

**Environmental Impact Assessment for the
proposed Banna Ba Pifhu Wind Energy Project
near Humansdorp, Eastern Cape:
Draft Environmental Impact Assessment Report**

APPENDIX F

**Comments and
Responses Trail**

1. Traffic related impacts

	Issue	Commentator	Date	Response
1.1	As with our comment with the other projects: The wind turbines should be erected at least 500 metres from the national road reserve boundary and 500 metres from any point of intersection. If this cannot be achieved then applications have to be submitted to SANRAL for consideration and approval. Please also note that no access to these wind farms will be granted from the national road.	Nanna Gouws, Statutory Control Officer Southern Region, SA National Roads Agency	16Aug11 email	The proposed Banna Ba Pifhu wind energy project will be located more than 500 m from the N2 National Road. Access from the national road will not be required.
