## VLU-vroue leer hoe om met resin te werk

SECUNDA - Vroue van die Secunda VLU-tak het op Woensdag, 4 Mei geleer hoe om koffiebekers (coasters) uit sintetiese gom (resin) te maak.

Tammy Wiczorkiewicz van B Beautiful Creations het vir die vroue gewys hoe om die kleure van die sintetiese gom te meng en wenke gegee.

“Die vermenging van die gom is baie belangrik, ’n mens se mates moet 100% reg wees,” het Wiczorkiewicz gesê.

“Die perfekte temperatuur om dit te meng is 20 grade Celsius en as dit reën kan ’n mens nie met resin werk nie.”

Sy het die vroue aangeraai om altyd handskoene en maskers aan te trek wanneer hulle met resin werk.

“Dit is vir my terapie om te kyk hoe die kleure meng en om te sien hoe die eindproduk lyk, want resin doen hul eie ding.

“Gebruik kleure wat mekaar komplementeer.”

Wiczorkiewicz beplan om binnekort klasse aan te bied sodra daar genoeg vroue is wat belangstel.

Lettie Visser het 85% behaal vir haar kruisiesteek-tafeldoek wat sy vir die Secunda VLU-tak se maandelikse kompetisie ingeskryf het.

Dié tak vergader weer op Woensdag, 1 Junie om 09:30 in Die Ark-saal by die NG Kerk Goedehoop/Secunda-Oos-gemeente.

Belangstellendes is welkom om dié vergadering by te woon.
