Dear Mr Kaplan

**PERMIT:** No.80/06/04/003/51

I attach as requested a permit for the collection of a partial human cranium, metatarsal and possible human scapula collected from fill material found during the process of development at precinct 11, Big Bay development. SAHRA understands that the workers on site had collected the partial cranium and the rest of the remains collected by you, as an immediate rescue operation, after sieving through the fill material.

SAHRA requests that future applications should have a proper motivation attached – either separately or as part of a covering letter explaining what is needed and why.

Please contact our office should you wish to discuss the matter.

Sincerely

Mrs Mary Leslie
