CORRECTED OFFTAKE 13C

9 APRIL 2015

The Off take 13c pipeline was surveyed in February 2015. Since then the line has been altered. Figure 1 shows the original line (pink) and the new line (yellow). I am satisfied that no new archaeological sites will be affected as most of the new line was surveyed during the original survey. The PIA comments and mitigation remains the same.

FIG. 1: OLD AND NEW PIPELINE ROUTE OPTION

Yours sincerely

A handwritten signature in black ink, appearing to read 'Gavin Anderson', written over a horizontal line.

Gavin Anderson
