Interim Comment

In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Jagersfontein Developments (Pty) Ltd

1 President Street
Jagersfontein
9974

Application for Environmental Authorisation for a prospecting right on the Remainder, Portion 1 and Portion 16 of the farm Jagersfontein 14, Fauresmith District, Free State

The application entails a prospecting right for diamonds by Jagersfontein Developments (Pty) Ltd on the Remainder, Portion 1 and Portion 16 of the Farm Jagersfontein 14 IS, Fauriesmith District, Xhariep District Municipality, Free State. Invasive activities include drilling and sampling, followed by bulk sampling. A Scoping Report, draft EIA and EMP, and Heritage Impact Assessment (HIA) were submitted with the application: Phillip, L. 2009. Phase I Impact Assessment of the Dormant Jagersfontein Mine (Free State) in terms of Archaeological and other Heritage Sites. In an interim comment dated 28 September 2018, SAHRA rejected the HIA and required a full, valid HIA inclusive of a desktop Palaeontological Impact Assessment to be conducted by suitable a professional heritage practitioner, respectively. A final EIA and EMP was submitted on 12 October 2018 without referring to the SAHRA comment and without providing the requested HIA and PIA, which is why SAHRA recommended in a final comment from 1/11/2018 to refuse the proposed activities. Subsequently, the applicant submitted a HIA and amended draft EIA and EMP to the application.

GAIGHER, S. 2019. PHASE 1 HERITAGE IMPACT ASSESSMENT REPORT – DESKTOP AND FIELD-BASED HERITAGE IMPACT ASSESSMENT FOR THE PROSPECTING RIGHTS APPLICATION FOR PORTION 1 AND 16 OF THE FARM JAGERSFONTEIN 14, GHARIEP DISTRICT, FREE STATE PROVINCE.

Area A (P2): No heritage resources were encountered.

Area B (P1): Site 1: historic stone-walled enclosed area: to be preserved.

Area C (P4): No heritage resources were encountered.

Area D (P3): Isolated non-diagnostic stone chips and possible cores. Excavations to be monitored.

Recommendations:

Several other sites of significance were identified within the larger prospecting rights application area and these should be mitigated as per the recommendations included.

Should the client decide to alter the size or location of any of the prospecting core areas (P1 – P4) the new areas should be subjected to a field based HIA before any work can commence.

A previous PIA of the area indicated that there is negligible possibility of finding any palaeontological deposits within the area (Rossouw, 2013).

Interim comment

The HIA refers to a PIA by Rossouw from 2013. Please link said PIA to this application on SAHRIS for review.

The SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit will issue a comment on this application when the PIA was submitted.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Ragna Redelstorff
Heritage Officer
