

**NOTICE FOR BASIC ASSESSMENT PROCESS FOR THE PROPOSED MONTANA SPRUIT CHANNEL IMPROVEMENT
– PHASE 1
REF NR. TGM2019/001**

Notice is hereby given that the City of Tshwane, Roads and Stormwater Department intends to apply for Environmental Authorisation to the Gauteng Department of Agriculture and Rural Development (GDARD) for the proposed Montana Spruit Channel Improvement – Phase 1. This notice is issued in terms of Government Notices R983 and R985 of the EIA Regulations 2014 (as amended). These regulations fall under the ambit of the National Environmental Management Act (No 107 of 1998), as amended (NEMA). The listed activities linked to these interventions are as follows:

Activity listed under GN R983:

Activity 19 – The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse.

Activities listed under GN R985:

Activity 12 – The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan. c. Gauteng i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004; ii. Within Critical Biodiversity Areas or Ecological Support Areas identified in the Gauteng Conservation Plan or bioregional plans; or iii. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.

Activity 14 – The development of – (ii) infrastructure or structures with a physical footprint of 10 square metres or more; where such development occurs – (a) within a watercourse; (b) in front of a development setback; or (c) if no development setback has been adopted, within 32 metres of a watercourse, measured from the edge of a watercourse; c. Gauteng i. A protected area identified in terms of NEMPAA, excluding conservancies; ii. National Protected Area Expansion Strategy Focus Areas; iii. Gauteng Protected Area Expansion Priority Areas; iv. Sites identified as Critical Biodiversity Areas (CBAs) or Ecological Support Areas (ESAs) in the Gauteng Conservation Plan or in bioregional plans; v. Sites identified within threatened ecosystems listed in terms of the National Environmental Management Act: Biodiversity Act (Act No. 10 of 2004); vi. Sensitive areas identified in an environmental management framework adopted by the relevant environmental authority; vii. Sites or areas identified in terms of an international convention; viii. Sites managed as protected areas by provincial authorities, or declared as nature reserves in terms of the Nature Conservation Ordinance (Ordinance 12 of 1983) or the NEMPAA; ix. Sites designated as nature reserves in terms of municipal Spatial Development Frameworks; or x. Sites zoned for conservation use or public open space or equivalent zoning.

Activity 23 – The expansion of – (ii) infrastructure or structures where the physical footprint is expanded by 10 square metres or more; (a) within a watercourse; c. Gauteng i. A protected area identified in terms of NEMPAA, excluding conservancies; ii. National Protected Area Expansion Strategy Focus Areas; iii. Gauteng Protected Area Expansion Priority Areas; iv. Sites identified as Critical Biodiversity Areas (CBAs) or Ecological Support Areas (ESAs) in the Gauteng Conservation Plan or in bioregional plans; v. Sites identified within threatened ecosystems listed in terms of the National Environmental Management Act: Biodiversity Act (Act No. 10 of 2004); vi. Sensitive areas identified in an environmental management framework adopted by the relevant environmental authority; vii. Sites or areas identified in terms of an international convention; viii. Sites managed as protected areas by provincial authorities, or declared as nature reserves in terms of the Nature Conservation Ordinance (Ordinance 12 of 1983) or the NEMPAA; or ix. Sites designated as nature reserves in terms of municipal Spatial Development Frameworks; or x. Sites zoned for conservation use or public open space or equivalent zoning.

Project Name: Proposed Montana Spruit Channel Improvement – Phase 1

Project Description: The City of Tshwane intends to improve the Montana Spruit between an area 600m upstream of the Tsamma Road stream crossing and to about 600m downstream of the Tsamma Road crossing in order to reduce the impact of the 1:100-year flood on adjacent properties and houses. The shape of the spruit will be improved to accommodate more flow and to ensure that all the buildings and houses adjacent to the spruit are located outside the 1:100-year flood line. Tsamma street will also be upgraded and realigned to improve on the flood line position, culvert capacity and road layout. The culvert crossing at Tsamma street will be upgraded to accommodate the 1:2-year flow by means of a portal culvert crossing, flows from recurrence intervals greater than 1:2 years will overtop Tsamma street and flow on surface.

Project Locality: The project area for the Montana Spruit Channel Improvement – Phase 1 is located within the Doornpoort and Montana Park residential area, south of Pretoria, and is defined to include: the Montana Spruit Flood Management area; an area 600m upstream of the Tsamma road stream crossing and to about 600m downstream of the same crossing; and Tsamma Road between Breed Street and Cassia Street.

Date of Placement of Notice: 18 March 2019

For further information on this application, please contact: Ms. Delia de Lange of TGM Environmental Services CC at P.O. Box 219, Groenkloof, 0027. **Tel:** 012 346 7655 **Fax:** 012 346 6074 **Email:** delia@tgmenviro.co.za

In order to ensure that you are identified as an Interested and/or Affected Party and wish to receive future correspondence regarding the proposed development, please submit in writing the following:

- Contact name,
- Email address, Telephone and Fax Numbers & Postal Address,
- Your interest in the project, and
- Any comments you may have

to the contact person above within **30** days of publication of this advertisement.

The Closing Date for registration as an Interested and/or Affected Party is 18 April 2019.

March 2019

BASIC ASSESSMENT PROCESS FOR THE PROPOSED MONTANA SPRUIT CHANNEL IMPROVEMENT – PHASE 1

BACKGROUND INFORMATION DOCUMENT

REF NR. TGM2019/001

1. Introduction

Ditlou Nevhutalo Consortuim on behalf of City of Tshwane, Roads and Stormwater Department, appointed TGM Environmental Services to obtain environmental authorisation from the Gauteng Department of Agriculture and Rural Development (GDARD) for the above mentioned project.

The Basic Assessment (BA) procedure will apply to this application. The process is done in terms of Government Notice Regulations (GNR) No. 983 and 985 of the EIA Regulations of 2014 (as amended). The EIA Regulations were promulgated in terms of the National Environmental Management Act ('NEMA', Act No. 107 of 1998, as amended).

2. Purpose of this document

The purpose of this Background Information Document (BID) is to inform Interested and Affected Parties (I&APs) about the Proposed Montana Spruit Channel Improvement – Phase 1.

I&APs are invited to engage in the BA process by submitting their viewpoint and constructive suggestions to the project team.

3. Project Description

The City of Tshwane intends to improve the Montana Spruit between an area 600m upstream of the Tsamma Road stream crossing and to about 600m downstream of the Tsamma Road crossing in order to reduce the impact of the 1:100-year flood on adjacent properties and houses. The shape of the spruit will be improved to accommodate more flow and to ensure that all the buildings and houses adjacent to the spruit are located outside the 1:100-year flood line. Tsamma street will also be upgraded and realigned to improve on the flood line position, culvert capacity and road layout. The culvert crossing at Tsamma street will be upgraded to accommodate the 1:2-year flow by means of a portal culvert crossing, flows from recurrence intervals greater than 1:2 years will overtop Tsamma street and flow on surface.

4. Locality

The project area for the Montana Spruit Channel Improvement – Phase 1 is located within the Doornpoort and Montana Park residential area, south of Pretoria, and is defined to include: the Montana Spruit Flood Management area; an area 600m upstream of the Tsamma road stream crossing and to about 600m downstream of the same crossing; and Tsamma Road between Breed Street and Cassia Street.

Figure 1: Project location

5. Basic Assessment Process

The NEMA activities which are triggered by the proposed development require an application for a Basic Assessment Process. The listed activities linked to these interventions are as follows:

Activity listed under GN R983:

Activity 19 – The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse.

Activities listed under GN R985:

Activity 12 – The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan. c. Gauteng i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004; ii. Within Critical Biodiversity Areas or Ecological Support Areas identified in the Gauteng Conservation Plan or bioregional plans; or iii. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.

Activity 14 – The development of – (ii) infrastructure or structures with a physical footprint of 10 square metres or more; where such development occurs – (a) within a watercourse; (b) in front of a development setback; or (c) if no development setback has been adopted, within 32 metres of a watercourse, measured from the edge of a watercourse; c. Gauteng i. A protected area identified in terms of NEMPAA, excluding conservancies; ii. National Protected Area Expansion Strategy Focus Areas; iii. Gauteng Protected Area Expansion Priority Areas; iv. Sites identified as Critical Biodiversity Areas (CBAs) or Ecological Support Areas (ESAs) in the Gauteng Conservation Plan or in bioregional plans; v. Sites identified within threatened ecosystems listed in terms of the National Environmental Management Act: Biodiversity Act (Act No. 10 of 2004); vi. Sensitive areas identified in an environmental management framework adopted by the relevant environmental authority; vii. Sites or areas identified in terms of an international convention; viii. Sites managed as protected areas by provincial authorities, or declared as nature reserves in terms of the Nature Conservation Ordinance (Ordinance 12 of 1983) or the NEMPAA; ix. Sites designated as nature reserves in terms of municipal Spatial Development Frameworks; or x. Sites zoned for conservation use or public open space or equivalent zoning.

Activity 23 – The expansion of – (ii) infrastructure or structures where the physical footprint is expanded by 10 square metres or more; (a) within a watercourse; c. Gauteng i. A protected area identified in terms of NEMPAA, excluding conservancies; ii. National Protected Area Expansion Strategy Focus Areas; iii. Gauteng Protected Area Expansion Priority Areas; iv. Sites identified as Critical Biodiversity Areas (CBAs) or Ecological Support Areas (ESAs) in the Gauteng Conservation Plan or in bioregional plans; v. Sites identified within threatened ecosystems listed in terms of the National Environmental Management Act: Biodiversity Act (Act No. 10 of 2004); vi. Sensitive areas identified in an environmental management framework adopted by the relevant environmental authority; vii. Sites or areas identified in terms of an

international convention; viii. Sites managed as protected areas by provincial authorities, or declared as nature reserves in terms of the Nature Conservation Ordinance (Ordinance 12 of 1983) or the NEMPAA; or ix. Sites designated as nature reserves in terms of municipal Spatial Development Frameworks; or x. Sites zoned for conservation use or public open space or equivalent zoning.

6. Process to be followed

Pre-application:

- A pre-application consultation between the consultant and the client was held to determine the extent of the application.

Public Participation Process will include the following:

- The proposed development will be advertised in a local newspaper and on site;
- The adjacent landowners, tenants and resident's associations are to be informed directly, in writing, of the application for environmental authorisation for the proposed development;
- Interested and affected parties and Stakeholders is to be given a 30 day period within which to lodge any objections;
- After the 30 day period has expired a report is to be written on how any objections and/or comments raised by interested and affected parties together with an indication as to how the objections will be addressed, if at all.

Basic Assessment Report:

- The report provides a description of the activity, description of property and location and a description of environment, legislation, need and desirability, significant impacts and management as well as mitigation.
- A description is given of the Public Participation Process.

7. Time schedule for the BA Process

The following allowances have been made for time in terms of the BA process:

- Public Participation Process which includes providing Interested and Affected Parties (I&APs) **30** days to register.
- Compile draft Basic Assessment Report
- Submit the draft Basic Assessment Report to I&APs and State Departments and provide **30** days for comment.
- Compile final Basic Assessment Report after receipt of comments.

- Submit Application form to GDARD.
- Submit Basic Assessment Report with comments received and inclusive of specialist reports to GDARD within **90** days of submission of Application form to GDARD.
- Within **107** days of receipt of Basic Assessment Report, GDARD to grant or refuse environmental authorisation.

8. Role of the Interested & Affected Parties (I&AP's)

Registered I&AP's have the right to bring to the attention of the Environmental Authority any issues that they believe may be of significance to the consideration of the application.

The rights of the I& AP's are qualified by certain obligations, namely:

- I & AP's must ensure that their comments are submitted within the timeframes that have been approved or set by the competent authority, or within any extension of a timeframe agreed to by the applicant or Environmental Assessment Practitioner (EAP);
- A copy of comments submitted directly to the competent authority must be served on the applicant or EAP; and
- Any direct business, financial, personal or other interest that they might have in the approval or refusal of the application must be disclosed.

The roles of I&AP's in a Public Participation Process usually include one or more of the following:

- Assist in the identification of issues that need to be investigated;
- Make suggestions on alternatives and means of preventing, minimising and managing negative impacts and enhancing project benefits;
- Assist in/ or comment on the development of mutually acceptable criteria for the evaluation of decision options;
- Contribute information on public needs, values and expectations;
- Contribute local and traditional knowledge; and
- Verify that their issues have been considered.

In order to participate effectively, I&AP's should:

- Become involved in the process as early as possible;
- Register as I&AP's by responding to the relevant newspaper advertisements and/or BID;
- Provide your contact details.
- Advise the EAP of other I&AP's who should be consulted;

- Follow the process once it has been accepted;
- Read the material provided and actively seek to understand the issues involved;
- Provide timeous responses to correspondence;
- Be respectful and courteous towards other I&AP's;
- Refrain from making subjective, unfounded or ill-informed statements, and
- Recognise that the process is confined to issues that are directly relevant to the application.

9. Name and contact details of the EAP

For further information on this application, please contact: Ms Delia de Lange of TGM Environmental Services CC at P.O. Box 219, Groenkloof, 0027. **Tel:** 012 346 7655 **Fax:** 012 346 6074 **Email:** delia@tgmenviro.co.za

In order to ensure that you are identified as an Interested and/or Affected Party and wish to receive future correspondence regarding the proposed development, please submit in writing the following:

- Contact name,
- Email address, Telephone and Fax Numbers & Postal Address,
- Your interest in the project, and
- Any comments you may have

to the contact person above within **30** days of publication of this advertisement.

The Closing Date for registration as an Interested and/or Affected Party is 18 April 2019.
