

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS
PUBLIC PARTICIPATION PROCESS
PROPOSED TSITSIKAMMA COMMUNITY WIND
ENERGY FACILITY, EASTERN CAPE PROVINCE
DEA Ref No. 12/12/20/2209

Applicant: Exxaro Resources and Watt Energy (Pty) Ltd

Proposed Activity: Establishment of a wind energy facility and associated infrastructure. The proposed wind energy facility would include:

- wind turbines with a capacity of ~100MW;
- a substation;
- 132kV power line linking to the Melkhout Substation
- access roads; and
- workshop area

Location: The proposed wind energy facility is proposed on the farm portions: Portions 19 and 22 of Zalverige Valley 660, Portions 3 and 5 of Vergaaderingskraal 675, Portion 1 of Ou Driefontein 721, Portion 2 of New Driefontein 720, Portions 3 - 9 of Wittekleibosch 787, Farm 818, Remainder of Farm 678 and Portion 3 of Kliprug 676.

In terms of sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with the EIA Regulations of GN R543 and R545, a Scoping and EIA are required to be undertaken for this proposed project. The project has been registered with the National Department of Environmental Affairs under Application Reference Number **12/12/20/2209**.

PUBLIC FEEDBACK MEETING

All interested and affected parties are invited to attend a public feedback meeting to be held on **19 April 2011, 18h00** at the **Clarkson Community Hall, Clarkson**

SUSTAINABLE
FUTURES ZA

March 2011

Dear Stakeholder

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS:
CONSTRUCTION OF THE PROPOSED
TSITSIKAMMA COMMUNITY WIND ENERGY FACILITY
EASTERN CAPE PROVINCE
(DEA Ref No. 12/12/20/2209)**

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

Exxaro Resources and Watt Energy (Pty) Ltd are proposing to establish a commercial wind energy facility and associated infrastructure on a site located within the Kouga Local Municipality in the Eastern Cape Province. The proposed site is situated approximately 30 km west of Humansdorp, south of the N2 National Road in the Tsitsikamma area. Based on an extensive pre-feasibility analysis and site identification process undertaken, as well as an analysis of the wind resource in the area, a favourable area has been identified for consideration and assessment as per the requirements of an Environmental Impact Assessment (EIA). Wind turbines with a capacity of up to **100 MW**, collectively referred to as a **wind energy facility**, are planned to be constructed over an area of approximately 54 km² in extent.

Infrastructure associated with the facility will include:

- » Wind Turbines with a total generating capacity of ~100 MW
- » Foundations to support the turbine towers
- » Underground cables between turbines
- » A substation within the development site
- » An overhead power line (i.e. 132 kV distribution line) which will link to the existing Eskom Melkhout Substation ~ 25 km northeast of the proposed site
- » Internal access roads to each wind turbine.
- » Workshop/administration building

The Wind Energy Facility is proposed on the following farms: Portions 19 and 22 of Zalverige Valley 660, Portions 3 and 5 of Vergaaderingskraal 675, Portion 1 of Ou Driefontein 721, Portion 2 of New Driefontein 720, Portions 3 - 9 of

Wittekleibosch 787, Farm 818, Remainder of Farm 678 and Portion 3 of Kliprug 676.

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In terms of the EIA Regulations published in terms of Section 24(5) of the National Environmental Management Act (NEMA, Act No. 107 of 1998), Exxaro Resources and Watt Energy require authorisation from the National Department of Environmental Affairs (DEA) (in consultation with the Eastern Cape Department of Economic Affairs, Environment and Tourism) for the undertaking of the proposed Wind Energy Facility. In terms of sections 24 and 24D of NEMA, as read with the EIA Regulations of GN R543 (Regulations 26-35) and R545, a Scoping Study and EIA are required to be undertaken for this proposed project. In order to obtain authorisation, comprehensive, independent environmental studies must be undertaken in accordance with the EIA Regulations. This project has been registered with the National DEA under application reference number **12/12/20/2209**.

In this regard, Exxaro Resources and Watt Energy have appointed **Savannah Environmental** to undertake the Environmental Impact Assessment process to identify and assess all potential environmental impacts that might arise as a result of the proposed project. **Sustainable Futures ZA** is assisting Savannah Environmental in the process through the facilitation of the public participation process, which forms part of the overall EIA process. You and/or the organisation/department which you represent have been identified as an Interested and Affected Party (I&AP). Should you have an interest in this project, please register yourself as an I&AP and note your formal comments by sending written correspondence in this regard. All comments received will form part of the Comments and Response Report that will be included in the Scoping and EIA reports which will be submitted to the Department of Environmental Affairs (DEA). By submitting your details and comments to Sustainable Futures ZA, you are ensured that your comments, concerns or queries will be noted.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to the contact person below.

Comments can be made as written submission via fax, post or e-mail.

Please submit your comments to
Shawn Johnston of Sustainable Futures ZA
PO Box 749, Rondebosch, Cape Town, 7701
Fax: 086 510 2537

NETWERK met Pieter Rademeyer Jr

8 September 2011

'n Vierseisoene-dag kan sy tol eis

Hierdie tyd van die jaar is daar baie mense wat met 'n bloedrooi blos op die wange of selfs aanvullende vlamme op die wangbene rondloop, want geen mens kan die weerburo of enige webtuistes oor die volgende dag se weerpatrone meer glo nie. (En dis seker maar waar die "voorspelling"-deel vandaan kom, dink ek oor my oggendkoffie). Dié rondtassery na antwoorde vir wat die weer mag inhou, is hierdie tyd van die jaar 'n groot kopseer. Want nes jy dink dis tyd om die jasse en serpe weg te pak, wys die wind tande. En nes jy dink jy gaan jouself more pantser teen die koue wat die sewe-uur-nuus die vorige aand uitbasuin het, kook jy omtrent oor teen middaggety. Maar dis asof die onvoorspelbaarheid van die fluktuasies vanjaar erger is. Ek kry of te koud en moet in 'n afdyjie huis toe jaag om 'n trui te gaan gryp, of ek is bykans gedehidreer en in hittevlamme uitgevlaan teen die tyd wat ek die middagverkeer moet aandurf. Die snaakste van dié tyd is egter wanneer jysel (of kollegas) erg-ongemaklik soos 'n opgestote rier rondwagel omdat daar onder die jas of trui klere aangetrek is wat net onder 'n trui of jas hoort. Soms is dit omdat Glynis nie gister opgedaag het vir die klaarspel-met-die-strykhopie nie, en nou is die gekreukelde klere onder die warmer klere versteek. Of al jou hemde is in die wasgoedmandjie wat nog nie deur jou huis se kom-skoon-sisteme gegaan het nie... en dan moet 'n ou T-hemp of so maar onder die warm trui doen. En boetie, dis dan wanneer die rooi wange en ongemak op kollegas se gesigte my lekker in my mou kan laat lag.

'n Jaar of wat gelede word 'n jongerige juffroujie met baie min selfvertroue by 'n seunskool aangestel. Dié juffrou moet die manne leer van ons land se kuns en kultuur en so moet sy dertig of veertig vyftienjarige seuns vir veertig minute geïnteresseer hou hierin. Juffrou Kritzinger dink dit toe goed om die manne 'n paar keer 'n week in die sangklas te laat sing. Enigiets van 'my oom se motor is 'n ou masjien' tot 'die volkies' wat gaan 'koring sny'.

Juffrou Kritzinger, het die mense bespiegel, het erg selfbeeldprobleme gehad. In pouse het die ander onderwysers gesien hoe haar piering in haar hand bewe van spanning in hierdie manswêreld. In die klas kon sy nie behoorlik gesag afdwing nie en die manne het maklik uit volle bors gebulder: "My oom se motor is 'n ou masjien, hy maak dit vol met Vaseline". Maar dis eintlik haar groot bos hare wat almal aan die praag gehad het. 'n Reusagtige toring wat deur allerhande plastiekvoëltyes en -vlindertjies bewoon is. En haar flambojante kleresmaak. Dis asof hierdie pieperige mensie met haar kapsel en klere wou sê wie sy eintlik is. Maar, die klere en persoonlikheid het mekaar nooit eens halfpad ontmoet nie. Toe die weer begin draai teen einde-Augustus, word die dorp met 'n indrukwekkende 35-grade gestraf - en die jasse en baadjies was helaas nog nie weggepak nie.

Dié dag, toe juffrou Kritzinger nog so bo die geraas in die sangklas probeer piep-piep, val sy net daar, sonder waarskuwing, flou. Want haar sykouse en dik wolklere-lae het haar ondergery. Eers het die seuns niks opgelet nie, want hulle was op hul selfone of met ander dinge doenig, maar toe die drie geesdriftiges (wat gewoonlik tweede stemme probeer uitwerk) die petalje gewaar, het hulle probeer red wat te redde is. Sybrand - die enetjie wat die deskant probeer bysit omdat sy stem nog nie gebreek het nie - sê toe kliphard: "Haal af haar pruik! Haal af haar pruik! Sy versmoor!" En hoe meer hulle haar hare heen en weer pluk om die 'pruik' af te kry, hoe rooier word haar gesig en hoe erger die verleentheid. Want die hare is hare!

En vertel die noodhulp-juffrou (wat juffrou Kritzinger in die damesstoilette moes gaan help) toe later van die pretentje wat sy aanskou het toe sy eendelik deur die pienk jas, twee pare sykouse, woltrui, en frokkies gewerk het om haar behoorlik asem te laat kry: 'n ou blou Superman-T-hemp onder al haar klere... want in haar hart kan sy mos haar man daar by die seunskool staan.

Pieter is Afrikaans-onderwyser by die Hoërskool Grey en etenaar van die funksielokaal, Elizabeth Place, in Port Elizabeth.

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS PUBLIC PARTICIPATION PROCESS PROPOSED TSITSIKAMMA COMMUNITY WIND ENERGY FACILITY, EASTERN CAPE PROVINCE

DEA Ref No. 12/12/20/2209

Applicant: Exxaro Resources and Watt Energy (Pty) Ltd
Proposed Activity: Establishment of a wind energy facility and associated infrastructure. The proposed wind energy facility would include:

- wind turbines with a capacity of ~100MW;
- a substation;
- 132kV power line linking to either the Diep Rivier or Melkhou Substation
- access roads; and
- workshop area

Location: The proposed site is situated approximately 30 km west of Humansdorp, south of the N2 National Road in the Tsitsikamma area on the farm portions: Portions 19 and 22 of Zalvergie Valley 660, Portions 3 and 5 of Vergaaderingskraal 675, Portion 1 of Ou Driefontein 721, Portion 2 of New Driefontein 720, Portions 3 - 9 of Wittekleibosch 787, Farm 818, Remainder of Farm 678 and Portion 3 of Kliprug 676.

In terms of sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with the EIA Regulations of GN R543 and R545, a Scoping and EIA are required to be undertaken for this proposed project.

EIA-PHASE PUBLIC FEEDBACK MEETING
All interested and affected parties are invited to attend a public feedback meeting to be held on **22 September 2011 at 18:00 at the Clarkson Community Hall, Clarkson**

DRAFT EIA REPORT AVAILABLE FOR REVIEW
The Draft EIA Report has been made available for public review from **16 September 2011 - 17 October 2011** at the following locations:

- » Clarkson Library
- » Karedouw Library
- » www.savannahSA.com

Savannah Environmental is undertaking the required environmental assessment and public participation process. To obtain further information and register your attendance at the public meeting, please submit your name, contact information and interest in the project to:
