Additions and Alterations on Erf 1941 being at 69 St Andrews Drive, Durban North.

We acknowledge receipt of your application for a permit to carry out work on the above property on 25 January 2023. The KZN Amafa and Research Institute (The Institute) reviewed the application on the 1 February 2023.

Please be advised as follows: -

- (1) Section 37(1) of the KZN Amafa and Research Institute Act (5/2018) requires that prior approval be obtained for work on buildings that are, or can reasonably be expected to be, over 60 years of age.
- (2) The work that was carried out without approval was carried out at a time when the building was not over 60 years of age. Therefore, no permit was required from the heritage authority at the time the work was carried out.
- (3) The building is now over 60 years of age and the formal approval from the heritage authority is required to comply with the provisions of the heritage legislation.
- (4) The proposed work did not impact on the heritage value or conservation worthiness of the property which the Institute has graded as Grade IIIC.
- (5) Provided that the work has been carried out strictly in accordance with **drawing number 04 11 2022, drawn by M. Van Breemen, dated November 2022, received by The Institute on the 25 January 2023**, the Institute has no objection to the regularisation of the work that was carried out on

this property before it turned 60 years of age.

(6) **Prior written approval from The Institute is required for any deviation to the approved plans.**

Please note that the above property contains a structure(s) protected in terms of the KwaZulu-Natal Amafa and Research Institute Act (5 of 2018), and a permit must be obtained prior to any work being conducted on the property in the future. Failure to do so is a criminal offence punishable by a term of imprisonment or a fine, or both. The property may also be forfeited to the state or a moratorium may be placed on any development thereon.
