Interim Comment

In terms of Section 38 of the National Heritage Resources Act (Act 25 of 1999)

Attention: Mnr Pieter du Preez
Eskom Distribution- LOU
109 Snyman St
Eduan Park
Polokwane
Limpopo

Multi Project Services intends to construct the powerline for the above-mentioned project. The powerline will include 829m of MV line which will be connected to the existing pole number SZ821/36 in the area (refer to the Span plan sheets and the Pegging Coordinates for more information) traversing the farm Aden 414 MR, in the Alldays Local Municipality of the Limpopo Province.

Stegmann, L. 2016. Proposed New Eskom power line on the farm Leeuwfontein 750ks near Marble Hall, Limpopo.

Interim Comment

The following comments apply to the proposed Eskom Powerline project on Leeuwfontein farm:

- The description of the development as indicated in the Proposal Description does not seem to be correct as it describes a different project to the one discussed in the submitted Heritage Impact Assessment. (see case 9234)
- The development is inadequately described within the HIA.
- The development needs to be mapped on SAHRIS either through SAHRIS' integrated mapping system or by uploading a .kml file in the appropriate location within the case file.

SAHRA will only be able to provide further comment once above issues have been addressed.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
