Mahlubi Hard Rock Quarry (10741MP)

Project Details: The applicant proposes to mine hard rock from land located within the located within the uMuziwabantu and uMzimkhulu Local Municipalities which form part of the Ugu and Harry Gwala District Municipalities respectively. The mining area is 5 hectares in extent. There is an existing access road to the site off the R56. In terms of the mining method, overburden will be cleared using an excavator and soft material will be cut back. Work benches will be cut into the mining area and material removed by controlled blasts. Loosened material will be then removed to a stockpile area using excavators. Mined material may be screened on site. Slopes will be cut to a 1:3 gradient and will be shaped to follow the surrounding topography.

Legislative Context:

This proposal requires:

- A Mining Permit in terms of section 27 of the MPRDA to mine material.
- The application for a Mining Permit triggers activity 21 of Listing Notice 1 (GNR327) and activity 12 of Listing Notice 3 (GNR324) of the NEMA Environmental Impact Assessment Regulations, 04th December 2014 as amended. Environmental Authorisation is therefore required through a Basic Assessment process.
- Water Use Authorisation from DWS in terms of section 21 (c) & (i) for mining within 500m of a wetland, section 21 (g) for disposal of waste which may detrimentally impact on a water resource and section 21(a) for the abstraction of water.
