SCOPING PHASE

06 January 2023

Dear Stakeholder and Interested and Affected Party,

**PROPOSED DEVELOPMENT OF LIMESTONE SOLAR PV1, LIMESTONE SOLAR PV2 FACILITY AND THE ORYX
WIND ENERGY FACILITY, NORTHERN CAPE PROVINCE
(DFFE Reference Nos.: To be Issued)**

**NOTIFICATION OF SCOPING & EIA PROCESS AND SCOPING REPORTS AVAILABLE FOR REVIEW AND
COMMENT**

AGV Projects (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure near the town of Danielskuil in the Kgatelopele Local Municipality, Tsantsabane Local Municipality and the ZF Mgcawu District Municipality, Northern Cape Province. The cluster of renewable energy facilities consists of a single 360MW Wind Energy Facility (Oryx Wind Energy Facility), and two Solar PV Energy Facilities of up to 150MWp each (Limestone PV1 and Limestone PV2). The grid connection infrastructure for these proposed facilities is still to be confirmed in consultation with Eskom. Each renewable energy facility will be constructed as a separate stand-alone project and therefore, separate Scoping and Environmental Impact Assessment (S&EIA) processes will be undertaken for each of the renewable energy facilities.

The nature and extent of the solar PV facility is explored in more detail in this Background Information Document (BID). A full Scoping and Environmental Impact Reporting (S&EIR) process is being undertaken to obtain Environmental Authorisation (EA) for the development of the PV energy facility and associated infrastructure. The public participation process provides the public with an opportunity to comment on the project.

You, and/or the Department/Organisation/Company you represent has been identified as an Interested and Affected Party (I&AP) for this project. If you are an adjacent landowner to the project site and your property is leased, we kindly request you to please provide us with the name and contact details of the lessee to enable us to inform him/her/them of the project. The same request applies to any occupiers / workers you have on your property.

SCOPING REPORT AVAILABLE FOR PUBLIC REVIEW AND COMMENT

The Scoping Reports for Limestone PV1 and Limestone PV2 PV Facilities are available for a 30-day review and comment period from **06 January 2023** until **06 February 2023**. The due date for written comment is **06 February 2023**. The report for the Oryx Wind Farm will be available at a later date. As a registered party, you will be notified of this review period at the relevant time.

The reports are available for download from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/>. An electronic copy of the reports can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please submit your written comments on the Scoping Reports via one of the following means:

- E-mail: publicprocess@savannahsa.com
- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.
