Meeting Minutes

Project Title: North Park Sewer Pipeline
Location: BP Garage Northdene
Date: 03 February 2017

Attendees:
Please see attached attendance register.

Agenda
1. Introductions
2. Presentation of information by Stephanie Denison of EnviroPro
3. Agreement regarding notification of the community
4. Discussion and Questions

Introduction to Project & Purpose of Meeting
We wish to thank the Ward Councillor for taking the time to meet to discuss this project. The purpose of this meeting was to introduce the proposal to the representative of the community so as to notify him and through him the community members, of the proposal.   The meeting also served to allow the consultants to meet the community representative and answer any comments or concerns he might have. These meeting minutes will be distributed to registered I and APs and authorities as part of the Basic Assessment Report.

Please note that the following is only a summary of the discussions held and comments have not been recorded exactly as stated while additional information may have been added to responses where this may not have been available at the time of the meeting. Therefore please review the below summary and confirm that your comments has been acceptably represented.

Comments

1. The Councilor is happy for the project to go ahead and supports the project. He did raise concerns regarding the project. The first concern was the capacity of the old Waste Water Treatment Works. Will the system be able to handle more sewage? The councilor used the example of the same situation in his old Ward in the Hillary area, where the sewer system was under pressure and could not handle the increase of the surrounding upgrades.

    This concern was noted. The consultant is to pass this information onto the engineers and get proof of capacity from eThekwini Water & Sanitation.

The meeting was closed.
