#### Proposed Powerline in Injampela S1 area supplying Nongoma Local Municipality at Rem/9 of reserve no.12 15832-HU

The application for comment/decision in terms of heritage legislation was considered by the Provincial Heritage Authority, the KwaZulu-Natal Amafa and Research Institute at the Heritage Officers Meeting held on 03 August 2022 and 14 September 2022.

A Distribution Environment Screening Document and a Basic Assessment Report had been submitted and identified no archeological material that would be impacted during the construction.

Based on the information provided it is recommended that no paleontological site visit is required unless fossils are revealed once excavations for foundations and amenities have commenced. The KwaZulu-Natal Amafa and Research Institute therefore has no objection to the proposed development within limits of the stipulated conditions and mitigation measures.

#### STANDARD CONDITIONS

1. The KwaZulu-Natal Amafa and Research Institute should be contacted if any heritage objects are identified during earth-moving activities and all development should cease until further notice.
2. No structures older than sixty years or parts thereof are allowed to be demolished, altered, or extended without a permit from the KwaZulu-Natal Amafa and Research Institute.
3. Under no circumstances may any heritage material be destroyed, inundated, collected, or removed from the site unless under the direction of the KwaZulu-Natal and Amafa Research Institute and a heritage specialist.
4. Should any remains, that could potentially be human remains be found on-site, the South African Police Service (SAPS) should be contacted and the KwaZulu-Natal Amafa and Research Institute must be notified immediately. No SAPS official may disturb or exhume such remains, without the necessary

permission from the KwaZulu-Natal Amafa and Research Institute.

5. No activities are allowed within 50m of a site that contains rock art.

6. Sources of all-natural materials (including topsoil, sands, natural gravels, crushed stone, asphalt, etc.) must be obtained in a sustainable manner and in compliance with the heritage and environmental (NEMA) legislation.

7. The committee resolved not to object to the development within the limits of the general stipulated conditions and mitigation measures.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

**Terms & Conditions:**

1. This approval does not exonerate the applicant from obtaining local authority approval or any other necessary approval for proposed work.
2. If any heritage resources, including graves or human remains, are encountered they must be reported to the Institute immediately.
3. The Institute reserves the right to request additional information as required.
