

APPENDIX B

SITE PHOTOGRAPHS: VREDESVALLEI WASTE DISPOSAL FACILITY

Picture	Description
 A wide-angle photograph of a waste disposal site. The foreground is a flat, sandy area with sparse, dry vegetation. A simple metal fence runs across the middle ground. In the background, there are low, rocky hills under a cloudy sky. Some debris, including a piece of metal, is visible on the ground.	<p>General view of the landfill, facing south</p> <p>Photo taken 31 August 2015</p>
 A photograph taken from behind a chain-link fence, looking into the landfill. The fence is in the immediate foreground, creating a diamond-shaped grid pattern. Beyond the fence, the landscape is sandy and rocky with some green and brown shrubs. A small mound of earth is visible in the middle ground. The sky is overcast.	<p>Vantage point: Perimeter looking south</p> <p>Little waste remaining within the landfill boundary</p> <p>Photo taken 31 August 2015</p>
