University of the Witwatersrand
Private Bag 3
WITS 2050

I seek permission for a temporary export permit for AM4766, a specimen of the Early Jurassic dinosaur *Heterodontosaurus tucki*. This specimen will undergo CT scanning using X-ray radiation at the European Synchrotron Radiation Facility in Grenoble, France, from July 19-27, 2016. The specimen will not be harmed in any way by the scanning process, and indeed this form of scanning has been commonly done on South African fossils.

Dear Dr. Choiniere,

Thank you for your application to temporarily export an almost complete *Heterodontosaurus tucki* skeleton for synchrotron analysis at the ESRF in Grenoble, France. The object is accessioned by the Albany Museum, Grahamstown. SAHRA has reviewed the application and has decided to approve it.

We wish you every success with this project.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Ragna Redelstorff
