## Letter

### In terms of Section 35(4) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Juan Marcos Jannello  
University of Cape Town

**This research proposes to investigate the histology of the teeth of the giraffids, *Sivatherium hendeyi* and *Giraffa Jumae* from the Pliocene locality, Langebaan, to deduce information about various aspects of their life-history, such as age at maturity, growth rate, age at death and/or age at weaning. I have attached a more detailed research proposal. Cape Town, Western Cape.**

Dear Dr Marcos Janello,

Thank you for your permit application for destructive sampling of giraffid teeth from Langebaanweg. Please provide me with further information in order to process your application:

- A brief description of the methodology
- List of specimens with accessioning numbers
- Where the sampling will be done
- Photos indicating the area where the sampling will be done
- Name and details of all parties involved (applicant and PI)
- Revised letter from Iziko Museum with specimen list attached (as indicated in the letter)
- An ObjectID must be created for each specimen on SAHRIS; if more than 5 specimens will be used, a bulk ObjectID may be created.

Please include them in your original proposal or separate letter and upload it to your application on SAHRIS. Please don't hesitate to contact me should you need clarification on the above requirements.
