

Site Photographs and Images

Image 1: Proposed White Umfolozi River Causeway Site

Image 2: Proposed White Umfolozi River Causeway Site – Looking upstream

Image 3: Proposed White Umfolozi River Causeway Site – Looking downstream

Image 4: Southern bank of the proposed causeway crossing

Image 5: Degraded nature of banks opposite the Causeway make it unlikely that heritage related features will be found on site or on adjacent areas

Image 6: Route to the proposed causeway

Image 7: Northern bank of the proposed Causeway site

Image 8: Erosion gullies will be rehabilitated. However, chances of finding heritage sites are thus very low
