Dear Mr Wagener

AMEENA DAVIDS
COMMISSIONER OF OATHS
Ex-officio – Professional Accountant (SA)
Membership Number: 41529

CERTIFIED TRUE COPY OF THE ORIGINAL OF 16/2022

APPLICATION FOR ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, ACT NO. 107 OF 1998, AS AMENDED: GN R982, R983, R984 AND R985, AS AMENDED: THE DEVELOPMENT OF LICHTENBURG 2 PV SOLAR ENERGY FACILITY AND ITS ASSOCIATED INFRASTRUCTURE NEAR LICHTENBURG WITHIN THE DITSOBOTLA LOCAL MUNICIPALITY, NORTH WEST PROVINCE

With reference to the above application, please be advised that the Department has decided to grant an environmental authorisation to you. The Environmental Authorisation (EA) and reasons for the decision are attached herewith.

In terms of Regulation 4(2) of the National Environmental Management Act: the Environmental Impact Assessment Regulations, 2014, as amended (the EIA Regulations), you are instructed to notify all registered interested and affected parties, in writing within 14 (fourteen) days of the date of this EA, of the Department's decision as well as the provisions regarding the submission of appeals that are contained in the Regulations.

In terms of the Promotion of Administrative Justice Act, 2000 (Act No 3 of 2000), you are entitled to the right to fair, lawful and reasonable administrative action; and to written reasons for administrative action that affects you negatively. Further your attention is drawn to the provisions of the Protection of Personal Information Act, 2013 (Act no. 4 of 2013) which stipulates that the Department should conduct itself in a responsible manner when collecting, processing, storing and sharing an individual or another entity's personal information by holding the Department accountable should the Department abuses or compromises your personal information in any way.

Your attention is drawn to Chapter 2 of National Environmental Management Act, 1998 (Act No. 107 of 1998) National Appeal Regulations published under Government Notice R993 in Government Gazette No. 38303 dated 08 December 2014 (National Appeal Regulations, 2014), which prescribe the appeal procedure to be followed. Kindly include a copy of this document (National Appeal Regulations, 2014) with the letter of notification to interested and affected parties in this matter.

Should any person wish to lodge an appeal against this decision, he/she must submit the appeal to the appeal administrator, and a copy of the appeal to the applicant, any registered interested and affected party, and any organ of state with interest in the matter within 20 days from the date that the notification of the decision was sent to the registered interested and affected parties by the applicant; or the date that the notification of the decision was sent to the applicant by the Department, whichever is applicable.

Appeals must be submitted in writing in the prescribed form to:

The Director: Appeals and Legal Review of this Department at the below mentioned addresses.

By email:

appealsdirectorate@environment.gov.za;

By hand:

Environment House

473 Steve Biko

Arcadia Pretoria 0083; or

By post:

Private Bag X447

Pretoria 0001

Please note that in terms of Section 43(7) of the NEMA, the lodging of an appeal will suspend the environmental authorisation or any provision or condition attached thereto. In the instance where an appeal is lodged, you may not commence with any activity authorised in the EA until such time that the appeal is finalised.

To obtain the prescribed appeal form and for guidance on the submission of appeals, please visit the Department's website at https://www.environment.gov.za/documents/forms#legal_authorisations or request a copy of the documents at appealsdirectorate@environment.gov.za.

Yours faithfully

Mr Sabelo Malaza

Decision

The Department is satisfied, on the basis of information available to it and subject to compliance with the conditions of this environmental authorisation, that the applicant should be authorised to undertake the activities specified below.

Non-compliance with a condition of this environmental authorisation may result in criminal prosecution or other actions provided for in the National Environmental Management Act, 1998, as amended and the EIA Regulations, 2014, as amended.

Details regarding the basis on which the Department reached this decision are set out in Annexure 1.

Activities authorised

By virtue of the powers conferred on it by the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment Regulations, 2014, as amended, the Department hereby authorises –

ABO WIND LICHTENBURG 2 PV (PTY) LTD

(hereafter referred to as the holder of the authorisation)

to undertake the following activities (hereafter referred to as "the activity") indicated in Listing Notice 1 and Listing Notice 2 (GN R.983 and R.984 as amended):

Listed Activities	Activity Description
GN R. 983 Activity 11(i): The development of facilities or infrastructure for the transmission and distribution of electricity— (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts. GN R. 983 Activity 24 (ii):	The project entails the construction of a new 88/132kV on-site substation and 88/132kV powerline required to evacuate electricity generated by the project into the national electricity grid.
The development of a road- (ii) with a reserve wider than 13.5 meters, or where no reserve exists where the road is wider than 8 metres.	The project includes the development of permanent access roads, including a main access road and internal access roads. The main access road proposed for development will be 10m wide and will be tarred if necessary
GN R. 983 Activity 28 (ii): Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes or afforestation on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.	The project comprises an industrial development and will result in the transformation of approximately 280ha of land (equivalent to the size of the development footprint) which is currently utilised for agricultural purposes.
GN R. 984 Activity 1: The development of facilities or infrastructure for the generation of electricity from a renewable resource where the electricity output is 20 megawatts or more.	The project comprises a renewable energy generation facility, which will utilise photovoltaic (PV) technology and will have a generation capacity of up to 100MW. The development is located outside of an urban area and is proposed to be ground-mounted.

AMEENA DAVIDS COMMISSIONER OF OATHS

Ex-cardo — Professional Accountant (SA.)
Membership Number: 41529

GN R. 984 Activity 15:

The clearance of an area of 20 hectares or more of indigenous vegetation.

The project requires the clearance of an area up to 280ha (equivalent to the development footprint) of vegetation. The project is proposed on an agricultural property where the predominant land use is livestock grazing, and is therefore likely to comprise indigenous vegetation. The project would therefore result in the clearance of an area of land greater than 20ha of indigenous vegetation.

as described in the Environmental Impact Assessment Report (EIAr) dated March 2019 at:

- for the 100MW Lichtenburg 2 Photovoltaic Solar Energy Facility and associated infrastructure, near Lichtenburg, within the Ditsobotla Local Municipality in the North West Province, hereafter referred to as "the property".

The Lichtenburg 2 PV SEF will comprise the following:

- Photovoltaic modules with a net generation (contracted) capacity of 100MW;
- On-site 88/132kV substation;
- Mounting structures (fixed tilt/static, single axis or double axis tracking systems) for the PV arrays and related foundations;
- DC/AC Inverters, LV/MV power transformers and internal electrical reticulation (underground cabling);
- Access and internal road network;
- A new 132kV overhead powerline from the on-site substation to the Mmabatho / Watershed DS 1 88kV
 Powerline;

CECTURE COPY OF THE C

- Temporary laydown area;
- Auxiliary buildings (gate-house and security, control centre, office, two warehouses, canteen & visitors centre, rainwater tanks etc.); and
- Perimeter fencing.

Technical details of the Solar Energy Facility

Component	Description/ Dimensions	
Location of the site	Portion 23 of the Farm Houthaalboomen No. 31	
Location of the 132kV power line	Remaining Extent of Portion 02 of the Farm Zamenkomst No. 04	
Development footprint	280 hectares	
Preferred Site access	Access to the proposed site will be via an existing unsurfaced farm road which is accessed from the R505 regional road	
Export capacity	Up to 100MW	
Proposed technology	Fixed-tilt, single-axis, or double-axis tracking system	
Structure height	Approximately 3.5m	
On-site substation	88/132kV	

Conditions of this Environmental Authorisation

Scope of authorisation

- The 100MW Lichtenburg 2 Photovoltaic Solar Energy Facility and associated infrastructure, near 1. Lichtenburg, within the Ditsobotla Local Municipality in the North West Province as described above is hereby approved.
- Authorisation of the activity is subject to the conditions contained in this environmental authorisation, 2. which form part of the environmental authorisation and are binding on the holder of the authorisation.
- 3. The holder of the authorisation is responsible for ensuring compliance with the conditions contained in this environmental authorisation. This includes any person acting on the holder's behalf, including but not limited to, an agent, servant, contractor, sub-contractor, employee, consultant or person rendering a service to the holder of the authorisation.
- 4. The activities authorised may only be carried out at the property as described above.

AMEENA DAVIDS COMMISSIONER OF OATHS Membership Number: 41529

CERTIFIED TRUE COPY OF THE ORIGINAL

- 5. Any changes to, or deviations from, the project description set out in this environmental authorisation must be approved, in writing, by the Department before such changes or deviations may be effected. In assessing whether to grant such approval or not, the Department may request such information as it deems necessary to evaluate the significance and impacts of such changes or deviations and it may be necessary for the holder of the authorisation to apply for further environmental authorisation in terms of the regulations.
- 6. The holder of an environmental authorisation must apply for an amendment of the environmental authorisation with the competent authority for any alienation, transfer or change of ownership rights in the property on which the activity is to take place.
- 7. This activity must commence within a period of five (05) years from the date of issue of this environmental authorisation. If commencement of the activity does not occur within that period, the authorisation lapses and a new application for environmental authorisation must be made in order for the activity to be undertaken.
- 8. Construction must be completed within 5 years of the commencement of the activity on site.
- 9. Commencement with one activity listed in terms of this environmental authorisation constitutes commencement of all authorised activities.

Notification of authorisation and right to appeal

- 10. The holder of the authorisation must notify every registered interested and affected party, in writing and within 14 (fourteen) calendar days of the date of this Environmental Authorisation, of the decision to authorise the activity.
- 11. The notification referred to must -
 - 11.1. specify the date on which the authorisation was issued;
 - 11.2. inform the interested and affected party of the appeal procedure provided for in the National Appeal Regulations, 2014;
 - 11.3. advise the interested and affected party that a copy of the authorisation will be furnished on request; and
 - 11.4. give the reasons of the Competent Authority for the decision.

Commencement of the activity

12. The authorised activity shall not commence until the period for the submission of appeals has lapsed as per the National Appeal Regulations, 2014, and no appeal has been lodged against the decision. In terms

COMMISSIONER OF OATHS Ex-officio – Professional Accountant (SA) Membership Number: 41529

about 016/2022

of Section 43(7), an appeal under Section 43 of the National Environmental Management Act, Act No. 107 of 1998, as amended will suspend the Environmental Authorisation or any provision or condition attached thereto. In the instance where an appeal is lodged you may not commence with the activity until such time that the appeal has been finalised.

Management of the activity

- 13. The Environmental Management Programme (EMPr) submitted as part of the EIAr dated March 2019 is approved and must be implemented and adhered to.
- 14. The EMPr must be implemented and strictly enforced during all phases of the project. It shall be seen as a dynamic document and shall be included in all contract documentation for all phases of the development when approved.
- 15. Changes to the approved EMPr must be submitted in accordance to the EIA Regulations applicable at the time.
- 16. The Department reserves the right to amend the approved EMPr should any impacts that were not anticipated or covered in the EIAr be discovered.
- 17. Furthermore, a shapefile of the approved development layout/footprint must be submitted to this Department within two months from the date of this decision. The shapefile must be created using the Hartebeesthoek 94 Datum and the data should be in Decimal Degree Format using the WGS 84 Spheroid. The shapefile must include at a minimum the following extensions i.e. .shp; .shx; .dbf; .prj; and, .xml (Metadata file). If specific symbology was assigned to the file, then the .avl and/or the .lyr file must also be included. Data must be mapped at a scale of 1:10 000 (please specify if an alternative scale was used). The metadata must include a description of the base data used for digitizing. The shapefile must be submitted in a zip file using the EIA application reference number as the title. The shape file must be submitted to:

Frequency and process of updating the EMPr

- 18. The EMPr must be updated where the findings of the environmental audit reports, contemplated in Condition 29 below, indicate insufficient mitigation of environmental impacts associated with the undertaking of the activity, or insufficient levels of compliance with the environmental authorisation or EMPr.
- 19. The updated EMPr must contain recommendations to rectify the shortcomings identified in the environmental audit report.
- 20. The updated EMPr must be submitted to the Department for approval together with the environmental audit report, as per Regulation 34 of GN R. 982. The updated EMPr must have been subjected to a public participation process, which process has been agreed to by the Department, prior to submission of the updated EMPr to the Department for approval.
- 21. In assessing whether to grant approval of an EMPr which has been updated as a result of an audit, the Department will consider the processes prescribed in Regulation 35 of GN R.982 as amended. Prior to approving an amended EMPr, the Department may request such amendments to the EMPr as it deems appropriate to ensure that the EMPr sufficiently provides for avoidance, management and mitigation of environmental impacts associated with the undertaking of the activity.
- 22. The holder of the authorisation may apply for an amendment of an EMPr, if such amendment is required before an audit is required. The amendment process is prescribed in Regulation 37 of GN R.982, as amended. The holder of the authorisation must request comments on the proposed amendments to the impact management outcomes of the EMPr or amendments to the closure objectives of the closure plan

from potentially interested and affected parties, including the competent authority, by using any of the methods provided for in the Act for a period of at least 30 days.

Monitoring

- 23. The holder of the authorisation must appoint an experienced independent Environmental Control Officer (ECO) for the construction phase of the development that will have the responsibility to ensure that the mitigation/rehabilitation measures and recommendations referred to in this environmental authorisation are implemented and to ensure compliance with the provisions of the approved EMPr.
- 24. The ECO must be appointed before commencement of any authorised activities.
- 25. Once appointed, the name and contact details of the ECO must be submitted to the Director: Compliance Monitoring of the Department at Directorcompliance@environment.gov.za.
- 26. The ECO must keep record of all activities on site, problems identified, transgressions noted and a task schedule of tasks undertaken by the ECO.
- 27. The ECO must remain employed until all rehabilitation measures, as required for implementation due to construction damage, are completed and the site is ready for operation.

Recording and reporting to the Department

- 28. All documentation e.g. audit/monitoring/compliance reports and notifications, required to be submitted to the Department in terms of this environmental authorisation, must be submitted to the Director: Compliance Monitoring of the Department at Directorcompliance@environment.gov.za.
- 29. The holder of the environmental authorisation must, for the period during which the environmental authorisation and EMPr remain valid, ensure that project compliance with the conditions of the environmental authorisation and the EMPr are audited, and that the audit reports are submitted to the Director: Compliance Monitoring of the Department at Directorcompliance@environment.gov.zq.
- 30. The frequency of auditing and of submission of the environmental audit reports must be as per the frequency indicated in the EMPr, taking into account the processes for such auditing as prescribed in Regulation 34 of GN R. 982, as amended.
- 31. The holder of the authorisation must, in addition, submit environmental audit reports to the Department within 30 days of completion of the construction phase (i.e. within 30 days of site handover) and a final environmental audit report within 30 days of completion of rehabilitation activities.
- 32. The environmental audit reports must be compiled in accordance with Appendix 7 of the EIA Regulations, 2014, as amended, and must indicate the date of the audit, the name of the auditor and the outcome of

AWEENA DAVIDS
COMMISSIONER OF OATHS
Ex-officio – Professional Accountant (SA)
Membership Number: 41529

- the audit in terms of compliance with the environmental authorisation conditions as well as the requirements of the approved EMPr.
- 33. Records relating to monitoring and auditing must be kept on site and made available for inspection to any relevant and competent authority in respect of this development.

Notification to authorities

34. A written notification of commencement must be given to the Department no later than fourteen (14) days prior to the commencement of the activity. Commencement for the purposes of this condition includes site preparation. The notice must include a date on which it is anticipated that the activity will commence, as well as a reference number.

Operation of the activity

35. A written notification of operation must be given to the Department no later than fourteen (14) days prior to the commencement of the activity operational phase.

Site closure and decommissioning

36. Should the activity ever cease or become redundant, the holder of the authorisation must undertake the required actions as prescribed by legislation at the time and comply with all relevant legal requirements administered by any relevant and competent authority at that time.

AMFENA DAVIDS

Specific conditions

Conditions for non-operational aspects

- The footprint of the development must be limited to the areas required for actual construction works and operational activities.
- 38. Areas outside of the footprint, including sensitive areas and buffer areas, must be clearly demarcated (using fencing and appropriate signage) before construction commences and must be regarded as "no-go" areas.
- 39. Before the clearing of the site, the appropriate permits must be obtained from the Department of Agriculture, Forestry and Fisheries (DAFF) for the removal of plants listed in the National Forest Act and

OF THE ORIGINA

CERTIFIED TRUE COPY OF THE ORIGINA

Department of Environmental Affairs Environmental Authorisation Reg. No. 14/12/16/3/3/2/1092

- from the relevant provincial department for the destruction of species protected in terms of the specific provincial legislation. Copies of the permits must be kept on site by the ECO and must made available to this Department on request.
- 40. All areas of disturbed soil must be reclaimed using only indigenous grass and shrubs. Reclamation activities shall be undertaken according to the EMPr.
- 41. Topsoil from all excavations and construction activities must be salvaged and reapplied during reclamation.
- 42. Wetlands, rivers and river riparian areas must be treated as "no-go" areas and appropriately demarcated as such. No vehicles, machinery, personnel, construction material, fuel, oil, bitumen or waste must be allowed into these areas without the express permission of and supervision by the ECO, except for rehabilitation work in these areas.
- 43. Underground cables and internal access roads must be aligned as much as possible along existing infrastructure to limit damage to vegetation and watercourses.
- 44. No activities will be allowed to encroach into a water resource without a Water Use License being in place from the Department Water and Sanitation.
- 45. Cleared alien vegetation must not be dumped on adjacent intact vegetation during clearing but must be temporarily stored in a demarcated area.
- 46. Signs must be placed along construction roads to identify speed limits, travel restrictions, and other standard traffic control information. To minimize impacts on local commuters, consideration should be, given to limiting construction vehicles travelling on public roadways during the morning and late afternoon commute time.
- 47. Internal access roads must be located to minimize stream crossings. All structures crossing steams must be located and constructed so that they do not decrease channel stability or increase water velocity.
- 48. A designated access to the site must be created and clearly marked to ensure safe entry and exit.
- 49. Construction vehicles carrying materials to the site should avoid using roads through densely populated built-up areas so as not to disturb existing retail and commercial operations.
- 50. Should abnormal loads have to be transported by road to the site, a permit must be obtained from the relevant authorities.
- 51. The holder of this authorisation must train safety representatives, managers and workers in workplace safety. The construction process must be compliant with all safety and health measures as prescribed by the relevant legislation.
- 52. An integrated waste management approach must be implemented that is based on waste minimisation and must incorporate reduction, recycling and re-use options where appropriate. Where solid waste is

AMEENA DAVIDS

Ex-officio – Professional Accountant (53)

Membership Number: 41529

- disposed of, such disposal shall only occur at a landfill licensed in terms of section 20(b) of the National Environment Management Waste Act, 2008 (Act 59 of 2008).
- 53. The holder of this authorisation must take note that no temporary site camps will be allowed outside the footprint of the development area as the establishment of such structures might trigger a listed activity as defined in the Environmental Impact Assessment Regulations.
- 54. Foundations and trenches must be backfilled with originally excavated materials as much as possible. Excess excavation materials must be disposed of only in approved areas or, if suitable, stockpiled for use in reclamation activities.
- 55. Borrow materials must be obtained only from authorised and permitted sites. Permits must be kept on site by the ECO.
- 56. Appropriate dust suppression techniques must be implemented on all exposed surfaces during periods of high wind. Such measures may include wet suppression, chemical stabilisation, the use of a wind fence, covering surfaces with straw chippings and re-vegetation of open areas.
- 57. A pre-construction survey of the final development footprint must be conducted to ascertain the identity and exact number of individuals of protected species affected by the proposed development. Prior to the commencement of construction, a rescue and rehabilitation operation for these species which could survive translocation must be conducted.
- 58. Any fauna directly threatened by the construction activities should be removed to a safe location by a suitably qualified person.
- 59. Should any archaeological sites, artefacts, paleontological fossils or graves be exposed during construction work, work in the immediate vicinity of the find must be stopped, the South African Heritage Resources Agency (SAHRA) must be informed and the services of an accredited heritage professional obtained for an assessment of the heritage resources.
- 60. Electric fencing should not have any strands within 30cm of the ground, which should be sufficient to allow smaller mammals, reptiles and tortoises to pass through (tortoises retreat into their shells when electrocuted and eventually succumb from repeated shocks), but still remain effective as a security barrier.
- 61. All new powerlines must be marked with bird flight diverters along their entire length.
- 62. The poles should be fitted with bird perches on top of the poles to draw birds, particularly vultures away from the potentially risky insulators.
- 63. All pylons to be constructed should make use of "bird friendly" monopole structures, fitted with a bird perch, as per Eskom standard guidelines.

Conditions for operational aspects

- 64. All declared aliens must be identified and managed in accordance with the Conservation of Agricultural Resources Act, 1983 (Act No. 43 of 1983). There should be an alien species monitoring and eradication program to prevent encroachment of these problem plants for the duration of the operation.
- 65. The washing of panels during maintenance must be done with biodegradable soaps to avoid soil contamination and poisoning of small animals.
- 66. Any vegetation clearing that needs to take place as part of maintenance activities, should be done in an environmentally friendly manner, including avoiding the use of herbicides and using manual clearing methods wherever possible.
- 67. During operation, any electrocution and collision events that occur should be recorded, including the species affected and the date. If repeated collisions occur within the same area, then, further mitigation and avoidance measures may need to be implemented.

General

- 68. The recommendations of the EAP in the EIAr dated March 2019 and the specialist studies attached must be adhered to. In the event of any conflicting mitigation measures and conditions of the Environmental Authorisation, the specific condition of this Environmental Authorisation will take preference.
- 69. A copy of this environmental authorisation, the audit and compliance monitoring reports, and the approved EMPr, must be made available for inspection and copying-
 - 69.1. at the site of the authorised activity;
 - 69.2. to anyone on request; and
 - 69.3. where the holder of the environmental authorisation has a website, on such publicly accessible website.
- 70. National government, provincial government, local authorities or committees appointed in terms of the conditions of this authorisation or any other public authority shall not be held responsible for any damages or losses suffered by the holder of the authorisation or his/her successor in title in any instance where construction or operation subsequent to construction be temporarily or permanently stopped for reasons of non-compliance by the holder of the authorisation with the conditions of authorisation as set out in this document or any other subsequent document emanating from these conditions of authorisation.

Annexure 1: Reasons for Decision

1. Information considered in making the decision

In reaching its decision, the Department took, inter alia, the following into consideration -

- The listed activities as applied for in the application form received on 24 August 2018.
- b) The information contained in the EIAr dated March 2019.
- c) The comments received from interested and affected parties as included in the EIAr dated March 2019.
- d) Mitigation measures as proposed in the EIAr and the EMPr dated March 2019.
- e) The information contained in the specialist studies contained within the appendices of the ElAr dated March 2019.

2. Key factors considered in making the decision

All information presented to the Department was taken into account in the Department's consideration of the application. A summary of the issues which, in the Department's view, were of the most significance is set out below.

- a) The findings of all the specialist studies conducted and their recommended mitigation measures.
- b) The need for the proposed project stems from the provision of electricity to the national grid.
- c) The EIAr dated March 2019 identified all legislations and guidelines that have been considered in the preparation of the EIAr.
- d) The methodology used in assessing the potential impacts identified in the EIAr dated March 2019 and the specialist studies have been adequately indicated.
- A sufficient public participation process was undertaken and the applicant has satisfied the minimum requirements as prescribed in the EIA Regulations, 2014, as amended for public involvement.

3. Findings

After consideration of the information and factors listed above, the Department made the following findings -

AMEENA DAVIDS

COMMISSIONER OF OATHS

Ex-officio – Professional Accountant (SA)

M.S

- a) The identification and assessment of impacts are detailed in the EIAr dated March 2019 and sufficient assessment of the key identified issues and impacts have been completed.
- b) The procedure followed for impact assessment is adequate for the decision-making process.
- c) The information contained in the EIAr dated March 2019 is deemed to be accurate and credible.
- d) The proposed mitigation of impacts identified and assessed adequately curtails the identified impacts.
- e) EMPr measures for the pre-construction, construction and rehabilitation phases of the development were proposed and included in the EIAr and will be implemented to manage the identified environmental impacts during the construction phase.

In view of the above, the Department is satisfied that, subject to compliance with the conditions contained in the environmental authorisation, the authorised activities will not conflict with the general objectives of integrated environmental management laid down in Chapter 5 of the National Environmental Management Act, Act No. 107 of 1998, as amended, and that any potentially detrimental environmental impacts resulting from the authorised activities can be mitigated to acceptable levels. The environmental authorisation is accordingly granted.

Dear Mr Wagener

AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION ISSUED ON 02 JULY 2019 FOR THE DEVELOPMENT OF THE 100MW LICHTENBURG 2 PHOTOVOLTAIC SOLAR ENERGY FACILITY AND ITS ASSOCIATED INFRASTRUCTURE NEAR LICHTENBURG, WITHIN THE DITSOBOTLA LOCAL MUNICIPALITY IN THE NORTH WEST PROVINCE

The Environmental Authorisation (EA) issued for the abovementioned application by this Department on 02 July 2019, the amendment to the EA dated 05 August 2019, your application for amendment of the EA and the draft motivation report received by the Department on 16 October 2020, the acknowledgement letter dated 26 October 2020, the Department's comments on the draft motivation report dated 13 November 2020, and the final motivation report received on 20 November 2020, refer.

Based on a review of the reason for requesting an amendment to the above EA, this Department, in terms of Chapter 5 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, has decided to amend the EA dated, 02 July 2019, as amended, as follows:

Amendment 1: Change to the details of the contact person of the EA holder on page 2 of the EA

From:

Mr Robert Wagener PO Box 51060 WATERFRONT Cape Town 8002 AMEENA DAVIDS
COMMISSIONER OF OATHS

Reasons for Amendment 1:

The postal address and contact details of the EA holder have changed. Therefore, the amendment was required to ensure that the EA reflects the correct contact details and postal address of the EA holder.

Amendment 2: Update to the project description on page 5-6 of the EA to include the construction of a Battery Energy Storage System (BESS)

From:

The Lichtenburg 2 PV SEF will comprise the following:

- Photovoltaic modules with a net generation (contracted) capacity of 100MW;
- On-site 88/132kV substation;
- Mounting structures (fixed tilt/static, single axis or double axis tracking systems) for the PV arrays and related foundations;
- DC/AC Inverters, LV/MV power transformers and internal electrical reticulation (underground cabling);
- Access and internal road network;
- A new 88/132kV overhead power line from the on-site substation to the Mmabatho/ Watershed DS 2 88kV Powerline;
- Temporary laydown area;
- Auxiliary buildings (gate-house and security, control centre, office, two warehouses, canteen & visitors centre, rainwater tanks etc.); and
- Perimeter fencing.

Approval of the amended environmental management programme (EMPr)

The amended EMPr for Lichtenburg 2, North West Province: Revision 1, dated November 2020, prepared by Savannah Environmental (Pty) Ltd, is hereby **approved**.

Reasons for Amendment 2:

The BESS, with a capacity of up to 500MW/500MWh, an extent of no more than 5ha, and a maximum height of 3.5m, will be developed within the authorised laydown area of the solar energy facility. The addition of the BESS will therefore not increase the already authorised development footprint. The BESS will connect to the authorised on-site facility substation of Lichtenburg 2 via multi-core 33kV underground cables (to follow the internal access roads of the authorised PV facility). The general purpose and utilisation of the BESS will be to save and store excess electrical output from the solar energy facility as it is generated, allowing for a timed release to the national grid when the capacity is required. In addition, the BESS will also provide grid strengthening and quality improvement, frequency control and voltage stabilisation. The BESS will therefore provide flexibility in the efficient operation of the electricity grid through decoupling of the energy supply and demand. Furthermore, the development of the BESS for the project is of importance, as the system will ensure that electricity is fed into the national grid when required and excess amounts stored. This will allow for extended hours of generation from the 100MW solar energy facility.

The specialists confirmed that the impacts assessed and the recommended mitigation included in the original EIA undertaken for the facility would remain unchanged and applicable for the amendments (addition of a BESS), with the exception of two additional mitigation measures recommended by the avifaunal specialist, in the view of the occurrence of vultures and other bird species that utilise the area. The amended EMPr includes these additional mitigation measures, as well as measures to mitigate any potential health and safety risks associated with the construction and operation of the BESS from a technical perspective. The amended EMPr also includes an updated layout plan, depicting the location of the BESS within the authorised laydown area of the solar energy facility (Figure 2.2. and 2.3 in the EMPr). Furthermore, the amendments do not constitute a listed activity and the mitigation measures in the amended EMPr are deemed adequate to manage the expected impacts as a result of the amendment.

General

This EA amendment letter must be read in conjunction with the EA dated 02 July 2019, as amended.

In terms of the Promotion of Administrative Justice Act, 2000 (Act No 3 of 2000), you are entitled to the right to fair, lawful and reasonable administrative action; and to written reasons for administrative action that affects you negatively. Further your attention is drawn to the provisions of the Protection of Personal Information Act, 2013 (Act no. 4 of 2013) which stipulates that the Department should conduct itself in a responsible manner when collecting, processing, storing and sharing an individual or another entity's personal information by holding the Department accountable should the Department abuse or compromise your personal information in any way.

In terms of Regulation 4(2) of the Environmental Impact Assessment Regulations, 2014, as amended (the EIA Regulations), you are instructed to notify all registered interested and affected parties, in writing and within 14 (fourteen) days of the date of the decision, of the Department's decision, as well as of the provisions regarding the submission of appeals that are contained in the Regulations.

Your attention is drawn to Chapter 2 of National Environmental Management Act, 1998 (Act No. 107 of 1998) National Appeal Regulations published under Government Notice R993 in Government Gazette No. 38303 dated 08 December 2014 (National Appeal Regulations, 2014), which prescribe the appeal procedure to be followed.

Kindly include a copy of this document (National Appeal Regulations, 2014) with the letter of notification to interested and affected parties in this matter.

Should any person wish to lodge an appeal against this decision, he/she must submit the appeal to the appeal administrator, and a copy of the appeal to the applicant, any registered interested and affected party, and any organ of state with interest in the matter within 20 days from the date that the notification of the decision was sent to the registered interested and affected parties by the applicant; or the date that the notification of the decision was sent to the applicant by the Department, whichever is applicable.

Appeals must be submitted in writing in the prescribed form to:

The Director: Appeals and Legal Review of this Department at the below mentioned addresses.

By email: appeals@environment.gov.za;

By hand: Environment House

473 Steve Biko,

Arcadia,

Pretoria.

0083; or

By post: Private Bag X447,

Pretoria,

0001:

Please note that in terms of Section 43(7) of the National Environmental Management Act, Act No. 107 of 1998, as amended, the lodging of an appeal will suspend the environmental authorisation or any provision or condition attached thereto. In the instance where an appeal is lodged, you may not commence with the activity until such time that the appeal is finalised.

To obtain the prescribed appeal form and for guidance on the submission of appeals, please visit the Department's website at https://www.environment.gov.za/documents/forms#legal_authorisations or request a copy of the documents at appeals@environment.gov.za.

Yours faithfully

PER EMAIL / MAIL

Dear Mr Wagener

AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION ISSUED ON 02 JULY 2019 FOR THE DEVELOPMENT OF THE 100MW LICHTENBURG 2 PHOTOVOLTAIC SOLAR ENERGY FACILITY AND ITS ASSOCIATED INFRASTRUCTURE NEAR LICHTENBURG, WITHIN DITSOBOTLA LOCAL MUNICIPALITY, NORTH WEST PROVINCE

The Environmental Authorisation (EA) issued for the abovementioned application by this Department on 02 July 2019, the amendments to the EA dated 05 August 2019 and 25 March 2021, your application for amendment of the EA received by the Department on 06 April 2022, the comments on the draft motivation report dated 28 April 2022 and the amended application form received on the 10 June 2022 refer.

Based on a review of the reason for requesting an amendment to the above EA, this Department, in terms of Chapter 5 of the Environmental Impact Assessment Regulations, 2014 as amended, has decided to amend the EA dated 02 July 2019 as amended, as follows:

Amendment 1: change of powerline alternative:

The coordinates of the power line alternative on page 04 of the EA reading as:

Power line Corridor Alternative 1	Latitude	Longitude	
Starting point of activity	26°02'56.931" S	26°07'14.418" E	
Middle point of activity	26°02'40.495" S	26°07'46.746" E	5
End point of activity	26°02'25.745" S	26°07'22.812" E	

Is hereby amended to:

Power line Corridor Alternative 1	Latitude	Longitude	
Starting point of activity	26°02′56.931″ S	26°07'14.418" E	
Middle point of activity	26°02'42.66" \$	26°07′53.11″ E	
End point of activity	26°02'25.84" S	26°07'38.66" E	

Amendment 2: Amendment to the activities table:

Page 5 of the EA (and amended under AM2) under the table of activities authorised, typed as:

Is hereby amended to:

'On-site 33/132kV substation.'

Page 5 of the EA (and amended under AM2) under the table of activities authorised, typed as:

"A new 88/132kV overhead powerline from the onsite substation to the Mmabatho/Watershed DS 2 88kV Powerline."

Is hereby amended to:

'A new 132kV overhead powerline from the Lichtenburg 2 PV facility's step-up/onsite substation to connect to the collector substation located at the Lichtenberg PV3 Facility.'

Amendment 3: Amendment to the technical details of the EA:

The technical details of the solar energy facility on Page 6 of the EA as amended (AM2) typed as:

On-site substation	88/132kV	
s hereby amended to:		

On-site substation	33/132kV	

Amendment 4: Amendment to the authorised farm description:

Page 4 of the EA typed as:

Farm Description	21 Digit Surveyor General Code
Remaining Extent of Portion 2 of the Farm	T0IP000000004000002
Zamenkomst No. 4	
Portion 23 of the Farm Houthaalboomen No. 31	T0IP00000000031000023

DFFE Reference: 14/12/16/3/3/1/2/1092/AM3

Project Title: AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION ISSUED ON 02 JULY 2019 FOR THE DEVELOPMENT OF THE 100MW LICHTENBURG 2 PHOTOVOLTAIC SOLAR ENERGY FACILITY AND ITS ASSOCIATED INFRASTRUCTURE NEAR LICHTENBURG, WITHIN DITSOBOTLA LOCAL MUNICIPALITY, NORTH WEST PROVINCE

[&]quot;On-site 88/132kV substation"

Is hereby amended to:

Farm Description	21 Digit Surveyor General Code	
Remaining Extent of Portion 2 of the Farm	T0IP0000000004000002	
Zamenkomst No. 4 Portion 23 of the Farm Houthaalboomen No. 31	T0IP000000000031000023	_
Portion 6 of the Farm Zamenkomst No. 4	T0IP0000000000004000006	

Reason for the amendments:

The proposed amendment will allow the connection of the Lichtenburg 1 PV Facility to the proposed Collector Substation Complex of ABO Wind Lichtenburg 3 PV on the authorised footprint of Lichtenburg 3 PV Facility. The Lichtenberg 1 PV, 2 PV and 3 PV projects have been selected as Preferred Bidders in a private power purchase agreement (PPA). When considering the three projects together, Eskom advised the following:

- The existing power line approved for LILO (Alternative 1 as authorised) does not have sufficient capacity to connect the facility.
- One power line to Watershed for all three projects from a central collector substation is the required and preferred connection solution.

The proposed amendment is within the originally assessed grid corridor and development area and does not exceed any thresholds for activities already authorised. In order to include all relevant farm portions associated with the project, it is requested that the listed properties be amended. These properties were included in the assessment of impacts within the EIA process undertaken for the project.

This proposed amendment letter must be read in conjunction with the EA dated 02 July 2019, as amended.

In terms of the Promotion of Administrative Justice Act, 2000 (Act No 3 of 2000), you are entitled to the right to fair, lawful and reasonable administrative action; and to written reasons for administrative action that affects you negatively. Further your attention is drawn to the provisions of the Protection of Personal Information Act, 2013 (Act no. 4 of 2013) which stipulate that the Department should conduct itself in a responsible manner when collecting, processing, storing and sharing an individual or another entity's personal information by holding the Department accountable should the Department abuse or compromise your personal information in any way.

In terms of Regulation 4(2) of the Environmental Impact Assessment Regulations, 2014, as amended (the EIA Regulations), you are instructed to notify all registered interested and affected parties, in writing and within 14 (fourteen) days of the date of the EA, of the Department's as well as the provisions regarding the submission of appeals that are contained in the Regulations.

Your attention is drawn to Chapter 2 of National Environmental Management Act, 1998 (Act No. 107 of 1998) National Appeal Regulations published under Government Notice R993 in Government Gazette No. 38303 dated 08 December 2014 (National Appeal Regulations, 2014), which prescribes the appeal procedure to be followed. Kindly include a copy of this document (National Appeal Regulations, 2014) with the letter of notification to interested and affected parties in this matter.

Should any person wish to lodge an appeal against this decision, he/she must submit the appeal to the appeal administrator, and a copy of the appeal to the applicant, any registered interested and affected party, and any organ of state with interest in the matter within 20 days from the date that the notification of the decision was sent to the registered interested and affected parties by the applicant; or the date that the notification of the decision was sent to the applicant by the Department, whichever is applicable.

Project Title: AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION ISSUED ON 02 JULY 2019 FOR THE DEVELOPMENT OF THE 100MW LICHTENBURG 2 PHOTOVOLTAIC SOLAR ENERGY FACILITY AND ITS ASSOCIATED INFRASTRUCTURE NEAR LICHTENBURG, WITHIN DITSOBOTLA LOCAL MUNICIPALITY, NORTH WEST PROVINCE

Appeals must be submitted in writing in the prescribed form to:

The Director: Appeals and Legal Review of this Department at the below mentioned addresses.

By email: appeals@dffe.gov.za;

By hand: Environment House

473 Steve Biko,

Arcadia, Pretoria, 0083: or

By post: Private Bag X447,

Pretoria, 0001;

Please note that in terms of Section 43(7) of the National Environmental Management Act, Act No. 107 of 1998, as amended, the lodging of an appeal will suspend the environmental authorisation or any provision or condition attached thereto. In the instance where an appeal is lodged, you may not commence with the activity until such time that the appeal is finalised.

To obtain the prescribed appeal form and for guidance on the submission of appeals, please visit the Department's website at https://www.environment.gov.za/documents/forms#legal_authorisations or request a copy of the documents at appeals@dffe.gov.za.

Yours faithfully

Mr Vusi Skosana

Mr. Vusi Skosana

Director: National Infrastructure Projects

Dear Mr Skosana

APPOINTMENT AS ACTING CHIEF DIRECTOR: INTEGRATED ENVIRONMENTAL AUTHORIZATIONS FOR THE PERIOD OF 20 TO 24 JUNE 2022

I hereby inform you that I have decided to appoint you as the Acting Chief Director: Integrated Environmental Authorizations for the period of 20 June to 24 June 2022 whilst Ms Milicent Solomons is on annual leave.

All the correspondence and other documents that are usually signed by the Chief Director: Integrated Environmental Authorizations must be signed under Acting Chief Director: Integrated Environmental Authorizations during the above-mentioned period.

Your appointment in the above acting position remains subject to the provisions of the Public Service Act, 1994 (Proclamation No. 103 of 1994), as amended, the Government Employees Pension Fund Act, 1996 (Proclamation No. 21 of 1996), the regulations promulgated under these Acts and relevant circulars.

In the execution of your duties and the exercising of the powers delegated to you, you will furthermore be subjected to the provisions of the Public Finance Management Act, compliance with the Promotion of Access to Information Act, Promotion of Administrative Justice Act, the Minimum Information Security Standard, Departmental Policies and other applicable legislations with the Republic of South Africa. You are therefore advised to make yourself familiar with the provisions of these legislations and policies and the amendments thereof. (Copies of Departmental policies can be obtained from the Human Resource Office).

Please accept my heartfelt gratitude for all your assistance on behalf of the department.

Yours sincerely

Ms Devinagie Bendeman

Deputy Director-General: RCSM (Regulatory Compliance and

Sector Monitoring)

Date 17 June 2022
