LETTER OF AMENDMENT FOR THE VEDANTA IPP PROJECT CASE ID 2512

Dear Phillip Hine,

Digby Wells uploaded a Heritage Statement and Notification of Intent to Develop (NID) on 31 May 2013 for the Vedanta IPP Project. Subsequently, two amendments were made to the project:

- Addition of the farm Surrey 18 LQ as an alternative to Sussex 17 LQ; and
- Change of applicant details to Vedanta Zinc International (VZI).

We have therefore amended the case to reflect these changes by uploading new plans and a new kml file and by changing the client information on SAHRIS. These changes will not affect any recommendations made in the Heritage Statement, however to ensure consistency and accuracy of information we would like to draw your attention to this.

Please advise should there be any additional requirements that need to be met.

Regards,

Shahzaadee Karodia
Archaeology Consultant
