Dear Prof Sealy

**PERMIT:** No. 80/05/11/010/51

I attach as requested permit to allow for the sampling of bone for analysis and export (dating) from the New Papiessfontein (Jeffery's Bay) skeleton. SAHRA understands that the sample will be exported to a laboratory in the USA as the turnaround time (for radiocarbon dating) for results would be much faster as the local laboratory currently has a nine month waiting period. The skeletal remains are to be studied as speedily as possible as the local Khoisan community wish the skeletal remains to be returned as soon as possible.

SAHRA wish you every success with the project.

Sincerely

Mrs Mary Leslie
