Dear Sir/ Madam

INTEGRATED ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 of 1998) AS AMENDED (NEMA); NATIONAL ENVIRONMENTAL MANAGEMENT WASTE ACT, 2008 (ACT 59 OF 2008) AND THE ENVIRONMENTAL IMPACT ASSESSMENT (EIA) REGULATIONS, 2017: ACTIVITY RELATED TO PROSPECT PRODUCTION AND ASSOCIATED INFRASTRUCTURE FOR PROSPECTING RIGHT OF DIAMOND (GENERAL; ALLUVIAL AND KIMBERLITE) ON REMAINING EXTENT, PORTIONS 1, 2, AND PORTION 3 (BOORWATER) OF FARM BULTFONTEIN NO. 327, SITUATED IN THE MAGISTRIAL DISTRICT OF HAY, NORTHERN CAPE REGION.

With reference to the abovementioned application, please be advised that the Department has decided to **grant** an environmental authorisation in terms of Section 24 L of National Environmental Management Act (Act 107 of 1998). The environmental authorisation and reasons for the decision are attached herewith.

In terms of Regulation 4 (2) of the Environmental Impact Assessment Regulations of 2017, you are instructed to notify all registered interested and affected parties, in writing within 14 (Fourteen) calendar days, from the date of the Department's decision in respect of your application and the relevant provisions regarding the lodgement of appeal must be provided for in terms of the National Appeal Regulations of 2014.

Should you wish to appeal any aspect of the decision, you must submit the appeal to the Minister of Environmental Affairs and a copy of such appeal to the Department of Mineral Resources (Northern Cape Regional Office), within 20 days from the date of notification, and such appeal must be lodged as prescribed in by Chapter 2 of the National Appeal Regulations of 2014, by means of the methods as per prescribed below:

Appeal to the Department of Environmental Affairs

Attention : Directorate Appeals and Legal Review
Email : appealsdirector@environment.gov.za
By post : Private Bag X 447, **PRETORIA**, 0001
By hand : Environmental House, Corner Steve Biko and Soutpansberg Street,
Arcadia, **Pretoria, 0083**

Copy of the lodged appeal to the Department of Mineral Resources

Attention : Regional Manager: Northern Cape Region
By facsimile : (053) 8328 593
E-mail : Ntombi.Mayekiso@dmr.gov.za
By post : Private Bag X 6093, **Kimberley**, 8300
By hand : DMR Building, 41 Schmidtsdrift road, Telkom Building, **Kimberley**,
8301

Should you decide to appeal, you must comply with the National Appeal Regulation of 2014 in relation to notification of all registered interested and affected, and a copy of the official appeal form can be obtained from the Department of Environmental Affairs.

Kind Regards

ENVIRONMENTAL AUTHORISATION

Reference number: NC30/5/1/1/3/2/1/12990 EM
Last amended: First issue
Holder of authorisation: Morgenson Mining (Pty) Ltd
Location of activities: REMAINING EXTENT, PORTIONS 1, 2, AND PORTION 3
(BOORWATER) OF FARM BULTFONTEIN NO. 327, SITUATED
IN THE MAGISTRIAL DISTRICT OF HAY, NORTHERN CAPE
REGION.

DECISION

ACRONYMS

NEMA: The National Environmental Management Act, 1998 (Act 107 of 1998), as amended
DEPARTMENT: Department of Mineral Resources.
IEA: Integrated Environmental Authorisation.
EMPr: Environmental Management Programme
BAR: Basic Assessment Report
I&AP: Interested and Affected Parties
ECO: Environmental Control Officer
SAHRA: South African Heritage Resources Agency
EIA REGULATIONS: EIA Regulations, 2017
MPRDA: Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002), as amended
EIA: Environmental Impact Assessment.

The Department is satisfied, based on information availed to it and subject to compliance with the conditions of this environmental authorisation, that the applicant should be authorised to undertake **NEMA**, and **EIA** listed activities specified below. Details regarding the basis on which the Department reached this granting decision are set out in Annexure "I" of this integrated environmental authorisation.

ACTIVITY APPLIED FOR

By virtue of the powers conferred on it by NEMA the Department hereby grant an application for EA by **Morgenson Mining (Pty) Ltd** with the following contact details –

The Directors

Morgenson Mining (Pty) Ltd

P O Box 960

Schweizer-Reneke

2780

For attention: johan@tri-starmeat.co.za

E-mail:percy@milnex-sa.co.za

To undertake the following activities listed in the NEMA and EIA Regulation.

LIST OF ACTIVITIES AUTHORISED IN TERMS OF NEMA

Government Notice No. R. 327 of 07 April 2017 –

Listing Notice 1: Activity Number: 9

Description:

The development of infrastructure exceeding 1 000 metres in length for the bulk transportation of water or storm water— (i) with an internal diameter of 0,36 metres or more; or
(ii) with a peak throughput of 120 litres per second or more; excluding where—
(a) such infrastructure is for bulk transportation of water or storm water or storm water drainage inside a road reserve or railway line reserve; or
(b) where such development will occur within an urban area.

Government Notice No. R. 327 of 07 April 2017 –

Listing Notice 1: Activity Number: 10

Description:

The development and related operation of infrastructure exceeding 1 000 metres in length for the bulk transportation of sewage, effluent, process water, wastewater, return water, industrial discharge, or slimes –
(i) with an internal diameter of 0,36 metres or more; or
(ii) with a peak throughput of 120 litres per second or more; excluding where—
(a) such infrastructure is for the bulk transportation of sewage, effluent, process water, wastewater, return water, industrial discharge or slimes inside a road reserve or railway line reserve; or
(b) where such development will occur within an urban area.

Government Notice No. R. 327 of 07 April 2017 –

Listing Notice 1: Activity Number: 19

Description:

The infilling or depositing of any material of more than [5] 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles, or rock of more than [5] 10 cubic metres from [—(i)] a watercourse.

[(ii) the seashore; or

(iii) the littoral active zone, an estuary or 100 metres inland of the

high-water mark of the sea or estuary, whichever distance is the greater—]

but excluding where such infilling, depositing, dredging, excavation, removal or moving— will occur behind a development setback; is for maintenance purposes undertaken in accordance with a maintenance management plan; [or] falls within the ambit of activity 21 in this Notice, in which case that activity applies; occurs within existing ports or harbours that will not increase the development footprint of the port or harbour; or where such development is related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies.

Government Notice No. R.327 of 07 April 2017 –

Listing Notice 1: Activity Number: 20

Description:

Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including—

(a) associated infrastructure, structures and earthworks, directly related to prospecting of a mineral resource [,] ; or [including activities for which an exemption has been issued in terms of section 106 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002)]

(b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening, or washing; but excluding the secondary processing of a mineral resource, including the smelting, beneficiation, reduction, refining, calcining or gasification of the mineral resource in which case activity 6 in Listing Notice 2 applies.

Government Notice No. R.327 of 07 April 2017 –

Listing Notice 1: Activity Number: 27

Description:

The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for—

- (i) the undertaking of a linear activity; or
- (ii) maintenance purposes undertaken in accordance with a maintenance management plan.

Government Notice No. R. 325 of 07 April 2017 –

Listing Notice 2: Activity Number: 19

Description:

The removal and disposal of minerals contemplated in terms of section 20 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including associated infrastructure, structures, and earthworks, directly related to prospecting of a mineral resource, including activities for which an exemption has been issued in terms of section 106 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002).

Government Notice No. R. 324 of 07 April 2017 –

Listing Notice 3: Activity Number: 12

Description:

The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan

g. Northern Cape

- i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004;
- ii. Within critical biodiversity areas identified in bioregional plans;
- iii. Within the littoral active zone or 100 metres inland from high water mark of the sea or an estuary, whichever distance is the greater, excluding where such removal will occur behind the development setback line on erven in urban areas; or
- iv. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning.

NEMWA: Category A

Activity 15:

The establishment or reclamation of a residue stockpile or residue deposit resulting from activities which require a prospecting right mining permit, in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002).

PROPERTY DESCRIPTION AND LOCATION

A listed activity will take place remaining extent, portions 1, 2, and portion 3 (Boorwater) of farm Bultfontein no. 327, situated in the Magistral District of Hay, Northern Cape Region. The area of interest is situated approximately 34.7 kilometres west of Niekerkshoop.

Co-ordinates of the boundary of the property are those that are described in the final site layout map attached hereto hereinafter referred to as "the site".

E. CONDITIONS OF AUTHORISATION

1. SCOPE OF AUTHORISATION

- 1.1. The holder of the IEA shall be responsible for ensuring compliance with the conditions contained in the IEA. This includes any person acting on the holder's behalf, including but not limited to an agent, servant, contractor, subcontractor, employee, consultant, or any person rendering a service to the holder of IEA.
- 1.2. Any changes to, or deviation from the project description set out in this IEA must be approved in writing by this Department before such changes or deviation may be affected. In assessing whether to grant such approval or not, the Department may request such information as it deems necessary to evaluate the significance and impacts of such changes or deviation and it may be necessary for the holder of the IEA to apply for further authorisation in terms of the EIA Regulations.
- 1.3. The activities, which are authorised, may only be carried out at the property (ies) indicated in the IEA and or on the approved EMPr.
- 1.4 Where any of the holders of the IEA contact details change including the name of the responsible person, physical/postal address or telephonic details, the holder of the IEA

must notify the Department as soon as the new details become known to the holder of the IEA.

- 1.5 The IEA does not negate the responsibility of the holder to comply with any other statutory requirements that may be applicable to the undertaking of such activity (ies).
- 1.6. The holder of the IEA must ensure that all areas where the authorised activities occur have controlled access to ensure safety of people and animals.
- 1.7. The holder of the IEA must implement an Emergency Preparedness Plan and review it bi-annually when conducting audit and after each emergency and major incident. The holder must notify the competent authority in writing, within 24 hours thereof of the occurrence.
- 1.8. The holder of an authorisation as the case may be, must apply for an closure certificate upon the lapsing, abandonment or cancellation of the right in question, cessation of the mining, the relinquishment of the portion of the mining of the land to which a right. An application for a closure certificate must be made to the Regional Manager in whose region the land in question is situated within 180 days of the occurrence of the lapsing, abandonment, cancellation, cessation, and relinquishment.

2 APPEALS OF AUTHORISATION

- 2.1 The holder of IEA must in writing, within 14 (fourteen) calendar days of the date of this decision and in accordance with EIA Regulation 4(2)-
- 2.2 Notify all registered I&APs of –
 - 2.2.1 The outcome of the application.
 - 2.2.2. The date of the decision.
 - 2.2.3. The date of issue of the decision and.
 - 2.2.4 The reasons for the decision as included in Annexure 1 and this Annexure 2 (Departmental Standard Conditions).
- 2.3 Draw the attention of all registered I&APs to the fact that an appeal may be lodged against the decision in terms of the National Appeals Regulations,
- 2.4 Draw the attention of all registered I&APs to the way they may access the decision.

3 COMMENCEMENTS OF THE ACTIVITY (IES)

- 3.1 In order to ensure safety, all employees must be given the necessary personnel protective equipment (PPE).

- 3.2 This IEA must be provided to the site operator and the requirements thereof must be made fully known to him or her.
- 3.3 Hauling routes for construction vehicles and machinery must be clearly marked and appropriate signaling must be posted to that effect. Furthermore, movement of construction vehicles and machinery must be restricted to areas outside of the drainage line or wet areas.
- 3.4 Appropriate notification sign(s) must be erected at the construction site, warning the public (residents, visitors etc.) about the hazard around the construction site and presence of heavy vehicles and machinery.
- 3.5 Construction must include design measures that allow surface and subsurface movement of water along the drainage lines so as not to impede natural surface and subsurface water flow, and drainage measures must promote the dissipation of storm water runoff.
- 3.6 Vegetation clearance must be limited areas where the individual activities will occur, and mitigation measures must be implemented to reduce the risk of erosion and alien species invasion. Include all environmental awareness aspects into the site induction program to ensure all staff are aware of the location and importance of environment.
- 3.7 The holder of IEA must note that in terms of the National Forest Act, 1998 (Act No .84 of 1998) protected plant species, also listed in Northern Cape Nature Conservation (NCNCA) Act no. 9 of 2009 must not be cut, disturbed, damaged, destroyed and their products must not be possessed, collected, removed, transported, exported, donated, purchased or sold unless permission is granted by the Department of Agriculture, Forestry and Fisheries.
- 3.8 Construction areas (e.g., material lay down areas), topsoil and subsoil must be protected from contamination or pollution. Stockpiling must not take place in drainage lines or areas where it will impede surface water runoff.
- 3.9 If any soil contamination is noted at any phase of the proposed activity (ies), the contaminated soil must be removed to a licensed waste disposal facility and the site must be rehabilitated to the satisfaction of the Department and Department of Water and Sanitation. The opportunity for the onsite remediation and re-use of contaminated soil must be investigated prior to the disposal and this Department must be informed in this regard.

- 3.10 An integrated waste management approach must be implemented that is based on waste minimization and must incorporate avoidance, reduction, recycling, treat, reuse and disposal where appropriate. Uncontaminated rubble generated on the premises can be re-used as back filling material on site. Ensure that no refuse or rubble generated on the premises is placed, dumped or deposited on the adjacent properties or public places and open space.
- 3.11 In terms of sections 28 and 30 of NEMA, and sections 19 and 20 of the National Water Act, 1998 (Act No. 36 of 1998), any costs incurred to remedy environmental damage must be borne by the person responsible for the damage. It is therefore imperative that the holder of the IEA reads through and understand the legislative requirements pertaining to the operation. It is the applicant's responsibility to take reasonable measures which include informing and educating contractors and employees about environmental risks of their work and training them to operate in an environmentally acceptable manner. **No river division or wetland degradation is permitted on prospecting area; however, the buffer zone should be 100 meters from the river, wetland and permeant or non-permeant water bodies according to the National Water Act, 1998 (Act No. 36 of 1998). If interested in division or less than 100 meters buffer zone you should lodge application in Department of water and sanitation and amendment of EMPr.**
- 3.12 Construction vehicle must be serviced and maintained in the manner whereby no excessive smokes is released, noise production is reduced to acceptable levels, and to prevent oil leaks. Contaminated soil must be remediated on site or removed to an authorised landfill site.
- 3.14 Residents (if any) on the property (ies) and surrounding areas must be informed if any unusually noisy activities are planned.
- 3.15 Dust suppression measures must be implemented on all exposed surface to minimize and control airborne dust.
- 3.16 Mixing of cement, concrete, paints, solvent, sealants and adhesive must be done in specified areas on concrete aprons or on protected plastic linings to contain spillage or overflow onto soil to avoid contamination of underground water and environmental damage.
- 3.17 Should any heritage remains be exposed during operation or any actions on the site, these must immediately be reported to the South African Heritage Resource Agency (SAHRA) and or Northern Cape Heritage Resource Agency (NCHRA) (in accordance

with the applicable legislation). Heritage remains uncovered or disturbed during earthworks must not be further disturbed until the necessary approval has been obtained from the South African Heritage Resource Agency (SAHRA) and or Northern Cape Heritage Resource Agency (NCHRA).

Heritage remains include archaeological remains (including fossil bones and fossil shells); coins; middens, indigenous and/or colonial ceramics; any articles of value or antiquity; marine shell heaps; stone artifacts and bone remains; structures and other built features; rock art and rock engravings; shipwrecks; and graves or unmarked human burials. A qualified archaeologist must be contracted where necessary (at the expense of the applicant and in consultation with the relevant authority) to remove any human remains in accordance with the requirements of the relevant authority.

- 3.18 Since the Department did not receive the comment from SAHRA, is still your responsibility to ensure compliance regarding any comment that SAHRA can issue after the granting of this EA.
- 3.19 Care must be taken to ensure that the material and excavated soil required for backfilling are free of contamination from hydrocarbons.
- 3.20 Hydraulic fluids or chemicals required during construction must be stored in a concrete lined surface with bund walls and shall be designed in such a manner that any spillage can be contained and reclaimed without any impact on the surrounding environment. Should any spills occur, it should be cleaned immediately by removing spillage together with the polluted solids and dispose it in the authorised disposal site permitted of such waste. The regional office of the Department of Water and Sanitation must be notified within 24 hours of an incident that may pollute surface and underground water resources.
- 3.21 Chemical sanitation facilities or system such as toilets that do not rely on the seepage of liquids must be provided with a ratio of 1 for every 15 workers. These must be placed such that they prevent spills or leaks to the environment and must be maintained according to the operating instructions and the content thereof must be disposed of at an authorised wastewater treatment works.
- 3.22 The holder of IEA must ensure that any water uses listed in terms of section 21 of National Water Act, 1998 (Act 36 of 1998) must get authorization from Department of Water and Sanitation prior to the commencement of such activity (ies). The holder of the EA shall note that in terms of Section 19 (1) of the national Water Act, 1998 (Act No. 36 of 1998)."An owner of land , a person who occupies or uses the land on which

– (a) any activity or process is or was performed or undertaken; or (b) any other situation exists, which caused or is likely to cause pollution of a water source must take all reasonable measures to prevent any such pollution from occurring, continuing or recurring.”

Therefore, any pollution incident (s) associated with the proposed project shall be reported to the relevant Regional Office of the DMR and Department of Water and Sanitation within 24 hours.

- 3.23 This IEA does not purport to absolve the holder of IEA from its common law obligations towards the owner of the surface of land affected.
- 3.24 The holder of IEA must ensure that rehabilitation of the disturbed areas caused by operation(s) always comply with the approved EMPr.
- 3.25 This IEA may be amended or withdrawn at any stage for non-compliance and provides no relief from the provisions of any other relevant statutory or contractual obligations.
- 3.26 The holder of IEA must note that in terms section 43A of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), residue deposit and residue deposit must be deposited and managed in a prescribed manner on any site demarcated for that purpose in the approved EMPr. No person may temporary or permanently deposits residue stockpile or residue deposit on any area or site other than on site indicated on the approved EMPr.
- 3.27 The holder of IEA must note that in terms section 20 of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), no person may commence, undertake, or conduct a waste management activity, except in accordance, with the requirements of norms and standards determined in terms of section 19(3) for that activity or a waste management license is issued in respect of that activity if license is required.
- 3.28 An appeal under section 43(7) of the National Environmental Management Act NEMA), Act 107 of 1998 (as amended) suspend an IEA or exemption or any provisions of conditions attached hereto, or any directive unless the Minister directs otherwise.
- 3.29 Should you be notified by the Minister of a suspension of the authorisation pending appeal procedure, you may not commence/continue with the activity (ies) until such time that the Minister allows you to commence with such activity (ies) in writing.

- 3.30 The Department reserves the right to audit and/or inspect the activity (ies) without prior notification at any reasonable time and at such frequency as may be determined by the Regional Manager. Environmental Management Inspector or Environmental Management Resource Inspector within his or her mandate in terms of section 31D, may – question any person; issue a written notice inspect any document (books or record or any written or electronic information); copy or make extracts from any document (book or record or written or electrical information); take photographs or make audio- visual recordings; dig or bore into the soil or take samples and carry out any other prescribed duty not inconsistent with this Act and any other duty that may be prescribed in terms of a specific environmental management Act. Environmental Management Inspector or Environmental Management Resource Inspector without a warrant may enter and search any vehicle, vessel or aircraft or search any pack-animal or any other mechanism of transport, on reasonable suspicion.
- 3.31 The waste storage site must have a firm, impermeable, chemical resistant floors and a roof to prevent direct sunlight and rainwater from getting in contact with the waste.
- 3.32 The storage of hydrocarbons must have bund walls with adequate capacity to contain the maximum volume that is stored in the area. Uncontaminated storm water must be prevented from encountering the waste and must be diverted away from the storage site.
- 3.33 You shall not store any fuel either above or underground, with a combined capacity of 80 cubic metres or more without an authorisation in each of the above-mentioned sites. All fuels and lubricants that can be stored in the sites must be stored inside a bounded area.
- 3.34 Subject to the commencement and duration requirements of the MPRDA and NEMA for the listed mining activity is valid for the period for which the aforesaid right is issued provided that this activity must commence within 10 years. If the commencement of the proposed activity does not occur within the specified period, the IEA lapses and a new application for IEA in terms of the NEMA and the EIA Regulations should be made for the activity to be undertaken.
- 3.35 The commissioning and decommissioning of individual activity within the overall listed mining activity must take place within the phases and timeframes as set out in EMP or EMPr.
- 3.36 The listed activity (ies), including site preparation, must not commence within 20 (twenty) calendar days of the date of the notification of the decision being sent to the

registered I&APs. If an appeal is lodged with the appeal administrator, the effect of this environmental authorization is suspended until such time as the appeal is finalized.

- 3.37 Should there be any conflicting conditions between this IEA and other approval granted by other authorities, it is upon the holder of IEA to bring it to the attention of the Department for resolution.
- 3.38 If the IEA holder is not the surface owner must before commencement of the mining activities consult with the landowners for reasonable compensation of damages such as loss of grazing, stock theft, fire hazard that may be associated with the listed activity/ies.
- 3.39 The IEA holder is approved to removal and disposal of minerals contemplated in terms of section 20 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including associated infrastructure, structures, and earthworks, directly related to prospecting of a mineral resource, including activities for which an exemption has been issued in terms of section 106 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002).
- 3.40. Notwithstanding the provision of any other law, no person is civilly or criminally liable or may be dismissed, disciplined, prejudiced, or harassed on account of having refused to perform any work if the person is good faith and reasonable believed at the time of the refusal that the performance of the work would result in an imminent and serious threat to the environment.

4 MANAGEMENT OF ACTIVITY (IES)

- 4.1. A copy of the IEA and EMPr must be kept at the property or on-site office where the activity (ies) will be undertaken. The IEA and EMPr must be produced to any authorised officials of the Department who request to see it and must be made available for inspection by any employee or agent of the holder of the IEA who works or undertakes work at the property (ies). Access to the site must be granted to any authorised official representing a competent authority. The environmental authorisation and EMP must be available on site to the aforesaid authorised official on request at all times.
- 4.2. The content of the EMPr and its objectives must be made known to all contractors, subcontractors, agent, and any other people working on the site, and any updates or amendments to the EMPr must be submitted to the Department for approval.

- 4.4. Regular monitoring and maintenance of storm water drainage facilities must be always conducted, if damaged as directed by the Department or any other relevant authority.
- 4.5 A buffer zone of 100 meters between the activity (ies) and the residential areas, cemeteries or burial grounds must be clearly demarcated and maintained.
- 4.6 The holder of the IEA must prevent nuisance conditions or health hazards, or the potential creation of nuisance conditions or health hazards.
- 4.7 The holder of the IEA must ensure that all non-recyclable waste is disposed of at waste management facilities licensed to handle such wastes and all recyclable waste are collected by licensed waste management facilities for recycling, reuse, or treatment.
- 4.8 The holder of the IEA must ensure that all liquid wastes, whose emissions to water or land could cause pollution are diverted to sewer, after testing water quality and receiving written approval from the relevant local authority.
- 4.9 Prospecting vehicles must be serviced and maintained in a manner whereby excessive smoke and noise production is reduced to acceptable levels, and to prevent oil leaks. Drip trays must be placed under each stationary equipment or vehicles to avoid soil contamination which may lead to water pollution.
- 4.10 Non-compliance with any condition of this IEA or EMPr may result in the issuing of a directive in terms of section 28 and or a compliance notice in terms of section 31L of NEMA.
- 4.11 Should it be discovered or come to the attention of the Department that the IEA has been obtained through fraud, non-disclosure of information or misrepresentation of a material fact, the Department will suspend your IEA in terms of the provisions of regulation 38(1) of the EIA Regulations.
- 4.12 Only listed activities that are expressly specified in the section B that forms part of this IEA may be conducted. Additional or new activities not specified herein must be applied for by the holder of the IEA and authorised by the Department before such activities may be commenced with. This condition is also applicable in the case of the amendment, addition, substitution, correction, and removal or updating of any detail in the aforesaid EMPr.

- 4.13 Any changes to or deviations from the activity description set out above must be approved in writing by the competent authority before such changes or deviations may be affected. In assessing whether to grant such approval or not, the competent authority may request information as it deems necessary to evaluate the significance and impacts of such changes or deviation and it may be necessary for the IEA holder to apply for further authorization in terms of the regulations.
- 4.14 Rehabilitation of the disturbed surface caused by the operation always must comply with the conditions set in the approved EMP. The historical liability in the prospecting area form part of prospecting right.
- 4.15 The holder of the IEA must ensure that the names and contact details of the ECO is made available to the Regional Manager within 30 days of commencement. The holder of IEA must also ensure that an ECO is always available on site to ensure that activity (ies) always comply with the issued IEA and approved EMP.
- 4.16 The ECO must:
- 4.16.1. Keep and maintain a detailed incidents register (including any spillages of fuels, chemicals, or any other material.
 - 4.16.2. Keep a complaint register on site indicating the complaint and how the issues were addressed, what measures were taken and what the preventative measures were implemented to avoid re-occurrence of complaints.
 - 4.16.3. Keep records relating to monitoring and auditing on site and avail them for inspection to any relevant authorised officials.
 - 4.16.4. Keep copies of all environmental reports submitted to the Department.
 - 4.16.5. Keep the records of all permits, licences and authorisations required by the operation; and
 - 4.16.6. Compile a monthly monitoring report and make it available to the Department if requested.
- 4.17 The duties and responsibilities of the ECO should not be exempting the holder of the IEA from the legal obligations in terms of the NEMA and NEMWA.
- 4.18 The footprint of the activity (ies) must be limited on the areas authorised for the actual construction works and operational activities and all areas outside of the footprint must be regarded as a "no go" areas.
- 4.19 Erosion and soil loss must be prevented by minimizing the construction site exposed to surface water run-off. Where necessary erosion stabilizing action such as gabions or re-vegetation must be implemented to prevent further habitat deterioration.

- 4.20 The holder of the IEA must ensure that all personnel who work with hazardous waste are trained to deal with these potential hazardous situations to minimise the risk involved. Records of training and verification of competence must be kept by the holder IEA.
- 4.21 To prevent nuisance conditions, the holder of the IEA must ensure that all storage skips and bins are not overfilled.
- 4.22 The holder of the environmental authorization must annually assess the environmental liabilities of the operation by using the master rates in line with the applicable Consumer Price Index (CPI) at the time and address the shortfall on the financial provision submitted in terms of section 24P of NEMA.
- 4.23 The holder is responsible for ensuring compliance with the conditions IEA by any person acting on his/her behalf, including an agent, servant, contractor, sub-contractor, employee, consultant, or any person rendering a service to the holder of the IEA.
- 4.24 A person convicted of an offence of failure to comply with compliance notice is liable to a fine not exceeding five million rand or to imprisonment for a period not exceeding 10 years or to be both such fine and such imprisonment.
- 4.25 The applicable requirements with respect to relevant legislation pertaining to occupational health and safety must be adhered to.
- 4.26 Should the holder of the Authorisation ever cease, he/she must take required actions as prescribed by legislation at the time and comply with all the relevant legal requirements administered by any relevant and competent authority at that time.
- 4.27 If any soil contamination is noted during mining period of the proposed activities, the contaminated soil must be removed to a suitable waste disposal facility and the site must be rehabilitated to the satisfaction of the competent authority and Department of Water and Sanitation. The opportunity for the on-site remediation and re-use of contaminated soil must be investigated prior to disposal and this competent authority must be informed in this regard.
- 4.28 Notwithstanding the Companies Act, 2009 (Act No.71 of 2008) or the Close Corporations Act, 1984 (Act No.69 of 1984), the directors of a company or members of a close corporation are jointly and severally liable for any negative impact on the environment whether advertently or inadvertently caused by the company or close corporation which they represent including damage, degradation, or pollution.

G. DISCLAIMER

The Department of Mineral Resources in terms of the conditions of this environmental authorisation shall not be responsible for any damages or losses suffered by the holder, developer, or his/her successor in any instance where construction or operation after construction is temporarily or permanently stopped for reasons of non-compliance with the conditions as set out herein or any other subsequent document or legal action emanating from this decision.

Your interest in the future of our environment is appreciated.

Yours faithfully

Regional Manager: Mineral Regulation (Northern Cape)

DATE OF DECISION: 25/07/2022

FOR OFFICIAL USE ONLY:

EIA REFERENCE NUMBER:

NC 30/5/1/1/2/3/2 (12990PR)

REASONS FOR THE DECISION

In reaching its decision, the competent authority, inter alia, considered the following:

- a) The information contained in the Integrated Environmental Authorisation application form received by the competent authority on the 22th July 2021, Scoping Report was submitted on 04th October 2021 the Environment Impact Assessment Report (EIAR) and Environmental Management Program received by the competent authority on the 07th April 2022.
- b) Relevant information contained in the Departmental information base, including, the Department's circular on the One Environmental Management System dated 8 December 2014.
- c) The objectives and requirements of relevant legislation, policies and guidelines, including Section 2 of the National Environmental Management Act, 1998 (Act No. 107 of 1998) ("NEMA").
- d) The comments received from Interested and Affected Parties ("I&APs") and the responses provided thereon, as included in the EIAR dated 07th April 2022.
- e) This application was submitted in terms of the 2014 NEMA Environmental Impact Assessment Regulations ("EIA Regulations").
- f) The sense of balance of the negative and positive impacts and proposed mitigation measures.
- g) No site visits were conducted. The competent authority had sufficient information before it to make an informed decision without conducting a site visit; and
- h) The financial provision to the amount of **R263 550. 00** provided in the form of cash deposits on the **08th July 2022**, which is in line with mining activities for the rehabilitation and/ or management of negative environmental impact.

All information presented to the competent authority was considered in the consideration of the application for environmental authorisation. A summary of the issues which,

according to the competent authority, were the most significant reason for the decision is set out below.

1. Exemption

No Exemption from NEMA and its Regulation was granted to the applicant by the competent authority. No Public Participation Process ("PPP") in accordance with Regulation 4(3) in terms of the National Exemption Regulations and Regulation 41 in terms of the EIA Regulation 2014 was conducted by the Department of Mineral Resources; the applicant and the Environmental Assessment Practitioner did the PPP and the Department was satisfied with the documentation that was submitted as a proof of the whole process.

2. Public Participation

No deviations requested and accepted by the Department from certain requirements of Regulation 41 of Government Notice No. R. 326.

The PPP conducted as part of the EIAR process included:

- Notification to landowner and adjacent landowners.
- PPP Presentation slides
- PPP meeting
- fixing a notice board at the site and any alternative site where the listed activity/ies;

All the concerns raised by I&APs were responded to and adequately addressed during the PPP. Specific management and mitigation measures have been considered in this environmental authorisation and in the EMP/closure plan to adequately address the concerns raised.

The Department concurs with the Environmental Assessment Practitioner's responses to the issues raised during the PPP and has included appropriate conditions in this environmental authorisation.

3. Alternatives

The proposed mining area is selected as it contains good quality sand located in a convenient position near transport routes. The layout and technology of this sand

mining project has been determined by the shape, position, and orientation of the mineral resource.

No other alternatives regarding the preferred site, activities and technology is considered as the current planning is to be best possible option at this stage to ensure minimal environmental disturbance and cost-effective prospecting operation.

4. Impacts, assessment, and mitigation measures

All the negative impacts identified and assessed shall be mitigated in accordance with the Environmental Management plan mitigation measures.

5. NEMA Principles

The NEMA Principles (set out in Section 2 of NEMA, which apply to the actions of all Organs of State, serve as guidelines by reference to which any Organ of State must exercise any function when taking any decision, and which must guide the interpretation, administration and implementation of any other law concerned with the protection or management of the environment), inter alia, provides for:

- the effects of decisions on all aspects of the environment to be considered.
- the consideration, assessment, and evaluation of the social, economic and environmental impacts of activities (disadvantages and benefits), and for decisions to be appropriate in the light of such consideration and assessment.
- the co-ordination and harmonisation of policies, legislation and actions relating to the environment.
- the resolving of actual or potential conflicts of interest between Organs of State through conflict resolution procedures; and
- the selection of the best practicable environmental option.

6. Conclusion

In view of the above, the NEMA principles, compliance with the conditions stipulated in this environmental authorisation, and compliance with the EMP/closure plan, the competent authority is satisfied that the proposed listed activity/ies will not conflict with the general objectives of Integrated Environmental Management stipulated in Chapter 5 of NEMA and that any potentially detrimental environmental impacts resulting from the listed activity/ies can be mitigated to acceptable levels.
