GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND GRID CONNECTION INFRASTRUCTURE NEAR RICHMOND, NORTHERN CAPE PROVINCE

(DFFE Reference Nos.:

- Merino WEF: 14/12/16/3/3/1/2114
- Kwana PV: 14/12/16/3/3/2/2118
- Moiri PV: 14/12/16/3/3/2/2116
- Nku PV: 14/12/16/3/3/1/2115
- Grid Connection Infrastructure (To be issued)

Dear Stakeholder and Interested & Affected Party,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms.

Please find attached for your perusal the notification letter informing you of the availability of the Environmental Impact Assessment Reports (EIAs) and the Basic Assessment (BA) Report for your review and comments. The EIAs are available for downloading from our website [click here](#) and the BA Report is available on our website [click here](#).

INVITATION TO THE INFORMATION SESSION:

The attached letter also serves to invite you to attend the Information Session to be held on Thursday, 26 May 2022 at 17h00 at the Richmond Town Hall. Please complete the attached Registration Form to confirm your attendance.

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the EIA and BA Processes.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

13 May 2021

Dear Stakeholder and Interested and Affected Party,

**GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND GRID CONNECTION INFRASTRUCTURE
NEAR RICHMOND, NORTHERN CAPE PROVINCE**

(DFFE Reference Nos.:

- Merino WEF: 14/12/16/3/3/1/2114
- Kwana PV: 14/12/16/3/3/2/2118
- Moiri PV: 14/12/16/3/3/2/2116
- Nku PV: 14/12/16/3/3/1/2115
- Grid Connection Infrastructure (To be issued)

**NOTIFICATION OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT AND BASIC ASSESSMENT
REPORTS FOR REVIEW AND COMMENT**

The development of the three (3) 100MW solar photovoltaic (PV) energy facilities, the 140MW Merino Wind Energy Facility, 140MW Angora Wind Energy Facility and the Grid Connection Infrastructure for which separate Environmental Impact Assessment (EIA) processes and a combined Public Participation Process are being conducted, namely:

Solar PV Facilities	Wind Energy Facilities
Nku Solar PV Facility	Angora Wind Energy Facility
Moiri Solar PV Facility	Merino Wind Energy Facility
Kwana Solar PV Facility	
Grid Connection Infrastructure	
Central collector 132kV substation and a double circuit 132kV power line to the existing Eskom Gamma Substation	

The detailed project information that was provided in the Background Information Document (BID) distributed on 21 October 2021, has reference.

ENVIRONMENTAL IMPACT ASSESSMENT AND BASIC ASSESSMENT REPORTS AVAILABLE FOR PUBLIC REVIEW AND COMMENT

The Environmental Impact Assessment Reports (EIARs) for each of the renewable energy facilities listed above are available for review and comment from **Friday, 13 May 2022** until **Monday, 13 June 2022**. The reports are available for download from the Savannah Environmental website <https://savannahsa.com/public-documents/energy-generation/the-great-karoo-cluster-of-renewable-energy-facilities/>.

The Basic Assessment Report (BAR) for the Grid Connection Infrastructure is available for review and comment from **Friday, 20 May 2022** until **Monday, 20 June 2022**. The reports are available for download from the Savannah Environmental website <https://savannahsa.com/public-documents/grid-infrastructure/the-great-karoo-cluster-grid-connection-infrastructure/>.

Angora WEF: Please note that the availability of the Angora WEF EIA Report for a 30-day review and comment period will be communicated in due course.

Please note Regulation 3(1) of the Environmental Impact Assessment Regulations, 2014, as amended, i.e.:

Subject to subregulations (2) and (3), when a period of days must in terms of these Regulations be reckoned from or after a particular day, that period must be reckoned as from the start of the day following that particular day to the end of the last day of the period, but if the last day of the period falls on a Saturday, Sunday or public holiday, that period must be extended to the end of the next day which is not a Saturday, Sunday or public holiday.

Although the EIAs for the renewable energy facilities will be available during the course of the day on Friday, 13 May 2022, Saturday, 14 May 2022 would be the first day of your 30-day review and comment period. The due date for written comments is Monday, 13 June 2022. Similarly for Grid Connection Infrastructure BAR that will be available during the course of the day on Friday, 20 May 2022, Saturday, 21 May 2022 would be the first day of your 30-day review and comment period. The due date for written comments is Monday, 20 June 2022.

As per our approved public participation plan submitted to the Department of Forestry, Fisheries and the Environment (DFFE), you can also request that an electronic copy of the Scoping Reports be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the EIAs and BAR via one of the following means:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547
- E-mail: publicprocess@savannahsa.com

All comments should be addressed to Nicolene Venter at Savannah Environmental.

All comments received during the 30-day review and comment periods will be recorded and included in the Final EIAs and Final BAR for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

INVITATION TO INFORMATION SESSION

You are invited to attend the Information Session which will take place at the Richmond Town Hall on **Thursday, 26 May 2022** starting with a poster display at **17h00**, after which those that are interested in attending the presentation can attend the presentation which will start at **17h30**. The Information Session will take place in compliance with the current COVID-19 protocols, and I&APs are therefore required to register their attendance before or on **Monday, 23 May 2022**. Please complete the attached registration form and return to Nicolene Venter or send a WhatsApp / SMS or e-mail to Nicolene (details above) to register your attendance.

We are looking forward to your participation in the public participation processes for these projects as your valuable contribution to the proposed projects will ensure an inclusive approach and allow the DFFE to make an informed decision.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Notification of initiation of EIA & Public Participation
Process

21 October 2021

Dear Stakeholder and Interested and Affected Party,

**PROPOSED DEVELOPMENT OF THE GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND
GRID CONNECTION INFRASTRUCTURE NEAR RICHMOND, NORTHERN CAPE PROVINCE
(DEFF Reference Nos.: To be Issued)**

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, including Electrical Grid Infrastructure (EGI), ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms. The grid connection infrastructure for all projects will include one central collector 132kV substation and a double circuit 132kV power line to the existing Eskom Gamma Substation, located within the Western Cape Province.

Each renewable energy facility will be constructed as a separate stand-alone project and therefore, separate Scoping and Environmental Impact Assessment (EIA) processes will be undertaken for each of the renewable energy facilities. Similarly, the grid connection solution will be subjected to a separate Basic Assessment (BA) process which will consider feasible alternatives for the power line corridors. A combined six (6) applications for Environmental Authorisation (EA) are currently being pursued as follows:

- » Two (2) wind farm EAs:
 - o Angora Wind Energy Facility
 - o Merino Wind Energy Facility
- » Three (3) solar PV facility EAs:
 - o Nku Solar PV Facility
 - o Moiriro Solar PV Facility
 - o Kwana Solar PV Facility
- » One (1) Electrical Grid Infrastructure (EGI)
 - o A central collector 132kV substation and double circuit 132kV power line EA.

Additional technical information regarding these renewable energy facilities is available in the Background Information Document attached to this notification letter.

ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended) published in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), the applicants require Environmental Authorisation (EA) from the National Department of Environment, Forestry and Fisheries (DFFE) in consultation with the Northern Cape Department of Agriculture, Environmental Affairs, Rural Development and Land Reform (DAEARD&LR) and the Western Cape Department of Environmental Affairs and Development Planning (DEA&DP) for the development of the proposed projects. In terms of Section 24(5) of NEMA, the EIA Regulations 2014 (as amended) and Listing Notices (GNR 327, GNR 325, and GNR 324), the five (5) applications for EA for the renewable energy facilities are subject to the completion of Scoping/EIA processes, and that for the EGI is subject to the completion of a BA process. Each application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014 (as amended).

The proponent has appointed Savannah Environmental, as the independent environmental consultant to undertake the EIA processes for the projects to identify and assess all potential environmental impacts associated with the projects and recommend appropriate mitigation measures in the Environmental Management Programmes (EMPrs).

Due to the proximity of the renewable energy facilities and their associated grid connection solution to one another, the public participation processes for the projects will be undertaken concurrently, providing the public with an opportunity to understand and provide comment on all the projects. The Public Participation Plan submitted to the DFFE and this approach was approved by the DFFE on 15 September 2021. As part of the environmental studies, Interested and Affected Parties (I&APs) will be actively involved through the public involvement process being undertaken by Savannah Environmental.

You and/or the organization/company, which you represent, have been identified as a stakeholder for the proposed projects as described above. The nature and extent of the solar PV, wind energy facilities, the EGI and associated infrastructure are explored in more detail in the BID which is attached to this letter and is also available for download from the Savannah Environmental website <https://savannahsa.com/public-documents/energy-generation/the-great-karoo-cluster-of-renewable-energy-facilities/>.

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs;
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the

COVID-19 virus has placed some limitations on how public consultation can be conducted as part of an EIA processes. The consultation process for these projects has been designed considering these limitations, and the implementation is in line with our public participation plan, as approved by the DFFE. Savannah Environmental have established an online stakeholder engagement platform, where you are invited to register your interest in the project/s, and view project documentation. Please visit our website: <https://savannahsa.com/public-documents/energy-generation/the-great-karoo-cluster-of-renewable-energy-facilities/>.

Where I&APs do not have the applicable facilities or access to internet, alternative means for consultation and to facilitate comment on the projects will be made, including consulting with the Ward Councillor, the ward committee members, community representatives and local community forum members.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Nicolene Venter

Public Participation and Social Consultant

Attached: Background Information Document
Registration and Comment Form

The screenshot shows a web-based editor interface. At the top, there is a toolbar with various icons for text formatting (bold, italic, underline, text color, background color, bulleted list, numbered list, indent, outdent) and a 'Format' dropdown menu set to 'HTML'. Below the toolbar, the document content is displayed. The title is centered and bolded. The salutation is left-aligned. The main text is left-aligned and describes a renewable energy project. The list of facilities is also left-aligned. At the bottom of the editor, there are three tabs: 'Design' (active), 'HTML', and 'Preview'. The 'Design' tab is highlighted in blue.

**PROPOSED DEVELOPMENT OF THE GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND GRID CONNECTION INFRASTRUCTURE NEAR RICHMOND, NORTHERN CAPE PROVINCE
(DEFF Reference Nos.: To be Issued)**

Dear Stakeholder and Interested & Affected Party,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, including Electrical Grid Infrastructure (EGI), ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms. The grid connection infrastructure for all projects will include one central collector 132kV substation and a double circuit 132kV power line to the existing Eskom Gamma Substation, located within the Western Cape Province.

Each renewable energy facility will be constructed as a separate stand-alone project and therefore, separate Scoping and Environmental Impact Assessment (EIA) processes will be undertaken for each of the renewable energy facilities. Similarly, the grid connection solution will be subjected to a separate Basic Assessment (BA) process which will consider feasible alternatives for the power line corridors. A combined six (6) applications for Environmental Authorisation (EA) are currently being pursued as follows:

Two (2) wind farm EAs:

- o Angora Wind Energy Facility
- o Merino Wind Energy Facility

Three (3) solar PV facility EAs:

- o Nku Solar PV Facility
- o Moiriro Solar PV Facility
