Hi Jeanette

This email serves to confirm that we have done many 100's of restorations since 1996 of floors that have had coverings over them back to the original coverings.

The only thing that would prevent a full restoration, is if the tiler chiseled or chopped the floor to get adhesion for the tile adhesive and if the existing tiles are removed without care.

Should require any further information, please do not hesitate to contact me on 083 653 4678
