NOTICE OF ENVIRONMENTAL IMPACT ASSESMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED DEVELOPMENT OF THE UMMBILA EMOYENI RENEWABLE ENERGY WIND AND SOLAR PV FACILITIES, AND GRID CONNECTION INFRASTRUCTURE, MPUMALANGA PROVINCE

Applicant: Emoyeni Renewable Energy Farm (Pty) Ltd

Proposed Activity: The development of the Ummbilla Emoyeni Renewable Energy Farm with a contracted capacity of up to 666MW of wind energy, 150MW of solar energy, and a 400/132kV grid connection solution to connect the renewable energy facilities to the grid. Infrastructure associated with each project includes:

 PV modules in the range of 330Wp to 450Wp mounted on either a fixed lift or single axis tracker structure, dependent on optimisation, technology available and cost. Inverters and transformers. 33KV cabling to connect to the onsite collector substation, to be laid underground where practical. 33KV/132KV onsite collector substation (IPP Portion), each being 5ha. 33KV/132KV onsite collector substation (IPP Portion), each being 5ha. 33KV/132KV onsite collector substation (IPP Portion), each being 5ha. 33KV/132KV onsite collector substation (IPP Portion), each being 5ha. 33KV/132KV onsite collector substation (IPP Portion), each being 5ha. 33KV/132KV onsite collector substation (IPP Portion), each being 5ha. Cabling between project components. Cabling between project components. Cabling between furbines, to be laid underground where practical. Construction compound (temporary). Maintenance office. Access roads (up to 12m wide). 3 x O&M office of approximately 15ha each adjacent be each of 150m x 200m; Access roads (up to 12m wide). 3 x Colling between price of the onside collector substation (IPP portion), each being shat of the adjacent be each of 150m x 200m; Access roads (up to 12m wide). 3 x Colling between project components. Cabling between project components. Solution roads (up to 12m wide). Access roads up to 12m wide). Access roads of 12-13m wide, with 12m at turning circles. 	Ummbila Emoyeni Solar Energy Facility	Ummbila Emoyeni Wind Energy Facility	Ummbila Emoyeni Electrical Grid Infrastructure	
	 PV modules in the range of 330Wp to 450Wp mounted on either a fixed tilt or single axis tracker structure, dependent on optimisation, technology available and cost. Inverters and transformers. 33kV cabling to connect to the onsite collector substation, to be laid underground where practical. 33kV/132kV onsite collector substation (IPP Portion). Battery Energy Storage System (BESS). Cabling between project components. Laydown and O&M hub (approximately 300m x 300m): Construction compound (temporary). Maintenance office. Access roads (up to 12m wide) and internal distribution roads (up to 12m wide). 	 > Up to 111 wind turbines with a maximum hub height of up to 200m. The tip height of the turbines will be up to 300m. > 33kV cabling to connect the wind turbines to the onsite collector substations, to be laid underground where practical. > 3 x 33kV/132kV onsite collector substation (IPP Portion), each being 5ha. > Battery Energy Storage System (BESS). > Cabling between turbines, to be laid underground where practical. > Construction compounds including site office (approximately 300m x 300m in total but split into 3ha each of 150m x 200m): o Batching plant of up to 4ha to 7ha. o 3 x O&M office of approximately 1.5ha each adjacent to each collector SS. o 3 x construction compound / laydown area, including site office of 3ha each (150m x 200m each). > Laydown and crane hardstand areas (approximately 75m x 120m). > Access roads of 12-13m wide, with 12m at turning circles. 	 A new 400/132kV MTS) to be located between Camden and SOL Substations. Two 400kV loop-in loop-out power lines to the existing Camden-Sol 400kV transmission line. On-site switching stations (Eskom Portion) (132kV in capacity) at each renewable energy facility. Collector substation with 2 x 132kV bus bars and 4 x 132kV IPP feeder bays to onsite IPP S/Ss. 132kV power lines from the switching stations to a new MTS. Access roads up to 8m wide. 	

Project Location: Approximately 6km southeast of the town of Bethal in the Mpumalanga Province. The project site is located across the Govan Mbeki, Lekwa, and Msukaligwa Local Municipalities within the Gert Sibande District Municipality. The project site comprises the following farm portions:

Parent Farm Number	Farm Portions
Farm 261 – Naudesfontein	15, 21
Farm 264 – Geluksplaats	0, 1, 3, 4, 5, 6, 8, 9, 11, 10, 12
Farm 268 – Brak Fontein Settlement	6,7,10,11,12
Farm 420 – Rietfontein	8,9,10,11,12,15,16,18,19,22,32
Farm 421 - Sukkelaar	2, 2, 7, 9, 9 10, 10 11, 11 12, 12, 22 ,25, 34, 35, 36, 37, 37, 38, 39, 40, 42, 42
Farm 422 – Klipfontein	0, 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 13, 14, 16, 17, 18, 19, 20, 21, 22, 23
Farm 423 – Bekkerust	0, 1, 2, 4, 5, 6, 10, 11, 12, 13 14, 15, 17, 19, 20, 22, 23, 24, 25
Farm 454 – Oshoek	4, 13, 18
Farm 455 – Ebenhaezer	0, 1, 2, 3
Farm 456 – Vaalbank	1, 2, 3, 4, 7, 8, 13, 15, 16, 17, 18, 19
Farm 457 – Roodekrans	0, 1, 4, 7, 22, 23, 23
Farm 458 – Goedgedacht	0, 2, 4, 4, 5, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 21, 21, 22, 25, 26, 27, 28, 29, 31,
	32, 33, 34, 35, 37, 39
Farm 467 – Twee Fontein	0, 1, 4, 5, 6, 7, 8, 10
Farm 469 – Klipkraal	5, 6, 7, 8
Farm 548 – Durabel	0

Savannah Environmental website: https://savannahsa.com/public-documents/energy-generation/ummbila-emoyeni-renewable-energy/ (Wind and Solar Energy Facilities) and https://savannahsa.com/public-documents/energy-generation/ummbila-emoyeni-renewable-energy/ (Wind and Solar Energy Facilities) and https://savannahsa.com/public-documents/grid-infrastructure/ummbila-emoyeni-renewable-energy/ (Grid Connection Solution)

Scoping & Environmental Impact Assessment (S&EIA) Processes: In terms of Sections 24 & 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a S&EIA process is required for each renewable energy facility and the grid connection infrastructure. Savannah Environmental is undertaking the required S&EIA and public participation processes for these projects.

EIA Report Available for Review & Comment: The <u>EIA Report for the Ummbila Emoyeni Wind Energy Facility</u> is available for review and comment and can be download from Savannah Environmental website (see applicable link in table above). The 30-day review and comment period of the EIA Report is from **Thursday**, **08 September 2022** to **Monday**, **10 October 2022**. The availability of the <u>EIA Report for the Ummbila Emoyeni Solar Energy Facility</u> and the Ummbila Emoyeni Electrical Grid Infrastructure, as well as the 30-day review and comment period, will be communicated in due course.

To obtain further information & register on the project database, please submit your name, contact information & interest in the project to the contact person below.

NOTICE OF SALE IN EXECUTION OF IMMOVABLE PROPERTY

This sale is a sale in execution pursuant to a judgment granted on 1 June 2021 in the above Honourable Court and a Writ of Execution issued thereafter. The immovable property (ies) listed hereunder will be sold in execution on 21 SEPTEMBER 2022 AT 10:00, by the Sheriff and / or the Deputy Sheriff Secunda, at the Sheriff's office situated at 25 Pringle Street, Secunda, South Africa to the highest bidder:

PROPERTIES DESCRIPTION:

1.ERF 8221 SECUNDA EXTENSION 24 TOWNSHIP MUNICIPALITY OF GOVAN MBEKI REGISTRATION DIVISION PROVICE OF MPUMALANGA MEASURING: 987 (NINE HUNDRED AND EIGHTY-SEVEN) SQUARE METERS HELD BY DEED OF TRANSFER NUMBER T2178/2019 (`Erf 8221`) Subject to the conditions contained therein.

PHYSICAL ADDRESS

to be furnished to the Applicant's attorneys within 21 (twenty-one) days after the date of sale, to be approved by the Execution Creditor`s Áttorneys. 3. Transfer shall be affected by the attorneys for the Execution Creditor and the purchaser shall pay all transfer dues, including transfer duty, current and/or arrear levies/rates and/or Value Added Tax and other necessary charges to effect transfer upon request by the relevant attorneys. 4.The rules of the auction and a full advertisement are available 24 hours before the auction at the offices of the Sheriff of Secunda, at the Sheriff's Office situated at 25 Pringle Street, Secunda, South Africa, during office hours. 5.The sale will be conducted by the Sheriff of Secunda with the relevant auctioneers 6. Advertising costs at current publication rates and sale costs according to the court rules apply.

Registration as a buyer is a pre- requisite subject to the following conditions, inter alia:

7.1 In accordance with the Consumer Protection Act
No. 68 of 2008.
7.2 In accordance with the Financial Intelligence
Centre Act No. 38 of 2001: in respect of proof of identity and residential particulars.
7.3 Payment of a Registration Fee of R0.00 in cash only.
7.4 Becistration conditions.

7.4 Registration conditions. 8. The aforesaid sale shall be subject to the Conditions of Sale which may be inspected at the offices of the Sheriff of Secunda, at the sheriff s office situated at 25 Pringle Street, Secunda, South Africa, during office hours.

DATED at Secunda on this 26 day of July 2022.

OUR SCHOOLS

Highveld Ridge Primary School's junior phase learners took the audience Around the World during their yearly concert.

HRPS learners take centre stage

Highveld Ridge Primary School learners perform Baby Shark.

Edu Detto Sentrum hou revue

SECUNDA - Leerders van Edu Detto Sentrum kap dit uit op die verhoog tydens dié skool se revue op Woensdagaand, 31 Augustus by die Rondekerk.

SECUNDA - The audience was entertained, clapping and singing along at Highveld Ridge Primary School's junior and senior phase annual concert on August 31

The themes for this year's seniors were Movie Extravaganza and the juniors Around the World.

The juniors took the audience "Under the Sea" and then you could hear them "Roar" from "In the Jungle, the Mighty Jungle".

There was also a "Special Star" performance by the juniors to see "How far I'll go".

But it was the seniors to the rescue when the audience saw a ghost and called the *Ghostbusters*.

Highveld Ridge Primary School's junior phase learners put on a show at their annual concert.

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED DEVELOPMENT OF THE UMMBILA EMOYENI RENEWABLE ENERGY WIND AND SOLAR PV FACILITIES AND GRID CONNECTION INFRASTRUCTURE, MPUMALANGA PROVINCE.

Applicant: Emoyeni Renewable Energy Farm (Pty) Ltd

Proposed Activity: The development of the Ummbilla Emoyeni Renewable Energy Farm with a contracted capacity of up to 666MW of wind energy, 150MW of solar energy, and a 400/132kV grid connection solution to connect the renewable energy facilities to the grid. Infrastructure associated with each project includes:

	3, 3	1,
Ummbila Emoyeni Solar Energy Facility	Ummbila Emoyeni Wind Energy Facility	Ummbila Emoyeni Electrical Grid Infrastructure
 » PV modules in the range of 330Wp to 450Wp mounted on either a fixed tilt or single axis tracker structure, dependent on optimisation, technology available and cost. » Inverters and transformers. » 33kV cabling to connect to the on-site collector substation to be laid underground where practical. » 33kV/132kV on-site collector substation (IPP Portion). » Battery Energy Storage System (BESS). » Cabling between project components. » Laydown and O&M hub (approximately 300m x 300m): • Construction compound (temporary). • Maintenance office. » Access roads (up to 12m wide) and internal distribution roads (up to 12m wide). 	 > Up to 111 wind turbines with a maximum hub height of up to 200m. The tip height of the turbines will be up to 300m. > 334V cabling to connect the wind turbines to the on-site collector substations, to be laid underground where practical. > 3 x 334V/1324V on-site collector substation (IPP Portion), each being 5ha. > Battery Energy Storage System (BESS). > construction compounds including site office (approximately 300m x 300m in total but split into 3ha each of 150m x 200m): > Batting plant of up to Aha to 7ha. > 3 x 0&M office of approximately 1.5ha each adjacent to each collector SS. > a construction compound / laydown area, including site office of 3ha each (150m x 200m each). > Laydown and crane hardstand areas (approximately 75m x 120m). > Madyon 12 - 13m wide, with 12m at hurbardstated site office of the site of the site office of the site office of the site of	 » A new 400/132kV MTS) to be located between Camden and SOL Substations. » Two 400kV loop-in loop-out power lines to the existing Camden-Sol 400kV transmission line. » On-site switching stations (Eskom Portion) (132kV in capacity) at each renewable energy facility. » Collector substation with 2 x 132kV bus bars and 4 x 132kV IPP feeder bays to on-site IPP S/Ss. » 132kV power lines from the switching stations to a new MTS. » Access roads up to 8m wide.

Location: Approximately 6km southeast of the town of Bethal in the Mpumalanga Province. The project site is located across the Govan Mbeki, Lekwa and Msukaligwa Local Municipalities within the Gert Sibande District Municipality. The project site comprises the following farm portions:

Hengelaars van Secunda Hengelklub trek 61 vis uit by Trichardtsfonteindam

TRICHARDT - Hengelaars van die Secunda Hengelklub het op Saterdag, 14 Augustus by Trichardtsfonteindam meegeding en Rudi Pretorius is die wenner vir die swaarste sak vis wat 3.02kg geweeg het.

Hy het in totaal agt visse gevang. Zukisa Thwala is die wenner onder die senior hengelaars en het die grootste karp gevang wat 2.59kg geweeg het.

Louis Ebersohn is die beste hengelaar onder die juniors en het agt visse gevang wat 2.34kg geweeg het, terwyl Elsie Fourie die beste hengelaar onder die vroue was met haar vis wat 0.76kg geweeg het.

Altesaam 18 hengelaars het aan dié klubkompetisie deelgeneem en het 61 visse gevang wat 23.03kg geweeg het.

Louis Ebersohn is die wenner onder die junior hengelaars.

Rudi Pretorius is die wenner van die swaarste sak vis.

Zukisa Thwala is die wenner onder die senior hengelaars.

Compete in Spar Women's Challenge

SECUNDA - The Spar Women's Virtual Challenge 2022 will take place at 06:30 at the Secunda Parkrun venue on Saturday, September

Athletes will complete the 5km parkrun route twice to complete the 10km of the Secunda leg of the challenge. If they prefer to only do 5km, they will run it together with the parkrun athletes and it will also count as a parkrun.

PUBLIC PARTICIPATION NOTICE

Section 24G – Environmental Rectification Process for activities commenced at the Terra Nova Bypass Road, Trichardt. NOTICE IS HEREBY GIVEN IN TERMS OF SECTION 41 OF THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS OF 2014 (GNR 983 AND GNR 985, AS AMENDED IN 2017) READ WITH THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) AS WELL AS THE NATIONAL WATER ACT OF 1998 (ACT NO. 36 OF 1998) of the following:

Sasol Secunda Cricket Club awards players

SECUNDA - Top performers of the Sasol Secunda Cricket Club were awarded at the annual awards ceremony for the 2021/2022 season on Saturday, August 13.

Mark Joseph received two awards for the Promo Batsman and the Promo Bowler of the Year.

The T20 Batsman was awarded to George Louw, with the T20 Bowler being awarded to Ignus Koekemoer.

The T20 Player of the Year went to George Louw.

Chris van Schalkwyk received an award for Junior Player of the Year.

The Captain's Award went to Colin van Staden who was the winner in the Gert Sibande Premier League 50 overs and T20.

Colin van Staden was awarded Premier Batsman with the Premier Bowler award going to Nicus Boshoff.

Johan Visagie received his award for Club Legend number eight.

Players' Player of the Year went to

George Louw with the Player of the Year being awarded to Johan van Antwerpen.

Players will be back on the pitch for the new season that will begin at the first weekend of October.

Johan van Antwerpen (middle) was awarded Player of the Year. Here is his father Hannes van Antwerpen (left) and club chairman, Ignus Koekemoer (right).

George Louw (left) received the Players' Player of the Year award. He received his award from Gert Sibande regional chairman Dylan Niemand (right).

NOTICE OF ENVIRONMENTAL IMPACT ASSESMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED DEVELOPMENT OF THE UMMBILA EMOYENI RENEWABLE ENERGY WIND AND SOLAR PV FACILITIES, AND GRID CONNECTION INFRASTRUCTURE, MPUMALANGA PROVINCE.

Applicant: Emoyeni Renewable Energy Farm (Pty) Ltd

Proposed Activity: The development of the Ummbilla Emoyeni Renewable Energy Farm with a contracted capacity of up to 666MW of wind energy, 150MW of solar energy, and a 400/132kV grid connection solution to connect the renewable energy facilities to the grid. Infrastructure associated with each project includes

Solar Energy Facility	Wind Energy Facility	Electrical Grid Infrastructure
 » PV modules in the range of 330Wp to 450Wp mounted on either a fixed tilt or single axis tracker structure, dependent on optimisation, technology available and cost. » Inverters and transformers. » 33kV cabling to connect to the onsite collector substation to be laid underground where practical. » 33kV/132kV on-site collector substation (IPP Portion). » Battery Energy Storage System (BESS). » Cabling between project components. » Laydown and 0&M hub (approximately 300m x 300m): o Construction compound (temporary). o Maintenance office. » Access roads (up to 12m wide) and internal distribution roads (up to 12m wide). 	 > Up to 111 wind turbines with a maximum hub height of up to 200m. The tip height of the turbines will be up to 300m. >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>	 » A new 400/132kV MTS) to be located between Camden and SOL Substations. » Two 400kV loop-in loop-out power lines to the existing Camden-Sol 400kV transmission line. » On-site switching stations (Eskom Portion) (132kV in capacity) at each renewable energy facility. » Collector substation with 2 x 132kV bus bars and 4 x 132kV IPP feeder bays to onsite IPP S/Ss. » 132kV power lines from the switching stations to a new MTS. » Access roads up to 8m wide.

Location: Approximately 6km southeast of the town of Bethal in the Mpumalanga Province. The project site is located across the Govan Mbeki, Lekwa, and Msukaligwa Local Municipalities within the Gert Sibande District Municipality. The project site comprises the following farm portions:

Parent Farm Number	Farm Portions
Farm 261 – Naudesfontein	15,21
Farm 264 – Geluksplaats	0, 1, 3, 4, 5, 6, 8, 9, 11, 12
Farm 268 – Brakfontein Settlement	6,7,10,11,12
Farm 420 – Rietfontein	8,9,10,11,12,15,16,18,19,22,32
Farm 421 - Sukkelaar	2, 2, 7, 9, 9 10, 10 11, 11 12, 12, 22, 25, 34, 35, 36, 37, 37, 38, 39, 40, 42, 42
Farm 422 – Klipfontein	0, 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 13, 14, 16, 17, 18, 19, 20, 21, 22, 23
Farm 423 – Bekkerust	0, 1, 2, 4, 5, 6, 10, 11, 12, 13 14, 15, 17, 19, 20, 22, 23, 24, 25
Farm 454 – Oshoek	4, 13, 18
Farm 455 – Ebenhaezer	0, 1, 2, 3
Farm 456 — Vaalbank	1, 2, 3, 4, 7, 8, 13, 15, 16, 17, 18, 19
Farm 457 – Roodekrans	0, 1, 4, 7, 22, 23, 23
Farm 458 — Goedgedacht	0, 2, 4, 4, 5, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 21, 21, 22, 25, 26, 27, 28, 29, 31, 32, 33, 34, 35, 37, 39
Farm 467 – Twee Fontein	0, 1, 4, 5, 6, 7, 8, 10
Farm 469 — Klipkraal	5, 6, 7, 8
Farm 548 – Durabel	0

Newtown Landscape Architects were appointed by Terra Nova Utilities to provide environmental services for the Section 24G Environmental Rectification process for all activities related to the construction of the Terra Nova Bypass Road prior to obtaining the respective Environmental Authorisation.

PROJECT LOCATION

The study site, 1.58km in length, is situated directly north of Trichardt, Secunda within the Mpumalanga Province. Spatially the study site is defined by GPS coordinates 26°28″8′S; 29°14′4″E and 26°28″45′S; 29°13′4″E, the north and south end of the road respectively. The study area (study site and a 500 m.e.s.a surrounding the study site) is ±229.64i1ha in extent.

PROJECT DESCRIPTION

The project involves the formalising of a gravel road in a critical biodiversity area, without obtaining environment authorisation prior to construction.

LEGISLATION

Application for Environmental Authorisation will include the following listed activities as per the National Environmental Management Act (Act 107 of 1998) Regulations: GN. R327, 7 April 2017 (GN No. 983) - Listing notice 1: Activity 12 & 19 GN. R324, 7 April 2017 (GN No. 985) - Listing notice 3: Activity 12 & 14 National Water Act (Act 36 of 1998) - Section 21, i and c.

OPPORTUNITY TO PARTICIPATE

The public are invited to partake in the public participation process by registering as an Interested and Affected Party (I&AP), reviewing the draft report and submitting concerns or comments to the Environmental Assessment Practitioner.

To register as an I&AP, please email johan@newla.co.za. Deadline for I&AP registration is 25 September 2022.

Scoping & Environmental Impact Assessment (S&EIA) Processes: In terms of Sections 24 & 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a S&EIA process is required for each renewable energy facility and the grid connection infrastructure. Savannah Environmental is undertaking the required S&EIA and public participation processes for these projects.

EIA Reports Available for Review & Comment: The EIA Reports for the Ummbila Emoyeni Wind Energy Facility and the Ummbila Emoyeni Solar Energy Facility are available for download, review, and comment on the Savannah Environmental website (see applicable link in table above). The 30-day review and comment period of the EIA Reports is from Friday, 26A ugust 2022 until Monday, 26 September 2022. The availability of the EIA Report for the Ummbila Emoyeni Electrical Grid Infrastructure, as well as the 30-day review and comment period will be communicated in due course.

To obtain further information & register on the project database, please submit your name, contact information & interest in the project to the contact person below.

Lettie Visser met die kruisiesteek-tafeldoek wat sy vir die Secunda VLU-tak se maandelikse kompetisie ingeskryf het.

VLU-vroue leer hoe om met resin te werk

SECUNDA - Vroue van die Secunda VLUtak het op Woensdag, 4 Mei geleer hoe om koffiebekerstaanders (coasters) uit sintetiese gom (resin) te maak.

Tammy Wieczorkiewicz van B Beautiful Creations het vir die vroue gewys hoe om die kleure van die sintetiese gom te meng en wenke gegee.

"Die vermenging van die gom is baie belangrik, 'n mens se mates moet 100% reg wees," het Wieczorkiewicz gesê.

"Die perfekte temperature om dit te meng is 20 grade Celcius en as dit reën kan 'n mens nie met resin werk nie."

Sy het die vroue aangeraai om altyd handskoene en maskers aan te trek wanneer hulle met resin werk.

"Dit is vir my terapeuties om te kyk hoe die kleure meng en om te sien hoe die eindproduk lyk, want resin doen hul eie

ding. "Gebruik kleure wat mekaar komplimenteer."

Wieczorkiewicz beplan om binnekort klasse aan te bied sodra daar genoeg vroue is wat belangstel.

Lettie Visser het 85% behaal vir haar kruisiesteek-tafeldoek wat sy vir die Secunda VLU-tak se maandelikse kompetisie ingeskryf het.

Dié tak vergader weer op Woensdag, 1 Junie om 09:30 in Die Ark-saal by die NG Kerk Goedehoop/Secunda-Oos-gemeente.

Belangstellendes is welkom om dié vergadering by te woon.

Tammy Wieczorkiewicz wys vir vroue van die Secunda VLU-tak hoe om met sintetiese gom (resin) te werk.

Savannah Environmental website: https://savannahsa.com/public-documents/energy-generation/ (Wind Farm and Solar PV Facility) and https://savannahsa.com/public-documents/grid-infrastructure/ (grid connection infrastructure)

Scoping & Environmental Impact Assessment (S&EIA) Processes: In terms of Sections 24 & 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 - R327, as amended, a S&EIA process is required for each renewable energy facility and the grid connection infrastructure. Savannah Environmental is undertaking the required S&EIA and public participation processes for these projects.

Scoping Reports Available for Review & Comment: The Scoping Reports for each project are available for download, review, & comment on the Savannah Environmental website (see applicable link in table above). The 30-day review & comment period of the Scoping Reports is from Thursday, 12 May 2022 until Monday, 13 June 2022. The final day to submit a comment is Monday, 13 June 2022

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to:
