctors are worried about damaging their phones with the swabs," Dr Thomas explains. "I became interested in doing research on this."

UV light versus microbes in the paediatric ICU

If the UV light can kill microbes, it would be a better option to use in the paediatric ICU, where harmful organisms can be present. "The cost of doing the research was, however, a problem, as the phones needed to be swabbed constantly, and these swabs had to be sent off to the pathology laboratory for analysis," she says.

"I attended the Discovery Foundation's roadshow in East London, and it encouraged me to apply for funding to do this research project as part of my MMed," Dr Thomas says.

"I was elated when I received the award, as it will go a long way in covering the costs of the laboratory tests," she concludes. "This new research will show us the best way to disinfect cellphones in a paediatric ICU setting, and could save many lives."

eastern cape GAMBLING BOARD

PROVINCIAL NOTICE BY THE MEMBER OF THE EXECUTIVE COUNCIL FOR THE DEPARTMENT OF ECONOMIC DEVELOPMENT, ENVIRONMENTAL AFFAIRS AND TOURISM

NOTICE OF CANDIDATES FOR CONSIDERATION FOR APPOINTMENT ON THE EASTERN CAPE GAMBLING BOARD IN TERMS OF SECTION 5(3)(b) AND (c) OF THE EASTERN CAPE GAMBLING ACT, 5 OF 1997 (AS AMENDED)

I, GERALD MLUNGISI MVOKO, Member of the Executive Council for Economic Development, Environmental Affairs and Tourism, acting in terms of Section 5(3)(a) of the Eastern Cape Gambling Act, 1997 (Act No. 5 of 1997) hereby list the names of nominees / applicant's who have applied for the vacancies on the Eastern Cape Gambling Board as advertised on the 11th January 2021 in the following print media:

- Provincial Government Gazette No. 449 of 2021
- Daily Dispatch; and The Herald

In terms of Section 5(3)(b) of the Act the responsible member must advertise the list of applicants / nominees in the Provincial Gazette and media. In line therewith, the names of the nominees / applicants are as follows and the categories for which they applied for is as follows:

1. Vuyo Zitumane: Socio Economic Development // Representative for the interest of the community at large
2. Simphiwe Dzwenga: Socio Economic Development // Representative for the interest of the community at large
3. Herbert Robert James Fichat: Law
4. Adv. Jacques Johan Buchner: Law
5. Joseph Harper: Chartered Accountant
6. Ashley Latchu: Socio Economic Development // Representative for the interest of the community at large
7. Clyde Peter Lawrence: Socio Economic Development
8. Lwazi Magayana: Chartered Accountant
9. Khayalethu Majeké: Socio Economic Development // Representative for the interest of the community at large
10. Siphob Robert Tandani: Law // Socio Economic Development
11. Vuyelwa Vika: Socio Economic Development
12. Henry Jacobus Janse van Rensburg: Socio Economic Development

In terms of Section 5(3)(c) of the Act, any person who wishes to object to the appointment of any of the above applicants / nominees, may not later than 14 days before the date on which the appointment of the board is intended to be made, being 1 April 2021, lodge with the responsible member in writing an objection stating the ground or grounds which, according to such person, disqualify the person to be appointed, from being appointed as a member to the board.

All objections must be submitted in writing to: Ms. Ronel de Bruin at Ronel.debruin@dedea.gov.za and Ronel.debruin23@gmail.com for consideration by the Honourable MEC. Enquiries may be directed to Ms. Ronel de Bruin on cell: 060 564 5370

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES
WIND GARDEN WIND FARM AND FRONTEER WIND FARM, EASTERN CAPE PROVINCE

Project Names: Wind Garden Wind Farm and Fronter Wind Farm, Eastern Cape Province
Applicant: Wind Garden (Pty) Ltd and Fronter (Pty) Ltd
Proposed Activities: The development of the Wind Garden Wind Farm with a contracted capacity of up to 264MW which will include up to 47 wind turbine and the Fronter Wind Farm with a contracted capacity of up to 213MW which will include up to 38 wind turbines. Associated infrastructure for each wind farm includes on-site switching station, collector substation, a 132kV power line (twin turn dual circuit), access roads (gravel in nature), concrete foundations and reinforcement, laydown area, cabling to be laid underground where practical, temporary concrete batching plant, temporary staff accommodation, and operation and maintenance buildings.

Location: Located between Somerset East and Makhanda, ~18km north-west of Makhanda, within the Makana Local Municipality, Sarah Baartman District Municipality of the Eastern Cape Province, and within the Cookhouse Renewable Energy Development Zones (REDZ). The affected properties include:

Wind Garden Wind Farm	Fronter Wind Farm
Remaining Extent of Farm Brackkloof No 183	Remainder of Farm Table Hill Farm No 187
Portion 5 of Farm Hilton No 182	Portion 2 of Table Hill Farm No 187
Portion 8 of Farm Hilton No 182	Portion 3 of the Farm Table Hill Farm No 187
Portion 4 of Farm Vandermerweskraal No 132	Remainder of the Farm Hounshow No 131
Portion 1 of Farm Thursford No183	Portion 1 of Farm Draai Farm No 184
	Portion 1 of Farm No 132
	Portion 1 of Farm Burnt Kraal No 189
	Portion 1 of Farm Table Hill No 187

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the projects. As the project sites are located within a REDZ, Basic Assessment (BA) processes are required to be undertaken in accordance with GNR114 (February 2018). Savannah Environmental is undertaking the required environmental assessments and a combined public participation process.

Basic Assessment Reports available for review: The Basic Assessment (BA) Reports for both these applications are available for review and comment from **Thursday, 04 March 2021** until **Wednesday, 07 April 2021** and can be viewed at / downloaded from: <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. The due date for written comments is **Wednesday, 07 April 2021**. Please see contact details below for submission of written comments.

Public Meetings: Interested and affected parties (I&APs) are invited to attend any one of the two online public meetings which will take place on **Monday, 15 March 2021 at 18h00** and **Tuesday, 16 March 2021 at 10h00**. Please contact Nicoleene Venter (details below) to receive the virtual link for attendance.

KENNISGEWING VAN 'N BASIESE EVALUERINGS- EN OPENBARE DEELNAMEPROSES

WIND GARDEN WINDPLAAS EN FRONTEER WINDPLAAS, OOS-KAAPROVINSIE

Projekname: Wind Garden Windplaas en Fronteer Windplaas, Oos-Kaapprovinsie

Applikant: Wind Garden (Edms.) Bpk. en Fronteer (Edms.) Bpk.

Beoogde Aktiwiteite: Die ontwikkeling van die Wind Garden Windplaas met 'n gekontrakteerde vermoë van hoogstens 264 MW, wat hoogstens 47 windturbines sal insluit, en die Fronteer Windplaas met 'n gekontrakteerde vermoë van hoogstens 213 MW, wat hoogstens 38 windturbines sal insluit. Verwante infrastruktuur vir elke windplaas sluit in 'n interne skakelstasie, kollektorsubstasie, 'n 132 kV kraglyn (gedraaide tweelingkraglyn), toegangspaaie (gruis van aard), betonfondasies en vasteblaaie, 'n stapelwerf, kables wat ondergronds gelê moet word waar dit prakties moontlik is, 'n tydelike betonlotaanleg, tydelike personeelverblyf en bedryfs- en instandhoudingsgeboue.

Ligging: Geleë tussen Somerset-Oos en Makhanda, ~18 km noordwes van Makhanda in die Makana Plaaslike Munisipaliteit, Sarah Baartman Distriksmunisipaliteit van die Oos-Kaapprovinsie en in die Cookhouse Hernubare Kragontwikkelingsone (REDZ). Die geaffekteerde eiendomme sluit in:

Wind Garden Windplaas	Fronteer Windplaas
Restant van die plaas Brackkloof No. 183	Restant van die plaas Table Hill Farm No. 187
Gedeelte 5 van die plaas Hilton No. 182	Gedeelte 2 van Table Hill Farm No. 187
Gedeelte 8 of Farm Hilton No 182	Gedeelte 3 van die plaas Table Hill Farm No. 187
Gedeelte 4 van die plaas Vandermerweskraal No. 132	Restant van die plaas Hounshow No. 131
Gedeelte 1 van die plaas Thursford No. 183	Gedeelte 1 van die plaas Draai Farm No. 184
	Gedeelte 1 van Plaas No. 132
	Gedeelte 1 van die plaas Burnt Kraal No. 189
	Gedeelte 1 van die plaas Table Hill No. 187

Basiese Evalueringproses: Ingevolge Artikel 24 en 24D van die Nasionale Wet op Omgewingsbestuur (Wet 107 van 1998), saamgelees met Staatskennisgewing R324 tot R327, soos gewysig, moet 'n Omgewingsmagtiging vir die projekte onderneem word. Aangesien die projekterreine in 'n REDZ geleë is, moet Basiese Evalueringprosesse (BE's) ingevolge Staatskennisgewing R114 (Februarie 2018) onderneem word. Savannah Environmental onderneem die vereiste omgewingsevaluering en 'n gekombineerde openbare deelnameproses.

Basiese Evalueringsverslae beskikbaar vir insae: Die Basiese Evalueringsverslae (BE's) vir albei hierdie aansoeke is beskikbaar vir insae en kommentaar vanaf **Donderdag, 4 Maart 2021** tot **Woensdag, 7 April 2021** en kan besigtig word op/afgelaai word by: <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. Die sperdatum vir skriftelike kommentaar is Woensdag, 7 April 2021. Sien asseblief die onderstaande kontakbesonderhede vir die indiening van skriftelike kommentaar.

Openbare Vergaderings: Belangstellende en geaffekteerde partye (B&GP's) word genooi om enigeen van die twee aanlyn openbare vergaderings by te woon wat sal plaasvind op **Maandag, 15 Maart 2021** om **18h00** en **Dinsdag, 16 Maart 2021** om **10h00**. Tree asseblief in verbinding met Nicolene Venter (kontakbesonderhede hieronder) om die skakel vir die virtuele bywoning te ontvang.

GREAT FISH RIVER WATER USERS' ASSOCIATION ("GFRWUA") IMPORTANT NOTICE

TO ALL WATER USERS / IRRIGATORS WHO ABSTRACT WATER FOR IRRIGATION FROM ANY WATER SOURCE THAT FALLS WITHIN THE MANAGEMENT AREA OF THE GFRWUA

The purpose of this notice is to invite all interested and affected parties to raise issues of concern if any, regarding the implementation of the following resolution:

1. In all instances where irrigation water is currently distributed and/or delivered to any property other than to the property in respect of which the declaration of water use entitlement had been issued, such distribution and/or delivery will be terminated with effect on 30 June 2021 unless the management committee of the GFRWUA authorises a temporary transfer as contemplated Section 25(1) of the National Water Act.

2. All applications for a temporary transfer of a water use entitlement as contemplated in Section 25(1) of the National Water Act, must be made by the declared holder of such entitlement on the prescribed form (as amended from time to time) and only fully compliant applications will be processed for consideration by the management committee of the GFRWUA.

Any submissions should be directed by email to:
The Chief Executive Officer
Great Fish River Water Users' Association

To all community members – Basic Assessments and Public Participation Processes are being undertaken by Savannah Environmental for the proposed Wind Garden and Fronteer wind farms near Makanda. The Basic Assessment Reports for the wind farm developments are available for your review and comment. You can download the reports as well as other supporting information from the Savannah Environmental website, at www.savannahsa.com under the *Public Documents* page.

The 30-day review and comment period for the reports are from **Thursday, 04 March 2021** until **Wednesday, 07 April 2021**.

To obtain further information and register on the project database, please send your name, contact information and interest in the project to Nicolene Venter at Savannah Environmental. Call us on 011 656 3237, or on 060 978 8396, or send an e-mail to publicprocess@savannahsa.com.

Basic Assessment Report
EXTENDED COMMENT PERIOD

NOTICE OF EXTENSION OF BASIC ASSESSMENT REPORTS' REVIEW AND COMMENT PERIOD

WIND GARDEN WIND FARM AND FRONTEER WIND FARM, EASTERN CAPE PROVINCE

Project Names: Wind Garden Wind Farm and Fronteer Wind Farm, Eastern Cape Province

Applicant: Wind Garden (Pty) Ltd and Fronteer (Pty) Ltd

Proposed Activities: The development of the Wind Garden Wind Farm with a contracted capacity of up to 264MW which will include up to 47 wind turbine and the Fronteer Wind Farm with a contracted capacity of up to 213MW which will include up to 38 wind turbines. Associated infrastructure for each wind farm includes on-site switching station, collector substation, a 132kV power line (twin turn dual circuit), access roads (gravel in nature), concrete foundations and hardstands, laydown area, cabling to be laid underground where practical, temporary concrete batching plant, temporary staff accommodation, and operation and maintenance buildings.

Location: Located between Somerset East and Makhanda, ~18km north-west of Makhanda, within the Makana Local Municipality, Sarah Baartman District Municipality of the Eastern Cape Province, and within the Cookhouse Renewable Energy Development Zones (REDZ). The affected properties include:

Wind Garden Wind Farm	Fronteer Wind Farm
Remaining Extent of Farm Brackloof No 183	Remainder of Farm Table Hill Farm No 187
Portion 5 of Farm Hilton No 182	Portion 2 of Table Hill Farm No 187
Portion 8 of Farm Hilton No 182	Portion 3 of the Farm Table Hill Farm No 187
Portion 4 of Farm Vandermerweskraal No 132	Remainder of the Farm Hounshow No 131
Portion 1 of Farm Thursford No 183	Portion 1 of Farm Draai Farm No 184
	Portion 1 of Farm No 132
	Portion 1 of Farm Burnt Kraal No 189
	Portion 1 of Farm Table Hill No 187

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the projects. As the project sites are located within a REDZ, Basic Assessment (BA) processes are required to be undertaken in accordance with GNR114 (February 2018). Savannah Environmental is undertaking the required environmental assessments and a combined public participation process.

Notification of Extension of review and comment period for Basic Assessment Reports: The review and comment period for the Basic Assessment (BA) Reports commenced on 04 March 2021. At the request of registered parties, the review period has been extended to **06 May 2021** and can be viewed at / downloaded from: <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. The due date for written comments is **Thursday, 06 May 2021**. Please see contact details below for submission of written comments.

● **Mdantsane specialist reinstated to contest for vacant crown**

Featherweight title saga finally gets resolved

Mesuli Zifo

The two-year saga over the SA featherweight title has been resolved after top-rated Them-bani Mbangatha and Asanda Gingqi were again reinstated to contest for the vacant crown.

While no date or venue have been decided, with the promotional rights of the fight yet to be confirmed, the decision puts an end to the soap opera that has rendered the title without a holder for more than two years while Boxing SA was caught up in bureaucratic red tape amid threats of legal action.

The title has been vacant since July 2018 after Khanyile Bulana won and relinquished it without ever defending it.

BSA ordered four contenders to engage in an elimination bout because Gingqi was the only boxer qualified to fight for it owing to the recently scrapped three-fight rule.

Mbangatha knocked out Aphwe Masengwana in one of the eliminators but there was controversy with the second elimination bout between Mfusi Maxhayi and Abdul-Aziz Kunert when BSA refused to sanction it even though the ring announcer had declared it as such before the bout.

This led to Kunert's knock-out victory being overlooked until he threatened to take BSA to court to enforce his title shot.

In a bid to appease all parties involved, BSA agreed to sanction a Mbangatha-Kunert bout for an interim title on the understanding that the winner would face Gingqi for the full title.

But a misunderstanding in the Kunert camp saw the official who entered the deal with BSA walking away from the fight.

Mbangatha and Gingqi were reinstated to contest the title with Xaba Promotions scheduling the fight for its tournament in East London last December.

However, Mbangatha suffered a shoulder injury and withdrew, with then sixth-rated Toto Helebe being brought in as a late replacement.

The neverending twists and turns flared up again days before the fight when the entire tournament was cancelled due to a spike of Covid-19 infections in the Buffalo City metro.

With the new BSA board coming into office with its subcommittees days later, the new sanctioning committee inherited the saga and had to deal with it.

"When we came to office we had to first deal with the saga of the featherweight division," sanctioning committee chair Mike Sodo said.

"After looking at the permutations and transcripts we felt Mbangatha and Gingqi were the two suitable contenders to contest the vacant title."

"We wanted to do away with the notion of an interim title because it was another avenue that was adding to the confusion."

Sodo's decision came just in time after BSA did away with the three-fight rule which had plunged the division into the saga.

The ratings committee also reshuffled the ratings of the division, elevating Gingqi from eighth to fourth spot to add to the credibility of the two contenders for the title.

Kunert, who is rated second, will likely face the winner.

Sodo said all the parties had been informed of the outcome and they were all happy with the resolution taken to finally end the two-year saga. — *Daily Dispatch*

BSA vetoes call to allow top amateurs to turn professional

Mesuli Zifo

Boxing SA has turned down a request to allow amateur boxers who have won medals to turn professional this year.

The decision was taken after BSA suspended the graduation of all amateur boxers to the professional ranks this year owing to inactivity caused by Covid-19.

BSA argued that flooding the professional ranks with more boxers when there was blanket inactivity due to the coronavirus would worsen the situation.

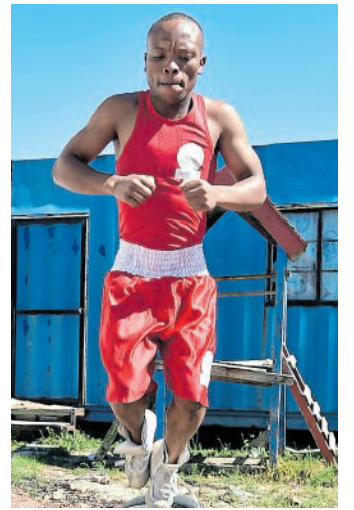

Hundreds of boxers who left the amateur ranks to fight for pay have been subjected to long spells of inactivity, with some failing to secure a single fight in the paid ranks.

Some fighters have resorted to criminal activities as a result. The situation is worse in regions with limited boxing activity such as Eastern Province and the Transkei, where tournaments are scarce.

However, there have been calls for BSA to allow proven amateur boxers with international credentials, such as those who won medals at championships, to be allowed to turn professional without subjecting them to the graduation process (by undergoing sparring sessions).

Boxers with international experience such as Masibulele "Hawk" Makepula, Ludumo Galada, Jackson Chauke, Bongani Mwelase, Unathi Jacobs and others were not subjected to sparring sessions before they were allowed to turn professional because they had already proven their ability in the amateur ranks.

But due to BSA's undertaking to establish a close working relationship with the SA National Amateur Boxing Organisation (Sanabo) whose full ex-

SHARPENING SKILL: Flyweight boxer Siyabulela Mphongose during a training session. Picture: EUGENE COETZEE

ecutive, including president Andile Mofu, resigned last year, the regulatory body has been unable to officially enter into the deal.

"Boxing SA could not locate an agreement to allow outstanding amateur boxers to turn professional without undergoing sparring sessions; nor have we been furnished with such by Sanabo," BSA acting CEO Cindy Nkomo said.

"However, following the BSA board's strategic workshop held on March 25-27, at which the Sanabo's interim president made a presentation, both entities resolved to expedite the development of a memorandum of understanding and aim to have this signed by the end of quarter two of this financial year."

Sanabo's interim structure, which came into being after Mofu's departure, is scheduled to hold elections in June to comply with the regulations of the International Amateur Boxing Association, which called for the full executive to be elected within six months. — *Daily Dispatch*

SUB-CONTRACT SANRAL R.075-040-2018/1 – 29 TO 35

SUB-CONTRACTS FOR THE SPECIAL MAINTENANCE OF NATIONAL ROUTE R75 SECTION 4 FROM KM35 TO 51

TENDER NOTICE

CLOSING DATE: FRIDAY, 30 APRIL 2021 AT 11:00

Tau Pele Construction (Pty) Ltd invites experienced EME and QSE sub-contractors to a tender briefing session for **SANRAL R.075-040-2018/1 – 29 to 35** for the **SPECIAL MAINTENANCE OF NATIONAL ROUTE R75 SECTION 4 FROM KM35 TO KM51** on behalf of the South African National Roads Agency SOC Limited (SANRAL). This project is in the province of the Eastern Cape and in the district municipality of Sarah Baartman.

Preferences are offered to prospective tenderers from the targeted area, namely the Blue Crane and Dr Beyers Naude Local Municipalities, as well as the CIDB grades and classes indicated for each sub-contract package. This tender will be evaluated in terms of functionality as a criterion and the price and preference points system. Tenderers who satisfy the following criteria are eligible to submit tenders:

- B-BBEE Level 1 or 2 contributor.
- Exempted Micro Enterprise (EME) or Qualifying Small Enterprise (QSE).
- Registered on the National Treasury Central Supplier Database (CSD).
- Registered as "active" with the Construction Industry Development Board (CIDB) in the relevant contractor grade and class designation (where applicable)

An award will only be made to preferred Tenderers that are:

- Compliant with the Compensation for Occupational Injuries and Diseases Act (COID); and
- Tax Compliant.

Sub-contractors are required for the following subcontracts:

- Package 29**
1 x Crushed Stone Base Package
- Package 30**
1 x Road Signs Package (CIDB 1 CE/SK PE)
- Package 31**
1 x Road Markings Package (CIDB 1 CE/SK PE)
- Package 32**
1 x Landscaping and Planting Plants Package 1 (CIDB 1 CE PE)
- Package 33**
1 x Landscaping and Planting Plants Package 2 (CIDB 2CE OR 2 CE PE)
- Package 34**
1 x Landscaping and Planting Plants Package 3 (CIDB 2CE OR 2 CE PE)
- Package 35**
1 x Finishing Road and Road Reserve and Treating Old Roads Package (CIDB 1CE OR 1 CE PE)

Note to Tenderers:

- Tau Pele Construction (Pty) Ltd will reserve the right to negotiate feasible rates with the preferred tenderers if necessary.
- Tenderers may submit tenders for all sub-contracts in this Tender Notice, but only 1 (one) subcontract will be let per preferred Tenderer at any one time for this project.

Compulsory information briefing meetings and training sessions will take place at **Pearston Town Hall** in **Pearston** from **Monday, 12 April 2021** where prospective Tenderers shall meet the Contractor. An information briefing session roster with specific times will be emailed to tenderers who respond with the below requested information.

Interested parties must email the below details to s.sonti@taupele.co.za by no later than **5pm on 08 April 2021**:

- Full Name and Surname of one (1) representative
- Company Name, Contact Number, email address, and
- package(s) you are interested in.

The abovementioned information is required to adhere to COVID-19 Lockdown conditions. Such information will also be utilised as preapproval for admission into the information briefing meeting venue.

An information briefing session roster with specific times will be emailed to tenderers who respond with the above requested information. The roster will be at the entrance of the venue and tenderers are advised to be punctual in the groups they appear on the roster. **Late arrivals in the respective groups will not be allowed access in the venue even in the following group sessions and therefore will not be issued Tender Documents and will not be allowed to submit a tender.** Such tenders received, shall be deemed non-responsive.

Tender documents will be made available at the information briefing in the form of a CD. The CD will contain an electronic copy of the tender document, in PDF format. Only the documents within the folder named "Returnable Document" must be printed, bound and completed with all the relevant supporting documents attached.

Applicant: Wind Garden (Pty) Ltd and Fronteer (Pty) Ltd

Proposed Activities: The development of the Wind Garden Wind Farm (DFFE Reference No.: 14/12/16/3/3/1/2314) with a contracted capacity of up to 264MW which will include up to 47 wind turbine and the Fronteer Wind Farm (DFFE Reference No.: 14/12/16/3/3/1/2315) with a contracted capacity of up to 213MW which will include up to 38 wind turbines. Associated infrastructure for each wind farm includes on-site switching station, collector substation, a 132kV power line (twin turn dual circuit), access roads (gravel in nature), concrete foundations and hardstands, laydown area, cabling to be laid underground where practical, temporary concrete batching plant, temporary staff accommodation, and operation and maintenance buildings.

Location: Located between Somerset East and Makhanda, ~18km north-west of Makhanda, within the Makana Local Municipality, Sarah Baartman District Municipality of the Eastern Cape Province, and within the Cookhouse Renewable Energy Development Zones (REDZ). The affected properties include:

Wind Garden Wind Farm	Fronteer Wind Farm
Remaining Extent of Farm Brackloof No 183	Remainder of Farm Table Hill Farm No 187
Portion 5 of Farm Hilton No 182	Portion 2 of Table Hill Farm No 187
Portion 8 of Farm Hilton No 182	Portion 3 of the Farm Table Hill Farm No 187
Portion 4 of Farm Vandermerweskraal No 132	Remainder of the Farm Hounshow No 131
Portion 1 of Farm Thursford No 183	Portion 1 of Farm Draai Farm No 184
	Portion 1 of Farm No 132
	Portion 1 of Farm Burnt Kraal No 189
	Portion 1 of Farm Table Hill No 187

Basic Assessment Process: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, Environmental Authorisation is required for the projects. As the project sites are located within a REDZ, Basic Assessment (BA) processes are required to be undertaken in accordance with GNR114 (February 2018). Savannah Environmental is undertaking the required environmental assessments and a combined public participation process.

Notification of Revised Basic Assessment Reports for public review and comment: The BA Reports for these two (2) projects have been revised to include additional information in response to comments received on the initial reports. The Revised Basic Assessment (BA) Reports for both these applications are available for review and comment from **Monday, 21 June 2021** until **Wednesday, 21 July 2021** and can be viewed at / downloaded from: <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. The due date for written comments is **Wednesday, 21 July 2021**. Please see contact details below for submission of written comments.

END OF THE ROAD: Nkosinathi Joyi's legs could not support him as Ayanda Ndulani dropped him three times before knocking him out in their bout at the East London International Convention Centre Picture: SINO MAJANGAZA

Joyi: Why I lost my title

● Deposed champ says repeated postponements and theft of equipment put him on back foot

Mesuli Zifo

Deposed world mini-flyweight champion Nkosinathi Joyi blamed the postponements of his title defence to Ayanda Ndulani as the reason for failing to make the weight for their clash last month. Joyi was dropped three times by Ndulani before being knocked out in four rounds in the clash at the East London International Convention Centre. Breaking his silence after he set an ignominious record of being one of few boxers to lose a world title on the scales, Joyi claimed the fight had been postponed four times which had messed up his training schedule. As if that were not enough, there was a break-in at his Eyethu boxing club in Mdantsane where all the training equipment was stolen. "They took everything and left us with nothing to train with," he said. As a result, he could not work on the punch bag, speed balls to sharpen his technique. "I could not even engage in sparring sessions until I was called to help spar with Tyrirha [Ntlanda] at his own gymnasium." Tyrirha also fought in the same tournament and beat

Filipino Joe Canoy in a junior-flyweight contest. While the stolen equipment disrupted Joyi's preparations, it was the consistent postponement of the fight that he claims threw him a curve ball. Joyi said the fight had initially been scheduled for March, having been informed about it in February before it was moved to April 30. Fight promoter Ayanda Matti of Xaba Promotions then moved it to May 21 after the date clashed with family commitments. "All those postponements messed me up. By the time it happened my body could no longer take it any more." Despite being 38, Joyi insisted he would not retire but would keep campaigning in the mini-flyweight division. Joyi has been dabbling between mini-flyweight and junior-flyweight divisions until he got an opportunity to contest for the world title in the lighter division where he beat Canoy for the vacant IBO crown in December 2019. However, like all boxers, he was laid low by Covid-19 which brought about boxing inactivity around the world. While he weighed 48kg — which is a junior-fly-

weight limit — at the weigh-in for the title defence against Ndulani, he insisted he would still be able to make the mini-flyweight limit. "If I am given enough time to prepare for a fight I could easily make the mini-flyweight." And despite the one-sided drubbing by Ndulani, Joyi still wants a rematch. "I still say when I am fit with no distractions Ndulani will never beat me. In fact, if I were to get just one warm-up fight I would challenge him to a rematch and beat him." This even though Joyi appeared to have no legs to support himself during the fight as he wobbled around the ring before being stepped into by the ring. "My legs felt unsteady even as I walked to the ring. It was a strange feeling that I had never felt in my entire career. "I do not want to make excuses besides saying I would love Ndulani to beat me fair and square with no distractions." He admitted he had not started training as he is yet to decide where to train after his gym was broken into. — DispatchLIVE

Fury, Wilder trade barbs ahead of trilogy fight

WBC heavyweight champion Tyson Fury vowed to run Deontay Wilder down while the challenger said blood would be shed as the fighters came face-to-face in an odd press conference ahead of their July 24 trilogy fight in Las Vegas, US. Fury (50-0-1) first fought former long-time heavyweight champion Wilder (42-1-1) to a draw in 2018 and took the WBC title from him in a rematch in February last year with a seventh-round stoppage. A shirtless and upbeat Fury said that he had added one-punch knockout power to his arsenal and would flatten the American when the bell rang at T-Mobile Arena.

"What I'm going to do to Deontay Wilder this time is I'm going to run him over as if I'm an 18-wheeler and he's a human being," the Briton, who predicted that he would knock Wilder out in fewer than seven rounds, said. "I'm building my weight up, I'm trying to get up to 300 pounds for this fight because I'm looking for a big knockout straight away," he said. "I don't think he's mentally, physically or emotionally involved in this fight. "I think he's doing it for the wrong reasons and when people do things for the wrong reasons, they always wind up getting hurt." Wilder kept his head-

phones on and his mouth shut for the majority of Tuesday's media conference but he spoke briefly to thank his team, which includes new trainer and former professional boxer Malik Scott, and to take a shot at Fury. "Enough said ... because come July 24, there will be bloodshed," Wilder said. The media conference in Los Angeles ended with a more than five-minute long face-off where neither fighter spoke to the other, though members of their camps exchanged a few words. "Thank you everybody for turning out for this one-sided press conference," Fury said. — Reuters

KENNISGEWING VAN INSAE EN KOMMENTAAR PERIODE VIR DIE HERSIENDE BASIESE EVALUERINGSVERSLAE

WIND GARDEN WINDPLAAS EN FRONTEER WINDPLAAS, OOS-KAAPROVINSIE

Projekname: Wind Garden Windplaas en Fronteer Windplaas, Oos-Kaapprovinsie

Applikant: Wind Garden (Edms.) Bpk. en Fronteer (Edms.) Bpk.

Beoogde Aktiwiteite: Die ontwikkeling van die Wind Garden Windplaas met 'n gekontrakteerde vermoë van hoogstens 264 MW, wat hoogstens 47 windturbines sal insluit, en die Fronteer Windplaas met 'n gekontrakteerde vermoë van hoogstens 213 MW, wat hoogstens 38 windturbines sal insluit. Verwante infrastruktuur vir elke windplaas sluit in 'n interne skakelstasie, kollektorsubstasie, 'n 132 kV kraglyn (gedraaide tweelingkraglyn), toegangspaaie (gruis van aard), betonfondasies en vasteblaaie, 'n stapelwerf, kables wat ondergronds gelê moet word waar dit prakties moontlik is, 'n tydelike betonlotaanleg, tydelike personeelverblyf en bedryfs- en instandhoudingsgeboue.

Ligging: Geleë tussen Somerset-Oos en Makhanda, ~18 km noordwes van Makhanda in die Makana Plaaslike Munisipaliteit, Sarah Baartman Distriksmunisipaliteit van die Oos-Kaapprovinsie en in die Cookhouse Hernubare Kragontwikkelingsone (REDZ). Die geaffekteerde eiendomme sluit in:

Wind Garden Windplaas	Fronteer Windplaas
Restant van die plaas Brackkloof No. 183	Restant van die plaas Table Hill Farm No. 187
Gedeelte 5 van die plaas Hilton No. 182	Gedeelte 2 van Table Hill Farm No. 187
Gedeelte 8 of Farm Hilton No 182	Gedeelte 3 van die plaas Table Hill Farm No. 187
Gedeelte 4 van die plaas Vandermerweskraal No. 132	Restant van die plaas Hounshow No. 131
Gedeelte 1 van die plaas Thursford No. 183	Gedeelte 1 van die plaas Draai Farm No. 184
	Gedeelte 1 van Plaas No. 132
	Gedeelte 1 van die plaas Burnt Kraal No. 189
	Gedeelte 1 van die plaas Table Hill No. 187

Basiese Evalueringproses: Ingevolge Artikel 24 en 24D van die Nasionale Wet op Omgewingsbestuur (Wet 107 van 1998), saamgelees met Staatskennisgewing R324 tot R327, soos gewysig, moet 'n Omgewingsmagtiging vir die projekte onderneem word. Aangesien die projekterreine in 'n REDZ geleë is, moet Basiese Evalueringprosesse (BE's) ingevolge Staatskennisgewing R114 (Februarie 2018) onderneem word. Savannah Environmental onderneem die vereiste omgewingsevaluering en 'n gekombineerde openbare deelnameproses.

Kennisgewing van Hersienende Basiese Evalueringsverslae beskikbaar vir insae en kommentaar: Die Basiese Evalueringsverslae (BE's) vir albei aansoeke is hersien om die addisionele inligting wat op die vorige verslae ontvang was, in te sluit. Die Hersienende Basiese Evalueringsverslae vir beide aansoeke is beskikbaar vir insae en kommentaar vanaf **Maandag, 21 Junie 2021** tot **Woensdag, 21 Julie 2021** en kan besigtig word op/afgelaai word by: <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. Die sperdatum vir skriftelike kommentaar is **Woensdag, 21 Julie 2021**. Sien asseblief die onderstaande kontakbesonderhede vir die indiening van skriftelike kommentaar.

Basiese Evalueeringsproses: Ingevolge Artikel 24 en 24D van die Nasionale Wet op Omgewingsbestuur (Wet 107 van 1998), saamgelees met Staatskennisgewing R324 tot R327, soos gewysig, moet 'n Omgewingsmagtiging vir die projekte onderneem word. Aangesien die projekterreine in 'n REDZ geleë is, moet Basiese Evalueeringsprosesse (BE's) ingevolge Staatskennisgewing R114 (Februarie 2018) onderneem word. Savannah Environmental onderneem die vereiste omgewingsevalueerings- en 'n gekombineerde openbare deelnameproses.

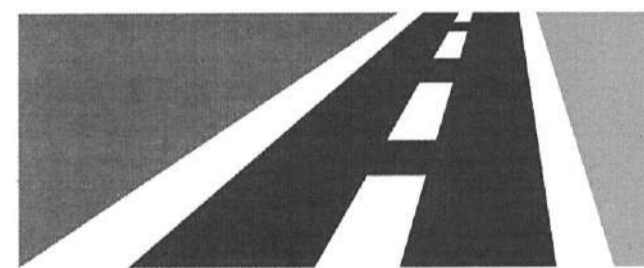

Kennisgewing van Hersiende Basiese Evalueeringsverslae beskikbaar vir insae en kommentaar: Die Basiese Evalueeringsverslae (BE's) vir albei aansoeke is hiersien om die addisionele inligting wat op die vorige verslae ontvang was, in te sluit. Die Hersiende Basiese Evalueeringsverslae vir beide aansoeke is beskikbaar vir insae en kommentaar vanaf **Maandag, 21 Junie 2021 tot Woensdag, 21 Julie 2021** en kan besigtig word op/afgehaal word by: <https://savannahsa.com/public-documents/energy-generation/eastern-cape-cluster-of-renewable-energy-facilities/>. Die sperdatum vir skriftelike kommentaar is **Woensdag, 21 Julie 2021**. sien asseblief die onderstaande kontakbesonderhede vir die indiening van skriftelike kommentaar.

SANRAL

SOUTH AFRICAN NATIONAL ROADS AGENCY SOC LTD

Reg. No. 1998/009584/30

Blasting on the R63 between Fort Beaufort and Alice

The South African National Roads Agency SOC Ltd (SANRAL) would like to notify travellers that blasting is scheduled to take place between Fort Beaufort and Alice on Thursday, 17 June 2021.

It is estimated the blast will take place between 14:00 and 17:00, approximately 2 km from Fort Beaufort when travelling towards Alice.

The road will be closed during the blast. The duration of the closure will be kept to as short duration as possible.

Motorists travelling southwards towards Alice and King Williams Town may consider using the following alternative routes:

From Queenstown follow the N6 to Cathcart, turn right on the R345 to Alice or continue on the N6 to Stutterheim and on exiting the town, turn right onto R346 to King William's Town.
From N10 junction with the R63 towards Fort Beaufort on R63, follow the R67 from Fort Beaufort to Grahamstown to join the N2 to King William's Town.
From Whittlesea, follow the R67 towards Seymour, then turn left onto the R351 towards Cathcart on the N6, then turn right and continue on the N6 to Stutterheim, then turn right onto the R346 to King William's Town.

Motorists travelling northwards towards Queenstown and westwards towards N10 and/or Whittlesea may consider using of the following alternative routes:

From King William's Town to Queenstown, follow the R346 to Stutterheim, turn left on the N6 to Queenstown.
From Alice to Queenstown follow the R345 to Cathcart and turn left onto N6 to Queenstown.
From King William's Town towards N10, follow the N2 towards Grahamstown, turn right on the R67 to Fort Beaufort, then turn left onto R63 towards the N10.
From King William's Town towards Whittlesea, follow the R346 to Stutterheim, turn left onto the N6 to Cathcart. Before entering Cathcart turn left onto R351 to Whittlesea. On reaching the R67 then turn right to Whittlesea.

"Motorists are asked to plan their trips, accordingly, consider alternative routes and to use caution when making use of the roads," said Mbulelo Peterson, SANRAL Southern Region's Manager.

SANRAL apologises for any inconvenience caused.
