DIFFICULTY RATING: ★★★★★

No 2008

This is the world's most addictive numbers game. The aim is to fill the grid so that every column, every row and every 3x3 box contains the digits 1 to 9. You need to reason out where to place the missing numbers by using the numbers given in the grid and a process of elimination. This is a game of logic not mathematical ability.

Yesterday's solution:

6	4	3	7	2	1	8	5	9
9	2	7	6	8	5	4	3	1
