Dear Dr Berger

PERMIT: No. 80/05/06/009/51

I attach as requested a permit to allow for the collection of hominin mandibular fragment in the Pleistocene deposits at Sand River, in the Virginia area, in the Free State province. Our records still indicate an outstanding report for a permit (80/95/05/007/61) previously issued to you for work done in the Virginia/Welkom area following a reminder letter sent to you in 1998. The attached permit has therefore only been issued to allow for the rescue of the hominid and any further work at the site will not be permitted until as a detailed final report related to the previous permit has been submitted to SAHRA.

Should you have any queries please contact me as soon as possible. SAHRA wishes you every success with the project.

Sincerely

Mrs Mary Leslie
SAHRA: Manager of the Archaeology, Palaeontology and Meteorites Unit
For CHIEF EXECUTIVE OFFICER
