Lokisa Environmental Consulting CC-

**NOTICE OF ENVIRONMENTAL PROCESS FOR BASIC ASSESSMENT
FOR PROPOSED ERVEN 862, 863, 865 & 866 MAPLETON X 10
REF NR LOK2017/004**

Notice is given in terms of Government Notice R982 of the EIA Regulations (2014) that fall under the ambit of the National Environmental Management Act (Act 107 of 1998), as amended (NEMA), of the intent to submit a Basic Assessment application to the Gauteng Department of Agriculture and Rural Development (GDARD) for the proposed development triggering the following activity:

Activity listed under GN R983:

Activity 19 - The infilling or depositing of any material of more than 5 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 5 cubic metres from – (i) a watercourse.

Activity 27 – The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation.

A Water Use License Application in terms of the National Water Act, 1998 (Act No. 36 of 1998) will be applied for should it be required.

Project Name: Erven 862, 863, 865 and 866, Mapleton Extension 10 Township

Project Description: The project entails the development of the ±3.68ha site for “Residential 4” purposes as well as the required services thereto.

Project Locality: The site is located adjacent to and east of National Road N3, ±700m south of the N3/Leondale Offramp. Access is direct from Leondale Road to the north and Barry Marias Road/Nederveen Highway (R103) to the east and south thereof, via the internal street system in Mapleton Extension 10.

Date of Placement of Notice: 2 March 2017

Environmental Consultant: Lokisa Environmental Consulting CC has been appointed as the Environmental Consultants and Elaine Minnaar and Faith Makena can be contacted at P.O. Box 219, Groenkloof, 0027. **Tel:** 012 346 7655 **Cell:** 082 493 9616 **Fax:** 012 346 6074 **Email:** elaine@lokisa.co.za / faith@lokisa.co.za

In order to ensure that you are identified as Interested and/or Affected parties please submit in writing the following:

- Contact name
- Telephone Number & Postal Details, and
- Interest in the matter

to the contact person given above within 30 days of publication of this advertisement.

(3 March 2017 – 6 April 2017)

March 2017

BASIC ASSESSMENT PROCESS FOR PROPOSED ERVEN 862, 863, 865 & 866 MAPLETON X 10 BACKGROUND INFORMATION DOCUMENT

Ref Nr: LOK2017/004

1. Introduction

GIBB (Pty) Ltd appointed Lokisa Environmental Consulting CC on behalf of the Ekurhuleni Metropolitan Municipality to obtain authorization from the relevant Environmental Authority for the proposed development of a residential township with associated uses to be situated on Erven 862, 863, 865 & 866 Mapleton x 10.

The Basic Assessment (BA) procedure will apply to this application. The process is done in terms of Government Notice Regulations (GNR) No. 982 and 983 of the EIA Regulations of 2014. The EIA Regulations were promulgated in terms of the National Environmental Management Act ('NEMA', Act No. 107 of 1998, as amended).

2. Purpose of this document

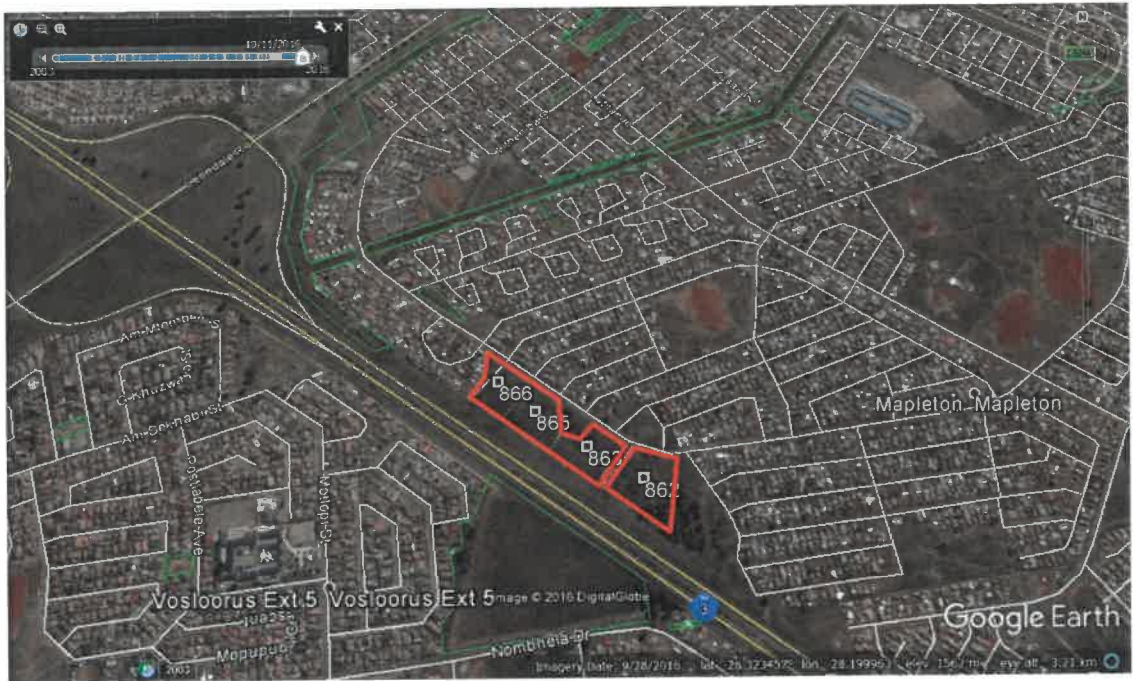

The purpose of this Background Information Document (BID) is to provide information to Interested and Affected Parties (I&AP's) about the Basic Assessment (BA) process that is being conducted for the establishment of the proposed Residential township.

I&APs are invited to engage in the BA process by submitting their viewpoint and constructive suggestions to the project team.

3. Locality

The site is located adjacent to and east of National Road N3, ±700m south of the N3/Leondale Offramp. Access is direct from Leondale Road to the north and Barry Marias Road/Nederveen Highway (R103) to the east and south thereof, via the internal street system in Mapleton Extension 10.

Figure 1: Locality Map

— The site

The area directly north and east of the site is developed for residential purposes. The N3 forms the southern boundary of the site.

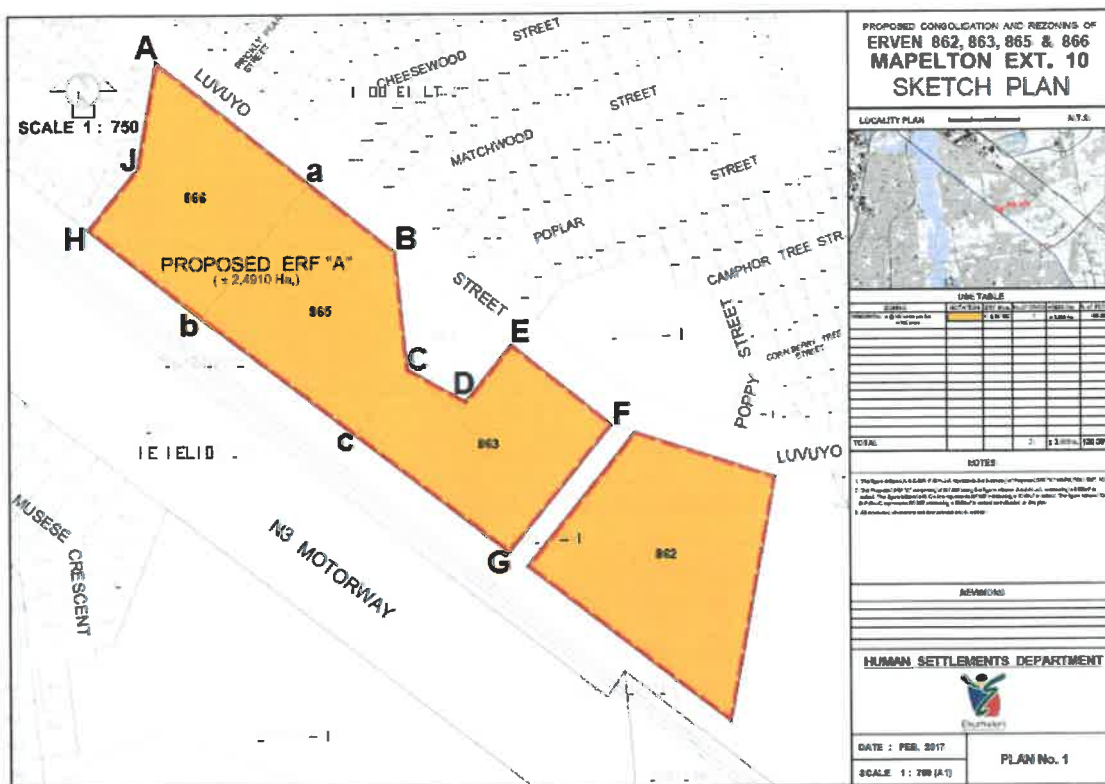

4. Project Description

The proposed development is to include the following uses.

- "Residential 4" at 150 units per ha

The entire project is to take place on an area measuring 3.688ha in extent. Refer to the attached layout plan.

Figure 2: Layout Plan

5. Basic Assessment Process

The NEMA activity which is triggered by the proposed development requires an application for an Environmental Authorisation, in the form of a Basic Assessment process, and a Basic Assessment Report (BAR) will be submitted to GDARD. The listed activity linked to these interventions is as follows:

Activity listed under GN R983:

Activity 19 - The infilling or depositing of any material of more than 5 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 5 cubic metres from – (i) a watercourse.

Activity 27 – The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation.

A Water Use License Application in terms of the National Water Act, 1998 (Act No. 36 of 1998) will be applied for should it be required.

6. Process to be followed

Pre-application:

- A pre-application consultation between the consultant and the applicant was held to determine the extent of the application.

Public Participation Process will include the following:

- The proposed development will be advertised in a local newspaper and on site;
- The adjacent landowners, tenants and resident's associations are to be informed directly, in writing, of the application for environmental authorization for the proposed development;
- Interested & affected parties and Stakeholders is to be given a 30 day period within which to lodge any objections;
- After the 30 day period has expired a report is to be written on how any objections and/or comments raised by interested and affected parties together with an indication as to how the objections will be addressed, if at all.

Basic Assessment Report:

- The report provides a description of the activity, description of property and location and a description of environment, legislation, need and desirability, significant impacts and management as well as mitigation.
- A description is given of the Public Participation Process.

7. Time schedule for the BAR Process

The following allowances have been made for time in terms of the BA process:

- Public Participation Process which includes providing Interested and Affected Parties (I&APs) 30 days to register.
- Compile draft Basic Assessment Report.
- Submit the draft Basic Assessment Report to I&APs and State Departments and provide 30 days for comment.
- Compile the Basic Assessment Report after receipt of comment.
- Submit Application form to GDARD.
- Submit Basic Assessment Report with comments received and inclusive of specialist reports to GDARD within 90 days of submission of Application form to GDARD.
- Within 107 days of receipt of Basic Assessment Report, GDARD to grant or refuse environmental authorisation.

8. Biophysical Environment

8.1 Geology and Soils

According to the 1:250 000 Geological Map, Sheet No 2628 East Rand, the site is underlain by chemical sediments of the Chuniespoort group of the Transvaal Supergroup. The sediments comprise dolomite and chert.

A desktop investigation into available Geotech data was conducted by Messrs Relly Milner and Shedden and their desktop geotech report shows the site may be suitable for residential development and that a comprehensive dolomite stability assessment needs to be undertaken on the site, in compliance with SANS 1936 (2012).

8.2 Vegetation and Landscape Features

The vegetation and landscape is described by Mucina and Rutherford (*The Vegetation of South Africa, Lesotho and Swaziland*, South African National Biodiversity Institute, Kirstenbosch, August 2006) as Soweto Highveld Grassland and Tsakane Clay Grassland. Soweto Highveld Grassland is a gently moderate undulating landscape on the Highveld plateau supporting short to medium high, dense tufted grassland dominated by *Themeda triandra* and accompanied by a variety of other grasses such as *Elionurus muticus*, *Eragrostis racemosa*, *Heteropogon contortus* and *Tristachya leucothrix*. The vegetation unit is considered endangered and only a few patches are conserved in statutory reserves and a few private nature reserves.

The landscape of the Tsakane Clay Grassland vegetation type consists of flat to slightly undulating plains and low hills. Vegetation is short, dense grassland dominated by a mixture of common Highveld grasses such as *Themeda triandra*, *Heteropogon contortus*, *Elionurus muticus* and a number of *Eragrostis* species.

The study area is highly disturbed and natural vegetation has been encroached by alien vegetation.

8.3 Regional Climate

The area is a summer-rainfall region with a mean annual precipitation of 662mm. Cool temperate climate with thermic continentality (high extremes between maximum summer and minimum winter temperatures, frequent occurrence of frost, large thermic diurnal differences especially in autumn and spring).

8.4 Hydrology

A small wetland is present on the western corner of the site.

9. Infrastructure and Services

The proposed development is to be supplied with the necessary infrastructure thereto.

10. Environmental Issues Identified

Environmental impacts will be identified and assessed in terms of their significance. Potential environmental impacts will be identified for the construction and operational period.

Potential construction impacts.

- Wetland on site;
- Containment of litter and rubble during construction;
- Containment of litter and rubble during removal from site;
- Traffic impact of construction vehicles;
- Job creation during construction period;
- Safety & Security;

Potential operational impacts.

- Colonisation of disturbed areas by alien invasive plant species;
- Compatibility of development with surrounding land uses;
- Job creation during the operational phase;
- Health and safety of residents.
- Noise from adjacent land uses.

Management guidelines will be developed for these issues and incorporated in an Environmental Management Programme.

Interested and Affected Parties are welcome to comment on this list and provide additional anticipated issues and possible impacts which should be addressed.

11. Role of the Interested & Affected Parties (I&AP's)

Registered I&AP's have the right to bring to the attention of the Environmental Authority any issues that they believe may be of significance to the consideration of the application.

The rights of the I& AP's are qualified by certain obligations, namely:

- I & AP's must ensure that their comments are submitted within the timeframes that have been approved or set by the competent authority, or within any extension of a timeframe agreed to by the applicant or Environmental Assessment Practitioner (EAP);
- A copy of comments submitted directly to the competent authority must be served on the applicant or EAP; and
- Any direct business, financial, personal or other interest that they might have in the approval or refusal of the application must be disclosed.

The roles of I&AP's in a Public Participation Process usually include one or more of the following:

- Assist in the identification and prioritization of issues that need to be investigated;
- Make suggestions on alternatives and means of preventing, minimizing and managing negative impacts and enhancing project benefits;

- Assist in/ or comment on the development of mutually acceptable criteria for the evaluation of decision options;
- Contribute information on public needs, values and expectations;
- Contribute local and traditional knowledge; and
- Verify that their issues have been considered.

In order to participate effectively, I&AP's should:

- Become involved in the process as early as possible;
- Register as I&AP's by responding to the relevant newspaper advertisements and/or BID;
- Provide your full contact details
- Advise the EAP of other I&AP's who should be consulted;
- Follow the process once it has been accepted;
- Read the material provided and actively seek to understand the issues involved;
- Provide timeous responses to correspondence;
- Be respectful and courteous towards other I&APS;
- Refrain from making subjective, unfounded or ill-informed statements, and
- Recognize that the process is confined to issues that are directly relevant to the application.

12. Name and contact details of the EAP

For Further information on this application, please contact: Elaine Minnaar and Faith Makena of Lokisa Environmental Consulting CC at P.O. Box 219, Groenkloof, 0027 Tel: 012 346 7655 Fax: 012 346 6074 Email: elaine@lokisa.co.za and faith@lokisa.co.za.

In order to ensure that you are identified as Interested and/or Affected Party and wish to receive future correspondence regarding the proposed development, please submit in writing the following:

- Contact name,
- Email address, Telephone and Fax Numbers & Postal Details,
- Your interest in the project, and
- Any comments you may have.
- To the contact people given above within the timeframe provided.

The Closing Date for registration as an Interested and/or Affected Party is 6 April 2017.
