8th August 2023

Ms Sandisiwe Matole

Amafa Institute

Pietermaritzburg

3201

Dear Sandisiwe

Following our recent discussions regarding the repairs at St Anthony's Catholic Church.

The Amafa's Institute has levied a fee of R4000 for proceeding with unauthorised repairs to the church. Originally when we had look at the application Form A under section D proposed work – the options given were demolition, alteration and addition, etc., and none of those options were applicable to the church as we were carrying out maintenance work. Hence we proceeded with the maintenance work.

Had we known that we still needed permission to carry out the maintenance work we would have gladly completed Form A before starting any maintenance work.

We do apologise for this error on our side and we are pleading with you with all sincerity that your institute consider exempting our church from paying the R4000 fee.

In as much as our church may have a rich history but unfortunately we do depend on funds from the greater community and other organisations for funding for major repairs and maintenance.

Your favourably consideration to our request will be greatly appreciated

May God Bless you all.

John Sebastian
