31 January 2019

**THE PROPOSED SALENE LITHIUM MINE AND PROSPECTING RIGHTS**

The original survey for the above project was undertaken in October 2018. Subsequent to the survey, 10 new drilling areas have been chosen. Umlando was asked to assess these sites in conjunction with the desktop and survey results of the heritage study.

The 10 new drilling sites do not affect any of the previous recorded heritage sites, nor do they occur near sites identified in the desktop study. The results are shown in fig. 1.

I have no objection to the new drilling sites in terms of the heritage assessment.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'G Anderson', with a horizontal line underneath.

Gavin Anderson
