Subject: Draft scoping report: Proposed Banna Ba Pifhu Wind Energy Project Farms
Broadlands and Saragossa, Humansdorp

Dear Sandy

As with our comment with the other projects: The wind turbines should be erected at least 500 metres from the national road reserve boundary and 500 metres from any point of intersection. If this cannot be achieved then applications have to be submitted to SANRAL for consideration and approval. Please also note that no access to these wind farms will be granted from the national road.

Regards

Mrs Nanna Gouws
