

RFI COMPLIANCE STATEMENT

LIMESTONE PV1 FACILITY ON PORTION 4 OF THE FARM ENGELAND 300, KGATELOPELE LOCAL MUNICIPALITY, NORTHERN CAPE PROVINCE (DFFE REFERENCE: 14/12/16/3/3/2/2269)

This compliance statement has been prepared by an Environmental Assessment Practitioner.

This Compliance Statement is applicable to the Limestone PV1 Facility, which is proposed on Portion 4 of Farm Engeland 300, located approximately ~16km south-east of the town of Danielskuil and 10km east of Lime Acres, within the Kgatelopele Local Municipality and the ZF Mgcawu District Municipality in the Northern Cape Province.

The sensitivity rating for the site is as follows:

Table 1: Identified sensitivity in terms of the national web-based screening tool for the development.

Identified Specialist Assessment	Identified Sensitivity		Comment
	By DFFE Screening Report	By EAP	
RFI Assessment	Low Sensitivity	Low Sensitivity	No major or other types of telecommunication sites.

A low sensitivity rating has been indicated by the DFFE screening tool due to No major or other types of telecommunication sites being in close proximity to the site. This has been confirmed through the EIA process undertaken for the project. The proposed development will not have an unacceptable impact on the airfield. Further assessment of the potential impacts is not required.

During the public participation for the EA Application, SARAO, Telkom and SENTECH were consulted and invited to attend key stakeholder workshops. No formal response has been provided by Telkom and SARAO regarding the proposed project. SENTECH indicated their approval for the project.
