Ellenzo Construction & Supplies CC submitted an application for a Mining Permit for clay over a certain area of Portion 1 of the Farm Losklip 793 situated in the District of Bethlehem, Free State. A draft BAR and EMP was submitted with the application.

Interim comment

The SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit requests a Heritage Impact Assessment to be conducted by a qualified specialist. It must include a field-based Palaeontological Impact Assessment (PIA) conducted by a qualified palaeontologist as the area is of very high paleontological sensitivity.

The SAHRA APM Unit will further comment on the application upon submission of the HIA and PIA.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
