Dear Mr Gibbon

PERMIT: No. 80/05/03/005/51

I attach as requested a permit to collect Earlier Stone Age tools from an area of gravels currently being mined by Sonop Delwery, near Windsorton, in the Northern Cape province. It is understood that in order to research the fluvial history of the Vaal and Orange River Catchments over the last 5 million years, deposits will be dated using cosmogenic dating. Note that the repository is listed as McGregor and all material should be curated there following completion of your project.

SAHRA wishes you every success with the project.

Sincerely

Mrs Mary Leslie
