Subject: SE3654: FE KUDU WIND ENERGY FACILITY AND FE TANGO WIND ENERGY FACILITY - Notification of the Basic Assessment and Public Participation Processes
Attachments: SE3654_Kudu&Tango_WEF_BA_Notification-FINAL.pdf; SE3654_Kudu&Tango_PVs_Background_Information_Document.pdf; SE3654_Kudu&Tango_FVs_Agtergrond_Inligtings_Dokument.pdf; SE3654_Kudu&Tango_PVs-Reg&Comment_Form.pdf; SE3654_Kudu&Tango_PVs-Reg&Kommentaarvorm.pdf

BASIC ASSESSMENTS FOR THE FE KUDU WIND ENERGY FACILITY AND THE FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE (DFFE Reference Nos.: To be Issued)

Dear Stakeholder and Interested & Affected Party,

The development of two separate wind energy facilities and associated infrastructure are proposed on sites located west of Aberdeen in the Eastern Cape Province. The two wind farms are located within the Beaufort West Renewable Energy Development Zone (REDZ) and are to be known as the FE Tango Wind Energy Facility and FE Kudu Wind Energy Facility. The projects are to be located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality.

The projects will aid in the diversification and stabilisation of the country's electricity supply, with the proposed wind energy facilities set to inject over 800MW into the national grid. Each wind energy facility will connect to the grid via a grid connection solution which will be subject to a separate application of Environmental Authorisation.

Please find attached the following documents for your perusal:

- Invitation letter to participate in the Basic Assessment and Public Participation Process for these two (2) Wind Energy Facilities.
- Background Information Document which will provide you with additional technical information regarding the proposed developments (ook beskikbaar in Afrikaans).
- Registration and Comment Form (ook beskikbaar in Afrikaans).

Please do not hesitate to contact us should you require any additional information at this stage.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

21 June 2023

Dear Stakeholder and Interested & Affected Party,

FE KUDU WIND ENERGY FACILITY AND FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE

NOTICE OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

The development of two separate wind energy facilities and associated infrastructure are proposed on sites located west of Aberdeen in the Eastern Cape Province. The two wind farms are located within the Beaufort West Renewable Energy Development Zone (REDZ) and are to be known as the FE Tango Wind Energy Facility and FE Kudu Wind Energy Facility. The projects are to be located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality. The details of the projects are as follows:

Project Name	FE Tango Wind Energy Facility	FE Kudu Wind Energy Facility
Location	Portion 1 of Farm Klipstavel 72	Portion 2 of Farm Oorlogspoort 85
Applicant	FE Tango (Pty) Ltd	FE Kudu (Pty) Ltd
Contracted capacity	Up to 240MW	Up to 625MW
Number of turbines	~ 25 turbines	~ 80 turbines

The projects will aid in the diversification and stabilisation of the country's electricity supply, with the proposed wind energy facilities set to inject over 800MW into the national grid. Each wind energy facility will connect to the grid via a grid connection solution which will be subject to a separate application of Environmental Authorisation.

The infrastructure associated with each wind energy facility will include:

- » Wind turbines, turbine foundations and turbine hardstands
- » An on-site substation hub incorporating:
 - A132/33kV On-site substation
 - Switchyard with collector infrastructure
 - Battery Energy Storage System (BESS)

- » A balance of plant area incorporating:
 - Temporary laydown areas
 - A construction camp laydown and temporary concrete batching plant
 - Operation and Maintenance buildings
- » Cabling between the turbines, to be laid underground where practical.
- » Access roads to the site and between project components with a width up to 10m for primary access routes.

BASIC ASSESSMENT PROCESS

In accordance with the EIA Regulations, 2014 (as amended) published in terms of the National Environmental Management Act (No 107 of 1998) (NEMA), the applicants will require environmental authorisation for the undertaking of the projects. In terms of Section 24(5) of NEMA, the EIA Regulations, 2014, as amended, (GNR 326), GNR 114 and Listing Notices (GNR 327, GNR 325, and GNR 324), as well as GNR 114 (the site is located within the Beaufort West REDZ), the two applications are subject to the completion of a Basic Assessment (BA) process based on the location of the project sites within a REDZ. Each application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014 (as amended) and other relevant protocols and guidelines.

A Basic Assessment is an effective planning and decision-making tool. It allows for potential environmental consequences resulting from a proposed activity to be identified and appropriately managed during the construction, operation, and decommissioning phases of development. It also provides an opportunity for the project applicant to be forewarned of potential environmental issues and allows for the resolution of issue(s) identified and reported on as part of the BA process, as well as provides opportunity for dialogue with key stakeholders and Interested and Affected Parties (I&APs).

Savannah Environmental has been appointed as the independent environmental consultant responsible for managing the separate applications for EA and undertaking the supporting BA process required to identify and assess potential environmental impacts associated with each project, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programmes (EMPrs). I&APs will be actively involved in the BA processes through the public participation process.

You and/or the organization / company, which you represent, have been identified as a stakeholder for the proposed projects as described above. The nature and extent of the wind energy facilities and the associated infrastructure are explored in more detail in the Background Information Document (BID) which is attached to this letter and is also available for download from the Savannah Environmental public participation platform on <https://savannahsa.com/public-documents/energy-generation/>.

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed projects is made available to potential stakeholders and I&APs
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed projects; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the BA process.

Savannah Environmental have established an online stakeholder engagement platform, where you are invited to register your interest in the project, and view project documentation. Please visit our website (link provided above).

Where I&APs do not have the applicable facilities or access to internet, alternative means for consultation and to facilitate comment on the projects will be made through the Ward Councilor and/or Ward Committee Members. I&APs are also able to make contact via the "Please call me" functionality available on our public participation mobile phone (060 978 8396).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the projects. Our team welcomes your participation and look forward to your involvement throughout the processes.

Kind regards

Nicolene Venter

Public Participation and Social Consultant

Subject: FE TANGO WIND ENERGY FACILITY - Notification of Basic Assessment Report available for Review and Comment (SE3654)
Attachments: SE3654_Kudu&Tango_WEF_BA_Notification-FINAL.pdf

**BASIC ASSESSMENTS FOR THE FE KUDU WIND ENERGY FACILITY AND THE FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE
(DFFE Reference No.: 14/12/16/3/3/1/2835)**

Dear Stakeholder and Interested & Affected Party,

The development of the FE Tango Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality.

Our letter and e-mail dated 21 June 2023 in which you were informed of the commencement of the Basic Assessment and Public Participation Process has reference.

Please find attached the notification letter providing information regarding the Basic Assessment (BA) Report for the FE Tango Wind Energy Facility and the availability of the BA Report for review and comment.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, you are informed that the Basic Assessment (BA) Report is available for review and comment from 18 September 2023 to 20 October 2023.

The BA Report can be downloaded from the Savannah Environmental website [CLICK HERE](#).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards,

**BASIC ASSESSMENTS FOR THE FE KUDU WIND ENERGY FACILITY AND THE FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE
(DFFE Reference No.: 14/12/16/3/3/1/2835)**

Dear Ms Ralston-Paton,

The development of the FE Tango Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality.

Our letter and e-mail dated 21 June 2023 in which you were informed of the commencement of the Basic Assessment and Public Participation Process has reference.

Please find attached the notification letter providing information regarding the Basic Assessment (BA) Report for the FE Tango Wind Energy Facility and the availability of the BA Report for review and comment.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, you are informed that the Basic Assessment (BA) Report is available for review and comment from 18 September 2023 to 20 October 2023.

The BA Report can be downloaded from the Savannah Environmental website <https://savannahsa.com/public-documents/energy-generation/tango-wind-energy-facility/>.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards,

savannah

Dear Ms Ralston-Paton,

FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE

NOTIFICATION OF BASIC ASSESSMENT REPORT AND AVAILABILITY FOR REVIEW AND COMMENT

The development of the FE Tango Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality. The details of the project is as follows:

Project Name	FE Tango Wind Energy Facility
Location	Portion 1 of Farm Klipstavel 72
Applicant	FE Tango (Pty) Ltd
Contracted capacity	Up to 150MW
Number of turbines	Up to 18 wind turbines

The infrastructure associated with the wind energy facility will include:

- » Up to 18 wind turbines, turbine foundations and turbine hardstands
- » An on-site substation hub incorporating:
 - A 132kV on-site facility substation
 - Switchyard with collector infrastructure
 - Battery Energy Storage System (BESS)
 - Operation and Maintenance buildings
- » A balance of plant area incorporating:
 - Temporary laydown areas
 - A construction camp laydown and temporary concrete batching plant

- » Power lines internal to the wind farm, trenched and located adjacent to internal access roads, where feasible¹.
- » Access roads to the site and between project components with a width up to 8m for primary access routes.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform your Organisation that the Basic Assessment (BA) Report for the wind energy facility application will be available for review and comment from **18 September 2023** to **20 October 2023**.

The BA Report can be downloaded from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/tango-wind-energy-facility/>. An electronic copy of the BA Report can also be made available via file transfer services such as WeTransfer or Dropbox upon request. The due date for written comment is **20 October 2023**.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

**BASIC ASSESSMENTS FOR THE FE KUDU WIND ENERGY FACILITY AND THE FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE
(DFFE Reference No.: 14/12/16/3/3/1/2835)**

Dear Mr Van der Merwe,

The development of the FE Tango Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality.

Our letter and e-mail dated 21 June 2023 in which you were informed of the commencement of the Basic Assessment and Public Participation Process has reference.

Please find attached the notification letter providing information regarding the Basic Assessment (BA) Report for the FE Tango Wind Energy Facility and the availability of the BA Report for review and comment.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, you are informed that the Basic Assessment (BA) Report is available for review and comment from 18 September 2023 to 20 October 2023.

The BA Report can be downloaded from the Savannah Environmental website <https://savannahsa.com/public-documents/energy-generation/tango-wind-energy-facility/>.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards,

t: +27 (0)11 656 3237
f: +27 (0) 86 684 0547

18 September 2023

Mr Izak Van der Merwe
Landowner

Per e-mail: [REDACTED]

Dear Mr Van der Merwe,

FE TANGO WIND ENERGY FACILITY NEAR ABERDEEN, EASTERN CAPE PROVINCE

NOTIFICATION OF BASIC ASSESSMENT REPORT AND AVAILABILITY FOR REVIEW AND COMMENT

The development of the FE Tango Wind Energy Facility and associated infrastructure is proposed on a site located west of Aberdeen in the Eastern Cape Province. The wind energy facility is located within the Beaufort West Renewable Energy Development Zone (REDZ) and located within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality. The details of the project is as follows:

Project Name	FE Tango Wind Energy Facility
Location	Portion 1 of Farm Klipstavel 72
Applicant	FE Tango (Pty) Ltd
Contracted capacity	Up to 150MW
Number of turbines	Up to 18 wind turbines

The infrastructure associated with the wind energy facility will include:

- » Up to 18 wind turbines, turbine foundations and turbine hardstands
- » An on-site substation hub incorporating:
 - A 132kV on-site facility substation
 - Switchyard with collector infrastructure
 - Battery Energy Storage System (BESS)
 - Operation and Maintenance buildings
- » A balance of plant area incorporating:
 - Temporary laydown areas
 - A construction camp laydown and temporary concrete batching plant

- » Power lines internal to the wind farm, trenched and located adjacent to internal access roads, where feasible¹.
- » Access roads to the site and between project components with a width up to 8m for primary access routes.

Eskom Holdings SOC Ltd, as an adjacent landowner of [REDACTED] is hereby notified of the availability of the Basic Assessment (BA) Report for your review and comments (details below). Should the listed property be leased, we kindly request that you provide us with the name and contact details of the lessee to enable us to inform him/her/them of the project. The same request applies to any occupiers / workers that you have on the above-mentioned property.

AVAILABILITY OF THE BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Basic Assessment (BA) Report for the wind energy facility application will be available for review and comment from **18 September 2023** to **20 October 2023**.

The BA Report can be downloaded from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/tango-wind-energy-facility/>. An electronic copy of the BA Report can also be made available via file transfer services such as WeTransfer or Dropbox upon request. The due date for written comment is **20 October 2023**.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout the process.

Kind regards

Nicolene Venter

Public Participation and Social Consultant

Tango Wind Energy Facility

NOTICE OF BASIC ASSESSMENT PROCESS AND PUBLIC PARTICIPATION PROCESS

FE TANGO WIND ENERGY FACILITY, EASTERN CAPE PROVINCE

Project Name: FE Tango Wind Energy Facility, Eastern Cape Province

Applicant: FE Tango (Pty) Ltd

Activity: The development of a wind energy facility with a contracted capacity of up to 150MW, which includes:

- Up to 18 wind turbines, turbine foundations and turbine hardstands.
- An on-site substation hub, including 132kV on-site facility substation, switchyard with collector infrastructure, Battery Energy Storage System (BESS) & O&M buildings.
- A balance of plant area including temporary laydown areas, construction camp laydown and temporary concrete batching plant.
- Power lines internal to the wind farm, trenched and located adjacent to internal access roads, where feasible.
- Access roads to the site and between project components with a width up to 8m for primary access routes.

Location: Portion 1 of Farm Klipstavel 72. The site is ~20km west of Aberdeen in the Eastern Cape Province, within the Dr Beyers Naude Local Municipality and the greater Sarah Baartman District Municipality.

Application for Environmental Authorisation (EA): Application for EA in terms of NEMA (No. 107 of 1998) and the Environmental Assessment Regulations, 2014, as amended, (GNR 324-327). As the project site is located within the Beaufort West Renewable Energy Development

Zone (REDZ), a Basic Assessment (BA) process has been undertaken in accordance with GN114 (February 2018).

Basic Assessment (BA) Report available for review: The BA Report for the FE Tango Wind Energy Facility is available for review and comment from **18 September 2023** to **20 October 2023**. The due date for written comment is **20 October 2023**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:
